SHOCKLEY RANCH & G4G CATTLE CO.

ANNUAL BULL AND FEMALE SALE

April 25, 2026 | 12 Noon (CST)

New Sale Location: 29505 Overstreet Kerr Rd., Keota, OK 74941

The Shockley Family

The Gipson Family

Welcome to the 2026 Shockley Ranch Herefords & G4G Cattle Co. Annual Bull & Female Sale.

On behalf of both the Shockley Ranch and G4G Cattle Co. families, we would like to sincerely thank you for your interest in our programs and for taking the time to evaluate this year's offering. It is a privilege to bring together two programs that share a common goal—producing practical, high-quality Hereford cattle built for the demands of today's industry.

This year's offering represents years of disciplined breeding and a continued commitment to the fundamentals that drive profitability. At Shockley Ranch, more than two decades of focused selection—dating back to 1998—has centered around soundness, phenotype, and proven maternal strength, utilizing a progressive A.I. and ET program to move the herd forward. At G4G Cattle Co., the emphasis remains on raising stout, rugged, and functional cattle that are built to perform in real-world conditions with fertility, structural integrity, and longevity at the forefront.

The result is a deep, consistent set of bulls and females that are right for the times. Whether you are in need of calving ease, added growth, or maternal strength, this offering is designed to provide practical solutions for both registered and commercial operations. You will find genetics represented from some of the breed's most progressive sires, along with influence from proven cow families such as Mercedes, Churchill Lady 1162Y, and others that have made a lasting impact within our programs and beyond.

We firmly believe that powerful cow families are the foundation of any successful operation, and this set of cattle reflects that philosophy—combining phenotype, disposition, and genetic predictability into a package that is built to last.

We invite you to join us prior to the sale to view the cattle and enjoy time visiting. The relationships built through this business are what make it truly rewarding, and we are grateful for the friendships and support of our customers, partners, and fellow cattlemen. To those who have been with us over the years, thank you for your continued trust. To those joining us for the first time, we look forward to earning your confidence.

Please make yourself at home, study the offering, and feel free to reach out with any questions.

We look forward to seeing you sale day.

*Sincerely,
Shockley Ranch Herefords & G4G Cattle Co. Families*

HOW MUCH CAN YOU AFFORD TO PAY FOR A BULL?

The slaughter bull market has been tremendous, and many bulls are bringing \$3,500 and much more. There has never been a time when trading up to a new younger bull has been this easy.

The old time ranchers have always said a new bull is worth five steer calves, and then he is paid for in the first year.

With this formula:

- 5 steers times \$2,500 is \$15,000 dollars that can be spent on a new bull.
- \$15,000 for the new bull minus \$3,500 salvage on the old one makes your actual purchase only \$11,500 dollars.
- \$6,000 dollars divided by 5 years you own the bull is \$2,300 a year to use the bull.
