HOFFMAN $\frac{1}{5}$ RANCH

Bringing Back Balance

HELD IN CONJUNCTION WITH THE
WORLD HEREFORD CONFERENCE

OCTOBER 27, 2025

12 PM CT • HOFFMAN SALE FACILITY • THEDFORD, NE

Welcome

Jason, Kaycee, Haxton, Kennedy, Hayden

Denny & Dixie

Welcome Hereford breeders both domestically and globally!

To say we are in exciting times would be an understatement! The cattle market and the Hereford breed ARE ON FIRE! We have witnessed never before seen prices in both sectors!

This particular offering is unique to the breed due to the sheer balance it brings to the plate. We work hard to keep a look to these cattle while respecting EPD values. We have been diligent on udder quality, fertility and longevity as well.

The bred heifers are special this year and should make front pasture females when put into production. The heifer calf division is as strong as it has ever been. There are full sisters to "Hoffman Debbie 4370" who was the 2025 NJHE Reserve Grand Champion Polled female. This female was extremely popular due to her high quality and exceptional EPD profile. Females like this keep the Hereford cattle in the show ring from becoming "just show cattle". The time is NOW to keep balance in the ring.

There are some really neat genetic pieces offered as well that can be used both domestically and internationally. The flushes selling have the option to be collected for foreign use. Our lead herd sire, Hoffman Golden Age, is qualified for Canada, Australia and most of South America.

We will assist all breeders from here in the United States and across the globe the best we can. Please contact us with any questions at jason@hoffmanranch.com or (530) 604-5096.

My Best, Jason Hoffman

POLLED. One of our favorite heifers in the sale. She's sharp fronted, has a perfect sweep to her rib and big jump muscles, great on her feet, sound structured, and perfect marked. These Mays are so infantile. We really love this heifer and her kind.

POLLED. One of Austin and Hayden's very favorites, huge top and hip, big boned yet everything fits together extremely well. Not many sires could produce quality at such a high percentage like Proud has. When we found him as a yearling, we thought he could sire both sexes extremely well but it's even more than we thought.

NOTHING HELD BACK!

We hold NO heifers back for our kids as ALL of their bred and owned will sell in the sale, however some will have floors on them. Please feel free to inquire prior to the sale of the level they are protected at.

HORNED. This horned Frisco daughter has a lot of future. We love her design as she's very angular through her front third, deep ribbed, flawless in her structure and has some length to her stifle. This heifer could be extremely competitive as a yearling and won't get missed as a calf.

POLLED. Fully pigmented. I love these Red Thunder daughters, and this one is extra special. She's as good of a Red Thunder as we've seen. She's long necked, big ribbed, big boned, and has extra bone for being out of a calving ease sire. Out of the same cow family that produced, DeBerard, Montgomery, and The Profit. A full brother to Hoffman Thunderstruck, a bull we will use back in our program through AI. The lady cow family has been extremely good. This is one of the really good donors of the kids! She's the dam of a new and up and coming herd sire called Hoffman Thunderstruck. She was the dam of the pick of the fall heifer calves. This particular heifer won our Nebraska Field Day and was Reserve in her division at the 2025 Junior Nationals. She has a balanced set of EPD's, unlimited potential and is a maternal sister to DeBerard, Montgomery and to The Profit.

POLLED. This young cow goes back to the legendary 5139 cows who we sold for 175K to Sierra Ranches in California. She stayed in production until almost 20 years of age. 5139 not only produced herd sires that were used throughout the breed but also produced the daughter #4006 who we sold for 180K to Iron Lake. To me, this is the best 5139 descendant to date. Her first calf was Hoffman Golden Age. Golden Age was used heavier than any other bull at Hoffman Ranch in the 2025 spring breeding season.

POLLED. Golden Age was used heavier than any bull at Hoffman Ranch during the spring 2025 breeding season. Foreign or domestically you would be hard pressed to find a bull that puts together this much growth, marbling, CHB and exceptional udder and teat figures. He is homozygous polled with big, goggled eyes! Check back for more details! We have semen cleared for Canada, Australia and other countries as well. We will sell a total of 200 units...10 units at a time. Owned with Elwood Ranches, CA.
