Welcome

Welcome to the 2026 Coyote Ridge Ranch Spring semen offering!

We are excited to open up our Herdbull battery to fellow breeders and peers. The genetics offered here are bred to build cowherds and we appreciate that CRR bulls have produced marketable progeny that have consistently topped sales across the country in some of the nation's top programs.

Why? At CRR we are dedicated to developing a high quality, functional cowherd that adds value to our customer calf crop. The beef industry is highly competitive and ever-evolving, but irregardless of current trends, there are principles we strongly adhere to at CRR. First and foremost we believe our cattle must be as problem free and functional as possible. Udder quality, fertility, structural integrity and the ability to perform efficiently on grass are at the forefront of our breeding strategies.

Besides these "function" traits CRR also strives to produce high value, balanced performance cattle that will consistently perform at a high level for the calf/calf producer and on through the feedyard. The great herdbulls here are backed by strong maternal lines and every one of these sires is supported by cow families that have stood the test of time and have the progeny performance ratios that excel among their contemporaries.

Study these bulls and find the right fit for your program's goals. We look forward to working with you and answering any questions you may have.

*Thanks,
Hampton*

• Balance 107 is a homo-polled Mandate son that is bred for calving ease and maternal strength without sacrificing performance. Balance is a big ribbed easy fleshing bull with an abundance of shape and masculinity. His first two calf crops are exceptional at CRR and HME. He is siring moderate birthweight progeny that have a well-balanced, high-quality look and are indexing well at WW and YW. Will see heavy use in both herds.

- Wind River 347 is a power bull that is a highly versatile breeding tool. Maternal, growth, carcass and excellent profit indexes are stacked into 347's pedigree. His phenotype is impeccable. Wind River is built right from the ground up. Big foot, deep massive rib cage and has a powerful square hip. He has the breed character and masculinity that CRR demands from our herd bulls. He is backed by a powerful and highly functional cow family. Use Wind River to build a maternal base and produce high quality sought-after sons. Lead off bull in CRR's Champion Pen.

• Punch 338 is one of the most impressive individuals ever born at CRR. A highly maternal calving ease bull out of the famous "8124" cow, who is also the dam of Levitate. What sets Punch apart from other calving ease options in the breed is he is stout, masculine and exhibits shape and power from all angles. Full pigment, short marked and backed by the cow power, a breeder's desire. Anchor of CRR's Champion Denver Pen.

- Saratoga 380 is a homo-polled, highly pigmented calving ease bull with a balanced EPD profile. 380 is a stout, rugged moderate framed bull with a great design and build. His dam "723" is a can't-miss donor cow at CRR who traces back to the famed "161" Sooner daughter. Calving ease, structure and shape with balanced EPDs.

- Divergent 170 is a dark red, short-marked, homo-polled calving-ease specialist. 170 is an impressive phenotype bull. Deep, sound and very correct in his build and structure. He is transmitting this to his progeny. Divergent is siring high quality, correctly balanced progeny that continue to perform. 170 is a valuable asset to produce calving ease and add value to your calf crop.

- Pyramid Candor 9139. We purchased Candor from the Frederickson herd as an outcross sire that is backed by one of their most prolific cow families. Candor is a "changer" bull. He stamps his progeny with the same phenotype and performance he possesses. Moderate, massive ribbed, loose structured and full of shape. His sons are highly marketable and sought after and his first daughters have calved this spring and look phenomenal. A true breeding bull.

- Levitate 142 is a power bull who is making waves across the Hereford breed. Seven sons averaged \$25K at NJW's bull sale including their \$75K top seller. 142 is transmitting mass, shape and power to his progeny. He is backed by the 2 most prolific cows at CRR. His dam 8124 and paternal granddam are the mothers of multiple herd bulls. Use Levitate to create value in your calf crop as well as utilizing his daughters to build your maternal base.
