BULL SALE

WELCOME!

the Hereford Heritage breeders

Fellow Cattlemen,

We would like to cordially invite you to join us for the 14th Annual Hereford Heritage Bull Sale. In this year's sale, we have 95 Hereford bulls and 19 Angus bulls for your appraisal. In addition to the powerful set of bulls, we once again have a set of young commercial females. There are 13 commercial Angus first-calf heifers, most with calves at their side, and three three-year-old black baldy spring-calving cows. The sale will once again be held at the Double Seven Ranch's sale facility on their ranch located north of Fort Cobb, OK. As a group, we would like to extend a sincere thank you to the Willits family for hosting the sale again this year, as it is very time consuming and demanding to prepare for the sale.

The Hereford Heritage breeders are continuously striving to provide you with the most cutting-edge genetics in the industry by using the top donors and AI sires in the Hereford business. As you study the catalog, you will see that they have once again brought you bulls that far exceed industry standards for multiple traits that will be offered for your appraisal. They continue to work diligently to supply you with all the information on the bulls as far as performance data, ultrasound data, genomically enhanced EPDs and homozygous polled testing to allow you to make the best buying decisions when selecting your next herd bulls. Additional data not included in the catalog will be available sale day.

The bulls will be available for viewing at the Double Seven Ranch sale facility beginning Saturday February 21. If you would like to look at any of the Hereford Heritage breeders' bulls before that day, do not hesitate to contact them directly. They will be more than happy to show you the bulls at their respective ranches at your convenience.

Lunch will be served at 11 a.m. sale day, compliments of Livestock Nutrition Center. We certainly appreciate LNC's service of providing lunch at our sales for the past 14 years. If you need any custom rations or feed for your operation, please reach out to Livestock Nutrition Center, as they do a fantastic job and are willing to create a custom ration to meet your operation's needs.

Thank you in advance for your interest in the Hereford Heritage Bull Sale. If you have any questions or would like more information, please feel free to contact our team or any of the Hereford Heritage breeders. We will be happy to answer any questions or assist you with your selections.

Safe travels,
Dustin Layton

ABSENTEE BIDDING

If you would like to place a bid on any lot but will not be able to be with us sale day, please feel free to contact the owners, the sale manager or any member of the sale staff. Internet bidding will be available at live-ag.com

Sale day contact:

Margo Paeltz (937) 515-1194

SALE TERMS AND CONDITIONS

Cash or good check will be required for purchases before leaving the premises. Each animal will be sold to the highest bidder, and the auctioneer will settle any disputes as to bids.

HEALTH

A licensed veterinarian will be on hand sale day, and all cattle will be accompanied with proper health certificates for immediate shipment.

GUARANTEE

All registered cattle sell under the recommended terms and conditions of their respective breed association—either the American Hereford Assn., www.hereford.org, or the American Angus Assn., www.angus.org. The bulls sell as guaranteed breeders and will become the responsibility of the purchaser as soon as sold.

TRUCKING

Trucking will be available for hire sale day. Bulls will be delivered at a minimal cost to the buyer. Visit with the owners or the sale manager for trucking arrangements.

LIVESTOCK INSURANCE

Livestock mortality insurance for your purchases will be available sale day at the clerk's desk.

EPDS

Expected progeny differences (EPDs) are statistical predictions, or estimates, of expected performance of future progeny; they are not guarantees of performance. The EPDs in this catalog were current as of 1/27/26. Up-to-date EPDs may be viewed online any time at www.hereford.org or www.angus.org.

ANNOUNCEMENTS

All announcements at the sale by the owners or the auctioneers will take precedence over printed material.

All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, nor any other individual connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

• Selling 2/3 interest and full possession.

• Homozygous Polled

• Leading off the 14th Annual Hereford Heritage Bull Sale is an exciting son of Bar JZ On Demand. 4130 is a bold centered, wide based individual that comes in a dark red, short marked and fully pigmented package. When you study his impeccable structure, powerful build and eye appeal combined with his superior numerical package, it is easy to see why he surfaced to the top.

• 4130 is the only bull in the AHA database when you run a minimum EPD search for his combination of CED, WW, CW and CHB.

• The donor dam of Lots 1-4, 4B Oksana 0252, was produced from a flush acquired on the dam of SHF Headstrong, SHF Oksana 001A D03. She was paired with our herd sire Loewen 4B Garfield B42 G24 ET, resulting in an outstanding female who is now a member of our donor program.

• 4130 is a calving ease prospect with curve-bending growth, maternal prowess and value-added carcass merit in a phenotypically pleasing design.

• Full brothers sell as Lots 2 and 3. Maternal brother sells as Lot 4.

• Ranks in the top 1% for CHB and CW; top 3% for REA; top 4% for M&G, and WW; top 5% for CED; top 6% for Marb and BII; top 8% for YW; top 9% for BMI; top 12% for BW; top 13% for Milk; top 17% for SC and CEM.

- Selling 2/3 interest and full possession.
- Homozygous Polled
- Chart topping growth in this On Demand son out of the Oksana 0252 donor who is made much like his full brother selling as Lot 1 and has all the favorable markings and pigmentation, but he may be a tick longer bodied with more depth of flank.
- 4132 offers the most growth of these three full brothers selling while maintaining excellent carcass traits.
- His numerical profile combined with his style and balance are intriguing. It will be interesting to see how different cattlemen rank these full brothers.
- Full brothers sell as Lots 1 and 3. Maternal brother sells as Lot 4.
- Ranks in the top 1% for CW, WW and YW; top 3% for CHB; top 6% for REA; top 8% for M&G; top 14% for Teat; top 15% for Marb.

- Selling 1/2 interest and 1/2 possession.
- Buyer has choice of either fall or spring possession.
- Homozygous Polled
- 4209 is the youngest of these ET full brothers selling as Lots 1-3. While his GE-EPD profile may not be quite as impressive, he is one that Cindy thinks enough of to retain half interest and half possession.
- 4209 is a big spread bull with strong maternal traits and excellent carcass merit in a dark red, short marked and fully pigmented package. He is a stout made, big footed individual with remarkable width and dimension, especially through his center portion. He also had the highest actual %IMF when scanned, and his individual performance is outstanding.
- Full brothers sell as Lots 1 and 2. Maternal brother sells as Lot 4.
- Ranks in the top 1% for CW; top 2% for WW; top 5% for Teat and CHB; top 9% for YW and M&G; top 10% for Udder and REA; top 17% for Marb.

• Selling 2/3 interest and full possession.

• Homozygous Polled

• Check out the +238 \$CHB that this Trademark son out of the Oksana 0252 donor possesses. 4227 is powerfully constructed with tremendous depth and width through his center portion. He is a loose structured, sound traveling mid-December bull with balance from the side, and he is marked and colored how everyone wants them with full pigmentation. Study his unique GE-EPD profile that excels at growth and value-added carcass to further add to his value as a herd bull.

• 4227 is the only bull in the AHA database with his combination of YW, CW, Marb and CHB and is one of only six total in the breed, including females.

• Maternal brothers sell as Lots 1-3.

• Ranks in the top 1% for CHB, Marb, CW, and YW; top 2% for WW; top 3% for REA; top 6% for BII; top 8% for M&G; top 11% for SC; top 14% for BMI.

Hereford breed average EPDs for 2024 and 2025 calves:

| GED | BW | WW | YW | SC | MILK | UDDR | TEAT | CW | REA | MARB | BMI\$ | BIIS | CHBS |
|------|------|-----|-----|------|------|------|------|-----|------|------|-------|------|------|

EPDs that are genomically enhanced are indicated by this symbol: All EPDs will be genomically enhanced before sale day.

In addition to EPDs, individual records for actual birth weight, adjusted 205-day weaning weight, adjusted 365-day yearling weight, adjusted yearling ribeye area and adjusted intramuscular fat scan data are included. Yearling data not available at print time will be provided on the sale day supplement.

• Here is an opportunity to own a direct son of the recently deceased "Super Cow 7098" that has eclipsed \$2.5 million in progeny sales and is the dam of many influential AI sires. This son of On Demand is powerful in his muscle shape and robust in his rib shape with a strong skeletal design and impeccable structure. Short marked with pigment, he has exceptional eye appeal and the look of a herd bull.

• 4452 combines calving ease with moderate birth and explosive growth plus maternal strength and value-added carcass merit that the industry demands.

• A full sister topped the heifer calves at \$170,000 in the Churchill Cattle Co. dispersal this past fall; she now resides at GKB Cattle in Texas. A full brother recently commanded \$225,000 in the Churchill Cattle Co. Bull Sale in January.

• Ranks in the top 1% for REA; top 2% for Udder; top 6% for WW; top 7% for CHB; top 9% for BII and Fat; top 11% for BMI and CW; top 14% for Teat; top 15% for M&G.

- Recommended for use on heifers.
- This maternal brother to Loewen Sandhill is sired by the \$73,000-valued RST Final Print 0016. A definite sale feature and herd bull candidate, Matador is a stout, smooth made individual that came light at birth and never looked back. He offers exceptional maternal strength, combining the two influential donors RST MS X651 Tested 8032 and Schu-Lar 44J Vivian 26D E158. He also possesses a big spread from birth to yearling and top-notch carcass merit.
- Individually, Matador M33 is an eye appealing, big bodied bull with extra shape and athleticism. If you value maternal strength with calving ease, growth and carcass, then this bull should be on your radar.
- Full brother sells as Lot 8.
- Ranks in the top 1% for Udder and Teat; top 3% for WW; top 5% for REA, BMI, and BII; top 8% for BW, YW, SC and SCF; top 12% for CW and M&G; top 14% for CHB.

BIRDWELL VANGUARD 5022 9337

Maternal brother to Lot 16

• **Selling 1/2 semen interest and full possession.**

- We start this impressive group of New Standard sons with Birdwell No Limit, who is backed by the 5022 donor, also the mother of the \$67,000-valued Vanguard and the Birdwell herd sire Dynamic. 4424 is conservative marked and fully pigmented in a structurally correct package. He is a big topped, square hiped, big middled bull who balances out nicely from the side and gives you that herd bull look. He offers tremendous and highly valuable carcass traits that rank in the upper echelon of the Hereford breed combined with strong maternal and excellent growth.
- The New Standard progeny have been well received and in high demand. In the NJW Herefords and Churchill World Class Dispersal sales, 45 head of combined bulls and females averaged over \$21,000 in the two events.
- Posted individual ratios of 100 for BW, 122 for WW, 108 for YW, 104 for REA, and 108 for IMF.
- Ranks in the top 1% for REA; top 2% for BII and Marb; top 3% for Udder, BMI and SC; top 4% for CHB; top 5% for Teat; top 7% for SCF; top 10% for WW; top 12% for M&G; top 18% for CEM.

HOW TO WATCH THE SALE & BID ONLINE

- go to **WWW.LIVE-AG.COM**
Click on the purebred tab, located at the top right of the screen. Select the auction of choice.
- **Log In / Create an Account**
Select 'log in or create an account to bid'. Log in with your email & password or click 'create an account'. Fill out the required fields to bid online. Agree to the terms of service and finish with the 'register' button.
An account is NOT necessary to watch an auction.
- **Register to Bid**
Once logged in, and a sale of choice has been selected, click 'register to bid'. Agree to terms and conditions and click the 'Register' button. Pending request will be approved, in a timely manner.

THE POWER OF GENOMICALLY ENHANCED EPDS

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. To the right is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

| AHA TRAIT | ACCURACY IMPROVEMENT | EFFECTIVE PROGENY NUMBER INCREASE* |
|------------------------------|----------------------|------------------------------------|
| CALVING EASE | 0.09 | 17 |
| BIRTH WEIGHT | 0.12 | 8 |
| WEANING WEIGHT | 0.14 | 12 |
| YEARLING WEIGHT | 0.16 | 9 |
| SCROTAL CIRCUMFERENCE | 0.17 | 6 |
| MATURE COW WEIGHT | 0.12 | 4 |
| UDDER SUSPENSION | 0.17 | 7 |
| TEAT SIZE | 0.17 | 7 |
| CARCASS WEIGHT | 0.11 | 3 |
| FAT | 0.08 | 2 |
| RIB-EYE AREA | 0.07 | 2 |
| MARBLING | 0.10 | 3 |

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

Each animal tested is recognized with the AHA GE-EPD logo.

- We lead off the Angus bull division with a powerful, big ribbed and masculine Home Town 5301S son that has impeccable structure and an impressive skeletal design.
- 4416 offers better than average calving ease and outstanding growth coupled with high end carcass merit, especially for highly marketable marbling and a big ribeye.
- Posted an individual scan ratio of 119 for REA.
- Ranks in the top 1% for PAP; top 5% for RE; top 10% for Milk; top 15% for Marb, \$W, \$B, HS and \$C; top 20% for WW, YW, and Doc.

Minimum Genetic Requirements

| | |
|---------------------------------|-------|
| Marbling EPD (Marb) | +0.65 |
| Dollar Grid Carcass Index (\$G) | +55.0 |

The Certified Angus Beef® Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the Certified Angus Beef® brand. Bulls must meet minimum genetic requirements of +.65 Marbling EPD and +55 \$Grid for non-parent Angus bulls to qualify for use of the Targeting the Brand™ logo. Sire-identified carcass data from more than 8,600 records in the American Angus Association database show these minimum thresholds for Marb and \$G achieve an average of 50% CAB acceptance. While a sire's genetic potential only accounts for a portion of marbling performance in a calf crop, these benchmarks provide commercial cattlemen a starting place to identify genetics that will go on to bring performance premiums on quality beef grids. **Of the 19 Angus bulls in the sale, 18 qualify for this program.**
