JENSEN RANCH HYFA LOT- FOUNDATION 1 CAMPAIGN

The Foundation 1 Campaign is a way for ranches, families and industry partners who believe strongly in helping future generations to give back. By joining the Foundation 1 movement, donors commit to giving back 1 percent of their sale proceeds to the Hereford Youth Foundation of America to benefit leadership, scholarship and educational experiences for Hereford youth. The Foundation 1 Campaign continues to grow and each year as more and more donors come together with a percentage of their sales and is making a huge impact as we work together to strengthen the pillars for National Junior Hereford Association members and the next generation of the cattle industry.

JENSEN RANCH FEMALE SALE

Welcome to the sixth edition of The Chosen Sale. If you're travelling from abroad or just live down the road, we welcome you to view this elite offering of Hereford females.

We are proud to say in this group you will find young Hereford females that have superb phenotype and valuable genomics which will lead this breed into the future.

Our cow families are the pride of our operation. They play an integral part in our herd and offering. Through extensive ET we are able to multiply elite matings and make them available for sale. We would love to keep them all. Raising cattle for a living is what our family does day in and day out.

Brady has taken a strong management role in the cattle operation and influencing sale offerings. We value his forward thinking and knowledge. Brady and Allie have three young girls, Kelly, Kirbe and Kya who all enjoy time at the ranch.

Our daughter Brooke and her husband Kalen and their boys Keaton and Briggs live close by. And Ben our youngest son is in law school. He and his fiancé, Michelle are planning a December wedding.

PS - If you are staying after the WHC we would love to show you our ranch and cow herd after sale week.

We are 3 ½ hours west in north central Kansas.

We feel fortunate to showcase our Hereford genetics while the World Hereford Conference is in conjunction with the American Hereford Association annual meetings. The Chosen Sale site is 45 minutes south of Kansas City making it convenient to be part of the Hereford Conference. Please contact Amy Cowan or Sheila Jensen if you need transportation to the sale site.

We would like to thank Sanders Ranch, Steve Sanders, Darrin and Connie Barbour and crew for providing us with a suburb sale site to showcase and merchandise our breed leading matrons.

We welcome your interest in our cowherd and genetics. Feel free to reach out anytime to visit about our offering. We value the relationships we've built with past customers and appreciate your continued support. We invite all Hereford enthusiasts and potential new customers to join us for an evening of fellowship and cattle at Sanders Ranch in Louisburg, Kansas. It promises to be a memorable gathering celebrating the strength and future of Hereford genetics.

- Jensen Family

67%	2%	4%	3%	85%	1%	11%	3%	3%	3%

- Arrowhead is a bull we are extremely excited about as he combines the parameters that the BEEF industry is demanding. He has the masculinity and muscle shape to add dimension of muscle to the entire carcass!

- When you combine his elite GE-EPD REA, top 1% combine with CW and CHB in the top 3% you have one unique individual that adds true value to the product.

- Arrowhead also ranks top 1% in breed for SC while recording top 3% also in MG, BMI, BII while showing top 2% in UDDR and Top 4% in TEAT. Following up with top 6% in SCF Arrowhead is here to stay.

- Arrowhead is sired by the Jensen Ranch and Moore Cattle Co. herdsire "Tomahawk" and his donor dam, C CJC Belle Aire Lass 8037, is the dam of Guardian 8037. We purchased a flush on Guardian's dam from GKB Cattle, Express and Colyer's in a past GKB Sale. It was an easy decision to flush her to Tomahawk as they both excel on paper and phenotype.

- His feet are impeccable and nearly all pigmented.

- He possesses true strength from end to end, explosive growth and is dark red in color all while being smooth polled. These attributes make Arrowhead a standout in the flush. He was raised by a Hereford recip female that we raised at the ranch.

- Arrowhead has five full brothers, that will be offered in our annual bull sale held the first Thursday in March every year, and two sisters with each one being very good and very similar in type.

SELLING ½ INTEREST WITH DETAILS AND POSSESSION ANNOUNCED CLOSER TO SALE DAY.

- A truly special female leads off the open heifer offering!
- In a mating that produced one of the most exciting heifer and bull calf crops we have ever raised, a standout female was identified early in 802N and her genomics came back as proof that she is as special as we originally thought.
- The marriage of Element x Cher K68 pairs together our freshest, most progressive genetics and the excitement for 802N's parents continues to grow as we watch 802N develop.
- Dark red, incredibly maternal in her design, yet the power to raise big time cattle in the future.
- Ranking in the top 4% for all Indices is no small feat, she is progressive and balanced in all columns of data!

- Hard to miss this dark red beauty! Her dynamic rib type and hip and hind leg structure will stop you in your tracks.
- 7 traits in the top 5% of the breed, supported by a great BW to YW spread and extra carcass, a progressively balanced genetic script.
- The pairing of Element and Cher K68 has proven to be an elite mating that reveals good Hereford cattle can excel in multiple facets of production.

- The Element x K68 flush has validated tremendous progress has been made in the breed to pair elite phenotype with breed leading EPD's and genomics.
- This classy, pretty fronted female is loaded with rib and a great build.
- Turn to her EPD's and you'll find she sits near the top of the breed in many relevant columns.

- Rancher is a mainstay AI sire in our program and our high selling bull from our 2023 sale. He now walks as a feature sire for Wiese and Sons in IA.
- 011N eerily resembles Rancher's mother, F31, who was shown at a high level and hit production running, generating herd bulls for reputable firms and national show quality heifers.
- 8 traits in the top 5% of the breed with a pedigree and phenotype to be utilized to move a program forward.

- All three Rancher x K68 females are featured on The Chosen Sale and 003N is the stoutest and boldest ribbed sister.
- This double digit CED female still holds over a 100 YW and extra REA! 7 traits currently rank in the top 5% of the breed.
- Her pedigree stacks in multiple generations of our best cows on both sides and we believe you'll agree when she hits production.

- This ultra clean fronted Horned heifer has been a standout all summer.
- Her ability to combine so much rib and power into a functional skeleton makes her the kind that should compete at a high level.
- Gemstone will go down as one of the best show heifer producers we have ever had, and this is her first big crop of heifers!

- A high caliber show heifer that will stop you in your tracks due to her combination of balance, structure and a maternal design.
- A standout among her flush mates for body depth and bone, plus she moves with superior flexibility on a great shaped foot.
- The flush between Marksmen and Gemstone has proven to win, as the Smith Family grabbed a division banner at 2025 Cattleman's Congress with a full sister.

- Incredibly well-balanced heifer with a tremendous hip and hind leg design.
- You'll really admire her front-end design and cleanliness of neck and chest.
- I've commented that 923N's dam, Gemstone, will become well known in the show community after this crop of calves because they are dynamite.

- Stout, sound, and pretty were comments on picture day and she hit us all really hard coming into the pen!
- At major shows, her loose, stout build will allow you to play ball against the toughest heifers in the country. Plus, you'll have a big-time donor cow when you are done exhibiting her.
- The Marksman x Gemstone mating hit it out of the park, while each heifer is their own flavor, they are all fantastic to study and will compete at a high level.

KJ TWJ 907E CHERRY 374L ET

2025 National Champion • Purchased by Adalynn Blankenship in Fall Born Sale

We think the pictures speak for themselves on our "FALL BORN PICK OF THE HERD". In fact, we could add another page of past fall Division winners bred by Jensen Bros. Our fall born heifer sale was so deep we were fortunate to have them bring home many banners at the JNHE and other fairs for their buyers. This is the opportunity to get the first look and selection of the falls at Jensen Bros. It has become a highlight each year as well as a crowd favorite with inquiries from some of the most respected operations in the Hereford Breed. Jensen Bros have been fortunate to capture many fall division Championships over the past decade at the JNHE. Thank you to Eric Smith Family, WI and Brumley Farms, NV for purchasing the fall pick in past sales. 2023 pick was shown by McKenna Smith and named Division Champion at the 2025 Cattleman's Congress, and they purchased the 2024 Pick heifer who is showing successfully for McKenna.

TAKE ADVANTAGE OF THE ELITE
OPPORTUNITY TO DIVE RIGHT INTO THE
HEART OF OUR FALL PROGRAM.

- This might be the broodiest designed, easiest fleshing, and most maternal 2-year-olds we have raised.
 - A big REA female with improved Teat and Udder scores!
 - We would be ecstatic if all our young cows embodied her tremendous type.

- Dustin Layton spent a day with us marking down his picks of the herd to feature in the Chosen Sale and identified this as the top 2-year-old spring pair.
- KJ has a strong admiration for this young female's type, her structure is near perfect, great pigment, freckling on the face, and has knocked it out of the park on her 1st calf.
- Tracing back to the famous Coco Crème donor, this paternal sister to KJ TWJ 907E Liberty 159H ET is a true standout.

- We sampled CRR Balance and have been very pleased and this female embodies what we hoped for in this stellar mating.
- Big goggle eyes on this big bodied, stout beast! She'll be a great addition!
- Huge spread from BW to YW with accelerated Maternal genetics.

- What a pedigree! This may be one of the last Coco Crème direct daughters to ever sell in The Chosen Sale. Plus, she is sired by the popular Genesis.
- Game-changing growth genetics that come in a phenotypically powerful, stout package. Donor cow potential is very high!
- Top 1% CHB female with tremendous coloration and eye pigment.

- 047N is the youngest heifer calf on the sale with a very bright future.
- She possesses an impressive EPD profile. Top end indexes with big time growth genetics.
- This female is very extended in her make up with a clean front and extra dimension.
