Welcome

DEAR FRIENDS & CATTLEMEN,

We're excited to welcome you back to Burns Farms for our Annual Female Event on May 9, 2026, here in Pikeville, Tennessee. This weekend has become something we truly look forward to each year—not just for the cattle, but for the people, the conversations, and the shared passion for moving the Hereford breed forward.

We'll kick things off the evening before on Friday, May 8, with a preview at the farm along with food, live music, and fellowship. It's always a relaxed time to study the offering, spend time together, and enjoy being around good cattle and good people.

At Burns Farms, our program has always been rooted in cow families that prove themselves over time. This year's offering is heavily influenced by the strength and consistency of donors like 157F, 42F, 5502—cows that continue to leave their mark through productive, functional, and high-quality progeny. Their influence shows up in the kind of females we all want more of: sound, maternal, and built to last.

In this year's offering, you'll find:

- Open and bred heifers from proven cow families, ready to go to work and make an impact
- Young cows with calves at side that represent immediate and long-term opportunity
- Females backed by strong maternal traits, structural integrity and real-world functionality

These are cattle we believe in, developed with longevity, productivity, and consistency in mind. We're grateful for the relationships this program has created over the years and for the continued support from fellow breeders across the country. Whether you've been with us from the beginning or are just getting to know Burns Farms, we appreciate your interest and your trust.

If you have any questions about the offering or would like to visit ahead of sale day, don't hesitate to reach out. We're always glad to talk cattle.

We look forward to seeing you at the farm for a great weekend!

Warm Regards,

David Burns

Dear Friends,

I have retired from surgery and have begun working full time at the farm. This is a great gift to me, as I was born with a love for cattle and agriculture. Born and raised here in Bledsoe County, I worked on the farm and showed cattle growing up. Everyone thought I would be a farmer—and so did I. I began my education in veterinary medicine, but that changed when I was invited to shadow a local mentor and friend who was a general practitioner and surgeon. Through that experience, I developed a passion for caring for people and a love for medicine and especially surgery.

When my wife, Gayanne, married me, her family thought I was a farmer because that was all I talked about! She has been by my side ever since, supporting my love for Hereford cattle, our farm and the culture of agriculture. Our son, David, developed his own passion for the Hereford breed at a young age, as we spent many weekends traveling to the farm together.

My "big dreams" as a young man never envisioned how far David would take this farm or the success he would achieve in this industry. I am incredibly proud of his dedication and perseverance in building this program into something truly special.

I live to work! Being here every day on the farm and working with our team is a gift. These sale days are hard for me, because I never want to say "goodbye" to our beloved cows. I hope they bless you as much as they have blessed us.

Thank you for being here and for supporting our love and passion for these cattle.

Very Truly Yours,

Phillip Burns, M.D.

GUARANTEE

Cattle sell under the recommended terms and conditions of the American Hereford Association, www.hereford.org.

HERD HEALTH

All cattle will be accompanied with proper health certificates for immediate shipment. All females that sell bred have been checked safe in calf by a licensed veterinarian. All females of breeding age will be sold as guaranteed breeders. If a female is diagnosed as a non-breeder, a written statement or phone call to Burns Farms must be made within six months of the sale date. At that time, a credit will be issued, purchase price minus salvage value, for a future purchase at a Burns Farms Bull or Female Sale.

ANNOUNCEMENTS

Announcements made sale day from the auction block supercede all printed material. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

EXPECTED PROGENY DIFFERENCES (EPDs)

EPDs are updated weekly by the American Hereford Association, so we cannot guarantee the EPDs listed in the catalog. The EPDs printed herein were current as of 4/14/26. All EPDs that are genomically enhanced are indicated by this symbol:

All persons who attend the sale do so at their own risk. Neither the owners nor anyone else associated with the sale assumes liability, legal or otherwise, for accidents or loss of property.

HOTEL ACCOMMODATIONS

Hampton Inn, Crossville, Tenn.(931) 707-7170
Holiday Inn Express, Crossville, Tenn.(931) 707-1035

AIR TRAVEL

The Chattanooga, Tenn., airport is 45 minutes from the farm.
The Nashville, Tenn., airport is two hours from the farm.

SALE TERMS AND CONDITIONS

Payment by cash or good check is expected during or immediately following the sale. Cattle will not be released until settlement has been made. The auctioneer will settle any disputes as to bids, and his decision will be final. Cattle will not be transferred until paid for in full. Each animal becomes the purchaser's risk as soon as it is sold.

View videos of the offering at liveauctions.tv

Sale Location: 1027 Alvin C. York Hwy., Pikeville, TN 37367

From Chattanooga:

Take 27 North toward Dunlap and Dayton. Follow left fork to 111 North (Dunlap, go 16.8 miles). At intersection of 11 North and 127 North, turn right onto 127 North (go approximately 18 miles). After the Bledsoe County High School, turn left onto Burton Street (at the funeral home and convenience store). Go one block to dead end and turn right. Go approximately 0.6 miles to the Burns Farms Sale Facility.

From I-40 in Crossville:

Take the TN 101/Peavine Road Exit, #322, toward Crossville 0.4 miles. Keep right at the fork to go on TN 101/Peavine Road 2.5 miles. TN 101/Peavine Road becomes TN 392/Miller Ave./Milo Lemert Pkwy. 2.5 miles. Turn left onto US 127/South Main Street/TN 28. Continue to follow US 127 /TN 28 2.5 miles. Turn slight right onto US 127 South/TN 28 South. Continue to follow US 127 South/TN 28 South for 28.1 miles. Turn right on Alvin C. York Hwy. 1 mile.

Homozygous Polled

It has become synonymous in the Burns Farms Annual Female Event that Lot 1 is a true specimen in terms of a herd bull prospect. Like the ones that held the "1" in their ear before him, Big Iron is just that. A Specimen.

When combining the king of the ring Marksman with Rita 157F, our goal was to create an outlier in terms of look and build while maintaining a real-world numerical profile, and the resulting offspring understood the assignment. 157F has firmly planted herself as one of the elite producers in the breed. In 2025, three progeny of 157F grossed over \$160,000.

Big Iron brings forth a new level to 157F. To be so bold in his rib cage and so long and high tying out of his shoulder while being as square and true on the ground as anything on the ranch is hard to deny. But combining the physical attributes that make Big Iron elite with the unmatched EPD profile for a Marksman son along with his Homozygous Polled status completely solidifies our belief that Big Iron will make many friends along the show road this fall and winter and will only increase in popularity with age.

Full sister sells as Lot 2. Maternal sisters sell as Lots 3, 4 and 25.

Ranks in the top 2% for CW and REA; top 10% for WW and YW.

» Terms to be announced sale day.

This one is special. 128N has captured the attention of many all spring. We've been blessed over the last few years to sell some elite show heifers that have found backdrops on some of the biggest stages, and this female demands a seat at the table.

A full sister to BIG IRON, and as with her brother, this was a result we hoped for in this flush. 128N is powerfully constructed on a big foot and bone and extremely free and agile in the way she pushes out of her hock on the move while still combining a big spread in her EPD profile from BW to YW. What makes 128N special to us is how long and skinny she is out of her front one-third while still maintaining one of the most robust rib cages we have seen in a female this age. Long story short, we look forward to watching this young female's show career unfold over the next two years. It is going to be a fun ride!

Full brother sells as Lot 1. Maternal sisters sell as Lots 3, 4 and 25.

Ranks in the top 1% for REA; top 2% for CW; top 3% for YW; top 4% for M&G; top 7% for Milk; top 8% for WW.

a·nom·a·ly *noun* something that deviates from what is standard, normal, or expected

Homozygous Polled

This female is just that. An anomaly. I have been thinking about this footnote for a long time...and how to accurately describe just how unique this female is.

Our Element calves have been phenomenal, and you will find that to be true, as we have several that headline the Fall ET Open division this year. The combination of Element and 157F couldn't have been any more complementary. Pigment, Power, and Presence. All of that can be found in this mating. 157F continually stamps her offspring with numerical prowess without sacrificing an ounce of eye appeal.

113N is one of the most intriguing Phenotype/Genotype heifers we have offered to the public. Make no mistake—this female can compete at a national level in the show ring. Her build, design, and structure all tell the same story. Where the anomaly factor comes in for us is that we can take all that phenotype AND have a numerical profile that reads 3.8 BW to 139 YW, with a 183 CHB index. I do not hesitate to say that this female will be making as much or more of an impact in production in three years as her matriarch mother does.

Full sister sells as Lot 4. Maternal sibs sell as Lots 1, 2 and 25.

Ranks in the top 1% for WW, YW, and CW; top 2% for SC; top 3% for REA and CHB.

Homozygous Polled

The younger sister to Lot 3, but don't hold that against her. This thing is stout made, attractive and built for the long haul. We love her color pattern—super dark red and heavy pigmented in both eyes. Where we think she excels is combining double-digit calving ease with explosive growth and carcass. As we have said before, these Element calves are phenomenal. And these 157F daughters are a commodity that are worth their weight in gold.

Full sister sells as Lot 3. Maternal sibs sell as Lots 1, 2 and 25.

Ranks in the top 1% for CW; top 2% for REA; top 4% for CHB; top 5% for YW; top 8% for WW.

42F is a maternal machine that was Burns Farms' pick of the 2018-born bred heifers at NJW Polled Herefords in Wyoming. She is elegantly made with style, balance and maternal excellence. She is the dam of the Windisch Farms herd sire BF Power 225K ET, who commanded \$72,500 for 1/2 possession and 1/3 interest. She had two daughters in the 2023 Female Event that commanded \$42,500 and \$15,000. 42F will add do ability and depth of body with a short-marked color pattern and pigment. Her four impressive daughters selling as Lots 7-10 in this Female Event will have many friends. Sixteen embryos have sold at auction for an average of \$2,712 each in Pikeville.

>> Selling the right to one IVF flush out of Ladysport 42F to the bull of the buyer's choice. Guarantee of six embryos with no cap. Buyer is responsible for semen and all costs associated with the flush and shipping.

This one has been a favorite since she hit the ground. We love her look, her three-dimensional shape and her overall design. To combine such a long, skinny neck into a big, burly package from the shoulders back has made us excited to get this one to some tan bark to see what she can do.

130N is the lead-off heifer of a trio of Element x 42F daughters that all combine so many neat things into an ultra-productive package. 42F needs no introduction, as she has been a mainstay donor dam of high sellers in many previous Female Events as well as the dam of BF Power 225K, who is working at Windisch Farms in Kansas and Crown L in Kentucky. Bid with confidence on one that is built for speed and will come roaring out of the gates when she gets to make her first trip to town.

Full sisters sell as Lots 8 and 9. Maternal sister sells as Lot 10. Ranks in the top 1% for YW and SC; top 3% for WW; top 8% for CHB.

Homozygous Polled

Here's one that you should have circled. 126N is the broody, easy feeding sister to Lots 7 and 9. I see this one being a cornerstone donor in a few years. She reminds me so much of her prolific donor dam, just in a more heavily pigmented package. We will be kicking ourselves for selling this one down the road. But we are offering our best on the auction block Saturday, May 9th!

Full sisters sell as Lots 7 and 9. Maternal sister sells as Lot 10.

Ranks in the top 1% for SC; top 3% for YW; top 4% for CHB; top 5% for CW; top 6% for Marb; top 10% for WW.

We love the future of this one! 131N is so elegantly constructed in her bone work and foot shape, her hock sets into her perfectly, and she has a shot more punch to her fore-rib while still tying high out of her blade. Another Element x 42F that is built to feed. This one has a big future next summer going into her Senior Yearling campaign. Don't be asleep at the wheel here.

Full sisters sell as Lots 7 and 8. Maternal sister sells as Lot 10.

Check out this horned Liberty daughter. I call her a freak on a leash! Long spined, soft jointed and giraffe necked. If you are into walking cattle around in a circle, put this one on your list to study. These 42F daughters only get better with age, and this one is no exception. Adjust your eyes...this is just a December baby, but she's built to run now. It's hard to combine this much length and extension into such a structurally correct, fault-free skeleton.

Maternal sisters sell as Lots 7, 8 and 9.

Ranks in the top 4% for Milk; top 9% for M&G.

We are suckers for a stout, burly one, and 103N is just that. When we ran Reddy Go to Makers Mark, we wanted to make one that was as elegant as Makers with Reddy Go mass and shape. 103N is just that. She sets down on a big foot and bone work while still maintaining that lady-like head and neck. This one will be really fun to drag to Madison this summer. The best part is that her future in the show ring is bright, but what she can make when she hits production will be exciting to behold.

A powerhouse donor in waiting is the best way to describe 104N. She is the first ET daughter to sell out of our 0118 Donor that we own with Luke Ashley. We purchased 0118 in the Inaugural GKB Female Sale. Our Generator calves have been nothing short of exceptional as a sire group, which made it easy for us when the opportunity came for us to purchase the walking rights on Generator last fall.

The combination of Generator and 0118 worked so well. We love the dark color pattern, broody cow look and symmetry that 104N possesses. Hold your hand up high when the boys crack the gate on this one.

Another excellent breeding piece here. 110N is a Generator out of 11J. 11J is what we around here call the heir apparent to her prolific mother, 5502. The first two ETs to sell out of 11J highlighted the 2025 Burns Farms and Friends Sale, commanding \$60,000 and \$55,000. 110N is a full sister to the popular 23M heifer that Carlee Musser campaigned last summer and fall, winning her class or division at shows like JNHE, Indiana State Fair, Kentucky State Fair and NAILE. We love the opportunities that await in this young horned female on the production side.

Maternal sister sells as Lot 14.

This is just fault free, good built livestock. We thoroughly enjoyed working this girl through the picture pen. She does no wrong. She's good hipped, big bellied and attractive with ample foot and bone density for her size. There's a whole lot of up side here. Check out the impressive growth and carcass she offers. A Houston out of 11J that can do both. 125N deserves to wear a halter and also will be a cornerstone donor for any progressive cattleman who hangs on long enough to hold their bidder number up in the end.

Maternal sister sells as Lot 13.

Ranks in the top 1% for REA; top 2% for WW, YW, SC and CW; top 4% for M&G; top 9% for CHB.

Special way to round out our Fall ET division here with this young December born. This is the first BF Power 225K ET daughter to grace the sale barn in Pikeville, and we are excited to see how she keeps developing. 300N's donor dam was Champion Horned Female in Fort Worth for Grady Creamer in 2022. Much like her sire and dam, 300N has that champion look and build. If you're in the market for a younger fall-born female with all the bells and whistles to compete wherever you take her, this is your stop.

» Sells open.

Join us May 8th and 9th in Pikeville!

Come early and join us Friday evening for a sale preview at the farm along with food, live music, and fellowship.

It's always a relaxed time to study the offering, spend time together, and enjoy being around good cattle and good people.

Lunch will be served Saturday, and our 16th Annual Female Event begins at 12 noon CDT.

It is common knowledge that we had no intention of offering this female at auction. But due to overwhelming interest and intrigue, here she is. The FULL SISTER to McCRAE, the 2026 Reserve National Champion Horned Hereford Bull in OKC, and 211M, the Supreme Champion British Female at San Antonio. McCrae and 211M were both highly sought after, commanding \$50,000 for half and \$85,000, respectively, in the 2025 Burns Farms Female Event. Many prolific matings have graced the runs here, but none have carried the prowess or the admiration of quality as the Marksman X 5502s.

We read this one as a player in the end this fall and winter. She's as square and true at the ground as any from this mating while being bold sprung and correct through her chest and back through her underline. Smooth in her neck/shoulder junction with a picture-perfect head and neck set. Opportunities to own a 5502 daughter like this don't come around every day, let alone one with this much hype surrounding her. This one was built to compete anywhere you choose to take her.

>> Breeding Information available sale day.

Homozygous Polled

This impressive On Demand daughter out of Rita 157F "Miss Spread" is a true sale feature. 122M is the only animal in the entire AHA database with her combination of CED and YW EPDs, not to mention the rest of her impressive numerical profile that scores 10 traits in the top 4% of the breed or better.

Individually, 122M is a powerfully designed young female that is built correct from the ground up in a short-marked, dark red and fully pigmented package with tremendous body shape and eye appeal.

Her donor dam, Rita 157F, certainly needs no introduction, as many great females out of her have walked through the auction ring in Pikeville. Most recently, 122M's maternal brother sired by Merit, BF Eminence, commanded \$52,500 for half interest and half possession this past fall in the Burns and Friends Sale and is now working in the GKB Cattle program in Texas.

Maternal sibs sell as Lots 1-4.

Ranks in the top 1% for WW, YW, CW, and REA; top 2% for BMI; top 3% for BII and CHB; top 4% for CED, M&G, and Milk; top 6% for SCF.

J042 is a stout made, robust and wide bodied female sired by Endure that just screams cow power. She is backed by the EXR Gemini 7233 donor, a powerful female that has offspring working in herds around the country.

J042 offers moderate birth with curve-bending growth and excels in highly marketable carcass traits that are in demand in today's beef industry. If you are searching for a power cow with excellent up side that is a potential donor, then look no further. This is an untapped well that could reap considerable rewards.

Ranks in the top 1% for CW and CHB; top 3% for YW; top 6% for WW; top 7% for REA; top 8% for Marb.

This coming three-year-old Inception daughter is well balanced from the side with tremendous style and depth of body and comes equipped with a nice udder. She is backed by an 88X daughter who is a maternal sister to the king of the ring Marksman.

If her first calf is any indication of her future production, then I'd say her next owner will be exceptionally proud when he gets her next calf.

» P.E. 12/25/25 to 4/1/26 to EXR GENERATOR 0333 ET.
