Big League Genetics

VOLUME VII

SATURDAY, NOVEMBER 8, 2025

12 noon CST

Double Seven Ranch Sale Facility, Fort Cobb, Oklahoma

GPS address: 10191 County Road 1260, Fort Cobb, OK 73038

Dear Friends and Hereford Enthusiasts,

I would like to cordially invite and welcome you to the Seventh Annual Big League Genetics Sale on November 8th at our Double Seven Ranch headquarters near Fort Cobb, Okla. We appreciate your interest and are excited to welcome everyone to appraise the impressive set we have assembled for this year's event. We truly have something for everyone and look forward to your evaluation of them.

What an exciting time to be in the Hereford breed and the cattle business! We have witnessed all-time high prices in the feeder and fed cattle markets, and the demand for beef doesn't seem to be slowing anytime soon. The demand for Hereford genetics is increasing, and the advantages of hybrid vigor are real, as more and more producers are seeking to cash in on the baldy advantage. Hereford breeders are gearing up for this demand, as we have all witnessed the aggressive buying and increasing prices for Hereford females across the country.

Once again, all the Big League Genetics breeders have dug deep into their herds to offer you the very best, and this is the largest offering of production females to date. This set of cattle represents the freshest and newest genetics we have combined with many years of hard work, dedication and disciplined genetic selection. Through our extensive ET programs, we have produced an impressive set of young females that are in the prime of their productive lives and stacked with the very best genetics we can assemble. This includes current and future donors throughout in each class of cattle, whether it be in the ET open heifers, bred heifers, spring splits, fall pairs or heavy breds.

The past several years, I have been fortunate to be home and at the ranch quite a bit more with my position at the University of Oklahoma baseball program. I have enjoyed more family time with Amber and watching our three boys, Jaxon, Eli and Hunter, grow into young men. All three have spent their childhood days playing baseball and going home to the ranch to put in more work, making it possible for us to continue to live our dream of ranching and raising Hereford cattle. I would especially like to thank my wife, Amber. None of this would be possible without all her hard work, commitment and willingness to do whatever needs to be done, all while juggling the boys' and my hectic schedules.

This also wouldn't be possible without so many people who have helped us throughout the years, and we are grateful to each of you. I want to say a special thanks to the families of Birdwell Ranch and 4B Herefords. We have held our Hereford Heritage Bull Sale together for the past 13 years, and we will host the 14th one here at our ranch again in February 2026. Not only do these families have tremendous cattle that are closely aligned with our breeding philosophy, but they are close friends, and we appreciate the confidence they have in us by continuing to join in our Big League Genetics Female Sale. I also want to say a special thanks to John and Mona Loewen. They are family and mean the world to Amber and me. When I first started in the cattle business, John Loewen took me under his wing and mentored me, and for that I am forever grateful. His philosophies and his program's genetics can be seen throughout the sale offering, and we are glad to welcome him back as a consignor again this year.

With that said, our cattle program and breeding emphasis are focused on females. Every breeding decision we make at Double Seven Ranch is to create the ideal female—from genetics, to numbers, to phenotype. As you will see, we also focus on udder and teat quality and expect nothing less than the best.

The sale cattle will be available for viewing by the afternoon of Thursday, November 6th, or you may view them at each respective operation's ranch any time before then—just give us a call and we'll be glad to show you around. We hope you enjoy the sale just as much as we enjoy hosting it, and we look forward to seeing each of you November 8th or before. If there is anything we can assist you with, please don't hesitate to let us know.

Big League Genetics

Hitting it out of the park!

Many cattle sold in our Big League Genetics sales have gone on to have much success.

Pictured on these two pages are just a few of those success stories...

BR VALIDATED B413 6035 7098

This iconic donor sold as Lot 3 in the Inaugural Big League Genetics Sale in 2019, commanding \$62,500 for half interest for a \$125,000 valuation to Churchill Cattle Co. in Montana.

7098, affectionately named "Super Cow" by Dale Venhuizen, is now a household name in the Hereford breed. Unfortunately, she passed away soon before she was set to sell as the featured Lot 2 in the recent historic Churchill Dispersal. This made her progeny highly sought after in that World Class dispersal, as her sons and daughters totaled \$1,254,700 to push her total progeny sales over \$3 million. Furthermore, the progeny of her daughters and granddaughters totaled another \$1,031,600, pushing the sales from the cow family in the two-day event to an anostishing \$2,286,300. 7098 has produced herd bulls and donors that are working in programs across North America. In this offering, two direct daughters sell as Lots 30 and 31 along with progeny sired by her sons.

BR RELEVANT D67 7098 9226

9226 was the first natural-born calf out of 7098 and sold as Lot 3A in the Inaugural Big League Genetics Sale to Atkins Herefords and Hoffman Ranch for \$16,000. While serving as a donor for Atkins and Hoffman, she produced more than \$150,000 in total sales.

This featured donor is currently working in the Stelloflug Cattle Co. program. In their inaugural female sale, three daughters totaled \$32,500.

"Super Cow"

BR Validated B413 6035 7098...

million dollar-plus producer pictured at Churchill Cattle Co. in Montana, sold in the first Big League Genetics Sale. Her daughters sell as Lots 30 and 31.

77 MISS GRADY 60D 68H

68H was purchased as an open heifer for \$10,000 by C&L Hereford Ranch in Ixonia, Wisconsin, in the 2021 Big League Genetics Sale. Last fall in the C&L Herefords "Maternal Excellence" Sale, 68H sold as Lot 16 at \$27,500, and her Thomas County heifer calf commanded \$35,000. In that same sale, frozen genetics out of 68H grossed \$17,300, bringing 68H and her progeny total to \$79,800. Both dam and daughter now reside at GKB Cattle.

77 MISS ELLISON 60D 17G

This marbling giant, who scanned an actual IMF of 9.29% and adjusted to 9.37%, was a feature female in the 2020 Big League Genetics Sale, commanding \$18,250 to C&L Hereford Ranch and Sand Rock Ranch. 17G and her progeny highlighted the C&L Hereford Ranch "Maternal Excellence" Sale last fall, raking in a total of \$149,600 in sales.

77 MISS GRADY 2G 79H

79H was purchased as an open heifer as the featured Lot 2A for \$10,000 by Colyer Herefords in Bruneau, Idaho, in the 2021 Big League Genetics Sale. She had a productive flush to Churchill Sherman, with four head selling at auction to gross \$124,500, which includes the top selling bull in their spring bull sale, C 79H Sherman 4202 ET, who commanded \$70,000.

79H pictured as Lot 2A in the 2021 sale

77 MISS RED CLOUD 12H M19 ET

This Red Cloud daughter out of BF 4013 Posh 12H ET was the Lot 8 lead off open heifer in last year's Big League Genetics Sale and was purchased for \$13,000 by Churchill Cattle Co. in Manhattan, Montana. In September, less than a year after she was purchased, M19 sold in their World Class Dispersal as a bred heifer for \$30,000. That is an impressive return on investment in nine months! A maternal sister sells as Lot 29.

4B OKSANA 1040 ET

1040 was 4B Herefords' featured Lot 4 open ET heifer in the 2021 Big League Genetics Sale and was selected by Double Seven Ranch to incorporate into their donor program. She is now the featured Lot 3 donor in this year's event along with three of her impressive daughters selling as Lots 4 through 6. Double Seven also has four sons of 1040 who will be offered in the Hereford Heritage Bull Sale in February 2026. This success story is still being written... we will update you before next year's Big League Genetics Sale.

77 MISS GENESIS 80F J7 ET

J7 was offered as the Lot 43 young bred cow in the 2024 Big League Genetics Sale when she was carrying the service of BR Trending K014. She was purchased online for \$4,000 by Burns Farms in Pikeville, Tennessee. This Genesis daughter laid down and had a heifer calf in late February by K014 and bred right back first service A.I. Since she was A.I. bred and had a heifer calf on her, she was sold in the Burns and Friends, Volume X sale in September, where J7 and her heifer calf both commanded \$10,000 apiece and were the top selling spring bred cow/heifer calf split pair.

ABSENTEE BIDDING

If you would like to place a bid on any lot but will not be able to be with us, please feel free to contact the owners, the sale manager or any member of the sale staff. Bidding will also be available to registered bidders online at LiveAuctions.TV. **LiveAuctions.TV**

Videos online prior to sale day at LiveAuctions.TV

SALE TERMS AND CONDITIONS

Payment by cash or good check will be required for purchases before leaving the premises. Each animal will be sold to the highest bidder, and the auctioneer will settle any disputes as to bids.

HEALTH

A licensed veterinarian will be on hand sale day, and all cattle will be accompanied with proper health certificates for immediate shipment.

GUARANTEE

All cattle sell under the recommended terms and conditions of the American Hereford Assn. (www.hereford.org) and will become the responsibility of the purchaser as soon as sold.

TRUCKING

Truckers believed to be reliable will be available for hire sale day. We will be happy to assist with trucking arrangements for the most economical delivery of your purchases.

LIVESTOCK INSURANCE

Livestock mortality insurance for your purchases will be available sale day at the clerk's desk.

EPDs

Expected Progeny Differences (EPDs) are statistical predictions, or estimates, of expected performance of future progeny, not guarantees of performance. EPDs are updated weekly by the American Hereford Assn. The EPDs printed in this catalog were current 9/26/25. Up-to-date EPDs may be viewed online at www.hereford.org. Most all of the EPDs printed are genomically enhanced, indicated by this symbol: 

ANNOUNCEMENTS

All announcements made at the sale by the owners or the auctioneer will take precedence over printed material.

All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, nor any other individual connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

Join us for refreshments Friday afternoon, November 7th, at Double Seven Ranch.

Lunch and refreshments will be available sale day.

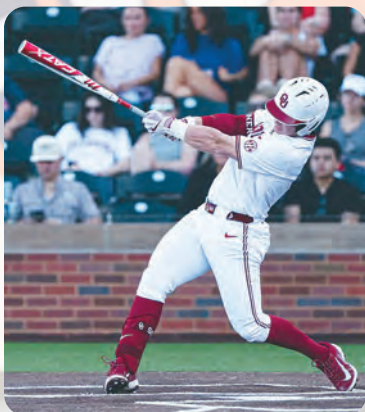

The right to one successful flush is retained on all females selling.

...from Big League Families

In Jaxon Willits' sophomore season at the University of Oklahoma, he started all 60 games for the Sooners at shortstop and was selected for the SEC All-Tournament Team. This summer in the Cape Cod League, Jaxon was selected to the All-Star team for the second straight year and was named the starting shortstop in the All-Star Game.

Congratulations to Eli Willits for being selected by the Washington Nationals as the No.1 overall pick in the 2025 Major League Baseball Draft. The youngest player in the 2025 draft, Eli is the youngest player selected No.1 overall since Ken Griffey, Jr. in 1987.

On September 7, 2025, Fort Cobb-Broxtown eighth grader Hunter Willits hit his second out-of-the-park homerun. He is the only one of the brothers to reach this accomplishment in fall baseball of eighth grade.

We are proud of all three of our sons' accomplishments on the field and even more proud of their faith, work ethic and the young men they are developing into.

BF NOVEL 0253 ET *Dam of Lot 1*

- Homozygous Polled
- We begin the 2025 Big League Genetics sale roster with one of the very best bred heifers Double Seven Ranch has ever offered. This exciting donor prospect is sired by the ABS member Innisfail Trademark and out of the proven donor BF Novel 0253, formerly owned with Burns Farms.
- M71 is a beautifully designed female with extra length and extension, capacious rib shape and a big, square hip design, and she balances out exquisitely with an ultra-feminine head and neck. She is built correct from the ground up and moves fluidly with extra presence.
- Numerically, this young donor prospect excels at growth, fertility, maternal and carcass traits. M71 is the only female in the Hereford breed with her combination of YW, Teat, Udder, Marbling and CHB. When you combine her EPD profile with her incredible phenotype, this young donor prospect is elevated to the “big leagues” with regard to her breeding and income-generating potential.
- M71’s dam, BF Novel 0253, is the dam of our up-and-coming herd bull 77 Bomber 0253 73G L35 ET. This clean Pinstripe son is a calving ease bull with curve-bending growth and an excellent numerical profile and is quite the sight to spectate. 0253 also produced two ET Merit daughters that sold in the May 2025 Female Event at Burns Farms to average \$36,000. In the Burns Farms and Friends Sale this past September, 0253 was the top-selling spring split pair as the featured Lot 12 donor, commanding \$23,000 to Triple C Black Herefords, while her March heifer calf at side brought \$7,500.
- M71 posted an individual REA ratio of 129 and an IMF ratio of 109 in a herd that concentrates on carcass merit.
- Maternal sister sells as Lot 63.
- Ranks in the top 1% of the breed for WW, YW and CHB; top 2% for Udder, CW, REA and Marb; top 3% for BII; top 4% for SC and Teat; top 5% for BMI; top 11% for MG.
- P.E. 2/1/25 to 5/20/25 to 77 Bomber 0253 73G L35 ET. Checked safe 8+ months.

- Check out the striking phenotype that M28 possesses in a short marked, dark red and fully pigmented package. This young donor prospect sired by Trademark is out of our Brigadiers Beauty donor and is a maternal sister to the prolific Loewen donor Spearhead B413 Hadley G16; two daughters of G16 sold 1/2 interest at auction for \$25,000 and \$60,000.
- M28's numerical profile offers tremendous value through her superior maternal prowess, exceptional growth and highly impactful marbling. Just imagine what this female would look like in your donor pen as a wet three-year-old and the possibilities that her future holds when you combine her numerical profile with her physical attributes and style.
- Ranks in the top 2% of the breed for Udder and CHB; top 3% for YW and Marb; top 4% for WW and Teat; top 8% for BII; top 12% for BMI; top 13% for MG and CW.
- P.E. 2/1/25 to 5/20/25 to 77 Bomber 0253 73G L35 ET. Checked safe 9 months.

- 1040 is a young donor in the prime of her life. Sired by Long Range, she is out of a direct daughter of the immortal HVH Oksana 4L 33N, who was a herd bull producer and the dam of Redeem, Kickstart and many other influential Hereford bulls. 1040 was previously offered as a featured spring ET open heifer in the Big League Genetics Sale by 4B Herefords when Double Seven Ranch selected her to incorporate into their ET program—a wise decision judging by the quality of her daughters selling.
- Individually, 1040 is a short marked, powerfully constructed and bold ribbed female that produces excellent progeny. Young, proven producers like 1040 are hard to come by and even harder to part with. She carries the service of the new and exciting 77 Marvel, and the one in her belly could be the next Big League success story.
- 1040 offers a big spread from +9.3 CE to +108 YW and has incredible maternal prowess.
- Ranks in the top 1% of the breed for SCF and BMI; top 2% for BII; top 4% for Teat; top 6% for SC and CW; top 7% for REA; top 9% for Udder; top 10% for CED; top 11% for YW.
- Daughters sell as Lots 4, 5 and 6.

- Homozygous Polled
- 83K is without a doubt one of the elite females being offered by Double Seven Ranch. Sired by the ABS roster member Trademark and out of the 1040 donor that sells as Lot 3, this short marked, dark cherry red female is something to spectate in person. She is so powerfully constructed, wide based and bold through her center portion yet still very balanced and eye appealing from the side profile, and she comes equipped with a beautiful udder. She currently has an impressive set of ET calves on the ground.
- 83K is in rare air with her elite SCF, Udder, Teat and Marb EPDs and dollar indexes. She is the only female in the breed with her combination of CE, YW, SCF, Udder, Teat, Marb, BMI and CHB. Consequently, she has the No. 1 BMI index among all Trademark daughters.
- Truly a buyer's opportunity here to acquire a special and unique donor female who doesn't turn three until late November.
- Ranks in the top 1% of the breed for SCF, Udder, BMI and BII; top 3% for Marb; top 4% for Teat and CHB; top 9% for WW; top 12% for CE and YW; top 13% for BW; top 14% for MCE and REA.

• This September yearling ET heifer out of the 4B Oksana 1040 donor, Lot 3, and sired by the \$80,000-valued BR GKB Trending 0104 is certainly one of the phenotypically impressive brood cow prospects in the offering. She replicates her dam's powerful build, body type and look with added bone and ring eyes.

• 74M ranks in the upper echelon of the breed for growth. She is built to stand the test of time and will make a beautiful cow in production.

• Dam sells as Lot 3. Maternal sisters sell as Lots 4 and 6.

• Ranks in the top 2% of the breed for YW; top 3% for SCF, BMI and BII; top 4% for WW; top 5% for MG; top 7% for CW.

• Sells open.

- 18M is a maternally designed and eye-appealing bred heifer who is a natural calf out of the 4B Oksana 1040 donor and carries on her dam's powerful build and look. She is one of the first females we have offered by our exciting young herd bull 77 Chaos 12H K41 ET, who is a stout made Benton son with an impressive numerical profile out of our standout donor BF 4013 Posch 12H.
- 18M is in a league of her own with her WW, YW, Teat and Udder EPDs and is one of only two females in the breed with her combination of CE, WW, YW, Teat and Udder. Females with her style, balance and power combined with her numerical profile are definitely the kind to build around, especially in a time of heifer retention.
- Dam sells as Lot 3. Maternal sisters sell as Lots 4 and 5.
- Ranks in the top 1% of the breed for WW, YW, Udder and Teat; top 3% for BMI and BII; top 4% for SCF and REA; top 5% for CW; top 10% for SC; top 11% for MG; top 12% for MCE; top 14% for CHB.
- P.E. 2/1/25 to 5/20/25 to 77 Bomber 0253 73G L35 ET. Checked safe 7 months.

- This Carcass Superstar is a moderate, stout made donor sired by Gerber Anodyne with calving ease and commendable growth. Every carcass trait ranks in the top 8% of the breed or better, and her CHB comes in at +196, which securely ranks in the top 1%. 4G is the only current dam in the breed with her combination of CE, YW, MCW, CW, REA, Marb and CHB. Her most intriguing EPDs are her antagonistic combination of +76 MCW (top 21%) and +91 CW (top 7%).
- 4G is a short marked and heavily pigmented female with tremendous depth of body and rib shape.
- Daughters sell as Lots 8–11.
- Ranks in the top 1% of the breed for CHB; top 2% for Marb; top 7% for CW; top 8% for REA; top 15% for SC.
- Service observed 12/25/24 to Loewen 4B Garfield B42 G24 ET. Will calve before sale day.

- A very unique female regarding her rare GE-EPD profile combined with her impressive phenotype. Numerically, 5624 is one of one in terms of her combination of BW, WW, Marb, BII and CHB. She offers calving ease and low birth with explosive growth, fertility, strong maternal traits and exceptional marbling, all of which are highly important in beef production.
- 5624 is a striking female who is very good in her lines with flawless structural integrity. She has all the bells and whistles of being dark red, conservatively marked and ring eyed that everyone is searching for. If there was an EPD for look and style, she would be in the top 1% for that too. Study her build, design, numerical profile and pedigree, and you will find that she is on track to become an elite donor prospect that will instill added profit into her offspring.
- Ranks in the top 1% of the breed for MCE, Marb, BII and CHB; top 2% for BMI; top 3% for WW; top 4% for CW; top 9% for SCF and Udder; top 15% for CE and BW.

- 5617 is without question one of the best built Bullnanza daughters the Birdwells have raised to date. She is long and level hipped with added length of body and extension through her front one-third, which gives her a well balanced, striking look on the profile. She is built on a strong foundation with correct feet and legs and extra base width.
- Her genomic profile is impressive, as she ranks among the elite for production, fertility and carcass quality, especially for marbling. 5617 is the only female in the breed with her EPD combination of BW, WW, SCF and Marbling.
- Ranks in the top 1% for MCE, Marb, BII and CHB; top 2% for BMI; top 5% for BW and SCF; top 7% for MG; top 9% for WW and Udder; top 12% for CW; top 14% for Milk.
- BW 75 lbs.
- Sells open.

- Here's a Big League opportunity to acquire RMB Double Steal 120K, the proven herd bull that Double Seven Ranch purchased a few years ago from Barnes Herefords in an effort to add some outcross genetics to their program and to add some energy to the female sale. His first daughters did just that and were in high demand, with five open heifers averaging \$5,800.
- Double Steal is a performance-oriented bull who is heavily constructed, stout made, big scrotaled, structurally correct and eye appealing. He is a dark red, conservatively marked and heavily pigmented stud whose progeny are short marked, stout made, big bodied and good looking. We have several daughters retained in the herd and are excited to see what they will produce as they begin calving this fall.
- He offers moderate birth weights, tremendous growth and maternal strength with highly profitable carcass merit. His progeny will be in demand.
- Ranks in the top 1% of the breed for YW; top 2% for WW; top 3% for SC; top 4% for MG and CHB; top 6% for CW; top 9% for Marb; top 13% for Teat.
- Daughters sell as Lots 19, 54, 55 and 56.
- Selling full possession and full interest.

77 MISS DOUBLE STEAL 2J 89L

*Daughter of Double Steal, Lot 14
...she sells as Lot 54*

FALL YEARLING OPEN HEIFERS

77 MISS HORIZON E079 113M

lot 15

- Absolutely stunning Horizon daughter that is a definite sale feature. 113M is a short marked, red eyed beauty who is big hipped, big topped, capacious in her rib cage and balanced on the profile. She has an impeccable skeletal design and structure. Her dam is a maternal sister to BR Belle Air 6011 and is a donor for Double Seven Ranch.
- Aside from being a beautifully designed female, 113M offers an equally impressive numerical profile that ranks in the upper echelon of the breed for growth. She is a big spread female with added fertility, maternal prowess and excellent carcass merit. 113M is the only female in the AHA database with her combination of CE, YW, SC, CW and CHB.
- Study the build of this young female combined with her unique genomic merit, and take advantage of the opportunity to acquire this young donor prospect who is backed by one of the best females in the breed and has zero Endure in her pedigree. The mating options are wide open.

lot 16

- Check out the impressive GE-EPD profile this striking young Chaos daughter has, including a +193 \$CHB. We were excited to see the progeny of Chaos and what the future holds for him, and his first calves have been nothing short of impressive.
- 67M is an eye-appealing late August yearling with a long hip, extra length and style in a short marked and structurally correct design. She offers superior maternal traits to go along with her accelerated growth and top tier carcass merit.
- Her dam is a direct daughter of one of our past donors, 50U, who was a Big League feature in the first edition when she and her progeny totaled \$48,500. 50U's daughters have been some of our best producers for several years, and we expect this young daughter by Chaos to carry on that tradition.

- Homozygous Polled
- 103M is a big ribbed, moderately built female with added muscle shape and style in a dark red, red-eyed package. Her sire is the BR Trending K014 bull we leased from Barber Ranch when one of our herd bulls went down. The K014 progeny have been nothing short of impressive, as they are good marked, stout and big bodied with eye appeal. Burns Farms bought a bred cow carrying his service last year that laid down and had a \$10,000 coupon that just sold in their fall sale.
- This female has added calving ease with growth, fertility and a REA EPD that ranks in the top 2% of the breed.
- Ranks in the top 2% for REA; top 6% for CW; top 11% for SCF and MCE.
- BW 77 lbs.
- Sells open.

- Homozygous Polled
- This young Houston daughter is short marked, stout made and phenotypically pleasing with a very nice udder. She too offers an impressive numerical profile that is loaded with performance, carcass and fertility.
- Her dam is a direct daughter of Z23 who is sired by the female producer Ellison. Double Seven Ranch has offered many of their top young cows for years now, and they go on to produce well for their new owners. This could be the next one that is a Big League success story.
- Ranks in the top 1% for CW and SC; top 2% for CHB and REA; top 4% for BMI and MG; top 5% for BII; top 6% for Milk; top 9% for YW; top 13% for WW and SCF.
- P.E. 2/1/25 to 5/20/25 to 77 Chaos 12H K41 ET. Checked safe 9 months.

- Homozygous Polled
- This eye-catching Prodigy daughter is a phenotypic standout who is long and level down her topline and has a big, square hip with a near perfect hind leg. She is feminine through her head and neck and very angular with plenty of body to balance her out nicely. Her numerical profile is just as spectacular as her appearance, offering exceptional calving ease with an unprecedented spread from birth to yearling plus maternal prowess and impressive, highly sought-after marbling.
- Her sire was one of the featured bulls offered in last year's Big League Sale that commanded \$25,000 and now resides in Texas at GKB Cattle. Double Seven doesn't have many progeny sired by Prodigy, but the ones they do have they love, and 94M is the only one in the offering.
- Ranks in the top 2% for CHB and Udder; top 3% for BW; top 9% for BMI and MCE; top 10% for CE and SC; top 11% for WW; top 13% for MG; top 14% for YW.

- Homozygous Polled
- P.E. 4/21/25 to 7/2/25 to Birdwell Big Bend 7098 2977ET. Checked safe 6.5 months.

- Here is a tremendous opportunity to acquire a direct daughter of the recently deceased "Super Cow" 7098 who is in the prime of her productive life. 1654 is an attractive female with a fantastic udder who is highly fertile. She has an impressive numerical profile that excels in highly sought-after carcass traits without sacrificing quality, performance or fertility.
- 1654's donor dam, 7098, certainly needs no introduction. She recently eclipsed \$2.5 million in progeny sales after her progeny were featured in the historical Churchill Cattle Co. World Class Dispersal. Five daughters in production totaled \$515,000 to average an incredible \$103,000 per head.
- The Birdwell family is committed to offering their best genetics, and this female could be one of the next success stories to come from this legendary cow family. The opportunities are aplenty in this year's Big League Genetics offering; it's up to you to step up to the plate and take advantage.
- Ranks in the top 2% for Marb and Udder; top 3% for REA and BII; top 4% for CHB and BMI; top 8% for SCF; top 13% for Teat and WW.
- Maternal sister sells as Lot 31.

An industry-changing program from the American Hereford Association and IMI Global to verify and add value to Hereford-influenced feeder cattle with superior genetics, health and management.

816-842-3757 | 11500 NW AMBASSADOR DR, KANSAS CITY, MO 64153 | HEREFORDADVANTAGE.COM

REQUIREMENTS

Source & Age verification

Genetic merit: Minimum of 50% Hereford genetics; Bull battery ranking in top 50% of breed for \$CHB index* (bull battery average); Bull ownership transferred (all bulls)

Vaccination program: Two rounds of vaccinations prior to shipping: 2 doses 7-way, 8-way or 9-way Clostridial; 2 doses Respiratory modified live BQA certification

*The Certified Hereford Beef Index (\$CHB) is a terminal sire index that is built on a production system where Hereford bulls are used on British-cross cows with a focus on gain and end-product merit.

- Homozygous Polled
- What an incredible opportunity to acquire this beautiful donor prospect sired by SHF Horizon D287 H022 ET. 83L is the first natural calf out of last year's \$45,000 top selling featured Lot 1 donor, 77 Miss Key West 12H K26 ET, who now works in the GKB Cattle program in Desdemona, TX.
- 83L is a dark red, short-marked and fully pigmented two-year-old who is exquisite through her front one-third and merges smoothly into her capacious, bold sprung center portion with a square hip design that balances out her stylish look. She is built correct from the ground up and is made to last.
- Her GE-EPD profile is unique and ranks in the upper echelon of the breed for YW, SCF, Udder, Teat and dollar indexes. In fact, 83L is the only female in the breed with her combination of YW, SCF, Udder, Teat and CHB.
- 83L offers calving ease with moderate birth combined with curve-bending growth, fabulous maternal traits and impressive value-added carcass merit. Study her phenotype, numerical profile and her pedigree, which is loaded on both sides with several generations of impactful and high income-producing donors...it is plain to see that it is just a matter of time before she becomes one herself.
- Ranks in the top 9% for Marb and Udder; top 13% for BII and Teat.
- P.E. 2/1/25 to 5/20/25 to 77 Bomber 0253 736 L35 ET. Should calve by sale day.

- Homozygous Polled
- When you see Bomber, you will never believe he is a 10.3 calving ease EPD bull. He is big boned with tons of muscle shape, power and body in an extremely attractive package that is dark red, short marked and goggle eyed.
- Bomber is a homozygous polled DB-free son of 77 Pinstripe with his sire's body type. His dam is the \$23,000 BF Novel 0253 donor, an outstanding producer of high quality whose progeny love genomics.
- Bomber has 13 EPDs that rank in the top 15% of the breed or better and offers a curve-bending spread with maternal prowess and value-added carcass traits. His numerical profile is as good as you can make one, and with his look, it's easy to see why we are so fired up about him.
- Several of the heifers selling carry his pasture service.

Double Seven Ranch Sale Facility

Fort Cobb, Oklahoma

Over 100 Hereford & Angus Bulls Sell!

FOR REFERENCE ONLY

Big League Genetics Game-Changing Herd Sires

77 MARVEL 12H L32 ET

Chaos

- Chaos is a unique numbered bull with a big spread from birth to yearling, maternal excellence and outstanding carcass merit. He posts 11 EPDs in the top 9% of the breed or better, including a +195 \$CHB that ranks in the top 1%. His numbers speak for themselves.
- Chaos has a big, square hip, a big top with extra muscle shape, and he is soft middle in a very balanced and eye-appealing design. It's hard to see in his picture, but he is 100% pigmented in one eye and about 90% in the other. Then you add in the fact that he is Homozygous Polled and out of one of the top cows in the country, and you can see why he is such an exciting young herd sire.
