Big League Genetics

VOLUME VIII

SATURDAY, NOVEMBER 14, 2026

12 noon CST

Double Seven Ranch Sale Facility, Fort Cobb, Oklahoma

GPS address: 10191 County Road 1260, Fort Cobb, OK 73038

Dear Friends and Hereford Enthusiasts,

We cordially invite you to the Eighth Annual Big League Genetics Sale on November 14th at Double Seven Ranch near Fort Cobb, Oklahoma. Thank you for your interest in our cattle. We look forward to welcoming you and showcasing the impressive, diverse offering we have assembled for this year's event.

It is an exciting time for the Hereford breed and the cattle industry. Feeder and fed cattle inventory remains tight, and beef demand remains strong. Demand for Hereford genetics is also growing as more producers recognize the value of hybrid vigor and seek to capitalize on the baldy advantage. Hereford breeders are responding to this demand, as aggressive buying and higher prices for Hereford females nationwide demonstrate.

Once again, all the Big League Genetics breeders have dug deep into their herds to offer you the very best and have assembled another sensational offering. This set of cattle represents the freshest and newest genetics we have combined with many years of hard work, dedication and disciplined genetic selection. Through our extensive ET program, we have produced an impressive set of young females that are in the prime of their productive lives and stacked with the very best genetics we can assemble. This includes current and future donors throughout in each class of cattle, whether it be in the ET open heifers, bred heifers, spring splits with heifer calves, fall pairs or heavy breds.

Over the past several years, my position with the University of Oklahoma baseball program has allowed me to spend more time at home and on the ranch. I have treasured that extra time with Amber and the opportunity to watch our three boys—Jaxon, Eli, and Hunter—grow into young men. They have spent their childhoods playing baseball and helping on the ranch, enabling us to continue living our dream of ranching and raising Hereford cattle. I am especially grateful to my wife, Amber, whose hard work, commitment, and willingness to do whatever is needed make all of this possible while she manages our hectic schedules.

None of this would be possible without the many people who have supported us over the years, and we are grateful to each of you. Special thanks go to the Pribil and Birdwell families. We have partnered with them for 14 years on the Hereford Heritage Bull Sale and look forward to hosting the 15th sale at our ranch in February 2027. Their outstanding cattle align closely with our breeding philosophy, but more importantly, they are dear friends. We deeply appreciate their continued confidence in us and their participation in the Big League Genetics Female Sale. I also want to thank John and Mona Loewen, who are family to us and mean the world to Amber and me. When I entered the cattle business, John took me under his wing and mentored me—support for which I will always be grateful. His philosophy and the genetics from his program are evident throughout this sale offering.

Our breeding program at Double Seven Ranch centers on producing the ideal female. Every breeding decision considers genetics, performance data and phenotype, with an uncompromising focus on udder and teat quality.

The sale cattle will be available for viewing by the afternoon of Thursday, November 12th, or you may view them at each respective operation's ranch any time before then—just give us a call and we'll be glad to show you around. We hope you enjoy the sale just as much as we enjoy hosting it, and we look forward to seeing each of you November 14th or before. If there is anything we can assist you with, please don't hesitate to let us know.

Big League Genetics

Hitting it out of the park!

4B OKSANA 1040 ET

1040 was 4B Herefords' featured Lot 4 ET open heifer in the 2021 Big League Genetics Sale and was selected by Double Seven Ranch for \$10,000 to incorporate into the donor program. 1040 and two daughters sold in the 2025 sale as Lots 3, 4 and 5 to total \$86,000; Lot 5 was the \$60,000 top selling female to Five J's Cattle Company in North Carolina and the first female purchased by Eli Willits for his new Hereford venture, 77 EL1 Ranch. A full sister to that female sells this year as Lot 14, and a granddaughter of 1040 sells as Lot 35. 1040 also had three sons in the Hereford Heritage Bull Sale that averaged \$8,000 as yearlings.

77 ONE OF ONE 1040 ET

\$60,000 Lot 5 in the 2025 sale

BR VALIDATED B413 5064 7603

Jensen Ranch purchased 7603 as a spring bred cow for \$6,500 in the Inaugural Big League Genetics Sale. She is the dam of the top selling bull in their 2024 bull sale, KJ 7603 Element 019L ET who commanded \$95,000 to Fawcett's Elm Creek Ranch, Upstream Ranch and Breezewood Hills. Jensens have sold well over \$250,000 in progeny and have several daughters in the herd. 7603 also raised KJ 7603 Vienna 698K ET, who sold in the C&L Maternal Excellence Sale as a two-year-old donor with a bull calf at side. 698K, her progeny and genetics totaled \$122,450 in that sale.

KJ 7603 ELEMENT 019L ET

\$95,000 son of 7603

LOEWEN DEARIE D1 569G K37 ET

K37 sold in the 2025 Big League Genetics Sale as a three-year-old heavy bred to Lamb Brothers in Wisconsin for \$5,000, sight unseen. She laid down in January and had a Loewen Sandhill heifer calf. Lamb Brothers recently sold the split pair in the Fantastic Female Sale at Seven Oaks in August for \$24,500! Opportunities like K37 sell throughout this offering year in and year out and have created much success for their new owners.

77 MISS GRADY 2G 79H

79H was purchased as an open heifer as the featured Lot 2A for \$10,000 by Colyer Herefords in Bruneau, Idaho, in the 2021 Big League Genetics Sale. She had a productive flush to Churchill Sherman, with four head sold at auction grossing \$124,500, which included the top selling bull in their spring bull sale, C 79H Sherman 4202 ET, who commanded \$70,000. To date, 79H has produced \$180,500 in progeny sales at auction.

C 79H SHERMAN 4202 ET

\$70,000 son of 79H

*Many cattle sold in our Big League Genetics sales have gone on to have much success.
Pictured on these two pages are just a few of those success stories.*

77 MISS ELLISON 60D 17G

This marbling giant, who scanned an actual IMF of 9.29% and adjusted to 9.37%, was a feature female in the 2020 Big League Genetics Sale, commanding \$18,250 to C&L Hereford Ranch and Sand Rock Ranch. 17G and her progeny highlighted the C&L Hereford Ranch Maternal Excellence Sale in the fall of 2024, raking in a total of \$149,600 in sales.

77 MISS GRADY 60D 68H

68H was purchased as an open heifer for \$10,000 by C&L Hereford Ranch in Ixonia, Wisconsin, in the 2021 Big League Genetics Sale. In 2024 at their "Maternal Excellence Sale," 68H sold as Lot 16 at \$27,500, and her Thomas County heifer calf commanded \$35,000. In that same sale, frozen genetics out of 68H grossed \$17,300, bringing her and her progeny total sales to \$79,800. Both dam and daughter now reside at GKB Cattle.

77 MISS RED CLOUD 12H M19 ET

This Red Cloud daughter out of BF 4013 Posh 12H ET was the Lot 8 lead off open heifer in the 2024 Big League Genetics Sale and was purchased for \$13,000 by Churchill Cattle Co. in Manhattan, Montana. Less than a year after she was purchased, she sold in their World Class Dispersal, commanding \$30,000 as a bred heifer. That is an impressive return on investment in nine months.

BR VALIDATED B413 6035 7098

"Super Cow" 7098 sold in the Inaugural Big League Genetics Sale for \$62,500 for half interest to Churchill Cattle Co. in Montana. The now-deceased donor amassed over \$3 million dollars in progeny sales and has left a lasting impression on the Hereford breed, with many herd bull sons and donor daughters working in programs across the country.

BR RELEVANT D67 7098 9226

9226 was the first natural born calf out of 7098 and sold as Lot 3A in the 2019 Inaugural Big League Genetics Sale to Atkins Herefords and Hoffman Ranch for \$16,000. While serving as a donor for Atkins and Hoffman, she produced more than \$150,000 in total sales. This featured donor is currently working in the Stelloflug Cattle Co. program.; in their Inaugural Female Sale, three daughters totaled \$32,500.

ABSENTEE BIDDING

If you would like to place a bid on any lot but will not be able to be with us, please feel free to contact the owners, the sale manager or any member of the sale staff. Bidding will also be available to registered bidders online at LiveAuctions.TV. **LiveAuctions.TV**

Videos online prior to sale day at LiveAuctions.TV

SALE TERMS AND CONDITIONS

Payment by cash or good check will be required for purchases before leaving the premises. Each animal will be sold to the highest bidder, and the auctioneer will settle any disputes as to bids.

HEALTH

A licensed veterinarian will be on hand sale day, and all cattle will be accompanied with proper health certificates for immediate shipment.

GUARANTEE

All cattle sell under the recommended terms and conditions of the American Hereford Assn. (www.hereford.org) and will become the responsibility of the purchaser as soon as sold.

TRUCKING

Truckers believed to be reliable will be available for hire sale day. We will be happy to assist with trucking arrangements for the most economical delivery of your purchases.

LIVESTOCK INSURANCE

Livestock mortality insurance for your purchases will be available sale day at the clerk's desk.

EPDs

Expected Progeny Differences (EPDs) are statistical predictions, or estimates, of expected performance of future progeny, not guarantees of performance. EPDs are updated weekly by the American Hereford Assn. The EPDs printed in this catalog were current 10/6/26. Up-to-date EPDs may be viewed online at www.hereford.org. Most all of the EPDs printed are genomically enhanced, indicated by this symbol:

ANNOUNCEMENTS

All announcements made at the sale by the owners or the auctioneer will take precedence over printed material.

All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, nor any other individual connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

Join us for refreshments Friday afternoon, November 13th, at Double Seven Ranch.

Lunch and refreshments will be available sale day.

The right to one successful flush is retained on all females selling.

...from Big League Families

Jaxon Willits and his wife, Abigail, were blessed with a daughter in March. He graduated from the University of Oklahoma and was integral in the OU Sooners 2026 NCAA National Championship run that included being named the Most Outstanding Player of the 2026 MCWS. Jaxon was drafted in the fifth round of the 2026 MLB draft by the Los Angeles Angels, who also drafted his father, Reggie, back in 2003. Jaxon played his rookie season with the Rancho Cucamonga Quakes.

Eli Willits and Reagan Repp were married March 18, 2026. He just finished his first full season in professional baseball and ended the season at AA in Harrisburg, PA, with the Senators. He was named the 2026 Washington Nationals MiLB Defensive Player of the Year and 2026 Washington Nationals Baserunner of the Year. Eli is currently ranked as the No. 3 prospect for Baseball America.

Hunter Willits joined the #OKPreps1stCareerHRCUB early in the fall season of his freshman year in high school on August 18, 2026 in an 11-9 win over Calumet. The Fort Cobb-Broxton Mustangs finished as the OSSAA Class B Fall Baseball State Runner-Up. Earlier in the fall, Hunter was named as the 17th ranked catcher in the 2030 Class by Perfect Game.

We are proud of all three of our sons' accomplishments on the field and even more proud of their faith, work ethic and the young men they are developing into.

JOHN & MONA LOEWEN
Loewen Herefords

*This sale is for you,
my friend.*

John Loewen and Reggie Willits

THERE ARE VERY FEW PEOPLE IN A LIFETIME who aren't family by blood but are just as close as family. John and Mona Loewen are that to Amber and me. John has been someone who has made a huge impact in my life, and I will forever value his friendship.

Sometimes in life you can feel divine intervention, and walking up to John's door in 2008 was one of those days for me. I went to his place to get a Hereford bull to put on my 30 Angus cows, but I walked away with a mentor, a teacher, wisdom, and most importantly, a friend. From that day on, I spoke to John numerous times while going from hotel to hotel, and our conversations fueled a new found passion in me that I didn't even know existed. I found a true love for raising Hereford cattle. We would speak for hours about how and what direction to start and build a program. When I got home from baseball for the off season, we would go on trips to ranches and sales, and I would sit and take notes for hours as John spoke about Hereford cattle. In my opinion, I was witnessing greatness at its best. The way he thought about breeding cattle, marketing cattle, and moving the breed forward was something I admired and respected a tremendous amount. The direction in which Amber and I went in building our herd and our ranch was in large part due to the lessons I learned in those phone conversations and trips taking my notes while I listened to John. I would constantly ask questions—some really dumb ones, but John would patiently listen and always guide and direct me without ever actually telling me what to do. Without him being willing to try and help a young producer who didn't grow up in the industry, I would have failed for sure. I still remember the day when I told John that one day I wanted to host a sale at our ranch. I think I had about 20 Hereford cows at that time, and he probably thought I was crazy, but once again he gave me nothing but support.

A lot has happened since 2008, that's for sure. We have been blessed to see so many things that John and I spoke about come to be. We plan our female sales and the direction they will go usually two years in advance. So in June of 2024, I made another trip to Loewen Herefords. I think John was surprised when I pulled up, but I had a plan and I needed John's help once again. I wanted to build a female sale around a Loewen cow, the same genetics where it all started. I wanted something special, and I wanted to pay tribute to my old friend. That day was one of the funnest days I have ever had since I have been in the cattle business. We spent the whole afternoon catching up, going through his cattle, and we picked out what we felt was a breed-changing female, **LOEWEN GOLDIE F94 K35 ET**. We are very thankful that John was gracious enough to allow us to purchase a female of this magnitude. We took her home and started flushing her and were excited to use matings of bulls that all in one way or another go back to Double Seven Ranch cattle. It was surreal to use genetics that had been produced right here to a cow that John had raised. It was a true full circle moment for me. Lots 1, 2, and 3 are the result of three different sires on this one elite female.

I tell you this small story to let everyone know that this sale is bigger than a cattle sale. This is a tribute. A small token of my appreciation to one of the Hereford icons in the history of the breed. In my opinion, if there was a Mount Rushmore of Hereford breeders, John would be there. He has impacted so many lives just like mine because he has lived with humility and always treated people with respect. I have put a lot of thought into how I would describe John Loewen to someone who has never met him, and because of that there is a bible verse in Matthew that I'd like to finish with.

"Jesus said to him You shall love the Lord your God with all your heart, with all your soul and with all your mind. This is the first and greatest commandment. And the second is like it: You shall love your neighbor as yourself." *Matthew 22:37-39*

That is the best way I can describe John Loewen. This sale is for you, my old friend. I hope you are proud of this one!

77 MARVEL 12H L32 ET Sire of Lot 1

- Homozygous Polled
- Lot 1 in the eighth edition of the Big League Genetics Sale is one of the most highly anticipated matings that Double Seven has ever offered. When Reggie planned this mating, he was swinging for the fences and connected in a big way, as this female is elite in her kind as well as her data.
- N99 is the first female ever offered sired by the exciting herd bull 77 Marvel 12H L32 ET, owned with Kester Herefords and Colyer Herefords, as well as the first daughter out of their new donor, Loewen Goldie F94 K35 ET, who brings the Double Seven program full circle by teaming up with Loewen Herefords once again on an impressive young donor.
- Individually, N99 is made correct from the ground up with extra power, tremendous depth and turn to her rib while still possessing a beautiful brood cow look with style and balance. Additionally, she is marked just the way you want them—dark red and fully pigmented in a moderate, stout build.
- Her GE-EPD profile offers a rare combination of calving ease, moderate birth with superior growth, moderate mature cow weight, maternal prowess and highly desirable marbling. Check out her antagonistic combination of YW and CW with her lower MCW.
- N99's dam, Loewen Goldie F94 K35, is a new, young donor that Double Seven acquired from John Loewen. They had bought their first cows from John in 2008 and were looking for an elite donor; when John showed K35 to Reggie, he knew he had found the one that could help take their breeding program to new heights. K35 is a dark red, short-marked and beautifully designed Gold Rush daughter with an incredible numerical profile that you will be hearing more of in the future at Double Seven and Loewen Herefords.
- When you combine N99's striking phenotype, remarkable genotype and her pedigree, it is evident that she is a unique female and a top donor prospect who won't take long to move into the big leagues!
- Maternal sisters sell as Lots 2 and 3.
- Ranks in the top 1% for WW and Udder; top 2% for YW, Marbling and CHB; top 6% for BII; top 7% for CW; top 15% for M&G, Teat and BMI.
- Sells open.

- Homozygous Polled
- P16 is the second of the three maternal sisters selling out of the newly debuted Double Seven and Loewen donor Goldie K35. She is sired by the \$70,000-valued C 79H Sherman 4202, the top selling bull in the 2025 Colyer Bull Sale to Bowling Herefords whose dam, 79H, was bred and raised by Double Seven Ranch.
- P16 is a conservatively marked, dark red female that is a bold centered, phenotypically pleasing and structurally correct donor prospect with a remarkable numerical package. Her impressive combination of BW, YW and Marbling EPDs and elite dollar indexes are in rare air, as she is one of only nine females in the breed with her unique data set.
- P16's dam, Loewen Goldie F94 K35, is a new, young donor that Double Seven acquired from John Loewen. They had bought their first cows from John in 2008 and were looking for an elite donor; when John showed K35 to Reggie, he knew he had found the one that could help take their breeding program to new heights. She is a dark red, short-marked and beautifully designed Gold Rush daughter with an incredible numerical profile that you will be hearing more of in the future at Double Seven and Loewen Herefords.
- Like her maternal sisters selling as Lots 1 and 3, P16 is an exciting female that will find the donor pen sooner rather than later.
- Ranks in the top 1% for Marbling, BII and CHB; top 2% for WW and BMI; top 4% for YW and CW; top 7% for SCF; top 11% for Udder; top 15% for M&G, Teat and REA.

- Homozygous Polled
- P100 is a striking young Chaos daughter backed by the Goldie F94 K35 donor female that is built correct and overflowing with style, balance and power. Her elite data set is unique, as she is the only individual in the entire AHA database with her combination of YW, SCF, CW, Marbling, BMI, BII and CHB. This young donor prospect excels with top notch growth, added fertility, incredible maternal traits and highly sought-after carcass merit, including breed-leading marbling with dollar indexes that all rank in the top 1%.
- P100 is the epitome of what the modern Hereford female can do for the beef business with her antagonistic combination of high YW and CW and low MCW while also offering tremendous marbling without sacrificing maternal traits. Moderate, easy fleshing females with growth, maternal and carcass are what the industry demands, and it takes females like this to make more of them in her mold.
- Her donor dam, Loewen Goldie F94 K35, is a new, young donor that Double Seven owns with John Loewen. She is a dark red, short-marked, bold centered and beautifully designed Gold Rush daughter with an incredible numerical profile that you will be hearing a lot more of in the future at Double Seven and Loewen Herefords, especially if she keeps raising the type and kind of females offered in Lots 1, 2 and 3—all sired by different bulls yet all equally impressive in their own unique ways.
- P100's unique numerical profile combined with her exquisite look and design elevates her potential breeding value and future income production to a new level as one of the top donor prospects to sell this fall.
- Maternal sisters sell as Lots 1 and 2.
- Ranks in the top 1% for CW, Marbling, BMI, BII and CHB; top 2% for SCF and Teat; top 3% for Udder; top 4% for WW; top 7% for YW.
- Sells open.

- Homozygous Polled
- Big League Genetics and Double Seven Ranch have always been committed to offering the very best genetics in their prime, and L30 is a perfect example of that commitment. This Final Print daughter out of the influential 12H donor is something to spectate in person. She is a stout made, heavily constructed and absolutely stunning female with a beautiful udder that is already a proven donor. Her Sherman daughter that sells as Lot 4B and her Eminence bull calf at her side are all the guarantee that you need to know that she is a producer that will have significant ROI in your embryo program.
- L30's GE-EPD profile offers a significant spread from birth to yearling that is in the upper echelon of the breed while still offering tremendous maternal traits and quality and the carcass merit that is demanded by the industry.
- She is backed by the influential Posh 12H donor that is owned with Burns Farms and is certainly becoming a household name. From a genotype and phenotype standpoint, 12H is one of the most elite daughters that 4013 has sired. With well over \$350,000 in progeny sales and counting, 12H has proven time after time that her progeny are the kind that are in high demand. 12H is the dam of the popular Double Seven herd bulls Marvel, Chaos and National and has many other sons and daughters working around the country.
- Maternal sisters sell as Lots 5, 18, 19, 37-40, 49 and 68.
- Ranks in the top 1% for WW and YW; top 3% for Udder; top 5% for Teat; top 7% for SC and CHB; top 8% for CW; top 12% for REA.
- Sells open.

- Homozygous Polled
- Striking young Sherman daughter with all the extra cosmetics that are in demand: conservative markings, red eyes and dark red. On the profile, she is an eye-appealing female with extra length of body, stout and square hip design and big foot while still being feminine and angular throughout her front one-third.
- P5 is backed by the beautifully designed, big spread L30 donor female that is sired by the multi-trait leader Final Print and out of the influential Posh 12H donor.
- Numerically, P5 offers a major league spread from birth to yearling, excellent teat and udder scores and top notch carcass merit.
- Ranks in the top 1% for WW and YW; top 5% for Teat and REA; top 6% for CHB; top 7% for CW; top 8% for Marbling; top 11% for SC and Udder.
- Sells open.

RST FINAL PRINT 0016

Maternal brother to Lot 6

- 1150 is a maternal sister to the proven multi-trait leader RST Final Print 0016, who is unmatched in his combination of low birth, calving ease and high growth, and this half sister sired by Cuda 504C carries on that impressive combination. She is a feminine, exquisitely designed, conservatively marked and structurally correct donor female that comes equipped with a nice, functional udder.
- 1150 is a calving ease female with an impressive spread from birth to yearling weight in a moderate and efficient design that doesn't sacrifice maternal or carcass traits. We have retained several daughters, so we are able to offer such an impressive donor in her entirety.
- 1150's last three IVF flushes have averaged 6.7 embryos per flush.
- Ranks in the top 3% for M&G, top 4% for Milk; top 6% for MCW and Marbling; top 7% for REA and CHB; top 11% for BW and WW.
- Offered with Candy Meadow Farms.
- Sells open and ready to flush.

- Homozygous Polled
- Check out the incredible femininity, style and extras that this Loewen Sandhill daughter possesses. 35N is a stunning female with extra length of body and extension through her front one-third in a moderate, easy-keeping design.
- 35N is a calving ease and low birth weight female with added fertility, longevity and maternal traits while still offering highly sought after marbling.
- Her sire, Loewen Sandhill, created quite the buzz at the C&L Maternal Excellence Sale from those who saw him and appreciated his impressive phenotype, excellent numerical profile and his pigmentation and markings. He passes those traits on to his progeny, and 35N is an excellent example. She is backed by an impressive first-calf heifer sired by KSU Land Grant that originated in the Tegtmeier program.
- Females like 35N are the type that are long term producers that stay in the herd and produce progeny that are highly marketable and in demand. Buy with confidence.
- Ranks in the top 1% for Udder; top 2% for Teat; top 7% for BW, SC and BII; top 8% for CED, Marbling and BMI; top 9% for SCF; top 15% for Milk and CHB.
- Sells open.

Fall Open Yearling Donor Prospects

lot 8

- P76 is a top donor prospect sired by the \$58,000-valued SHF Legion. Her dam is the past Big League Genetics \$45,000 top selling Lot 1 female 77 Miss Key West 12H K26 ET, who now resides at GKB Cattle in Texas.
- A beautifully designed female with extra length and extension, capacious rib shape and a big, square hip design, P76 balances out from the side with added power. She is built correct from the ground up and moves with grace and presence.
- She has a unique GE-EPD profile and is the only female in the breed with her combination of CED, YW, SCF, CW, REA, Marb, BMI, BII and CHB.
- Her maternal sister sired by Horizon sold in the 2025 Big League Sale and was a \$10,000 bred heifer that now works in the Colyer Ranch program. This is a profitable cow family that consistently produces progeny that are highly desirable seedstock, and this yearling female by Legion fits the bill.
- Full sister sells as Lot 34.

• The Big League opportunities keep coming with the lead fall-calving first-calf heifer, a full sister to the \$60,000 2025 Big League top selling female, 77 One of One 1040 ET, purchased by the partnership of 77 EL1 Ranch and Five J's Cattle Co. Her dam, 4B Oksana 1040 ET, was also purchased out of the 2021 Big League Sale by Double Seven Ranch from 4B Herefords. Last year, 1040 and her progeny were featured lots that totaled \$84,000. M01 most closely resembles her phenotype and numerical package.

• If you like powerful females with a productive brood cow look and design, then look no further than this big spread female with added maternal and strong carcass.

• Ranks in the top 2% for REA; top 7% for YW; top 9% for WW and M&G; top 10% for SCF; top 11% for BMI and BII; top 13% for BW; top 14% for Teat and Udder; top 15% for Milk.

- Leading off the Spring Bred Heifer division is this absolutely stunning Barracuda daughter who is a phenotype superstar with an outstanding numerical profile to boot. She is the first calf out a bred heifer that Double Seven purchased from the Colyer program.
- Individually, 9N is a functional, structurally correct female with a long, square hip design, extra length of body and bold center combined with unprecedented femininity through her front one-third. She is marked the way you want them with freckles and two ring eyes and is good from every angle.
- 9N offers calving ease with a big spread from birth to yearling coupled with breed-leading maternal traits and strong carcass merit. Study her phenotype, data and her pedigree that is loaded with impactful donors and sires, and it is plain to see that it is just a matter of time before she makes her influence known in production.
- Ranks in the top 1% for M&G and Udder; top 2% for Milk and Teat; top 5% for WW; top 7% for MCW; top 9% for YW; top 15% for Marbling and CHB.

- Another beautifully designed and short marked Barracuda daughter that is a moderate, easy fleshing female who is maternally bred. She is a direct daughter of the \$195,000-valued Genesis Gal 2138 donor female that works in the Jennings Land and Cattle program in Illinois, a royally bred Genesis daughter out of the prolific 1311 donor female and a full sister to Arlo.
- N29 offers a balanced numerical profile that has 11 traits in the top 20% of the breed.
- Ranks in the top 2% for Teat, top 3% for Udder; top 5% for MCW; top 11% for M&G; top 12% for Milk; top 14% for SCF.
- P.E. 3/1/26 to 7/29/26 to SHF Horizon D287 H022 ET. Ultrasound checked safe 4-1/2 months carrying a bull calf.

Spring Bred Heifers • Horizon & Legion daughters

SHF HORIZON D287 H022 ET

Sire of Lot 33

lot 33

- N57 is a striking ET daughter of Horizon out of the Alainna K179 donor female that is dark red and fully pigmented. She exudes femininity with grace and is a well-built female with an impeccable structural design.
- N57's GE-EPD profile offers remarkable calving ease, negative birth with accelerated growth, top tier Teat and Udder, and highly sought after marbling. Her phenotypically pleasing design combined with her genotype promotes her strong production value in the pasture or the donor pen.
- Maternal sister sells as Lot 10.

77 MISS HORIZON K179 N57 ET

lot 34

- N75 is a top donor prospect sired by the proven calving ease and multi-trait leader SHF Legion out of the K26 donor that was a past Big League Genetics Lot 1 top selling female and now resides at GKB Cattle in Texas. She is a conservative-marked, ring-eyed and dark cherry red female with an elite phenotype and genotype combination that will garner plenty of attention from the most astute breeders.
- N75 offers breed-leading calving ease, low birth with enhanced growth, top tier maternal traits and value-added carcass traits with dollar indexes that put her numerical profile in rare air.
- Her pedigree is loaded with top producing females and with her impressive combination of phenotype and numbers, it isn't hard to imagine that we will be hearing more about her future production for her next owner sooner rather than later.
- Full sister sells as Lot 8.

Spring Bred Heifers • Legion daughters

77 MISS TRADEMARK 1040 83K

Dam of Lot 35

lot 35

- Short marked and eye-appealing Legion daughter with a remarkable GE-EPD profile that promotes calving ease with a big spread from birth to yearling weight, superior fertility and longevity, maternal prowess and highly sought-after marbling that equates to top dollar indexes across the board.
- Her donor dam, 83K, was one of the featured Oksana 1040 daughters in last year's sale that commanded \$12,000 to Heyen Farms in Illinois. Study the pedigree, numerical package and phenotype combination on a young female that can move a program forward.

77 MISS LEGION 83K N64 ET

lot 36

- The impressive Legion daughters just keep coming in this set of bred heifers. N68 is a bold ribbed, maternally designed beauty with all the extras—ring eyed, short marked and deep cherry red in color.
- N68's GE-EPD profile, like her paternal sisters, is big league, and she is backed by the Brigadiers Beauty donor that is still producing natural calves at 12 years of age. Beauty is the dam of the highly productive Loewen Herefords donor Hadley G16, who has several daughters that are highly profitable donors in the Dry Creek program.
- Study your lesson here on a big numbered, beautiful female with the style, balance and power it takes to make it to the donor pen.
- Maternal sister sells as Lot 16.

- This Makers Mark daughter is a calving ease female who is maternally bred and flat out works in the pasture. If you need any convincing of what this cow can do, the February K014 heifer calf at her side should make a believer out of you. The bull calf in her belly by Marvel that is due in January could pay your cow off quickly.
- Full sister sells as Lot 65.
- Ranks in the top 2% for MCE and Teat; top 3% for Udder; top 11% for SC; top 15% for BW.
- A.I. 4/16/26 to 77 Marvel 12H L32 ET.
Ultrasound checked safe to A.I. carrying a bull calf.
P.E. 4/24/26 to 7/29/26 to 77 Chaos 12H K41 ET.

- 115L is a big bodied, powerfully designed donor prospect sired by Double Steal. She is a conservatively marked, fully pigmented female who comes equipped with a gorgeous udder.
- Her numerical profile offers breed-leading growth, scrotal and CHB.
- 115L's dam stems from the prolific 344N donor from Loewen Herefords that is also the granddam of Genesis, Grady and Garfield.
- This female's future production potential is off the charts. She is destined to make a positive impact on her next owner's breeding program.
- Ranks in the top 1% for YW, SC and CHB; top 2% for CW; top 7% for Marbling; top 9% for WW; top 10% for REA; top 14% for Teat.

Dam of Lots 4, 5, 18, 19, 37-40, 49 and 68

- Homozygous Polled
- Striking Grady daughter that was the first natural calf born out of the prolific Double Seven Ranch and Burns Farms donor Posh 12H. 93J is a powerful female with a long and square hip design, extra length and depth of body with an impeccable structural design. She is long and feminine through her front one-third and comes equipped with a beautiful udder that is full of milk. She records progeny ratios of 2@106 for WW, 2@107.5 for YW and 2@128 for %IMF.
- 93J's numerical profile offers calving ease, low birth weight with accelerated growth, added fertility and maternal traits plus breed-leading Marbling. The 12H daughters have been excellent producers thus far, and 93J fits the mold. We love this female and are retaining a daughter in the herd.
- Maternal sisters sell as Lots 4, 5, 18, 19, 37-40 and 49.
- Ranks in the top 2% for Marbling; top 4% for MCE; top 5% for SC; top 8% for CED and CHB; top 11% for M&G and Udder; top 12% for Milk; top 14% for Teat; top 15% for BW and BII.

- Powerfully constructed and performance-oriented Grady daughter that has an outstanding numerical profile, with 15 traits ranking in the top 20% of the breed or better.
- 82J excels at many economically important traits, and her progeny are highly marketable, as her first daughter sired by Barracuda sold in last year's event as a bred heifer to Anderson Ranch in Arkansas.
- Ranks in the top 3% for SC and BII; top 4% for WW, M&G, REA and BMI; top 6% for SCF; top 7% for YW; top 8% for CHB; top 9% for Marbling; top 11% for Udder; top 12% for Milk; top 14% for Teat.
- A.I. 5/17/26 to 77 Marvel 12H L32 ET.
Ultrasound checked safe to A.I. carrying a bull calf.
P.E. 5/24/26 to 77/29/26 to 77 Chaos 12H K41 ET.
