**The bottom line is
there for a reason.
We put cattle
above it.**

From producers to veterinarians, everybody in this industry is here for the same reason: the animals they raise. That's why we put cattle first, and everything else second. Because when we put the health and well-being of the animal before profit and quick fixes, the rest just takes care of itself.

Cattle First.

SOME SAY WE'RE FULL OF IT. THEY'D BE RIGHT.

Full power. Full comfort. Full features. Case IH Farmall® Utility C series tractors are hard-working, heavy-duty workhorses with flexible options to handle any application. Designed with their weight distributed in six different locations, these versatile tractors push, pull and lift more without the addition of inefficient wheel weights. The powerful 4-cylinder, 3.4-liter engine is electronically controlled, turbocharged and after-cooled for quick throttle response. Plus, the emissions system does not require a diesel particulate filter – reducing time loss and fuel waste on regeneration. And with improved cab comfort, these deluxe tractors are more than ready to do their part to make long days a lot more productive.
