

THE SEASON OPENER

40TH ANNUAL PRODUCTION SALE

MARCH 16, 2026 - 1PM
AT THE RANCH 1 1/4 MILE EAST OF ODIN - KS

Welcome to our 40th Annual Season Opener Sale. Over the past 50 plus years we have built a high performance cowherd that weans a high percentage of bodyweight. We have prioritized efficiency and performance.

As has been much discussed, we are in unprecedented times in the cow-calf industry. All signs point to calf prices staying elevated, and as many of our customers have realized, "pounds pay the bills". Selecting genetics that will maximize profitability at either weaning or yearling time has allowed our bull customers to experience some of their best times yet.

Where we at B&D Herefords & Angus truly pride ourselves is on the maternal side. While the steer calves sired by this bull offering will put you on the top end when you market them, where these bulls set themselves apart is siring replacement daughters. The U.S. cowherd inventory remains at historic lows, and we are starting to see the cowman keep daughters back to build herd numbers. Pay close attention to the data on the bulls selling. We keep a close watch on the maternal production on each one of these dams, and most of these bulls come from cows & cow-families that are strong producers at weaning time. This highly heritable maternal production ensures that the daughters from both our Angus & Hereford bulls will sire females with longevity & strong maternal traits.

As we always do in our Season Opener Sale, we are selling a select group of commercial spring pairs, both Black Baldy & Angus. These females are backed by the same great maternal performance & genetics as our bulls. With current female demand, we are confident these pairs will make foundation cows for their new owners.

As always, the bulls & cows will sell on video, and we will be live on DVAuction for sale day. We welcome visitors to the ranch anytime to view this set of genetics, and if at anytime you have questions, please don't hesitate to reach out to us.

We look forward to seeing you at The Season Opener!

Sincerely,

Craig Beran

TERMS

Terms of the sale are cash. Cattle are at buyer's risk as soon as sold, but will be taken care of for a reasonable time.

HEALTH

All cattle will sell with official health certificates and will be tested for TB, PI and Bangs. All cattle are guaranteed breeders. Heifers have been calfhood vaccinated. Bulls are semen and Trich tested.

GUARANTEE

All bulls are guaranteed to be breeders. Bulls selling for \$7,500 or more are guaranteed against breeding injury for the first breeding season, which is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided, or if the buyer prefers, credit will be given toward a bull at the following year's sale, less salvage value of the injured bull. Notification must be given to Beran Brothers prior to selling the injured bull.

DELIVERY

Volume purchases of \$10,000 or more are delivered free anywhere in the continental U.S. No delivery will be over \$250 per bull to anywhere in the lower 48. No delivery terms offered on females.

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.

- The best way we know to lead off the Hereford bull division is with this 2172K son. This Spring represents the first of the aged sons of his to sell and you can see why he was our selection from Cooper's in 2023.
- 2172K was the #1 WW & YW bull in that sale and he passes that amazing performance along to his progeny. This bull ratioed a whopping 123 at weaning time and is in the top 20% for his calving ease & marbling.

- We start the yearling bull division with a set of ET brothers backed by a great donor here at the ranch. We purchased her dam, 1106Y, in 2017 and she was then bred to 420B, and this great cow was the result. Flushing her to 0011H was a no brainer and these three full brothers show you why. They offer the highest carcass numbers in the entire offering, possess great growth along with tremendous eye appeal.

- Sired by a 9108G son we retained in the herd, 537 checks a lot of boxes for growth & carcass around a moderate CE.

YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.
You've kept all the records.

AngusLinkSM combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves.

From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

Group Age & Source: Verifies the group age and source of the cattle

Angus-Sired Genetics: Verifies calves are sired by 100% registered Angus bulls

Non-Hormone Treated Cattle: Verifies cattle have never received hormones

NeverEver³: No antibiotics, no hormones, no animal by-products ever

Cattle Care & Handling: Documents proper management, demonstrates quality commitment

Calf Management: Documents preventative health program

Genetic Merit ScorecardSM: Measures the genetic merit of calves for feedlot performance and carcass merit.

**Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.
