744D is a mother that just keeps getting better with age, and 25P is a prime example of exactly why! 25P has been a standout from day one and is easily the best heifer we've raised out of 744D to date. Legacy is stunning from the side, incredible in motion, and loaded with quality. Her markings will make you stop and look, but it's her overall build, presence, and quality that will keep you looking. This heifer came in green, but she has absolutely exploded on feed and continues to impress every day. There is tremendous potential here, and we believe the best is still ahead of her. Give this one the time and love she deserves, and she will reward you in a big way. Buy with confidence — this one is special!
