Dear Hereford Friends.

It is with great pleasure that we welcome you to Perks Ranch for our **15th Annual Fall Celebration Sale—Perks Ranch & Friends!**

This year marks an exciting change for us at Perks Ranch. With the addition of the Best of the Midwest Sale in May, we are now fortunate to host two sales at the ranch each year. This allows us to spread our own offering between the two events and gives us the opportunity to invite more of our customers and friends to join us in the fall. What has traditionally been a sale with a few consignors has grown to include seven outstanding Hereford operations this year. These consignors are not only valued customers but also some of our closest friends, and we are excited to bring their very best cattle together for this year's Fall Celebration Sale.

We are extremely excited about this offering and truly believe there is something for everyone. You will find **show heifer prospects, replacement heifers, future donor prospects, bred cows, bred heifers, herd bull prospects, embryos, semen, and one show steer prospect.** Whether you are looking to add a new female to your show string, build the foundation of your herd, add genetics to your donor pen, or find the next herd sire to move your program forward, we feel this sale has plenty to offer.

As always, *the cattle speak for themselves.* We encourage you to study the catalog carefully, identify the lots that fit your program, and reach out directly to us or the consignors with any questions. We are proud of the cattle represented here and believe each consignor has brought a set that reflects the kind of genetics, quality and commitment that make the Hereford breed great. *#ThePerksRanchStandard*

Most of all, **we want to thank you—our Hereford friends and fellow breeders—**for your continued support of Perks Ranch and this sale. We look forward to welcoming you to the ranch, visiting with old friends, making new ones, and enjoying a great weekend together surrounded by great Hereford cattle.

We welcome visitors to Perks Ranch any time you are in the area and would enjoy the opportunity to show you our cattle. All consignors' cattle will be at the ranch and available for viewing around two weeks before the sale. If you are unable to attend the sale in person, live internet bidding will be available through LiveAuctions.tv. Be sure to check our website and follow our Facebook page for updates as the sale approaches. Videos of the sale offering will also be posted approximately 10 days prior to the sale.

We hope you will make plans to join us Friday, October 9th, to view the cattle and enjoy a CHB® brisket dinner with us, and then on Saturday, October 10th, for the sale at 1:00. We look forward to seeing you at Perks Ranch!

Sincerely,

Tom & Tammy Boatman

Good cattle - Good people - Good times

Perks Ranch reserves the right to one future flush on all 2026-born
Perks Ranch females at their expense and the buyer's convenience.

TERMS OF SALE

Cash or good check. All lots are to be paid for during or immediately after the sale and will not be released until after settlement has been made. The auctioneer will settle any disputes as to bids, and such decision will be final. Cattle will not be transferred until paid for in full. Each animal becomes the purchaser's risk as soon as sold.

GUARANTEE

All registered cattle sell under the Sale Terms and Conditions recommended by the American Hereford Association, online at hereford.org.

HEALTH

All cattle will sell with proper interstate health certificates for shipping.

TRUCKING

We will be happy to assist you with trucking arrangements.

ANNOUNCEMENTS

Announcements made sale day from the auction block will take precedence over statements printed in the sale catalog or other advertising.

EXPECTED PROGENY DIFFERENCES (EPDs)

EPDs are updated weekly by the American Hereford Association, so we cannot guarantee the EPDs listed in the catalog. The EPDs printed were current 8/31/26. Up-to-date EPDs may be viewed online at hereford.org. EPDs that are genomically enhanced are indicated by this symbol: 

PREGNANCY EXAMINATION INFORMATION

All cattle have been pregnancy examined by a competent veterinarian and are called safe to the AI or pasture dates as best can be determined by advanced palpation. With respect to AI dates, they are not unconditionally guaranteed, other than the fact that they are pregnant.

All persons who attend the sale do so at their own risk. Neither the owners nor the management assume liability, legal or otherwise, for accidents or loss of property.

Videos of the offering will be available to view online early October:

+2.6	+3.4	+50	+86	+12.4	+17	+42	+1.3	+1.3	+78	+13	+315	+136

1502 has made her mark at Perks Ranch time and time again, producing successful show heifers that go on to make exceptional cows, and “Lady Mae” may be one of her best yet. This one has the kind of presence that makes you stop and study her. She is neat and refined through her head and neck, bold and explosive through her rib cage, and square built from end to end. There is a tremendous amount of quality and balance here, but what really sets her apart is the practicality underneath it all.

If you asked us to paint a picture of what a modern maternal female with style, substance, and longevity should look like, “Lady Mae” would be the picture. She has the look to compete at the highest levels but enough power, capacity, and functionality to go right to work making the next generation when the banners come down. She is backed by a cow family that has repeatedly proven its ability to produce the kind we want to keep, and we believe “Lady Mae” is ready to carry that legacy forward.

When you’re looking for the female that can be a show heifer today, a great cow tomorrow, and a cornerstone of a cow family for years to come, this is the one to circle. A true Lot 1 kind of female.

Maternal sisters sell as Lots 13 and 14.

Perks Ranch retains 1/2 embryo interest.

- Sells open.

If you didn't plan to play on this one, then sit in the stands and let the big dawgs eat! Unique is the best way to describe her. Bar none, "River Belle" is one of the stoutest, broadest pinned, most powerful heifers we have ever offered. It is hard to find this degree of substance and "woof" while still maintaining the long, extended, eye-catching front end that everyone is chasing. She brings the power from behind, the shape through her center, and the pizzazz from shoulder forward to make her a serious contender. A true sale highlight and one we believe will make a lasting impact both in the show ring and in the pasture.

Full sisters sell as Lots 3 and 4.

Perks Ranch retains 1/2 embryo interest.

• Sells open.

SALE FEATURE SHOW HEIFER *and* DONOR PROSPECT

The chromosomes came into perfect alignment on this flush! Red River, one of the hottest bulls in the breed, complemented 0170, one of our most exciting donors, to create what we believe are the next great show heifers. Lots 2 and 3 have the look, power, and quality to hang banners in the show ring, but their value doesn't stop there. These are the kind that will go to work in the pasture long after their time under the lights, becoming productive cows and building a legacy of their own.

Runs like a Cadillac with a look that stings like a Bee! We love how "River Rose's" angle to her shoulder, knee, and hock gives her the freedom of movement and athleticism to go the distance. Yet, she uniquely still opens up through her skeleton with an explosive, maternal rib shape. She combines the kind of structural correctness and athleticism needed to compete with the power and substance that will make her a valuable brood cow. We are confident this one has what it takes to walk the donor pen after she has finished hanging banners in your show barn.

Full sisters sell as Lots 2 and 4.

Perks Ranch retains 1/2 embryo interest.

A real stouty up for grabs, folks! We are big fans of how much true shape, substance, and thickness this one brings to the table while still being fundamentally right from the ground up. She is powerful, bold in her design, and built with the kind of structural integrity that should allow her to stay productive for the long haul. A younger version of Lots 2 and 3, and there are plenty of sale toppers and banner hangers found on both sides of her pedigree, so the ability to produce the good ones is already written into the paper. You'd be silly not to pounce on her!

Full sisters sell as Lots 2 and 3.

"Hey Siri, find a Hereford heifer that is bad to the bone."

"Red Candy" was the result. The whole crew has concluded there's not much to change about this one. Sound, good bodied, dimensional, smooth made, and fun to look at. Her dam is what we think the ideal cow should look like—functional, productive and built to last. "Red Candy" has the tools to follow directly in her footsteps in being someone's big time producer.

Maternal sister sells as Lot 12. Maternal sib embryos sell as Lot 57.

- Sells open.

Real cowboys will want to saddle up on this one! "Timeless Belle" is a real breeding piece and the kind of female that gets a serious cowman's attention. When we saw Sandhill at the C&L dispersal, we knew we had to use him, and this daughter is exactly the kind of female we hoped he would sire. She is as practical built and functional as any female in the offering, with the right kind of structure, capacity, and balance to be a productive cow for the long haul. Good markings and heavy pigment are added bonuses, but the real value is in what she can produce. We see "Timeless Belle" as a future donor with the potential to become a big-time herd bull generator. Put the right bull with this kind of female, and the possibilities are exciting. A true breeding piece for the serious cattleman.

Offered with Rustic Oaks Farm.

- Sells open.

HORNED

Be careful driving the pasture this one is in—you might lose your focus. The moment I step inside her gate, my head turns in her direction. "Liberty T" has that kind of presence. She is so elevated and feminine up front, square in her hip design, and dead level in her top line. A full sib sold to Benedicts last year, and Faith had a successful summer in the show ring. No risk, only opportunity, as "Liberty T" is destined for the show ring—it's just a matter of if you're at the halter or not.

Offered with Benedict Herefords.

Mis Diverse is a proven, productive cow with a beautiful udder, excellent teat size, and a pedigree to back it up. Her dam is a 10-year-old cow that continues to produce, making longevity a valuable part of this female's genetic package. Every calf Mis Diverse has produced has either been retained in our herd or sold through our bull sale, including a Denver pen bull that went to SandRock in Wisconsin. Her EPD profile is very balanced, with Teat ranking in the Top 5% and Udder in the Top 3%. This is a hard one to let go and a cow that truly represents the Perks Ranch Standard.

Offered with Zac Pogue.

Distinct Lady gets us excited! You hear it a lot, but this is a sure-bet kind of cow prospect—you could bet the house on her. Her dark red color and goggle eyes set her apart, but it's her maternal look, bold design, and profound body shape that will make her profitable.

Sired by the popular Distinct, she is better than breed average in 16 traits, including Top 3% Udder and Top 2% Teat. Set your satchel down here—she's the money-making kind.

Offered with Zac Pogue.

3009 is a favorite around the ranch. Her dam is one of the all-time great cows to ever graze the grass here at Perks, and 3009 has carried that legacy forward. She is ideal in her size and body shape, making her an easy-keeping, low-maintenance kind of cow. Her Liberty heifer calf at side is all the proof you need to see what kind of producer she is. She is the kind of female we would consider flushing, and we hate to see her leave the ranch. Genetically, she ranks above breed average in 12 traits and all three \$ Indexes, including Top 4% Milk and Top 7% Marbling. A favorite cow, a proven producer, and one with the kind of maternal value that is hard to replace.

Maternal sister sells as Lot 5. Maternal sib embryos sell as Lot 57.

HORNED

Several visitors have already called "Liberty Jane" the best calf on the place this year, and we can see why. She definitely needs to see the show ring and has already been started on a halter. This horned Liberty daughter is tremendously deep bodied, ultra-feminine, and smooth through her shoulder, with the extra presence and style it takes to compete at the highest levels. But she won't be done when the show career is over. Her pedigree and the data behind it point to a future top-producing cow. She offers a big spread from BW to YW, Top 2% M&G, and Top 3% Milk. A genuine show prospect with the genetic power to become an equally impressive donor female down the road.

6011 is another daughter of On Demand that proves why we have so much confidence in him. Long, extended, and attractive through her front end, she carries that extra look and presence. Beyond her phenotype, the numbers back up the quality, ranking in the Top 2% WW, Top 6% YW, Top 8% REA, and Top 4% CHB. She combines growth, carcass merit, and the kind of eye appeal that will make her a standout in the pasture or the show ring. But the real value is in what she can become—a productive, profitable cow with the genetic power to raise the kind of calves that keep a program moving forward.

Offered with BB Cattle Company.

When we purchased 6054's sire, Ridge 195K, from NJW, Jan told us to keep all of his daughters. As those daughters have come into production, she has proven to be 100% correct. Just like her sire, 6054 is a low birth weight, calving-ease prospect, but the real excitement is in her maternal potential. You can bet on her teat size and udder quality being phenomenal. A young female with the kind of genetics and maternal value we believe will make her a standout cow for years to come.

4038 comes from one of the most exciting cow families at Perks Ranch. Her dam was Lot 1 in last spring's Best of the Midwest Sale, selling to Randy Johnson, and she is part of one of the best flushes ever conducted here at Perks. 4038 is one of the first Copper Candi daughters to sell in production, and she is already proving that the family's reputation is well deserved. She has a nice, tight udder and has poured it all into her fancy On Demand heifer calf at side. This young cow has the pedigree, phenotype, and production to make her a highlight on sale day and one that will land on a lot of short lists.

The He Delivers progeny continue to surface to the top, consistently bringing udder quality, excellent teat size, do-ability, and carcass merit. This daughter should follow that same proven pattern. She brings big-time growth numbers with Top 3% YW and Top 4% WW, while Milk ranks in the Top 9%. Add Top 6% REA and a CHB index of 181, ranking her in the Top 3%, and you have a female that combines performance, maternal value, and real carcass merit. This is the kind of genetic package that can make an impact in any program.

- Sells open.

One of the very first Haviland 3046 calves, 6061 is a prime example of why we are so excited about this young sire's future. She ranks above breed average in 16 of the 17 EPD traits and all three dollar indexes. Her Top 4% Marbling and Top 2% CHB rankings highlight the carcass merit Haviland can add, while the overall balance of her EPD profile gives her plenty of versatility. Getting in on the ground floor of a new herd sire is always exciting, and this heifer gives you a look at what we believe Haviland 3046 can do for a program. A young female with the genetics and potential to be a cornerstone of a future cow family.

Offered with Loyd Perks.

Liberty has clicked really well here, and 6022 is a bull we believe the progressive cattleman will appreciate. Dark red, freckle-faced, and well pigmented, he combines plenty of visual appeal with a powerful build and extra growth to flat out produce pounds. He ranks above breed average in 12 traits and all of the \$ Indexes, including Top 12% Milk, Top 9% WW and YW, and Top 5% M&G. A herd bull prospect that brings performance, maternal value, and the kind of presence we like to see in a bull.

Corbin Cowles told us Houie was one of the top sire groups he had viewed in his travels, and 208K is a top representative of what makes this sire group so impressive. Houie's dam, 5101, is one of the all-time great cows to ever work at Perks. A many-time champion as a cow-calf pair, including National Champion honors at Louisville, she has certainly left her mark. The bottom side of 208K's pedigree is just as special, combining Munson and Hometown. 208K is a big bodied, bold sprung cow with what we call an ideal udder—functional, well designed, and built to work. Her mating to Distinct should be an added asset, bringing together two pedigrees we have tremendous confidence in. Her first calf sold in last year's sale as a bred heifer to Zac Pogue. A proven young producer backed by one of the most accomplished cow families on the ranch.

Offered by 2TK Cattle Co.

- Bred AI 7/13/26 to H B Distinct.
- PE 7/16/26 to 8/27/26 to SRR Mr H028 Haviland 3046.
- Checked SAFE to AI, expected due date 4/22/27.

Folks, this herd bull prospect is young—only a May calf, but he is loaded with potential. Dark red and well pigmented, he catches your eye right away, but the real excitement is in what he can become. Sired by He Delivers and backed by a beautiful young mother, he has the pedigree and genetic foundation to make a difference. He ranks above breed average in 10 traits and all of the dollar indexes, including Top 6% Milk and Top 4% M&G. The cattle business is all about patience, and that is all this calf needs. Give him some time, and we believe the pieces are all here to develop into a herd bull worth owning.

Offered by 2TK Cattle Co.

We purchased this cow from our good friends in Texas, GKB, after being immediately impressed by her exceptional udder quality, hip design, and the angularity she carries through her front shoulder. Sired by the popular BR Hutton 4030 and backed by the Goldriel cow family on the bottom side, she brings a pedigree and phenotype that are hard to overlook.

1264 sells bred to our new herd sire, Haviland 3046, a bull we are very excited about. This mating is designed to bring calving ease and added marbling to the forefront while complementing the strengths this cow already possesses. A high-quality female with a mating we believe has tremendous potential.

- PE 7/16/26 to 8/27/26 to SRR Mr H028 Haviland 3046.

Since we purchased Milky Way in the fall of 2018, she has started her long lasting legacy at Lorenzen Farms. She was the youngest female we ever flushed here. And since that first flush, we haven't looked back. The list of what her progeny have done here and in other operations is too long to list.

When we were invited to this sale, we knew we needed to offer something special. What could be more special than to offer an IVF flush on arguably the best female that walked our pastures.

Perfect uddered, stout made, and sound structured with eye appeal to spare. She stamps her progeny—no matter the sire we throw at her, she works. And did I mention her embryos are sticky? We have had a 67% conception rate on her embryos we have implanted.

Flush history: 2 IVF flushes to average 40 embryos; 2 conventional flushes to average 19 embryos.

We are also offering our freshest genetics out of Milky Way. Her IVF flush this spring produced 60 grade 1 and 2 embryos, sired by CRR 1443 Caliber 403. When I saw Caliber in Coyote Ridge Ranch's Denver pen, I knew he was one we needed to run Milky Way to. Embryos sell as Lots 54 and 55.

• **Guaranteeing ten (10) transferable embryos with the buyer to receive all embryos up to 15. If more than 15 are produced, then buyer and seller with split everything over 15—50/50.**

IVF will be done with Trans Ova at Double Diamond Genetics in Chrisman, IL, in the spring of 2027 after Milky Way calves in early March.

If you like them stout and easy keeping, this is your kind! Bred for an early November calf by Bar JZ On Demand 619K, she will start returning your investment just 30 days after the sale. We like the look of the On Demand calves, and when you can combine that look with moderate birth weight and high growth, he has become a go-to choice for us on first-calf heifers.

Fancy Jae is out of a first-calf heifer that was successfully campaigned by the Stapleton brothers; she combines proven show ring genetics with practical cow power that pays in the pasture. Her granddam, "Fancy," was a JNHE Reserve Division and has produced four walking herd sires and five heifers successfully shown by juniors. We are big on cow families, and this one has been proven to perform in both the show ring and the pasture.

This Jolene x Chuma mating has so consistently produced high-quality heifers. Jo Mae is a full sib to last year's Lot 35 and a maternal sib to the high-selling bred Lot 34. On Demand is homozygous polled, fully pigmented and backed by a powerful cow family as well. We like the potential for this mating a lot! This March heifer is smooth made, big ribbed, and great fronted. We love the way she balances from end to end, and if her udder follows her dam's, it will be a beauty. Her dam, Jolene, is eight years old and still flushing really well and breeding back with no issues. Jo Mae is the kind of female we all love to own—problem-free, productive, fun to look at in the pasture, and built to do her job year after year.

Full sib embryos sell as Lot 56.

It hurts to let this one go, but we know that means you'll be satisfied with our offering. We are in love with this moderate, big volumed, and good patterned female that traces back to one of our favorite Perks Ranch purchases! We are excited to offer this mouth-watering female that represents the kind of stock we like at Lehman Farms.

Five-year-old proven cow that quickly became a staple in our herd after a fun show career for Kent. 1061 throws a stout, powerful calf every year. The pounds she'll add to her calf are worth more than ever before, but we think this one has extras in terms of her structure and design to make something special. She and her heifer calf selling were Reserve Cow/Calf Pair at the 2026 Illinois State Fair Open Show.

Top 25% Teat and Udder EPDs.

HOMOZYGOUS POLLED

Flashy, easy fleshing heifer calf with a stacked pedigree, tracing back to Notice Me, Blueprint and Copper Lady 5049. Some of the most popular and proven names in the breed clicked well. With the kids still showing, it is hard to let one like this go, but we are committed to offering our best. The chance is yours to own a thick ended, powerful individual.

Ranks above breed average in eight traits with a Top 5% ranking for Teat.

Halter broke.

Buyer's Choice
Lots 37 and 38

When the Boatmans approached us about the opportunity to consign in this sale, we knew that these two flush mate sisters *MUST* be included. A duo that can't be overlooked, as the doors are open to pick from two of the best females that have ever carried the BSC prefix. Their sire, Red River, needs no introduction, as his progeny dominated the scene at the 2026 JNHE. Their dam, campaigned by the Richardson family, had a successful show career and passed on her best parts to these two heifer calves. These two are balanced and attractive, stout yet smooth, sound as you can make them, and exhibit a great rib shape. They are special, plain and simple.

Full sib embryos sell as Lot 58.

Offered with Richardson Farms.

Adjust your eyes for this April horned female! Sired by Premier, the 2024 Cattleman's Congress Reserve Champion Polled Bull, this daughter has the pieces to compete at any level. She's balanced, good necked and stout while hitting the ground on a big foot and moving with confidence. The show ring is calling her name, but her value won't stop there. Both her dam and granddam rank among our very best producing cows, giving us plenty of confidence that when her show career is over, she'll develop into a beautiful and productive cow.

Offered with Oleson Family Farm.

Another Red River daughter with all the pieces to turn heads next summer. This January horned female combines extra length of body and bold rib shape with a smooth transition into a big, stout hip. Step in behind her, and she certainly doesn't disappoint, offering the added muscle and dimension we like to see. Equally impressive is the cow power behind her, as her dam has consistently produced some of the top females in our herd. With longevity anchored in her pedigree and this kind of phenotype, 603 has all the makings of an impressive show heifer that can ultimately become a front-pasture donor cow.

Lorenzen Farms owns the famous 33Z, a bull who has sired countless top-notch females, and his influence can be seen in 162. She is a great uddered, balanced and easy-doing cow that consistently produces the kind of females we want to keep around. Her best one yet may very well be the Endure calf she has coming in January.

Offered with Green Dorr Farms.

Look here—a direct daughter of Munson! The Perks crew jumped at the opportunity to purchase Munson out of the National Sale in 2018, and his influence on the breed has been undeniable ever since. His daughters are absolutely mouthwatering in production, and 32K is no exception. She's the kind of female loaded with maternal instinct, and her fancy February heifer calf at side is proof of what she can do. Direct Munson daughters with this kind of production are getting harder and harder to come by, so jump at the opportunity to add 32K to your operation.

A Thomas County daughter with class! Stellopflug Cattle Company's second annual "A New Frontier" Female Sale saw several high-quality Thomas County daughters make the sale report, and Golden Hour shows exactly why. With a stacked pedigree and a balanced set of EPDs, she has all the pieces to go on and make you money. Add in her extra length, elegance and eye appeal, and she's the kind that could step into the show ring before heading to the donor pen.

• Sells open.

Running the risk of sounding like a broken record on this subject, but we are gonna say it anyways—*These Timeline daughters are TOP notch!* Dark red, balanced and beautiful from the side, Perfect Timing already has that maternal cow look we strive for. Our replacement pen is going to hurt with this one gone, but we are committed to selling our best, and she certainly belongs in that group. We have no doubt Perfect Timing will go on to do nothing but good things for her new owner.

Offered with Green Dorr Farms.

• Sells open.

This fault-free female came to us after we purchased embryos from Perez Cattle Company, and we couldn't be more excited about how she has developed. Perez successfully campaigned her mother, 6002, to three National Champion Cow-Calf titles, and after seeing 6002 in person, we knew she was a female we wanted influencing our herd. 909N is built for the long haul—easy fleshing, great in her angles and sound as a cat. Add in her balance, attractiveness and proven cow family, and she has all the pieces to find her way into a donor pen. 909N is at the heart of our bred heifer pen and one that is certainly hard to part with, but we are excited to offer her this fall.

A pedigree that is right for the times! 13N is a moderate, dark red female sired by the popular Sherman, who continues to sire some of the very best across the industry. When you study her GE-EPDs, this bred heifer is no slouch, ranking in the top 20% of the breed for eight different indexes and traits. She combines the phenotype, pedigree and numbers to make her a valuable breeding piece for years to come. To top it off, she's carrying an On Demand calf due mid-February that will have the genetic backing to help push your program to the next level.

A bred heifer out of our Genesis donor, 114J, that simply has the extras. She offers extra length from the top of her poll all the way back to her pins, ties high out of her shoulder and walks around like she knows she's Queen Bee. She explodes into a huge rib cage and a big, stout hip yet stays smooth and feminine in her design. With this kind of look, power and maternal backing, we believe she has all the tools to produce attractive, high quality show cattle for years to come.

Maternal sister to Lot 47. Maternal sib embryos sell as Lots 59 and 60.

Offered with Mark and Lesley Davis.

HOMOZYGOUS POLLED

I absolutely love how this mating has turned out. 3P is a dark red, red necked, heavily pigmented On Demand daughter that is backed by six generations of MKS-bred cows that have all surfaced to the top. This heifer is probably about as risk free as you can breed one if you're looking to add to your herd. Her data reads extremely nice across the board, with nine traits being in the Top 20%.

Top 2% Teat, Top 3% Udder.

- Sells open.

2TK MKS 2296 24B BELLA 4G ET
Dam of Lots 50 and 51

MKS 4R 15U BALLERINA 24B ET
Maternal granddam of Lots 50 and 51

The dam of Lots 50 and 51, 2TK MKS 2296 24B Bella 4G ET, was shown very successfully by Kendall Boatman, including winning Wisconsin Preview, Reserve at Illinois Preview, and Division Champion at the Junior National Hereford Expo. MKS 4R 15U Ballerina 24B ET, Bella's dam and the granddam of Lots 50 and 51, was also a Division Calf Champion in Louisville and Denver, then was Champion Cow/Calf as a two-year-old in Kansas City.

EMBRYO PACKAGES

Seller guarantees a minimum of one pregnancy per embryo package if implanted by a certified embryologist.
