

Annual Sale

MARCH 2, 2026
1 PM CST
ATKINSON LIVESTOCK MARKET

We are pleased to invite you to our Annual Sale on Monday March, 2nd at the Atkinson Livestock Market where we will be offering an exceptional set of Hereford bulls and heifers. This offering reflects our commitment to producing superior genetics and phenotypes that meet the highest standards of the industry. The cattle business is thriving, and we are proud to be a part of it.

We're excited to show case a new sire group of bulls on this year's sale. In the spring of 2024 we purchased the high selling bull on Landgren's sale. Land Chief 2097 has been a huge addition. Chief is the #1 bull in the entire breed for WW and YW. There is not a single animal with a higher WW or YW epd in the breed! We own Chief in partnership with Upstream Ranch and Landgren Ranch.

We have built our program with a disciplined focus on producing seedstock that excels in growth, fertility, and long-term economic value. In today's cattle market, pounds drive profitability. An additional 80 pounds at weaning can add \$300+ per head, making performance-based genetics more important than ever.

Total pounds marketed matter. Weaning 100 calves at 550 pounds equals the same total pounds as weaning 75 calves at 750 pounds—highlighting the importance of superior growth, efficiency, and yield. Our cattle are designed to deliver the consistent performance and maternal strength required to maximize profitability in progressive cow herds.

Please feel free to contact us or visit us anytime to discuss Hereford cattle!

We look forward to seeing you soon!

KA-CHING.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Hereford bulls increase net profit by \$51 per cow per year.

That's \$20,000 in additional revenue for a typical 400-cow outfit, thanks to increased fertility and herd size.

Herefords are also the efficiency experts, proven to add value to calves in the feedyard — \$30 per head in profitability.

That's real money and real results.

COME HOME TO HEREFORD.
