WELCOME TO OUR 58TH ANNUAL PRODUCTION SALE!

It is our pleasure to welcome you to our 58th annual sale. Your presence will be appreciated on Saturday, APRIL 6, 2026 to view the offering, enjoy lunch and meet with other good cattlemen. If you cannot attend, please view our web-site or participate on DV Auction online or make arrangements to be on the telephone or visit with any sale representative.

It has been and is a good cattle market. With our smaller than usual cow herd the markets should stay strong for years to come.

It has been another year of memorable events that have affected all of our lives and the ranching business. Mild winter and a good calving season. Summer with extra wind and the most humidity ever. Summer weather created a big fly problem that caused the cattle to bunch up all day long along with humidity above 80% and temps above 90 almost every day in August.

Weaning weights are a little up and down because of the weather circumstances. The cattle gained good after weaning up to the first of the year. Reasonable mid temps have allowed good gain up to catalog time. We want them grown out to turn out and not extra condition.

Past support of customers is most appreciated and we want to make your purchasing opportunity as easy as possible. Our highlight each year is to welcome new cattle producers and the opportunity to assist in their evaluation and buying needs

Many cattle are sold on a first impression. We like to produce cattle that will present a good profile, be fault free, pigmented, wide based, long down the spine, good muscle shape with strong performance and carcass numbers.

Just remember that the Hereford Breed excels in feed conversion, docility, longevity, and reproduction. Our white face is identifiable in all cross-breeding programs.

Your interest and support are greatly appreciated. Let us know what we can do to make your selection process easier.

The cattle are for viewing anytime and our cowherd will be close by. We look forward to seeing you on sale day or participating online, stop by for lunch and visit with other good cattlemen.

Top selling bull at Churchill's 2024 production sale. Has really done an outstanding job with consistency and good numbers. Horned bull that is bred a little different with some really big-time numbers. Massive in his hip and loin into a deep-wide, well-muscled quarter. With his huge top, he walks wide and moves freely. Perfect pigment and a great hair coat. Smooth made with elite eye appeal. His calves have an outstanding profile, marked perfect and exhibit an ideal look. *Co-owned with Churchill.*

Truly an "elite individual" and a feature in our 2024 sale. Big butt-end, tons of volume, genuine top side shape and a big scrotal. Massive hip and good side length. One full red eye and the other almost all red. Three of our best cows are behind him ... all three were the kids' show heifers. Dam was ND State Champion Heifer and has the start of a good production record. Offspring are exciting ... low BV, short gestation (all born before due date) and they give a productive look. Both bulls and heifer present an ideal look. *Co-owned with Churchill and Pete Loehr. Semen available.*

Some of the most accepted offspring in last year's sale. Massive in his make-up, real long-sided bull that is thick and strong topped. Full eye pigment. Curly haired and really has a masculine look. His wide back shows muscle shape and carries down to wide and deep quarter. Has good bone and is free moving. You have to appreciate his complete balance with a volume look. Offspring are exciting with excellent profile and good production records. *Co-owned with Churchill. Semen available.*

His calf crops have proven him to be a good breeding bull. Daughters are productive females. Well received by breeders of solid marked cows. Top growth, milk and carcass prospect with strong numbers for weaning, yearling and marbling. Shows excellent side view length, wide backed and deep and full quarter. Marked right, smooth fronted with his head up. Different pedigree, massive made and has pigment. Offspring grow, develop wide, long backs and exhibit a good looking profile. *Co-owned with Mmak. Limited semen available.*

619 has proven to be one of our great breeding bulls used on the Ranch! A son, 308, purchased by Hoffman and Buck, was Supreme Champion Hereford bull in Denver 2020. Offspring are deep, thick and wide with a soft-look rib cage; show good bone, extra muscle, correct with a lot of eye appeal. Production numbers are almost ideal with low BW and powerful growth. Carcass data is above average with plenty of milk. Used on heifers with great success. Daughters may be his best asset, ...ideal udders, efficient with good mothering ability. *Owned with Baumgarten. Semen available.*

His production numbers are super and daughters have truly established 697 as a breeding bull. His offspring have eye appeal, great numbers, calving ease and his daughters have good milk flow and udder structure. Fantastic set of EPDs for BW, growth and milk numbers with outstanding carcass and calving ease. Used flawlessly on heifers with ideal success. Moderate in his frame, correct made, ideal hair coat, goggle-eyed and presents a good first impression. His calf crops are outstanding for their numbers, eye appeal and structure.

Purchased from Mrnak. They called him an absolute beef bull. One of the stoutest, biggest boned bulls they have raised. A true rancher's kind of bull that is long, thick and wide with good pigment and is marked correct. Gives you a good EPD profile. Super large scrotal area.

THE IMPORTANCE OF THE HEREFORD COW

...disposition is the best, longevity is superb, mothering ability is outstanding!
She's adaptable for all areas and, most importantly, she is identifiable!

American Hereford Assn. EPDs as of December 8, 2025 • Average and Percentile Breakdown ...2024 & 2025 Born Calves

CONDENSED AMERICAN HEREFORD ASSN. EPD DEFINITIONS

CALVING EASE – DIRECT (CE) ...indicates the influence of the sire on calving ease in females calving at two years of age.

BIRTH WEIGHT (BW) ...indicator trait for calving ease measured in pounds.

WEANING WEIGHT (WW) ...estimate of pre-weaning growth measured in lbs.

YEARLING WEIGHT (YW) ...estimate of post-weaning growth measured in lbs.

MATERNAL MILK (MM) ...milking ability of a sire's daughters expressed in lbs. of calf weaned.

MATERNAL MILK & GROWTH (M&G) ...reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability.

MATERNAL CALVING EASE (MCE) ...predicts how easily a sire's daughters will calve at two years of age.

MATURE COW WEIGHT (MCW) ...MCW EPD was designed to either increase or decrease mature size of cows in the herd.

UDDER SUSPENSION (UDDR) ...represents an assessment of udder support.

TEAT SIZE (TEAT) ...the assessment of teat length and circumference

SCROTAL CIRCUMFERENCE (SC) ...best estimate of fertility for semen quantity and quality and indicates early puberty in sons and daughters.

SUSTAINED COW FERTILITY ...a prediction of a cow's ability to continue to calve from age three through age twelve, given she calved as a two-year-old.

DRY MATTER INTAKE ...predicts the daily consumption of pounds of feed.

CARCASS WEIGHT (CW) ...indicates pounds of hot carcass weight, if harvested at the same age constant endpoint.

RIB FAT (FAT) ...reflects differences in adjusted 365-day, 12th-rib fat thickness. Negative FAT EPDs are expected to produce leaner progeny.

RIBEYE AREA (REA) ...reflects differences in an adjusted 365-day ribeye area measurement based on carcass and ultrasound measurements.

MARBLING (MARB) ...reflects differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass and ultrasound measurements.

BALDY MATERNAL INDEX (BMI\$) ...a maternally focused index that is based on a production system that is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

BRAHMAN INFLUENCE INDEX (BI\$) ...a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows.

CERTIFIED HEREFORD BEEF INDEX (CHBS) ...a terminal sire index that is built on a production system where Hereford bulls are mated to mature Angus cows and progeny will be targeted for Certified Hereford Beef to allow for optimum end-product merit. This index has no emphasis on fertility.

FULL DEFINITIONS POSTED INSIDE STUBER RANCH SALE BARN

TERMS AND CONDITIONS

TERMS — Terms of the sale are cash. Every animal will be sold to the highest bidder with the auctioneer settling disputes as to bids. Announced changes in catalog information sale day take precedence over printed material in this catalog. All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Neither Stuber Ranch nor any person connected with this sale assumes any liability, legal or otherwise.

GUARANTEE — Every animal in this sale is, to the best of our knowledge, free from any disease or defect. Any known defect will be called at sale time. All animals are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and in compliance with North Dakota Health Regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted or credit given in a future sale on an animal for animal basis. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied.

DELIVERY — Delivery will be made in groups of five registered animals or on purchases of \$5000 or more to central points up to 300 miles. We will cooperate with buyers on delivery of all cattle regardless of number or distance. **NO DELIVERY provided on commercial cattle.**

ABSENTEE BIDS — Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting Roger or Duane Stuber, or any listed sale representative. DVAuction is also a bidding option. Sight-unseen purchases are at the buyer's approval upon receiving the animals.

HEALTH — Stuber herd health is excellent. North Dakota is Bovine Brucellosis-Free and accredited Bovine Tuberculosis-Free. Females are officially calfhood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. All cattle are on a complete preconditioning program.

PERFORMANCE — Cattle are on a complete performance evaluation program with records kept on about every thing that can be measured. We will provide any extra information you may need. We are recognized by the American Hereford Association as a **Gold Star Breeder.**

ULTRASOUND — Sale cattle will be ultrasounded and data provided on a supplement sheet and on our website. There is a strong correlation between ultrasound measurement of yearling breeding cattle and the actual carcass measurement of their progeny. We have years of ultrasound data and all sale cattle have carcass EPDs. If you desire, that information can be provided.

Catalog prepared by Lezlie Moore.

Wow! He just presents himself as a herd bull. Full pigment, good hair, huge hip and loin. Wide down his back and into his quarter, super soggy sided, walks wide, and moves free. Dam has been fantastic with a wean ratio of 107 on six calves and 105 at yearling on five head. *Will keep a semen interest.*

SHHH.

THERE'S A LOT OF VALUE IN A QUIET, GOOD-DISPOSITIONED COW.

No broken fences. No busted gates. No injured people. Herefords lead the way when it comes to the silent traits — and increase profitability by more than \$51 per cow per year at the same time.

COME HOME TO HEREFORD.

Fall Heifers

COMMERCIAL HEIFERS
50 HEREFORD • 30 FI BALDY

The commercial heifers selling are home raised from our commercial cow herd. These are a fancy set of broody females with milk, muscle and enough growth. They have been wintered on a growing ration with their future use in mind and will be in just the right condition. They should weigh in the 825 to 900 lb. range. All are Bangs vaccinated and have had their preconditioning procedures. *They will also have all breeding shots given to them by sale day. NO DELIVERY is provided on the commercial cattle, but we will be more than happy to work out arrangements with you.*
