viewing

Visitors are welcome to inspect the cattle anytime at their convenience. The entire offering will be located at Atkins Herefords beginning Thursday, September 24. Prior to that date, please contact us for information.

absentee bidding

If you would like to place a bid but are unable to attend the sale, please direct your bid to any of the owners or sale staff. You may also bid online as the sale will be broadcast live on the Internet.

Jerry & Shelly Delaney Family

2071 County Rd 101, Lake Benton, MN 56149

Jerry: 507.820.0661 | Nick: 507.829.0561 | jdh@delaneyherefords.com

delaneyherefords.com

terms - Terms of the sale are cash or check payable during or after the sale, before cattle will be released. Cattle will not be transferred until paid in full. Each animal will be at the buyer's risk immediately after the animal is sold. Delaney Herefords and/or Atkins Herefords will be retaining two flushes, minimum of six eggs per flush, on all heifer calves sold at our expense and buyers' convenience unless otherwise noted.

guarantee - Pregnant cows are considered breeders without further guarantee. All open females are guaranteed to breed by natural service. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal. No adjustments will be made after nine months from sale day on any animals.

health - All cattle will be sold in compliance with the health laws of the State of South Dakota. Health papers will be provided. All cattle have been tested and are free from any known genetic defects.

insurance - We strongly recommend purchasing mortality insurance which will be available sale day at the clerk's desk.

trucking - Trucking is the responsibility of the buyer. Rader Livestock Transportation, Steven Rader will be in attendance sale day to assist in your trucking needs. Feel free to contact him at 903-439-4418.

transfers - Registration certificates will be transferred to the buyer at the seller's expense. Each buyer must be sure to give the clerk the proper name and address for making transfers.

international purchases - All expenses involved with cattle being exported out of the United States will be the responsibility of the buyer, including all vet work, export permits, and trucking on both sides of the border. Delaney Herefords and/or Atkins Herefords will help coordinate the process.

epds - EPDs listed in the catalog are current at time of catalog printing. All cattle have been tested for known genetic defects.  denotes \$CHB EPD in top 50% of the breed.

accommodations - Numerous hotels and restaurants are located in southwest Sioux Falls and within 10 miles of the sale. Plus one in Tea, just 3 miles from the sale. Here are some of the closest:

Gateway Park Hotel, Tea.....605-213-1500
Homewood Suites, Sioux Falls.....605-338-8585
Hampton Inn & Suites, Southwest Sioux Falls.....605-271-0992
Comfort Inn & Suites - Avera, Southwest Sioux Falls.....605-593-0768
Holiday Inn Express, Southwest Sioux Falls.....605-275-4155

air travel - The Sioux Falls Regional Airport is just 20 miles from the sale. Please call if you need a ride to/from the airport, we are happy to accommodate.

All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

Pete & Laura Atkins Family

27132 SD Hwy 17, Tea, SD 57064

atkinsherefords.com

Hello Folks -

Welcome to the 2026 Delaney/Atkins Genetic Opportunity sale being held at Atkins Herefords. Growing up in the Hereford business, we have a passion for the breed and for producing the highest quality seedstock possible. The offering we present to you this year represents over 150 years of breeding registered Herefords by our families and close to 40 years of the Delaney/Atkins partnership.

We are offering you our very best. From proven donors to the highest quality set of open females we have ever sold. As you read through the catalog the influence of 19Z and her maternal sister 45C will become obvious. We lost 19Z this spring at 14 years of age and this will be one of your last opportunities to purchase a number of her daughters. Udder quality, soundness and productivity are trademarks of the 19Z/45C cow family and their influence can be found across the breed. Take advantage of this opportunity to share in their success.

Many of you know Mike and Mavis Craig. Pete and Mike grew up as neighbors just as their parents did. Mike has become a familiar face on the Hereford scene clear back to Denver 2004 when Mike urged Pete to put in one more bid on a Coyote Ridge heifer calf in the National Hereford sale. That heifer turned out to be Violet, the dam of Cracker Jack. You will notice a number of cattle in the sale with MMC in their prefix. Those cattle are owned in partnership with Mike and Mavis.

We look forward to seeing you at the sale and please join us Friday evening for great steaks courtesy of Neil Johnson, live music and fellowship and fun. If you have questions or we can be of help in any way please call.

*Pete Atkins
& the Delaney/Atkins Crew*

Putting together this sale we wanted to offer the best of our programs and we could think of no better way to start off than right here. Back in our fall 2023 sale we offered ½ interest in 125L and our good friends at Ollerich Brothers Herefords had the foresight to buy and partner with us. In her first calf crop in 2025 she produced sons including Gunslinger – One of the Denver high sellers at \$40,000 for ½ interest to Stellpflug Cattle. In our February sale a \$20,000 son to Hansmeier and Sons and a \$12,000 son to Kevin Stork. In addition, her 2025 heifer calves included a \$14,000 heifer to Stellpflug in our fall sale and the \$10,000 high selling heifer in the Gopher the Purple sale to Henson Farms. Her daughter selling as lot 2 will be a sale feature and you will see more outstanding sons selling next spring.

There is no other animal in the breed with her combination of Growth, SCF, BMI and CHB. Plus she is in the top 7% for Milk, top 3% for Udder and 5% for Teat.

Her sire, Lincoln, was lost at a young age but he is leaving his mark for sons packed with beef and beautiful, productive daughters.

Son of Lot 1 | JDH AH GUNSLINGER 40N ET

Her dam, 8032 is also the dam of Final Print, known for calving ease, performance and high value daughters.

She has worked extremely well as a donor. She has been aspirated 9 times producing an average of 20 quality embryos per IVF.

If you are in search of a donor that can add performance, maternal strength and quality, this is the female for you. Selling 100% full interest, open and ready to flush. Offered to you by Delaney, Atkins and Ollerich.

Massive bodied with goggle red eyes. This high capacity female has had the look of a brood cow since day one. We love how maternal she is with ideal sweep to her rib while being so sound and square at the ground. Her dam has done so much for our program in such a short time. What makes this female even more exciting is that she will be among the first Red Hot daughters to sell. 21P has the pedigree and performance to leave a legacy of her own wherever she goes.

On paper she's moderate at birth with massive growth. She ranks 8 traits in the top 10% of the breed.

A big bodied, stout featured full brother will highlight our Denver pen of bulls.

49L has been an untouchable until now. We knew she was special from the beginning and now that we have multiple progeny, pregnancies and embryos built up we can open the gates and offer her up to you. She has done everything right, she kept a tight calving window while being a big time egg producer. Maintained the condition, look and style we are after, and sports a tremendous udder with excellent maternal instinct.

49L transmits so much quality in each of her progeny, as you will see in her three daughters offered in this sale. They inherit her exceptionally attractive profile, depth of body and correctness she carries herself with.

49L is the result of combining two breed greats, Benton and Mercedes whose progeny have had success all over the country. Giving you a strong indication of the consistency and quality built into this pedigree.

She sells bred to our exciting new herd sire Land Bartlett 5059 ET. Outstanding opportunity to invest into an elite level donor in the prime of her life.

She flushes extremely well and her eggs have been sticky. She has been aspirated 4 times producing an average of 16 quality embryos per IVF.

Pasture Exposed to Land Bartlett 5059 from 4-23 to 7-1; vet called safe for a middle of February calving date.

This female was purchased as our pick of the 2025 Stellplug sale with Mike and Mavis Craig. We love this young cow because of her beautiful udder, length of body and attractiveness, plus she is loaded with pigment and freckled faced. She is a picture of what we think a productive beef cow should look like. She has proven herself in her production with her first calf, a heifer, selling for \$18,000 and her second calf selling in this sale. Her first calf was the heaviest weaning heifer calf in the 2025 calf crop for Stellplug's. In 1 flush, using conventional semen, she produced 11 quality embryos.

Offering one IVF flush to be performed at Trans Ova Genetics in Sioux Center Iowa with a guarantee of 6 quality embryos.

The buyer will receive all embryos produced over 6. The buyer will be responsible for all costs associated with flushing. She is open and ready to flush.

Another direct daughter of 19Z, she is sired by Red Hot – The exciting young herd bull for GKB, Copeland & Sons and Delaney’s. You will be seeing a lot of his progeny in the future and here is one of the first chances to buy a daughter, plus out of a breed legend.

She is dark red and pigmented and unique in her pedigree in that she is not only out of 19Z but on her sire’s side also goes back to 45C, a maternal sister to 19Z. A very attractive heifer and a breeding tool that can move any program forward.

Check out this attractive Red Hot, she's gorgeous from the side and packs a punch from behind. She reminds me so much of her dam, 34J, who highlighted last year's sale selling for \$30,000 to our good friend Skylar Kuil. 46P ranks in the top 1% in four traits including SCF and BMI. She also boasts a .43 Marb which puts her in the top 7% of the breed.

Homozygous Polled

Homozygous Polled, dark red and pigmented. This heifer has been a standout all summer and just keeps getting better. Her dam, 814F is a daughter of 19Z and the dam of In Demand. Her sire, Red Cloud is doing a great job across the country. This heifer has cow written all over her. She has great balance and style, thick made with lots of body and carries herself well. This heifer has been a favorite of many visitors this summer and when you see her you will see why.

THREE (3) GRADE 1 IVF EMBRYOS

One package of 3 grade 1 IVF embryos that will be full siblings to Lot 12.
Stored at Trans Ova Genetics, Sioux Center, Iowa.

We love our In Demand calves and when you see her you will know why. This may be one of the best show prospects we have ever raised. Tremendous square hip and well muscled. Big sweep to her belly. Beautiful extension in her neck and she carries herself with pride.

She has 19Z in the top of her pedigree and 45C in the bottom, making her double bred to one of the most influential cow families in the breed. She is a natural calf and her mother is a daughter of Prominent out of Begalka's Marianne 231 who has produced many show winners and over \$2 million in progeny. This girl is something special.

Owned with Bones Hereford Ranch.

Garfield

Homozygous Polled - Selling 100% interest in this great herd sire.

Garfield. This guy is impressive. Between AH and JDH he has covered cows every spring and fall since he has arrived. We are so pleased with the way he has developed and how he has held his condition. He has been an outstanding breeder.

Homozygous polled, red eyed, dark red to the ground, top end EPDs, outcross pedigree, elite phenotype. Check, check, check. . .

On paper he's high CED, low BW, high growth. His scrotal is top 3%, his fertility is top 2%. His Udder and Teat is top 5% and BMI top 2%. Not to mention his carcass is top 25%. It's hard to find a proven bull available with this combination of EPDs as well as the phenotypic advantages he offers. This truly is an outstanding opportunity.

Garfield is big middled with excellent muscle shape and expression down his top and through his hip and stifle. At the surface, his feet are excellent, he's clean jointed and smooth made.

Throughout the catalog you will see his influence in both herds. We have been so pleased with his daughters. Maybe the two best replacement heifers we have at JDH are Garfield daughters. We really think they will make outstanding cows and the male progeny certainly carry his muscle, shape and soundness.

Tremendous two-year-old sired by Generator with a bright future. The proof of her value can be found in this gorgeous heifer calf at side. Not only does 79M offer an elite phenotype, perfect feet and legs, excellent udder quality and a gorgeous look from the side. She also boasts a tremendous set of figures with a .5 Marb and over 200 CHB. Just thinking about the mating possibilities and potential embryo calves out of her has us excited. Sells safe AI to the popular RED HOT 43M. She could be carrying your next herd bull!

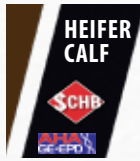

Retaining the right to two (2) flushes with a minimum of six (6) transferable embryos at the buyer's convenience and the seller's expense.

AI'ed to JDH JCS RED HOT 43M ET on 4-22-26. Vet called safe to AI date due January 29th carrying a BULL CALF. Pasture Exposed to Land Bartlett 5059 ET from 4-23-26 to 7-1-26.

An own daughter of 19Z sired by Land Grant. Here is one we didn't plan to put in the sale but having just calved a 2 year old full sister, we decided we could part with one of them. They are both outstanding. Long bodied, big volume with an excellent quality udder. The Land Grant daughters are doing a great job with the first 19 in production having an average weaning ratio of 103.7.

She has an excellent set of balanced EPD's. High calving ease and lower birth weight yet good performance numbers. Excellent Milk, Teat and Udder. All around good numbers that gives you lots of options when making the sire choice.

This cow also comes with some show ring history having been a member of the Grand Champion Pen of 3 heifers at the 2024 Cattlemen's Congress. Top that off with the fact that she is a daughter of 19Z. She is bred to 4B Garfield 338 and will calve prior to the sale.

36A

Due to calve prior to sale day. Bred to 4B Garfield 338.
Updated information will be provided.

A phenomenal young female from an outstanding cow family. Her dam sells as lot 33. Her grand dam is still in production here at AH. Her great grand dam was still producing at age 13 at JDH. All great uddered females that consistently raise excellent calves. This lady's first calf is a Final Print bull who sells as lot 42 in this sale. Her maternal sister 910G was one of the high sellers in last year's sale and now a donor for Joe Starr in Wisconsin.

Like her entire cow family, she has a beautiful udder, is deep bodied and soft made. Her numbers show she has excellent calving ease combined with high growth, good milk and udder quality. To top it off she is pigmented. Like her dam and sister she needs to move into a donor pen. She will calve prior to the sale to 4B Garfield 338.

37A

Due to calve prior to sale day. Bred to 4B Garfield 338.

One of the most unique daughters of Final Print that I have seen, she sells with her heifer calf by Red Hot. This is a power cow with an extra shot of frame, extension and performance. Red eyed and freckle faced she is extended through her neck and front end that goes with her extra length of body and overall eye appeal. Her dam goes back to a Munson daughter that was one of the highest performing females we ever raised.

We flushed her dam to Red Hot this spring and can't wait to see the results. Some very good cattlemen pick her dam as one of our best cows. The Red Hot heifer calf selling at her side is red eyed and looks to have great potential. You will be seeing a lot more from these Red Hot calves.

Sired by JDH AH OLD FASHIONED 25M ET

Homozygous Polled

Proven daughter of Validated with one of the best EPD profiles in the sale. An excellent producer she has a daughter that we are retaining in our herd and her fall 2025 son will sell in our February bull sale. Her .82 Marbling EPD ranks in the top 1% of the breed and her CHB of 212 is also in the top 1% of the breed. In addition her BMI of 513 is in the top 3% of the breed. Perhaps one of the best things about this lot is that she sells with a beautiful heifer calf by Old Fashioned. The Old Fashioned calves are very high quality and this red eyed baby will have that plus an outstanding set of EPDs. We expect her calf to have her GE-EPD's by sale day.

Homozygous Polled

Actual birth weight 72 lbs. Dark red and long bodied and red eyed with a huge set of testicles. His dam is a daughter of 45C who has produced so many great cattle in the breed. He is her second calf with her first calf being a heifer that we have retained in our herd. Outstanding EPD profile with calving ease in the top 16% of the breed, Weaning weight in the top 4%, Scrotal in the top 1%, SCF top 5% and Marbling in the top 4%. Plus his BMI and CHB are both in the top 3% of the breed. It is hard to match that combination of numbers and his phenotype.

At Atkins Herefords as we move to fall calving for our natural calves, we decided to offer a couple of our best fall yearling bulls. These bulls have been developed on grass and hay with very little supplement to insure soundness. They are presented in their working clothes ready to go and should hold up well.

Dam of Lots 43-44 | 19Z

We love the way these standout daughters have performed. Beautiful uddered, easy keeping, brood cows. 132N combines an elegant design with the kind of balance and quality that stand out from every angle. She boasts a set of numbers any program would value. Including high SCF, UDDR and Teat scores. A top 6% Marb and top 4% BMI. We believe this Mating with Bartlett 5059 will yield a calf that excels phenotypically as well as genetically and can truly advance a program.

Pasture Exposed to LAND BARTLETT 5059 ET from 4-23-26 to 5-19-26 then 4B REDFORD 4130 ET from 5-19-26 to 7-1-26. Vet called safe for a middle of February calf.

SPRING BRED HEIFERS

LOT 45 | JDH ND 16G LADY ZENA 50N ET

The complete package. Well rounded EPDs, including top 10% in all the \$ indexes and top 5% Udder and 3% Teat. This comes as no surprise as both sides of this pedigree are loaded with proven, long lasting cattle. Her dam, 610D has been an outstanding producer and we see the same long term value in 50N. Adding to her value she sells carrying the service of RED HOT 43M. She is conservatively marked, feminine headed, and built for the long haul. This female has the arrow pointing up and will be a tremendous asset to any program.

AI'd to JDH JCS RED HOT 43M ET on 4-4-26. Vet called safe to AI date due January 11th. Pasture Exposed to LAND BARTLETT 5059 ET from 4-23-26 to 5-19-26 then 4B REDFORD 4130 ET from 5-19-26 to 7-1-26.

Dam sells as lot 33, maternal sister sells as lot 37.

LOT 46 | 77 MISS TRAILBLAZER 5L 84M

Homozygous Polled

If you like cattle that are dark red, goggle eyed, homozygous polled, good looking, sound and back all that up with an elite set of numbers than look no further. She ranks in the top 5% of the breed in 11 traits! Nearly a 16 CED, top 1% Scrotal and top 1% in both BMI and CHB. Her figures are next level good.

Not to mention she's carrying the service of our new herd bull that has us excited, 4B REDFORD 4130 ET. Study this one, as she checks so many boxes necessary to be a high end, long term donor.

Exposed 4B REDFORD 4130 ET from 4-9-26 to 7-1-26. Vet called safe for an end of February calf.

SPRING BRED HEIFERS

Sire of Lot 47 | 2L

Homozygous Polled

Here comes another goggle eyed homozygous polled beauty carrying a heifer calf. She is red necked, red eyed and red to the ground. She has all the attributes to be an outstanding long term producer. We love the way she's built, she is good footed, deep bodied and very maternal in her look. Her granddam 97J has been a rockstar for us as she ratios 4@ 88 for BW and 3@ 109.3 for WW. 104M ranks in the top 3% of the breed in 6 traits. Including scrotal, SCF, Uddr, Teat and BMI.

AI'd to JDH JCS RED HOT 43M ET on 4-4-26. Vet called safe to AI DATE. Exposed 4B REDFORD 4130 ET from 4-9-26 to 7-1-26.

Homozygous Polled.

Check out the EPD profile on this elite Final Print daughter. She excels in maternal value while also bringing added carcass merit. Double digit calving ease to triple digit growth, top 5% UDDR, TEAT and Marb PLUS Top 1% BMI AND CHB. This bred heifer division is deep, and these Final Print daughters continue to impress.

94N is smooth made, feminine fronted and she's built square and correct from the ground up. She sells safe in calf to one of the most exciting young bulls in the breed JDH JCS Red Hot 43M.

AI'd to JDH JCS RED HOT 43M ET on 4-4-26. Vet called safe to AI date due January 11th. Pasture Exposed to LAND BARTLETT 5059 ET from 4-23-26 to 5-19-26 then 4B REDFORD 4130 ET from 5-19-26 to 7-1-26.

LOT 48 | JDH 84K 0016 JULIA 94N

SPRING BRED HEIFERS

Broody, big bodied daughter of final print out of a Dam of Distinction 122C. Unfortunately 122C tested as a carrier but she was knocking on the door of being a donor due to her 105.8 nursing ratio on 9 calves and daughters like 82N are a prime example of the quality she can produce. Bold, powerful and correct in their structure. She will be a valuable asset to any program due to her inherent longevity, fertility and maternal prowess. Not to mention she's carrying a heifer calf by LAND BARTLETT 5059 ET. On paper 82N offers a big birth to yearling spread with excellent TEAT and UDDR scores.

Pasture Exposed to LAND BARTLETT 5059 ET from 4-23-26 to 5-19-26 then 4B REDFORD 4130 ET from 5-19-26 to 7-1-26. Vet called safe for a beginning of February heifer calf. MDC

Stylish freckle-faced Final Print out of an Entice x 19Z daughter. Moderate framed, easy keeping and striking from the profile. We love how bold and square she is in her design and the pedigree of cattle behind her. Great opportunity to acquire a descendant from the immortal 19Z. She offers a solid set of EPDs with a high CED triple digit growth. The Red Hot calf she is carrying is sure to be valuable.

AI'd to JDH JCS RED HOT 43M ET on 4-4-26. Vet called safe to AI date due January 11th. Pasture Exposed to LAND BARTLETT 5059 ET from 4-23-26 to 5-19-26 then 4B REDFORD 4130 ET from 5-19-26 to 7-1-26.
