2026-2027 AI BOOK

OUR MISSION

White Hawk Ranch has a clear and unwavering mission:

At White Hawk Ranch, our mission is to produce and market Hereford bulls that sire offspring born easily, grow at an optimum rate to harvest, produce a high-quality end product for the consumer, and sire outstanding replacement females that will strengthen and carry on the cow herd.

We strive to produce cattle that deliver value throughout the entire production chain—from calving ease and efficient growth to carcass quality and maternal excellence.

PROVEN GENETICS. MEASURED PROGRESS. CONSISTENT RESULTS.

Since 2009, we have submitted one to two bulls annually to the National Reference Sire Program, allowing us to compare our genetics with some of the breed's leading sires.

Our results have been consistently encouraging. In our most recent four or five bulls tested, **80-90% of progeny graded Choice or higher, with 30-40% grading Prime**, based on our reported carcass results. These outcomes reinforce our commitment to measured selection and producing genetics that perform beyond the pasture.

For additional information, please see the recent reports published in the March/April issues of *Hereford* magazine. White Hawk Ranch is proud of the consistency of these results and the strength of our breeding program.

Thank you for your continued support and confidence in White Hawk Ranch.

Gary Hedrick | James Atkins | Diego Gutierrez | The White Hawk Crew

- **CALVING EASE • MATERNAL POWER • CARCASS MERIT**
- 641M is a proven calving-ease sire backed by an outstanding maternal pedigree. His first four calves, out of two-year-old heifers, averaged just **71.5 pounds at birth**, proving his ability to deliver calving ease without giving up performance.
- 641M is a true **curve bender**, combining a low **81 MCW** with a **97 CW**, offering the opportunity to moderate cow size while still adding valuable carcass weight. Then look at the phenotype — **big goggle eyes, dark red to the ground, excellent feet and leg structure, tremendous muscle and outstanding overall balance.**
- He is built to be a **maternal powerhouse**, with a pedigree loaded with proven cow families including **BW 91H 100W RITA 79Z ET, /S LADY DOMINO 0158X, GRANDVIEW CMR 4003 BETH Y115 ET and WHR 4013 820C BEEFMAID 659F.**
- 641M checks the boxes for calving ease, maternal value, carcass merit and eye appeal.
- **Owned with Aden Family Farm.**
- **\$75 per straw - non-certificate bull - 10 straw minimum**

- OKC Pen of Three Spring Bull Calves
- This bull demands attention from the moment you see him. He combines an elite EPD profile with the phenotype, structure and presence to make a lasting impact. His 5.9 CED, 1.6 BW, 79 WW and 116 YW deliver an impressive calving-ease-to-growth combination, while his strong maternal, udder and carcass numbers add even more value.
- Phenotypically, Diamond checks all the boxes. He is sound-footed and free moving, deep bodied and bold sprung, with plenty of shape, balance and dimension. He has the kind of look and presence that gets noticed — and the numbers to back it up.
- Diamond is built to work, bred to add value and designed to make herd bulls and replacement females that pay.
- Homozygous Polled
- Owned with Five Start Polled Herefords
- \$30 per straw - \$75 per AI certificate

- OKC Pen Feature! The third member of our outstanding pen of three spring bull calves shown in OKC. Another powerful curve-bender, going from a .8 birth weight EPD to 78 WW and 120 YW. Short-marked, dark red and loaded with extra pigment, 788N combines eye appeal with performance. His pedigree brings a strong maternal foundation featuring 797J, 650F and 854C. Homozygous polled and owned with Gerber Polled Herefords, this is a bull with the numbers, look and pedigree to get noticed.

- Lead Bull - OKC Pen of Three Spring Bull Calves
- Legend is the kind of bull that demands attention! He combines an outstanding EPD profile with the kind of phenotype and structural soundness that makes him a true herd-sire. With an 8.5 CED, 1.0 BW, 83 WW and 124 YW, he offers an impressive calving-ease-to-growth combination, backed by high maternal value, outstanding udder EPDs and strong carcass merit.
- Phenotypically, Legend checks all the boxes. He is sound-footed and free moving, with excellent body depth, spring of rib, shape and overall balance. He has the look and presence of a bull that can make a lasting impact.
- Legend was valued at \$64,000 and sold one-half interest for \$32,000 to The Last Farm, Florida.

- A standout herd sire with all the bells and whistles! Frontman is google-eyed, dark red, short-marked, and fully pigmented to the ground. He combines an exceptional phenotype with the kind of balance, power, muscle, and structural soundness that makes you stop and take notice.
- We believe enough in this bull to plan to show him in a Pen of Three at the January 2027 Oklahoma National Show.
- LONGEVITY RUNS DEEP IN THIS PEDIGREE!
- His lineage is built on females that simply stay in the herd and get the job done. L332 produced until 15 years of age, with an injury being the only thing that stopped her. During her productive career, she produced herd bulls and donor dams for White Hawk Ranch and KCF.
- 619B IS FOLLOWING IN HER FOOTSTEPS!
- That same longevity, productivity, and cow power are bred into 806N.
- Homozygous Polled.
- Outstanding phenotype. Powerful herd-bull presence. Proven cow family longevity.
- 806N Frontman is the kind you build a program around!
- Owned with J Chester Farms
- \$30 per straw - \$75 per AI certificate

- Another Proven Curb Bender Sire! Backed by a 1.1 BW EPD, top 9% WW and top 6% YW, 289 combines calving ease with the growth to add pounds. His Prime Plus daughters were in high demand at our May 2026 sale, with 839N, the top heifer, bringing \$13,000. These daughters are broody, easy-calving, productive females with short markings. He also brings impressive carcass merit with a .70 REA, .70 IMF and 209 CHB. To top it off, his dam 4010 is a full sister to 4013 and his sire LOEWEN GENESIS G16 ET is one of the most heavily used sires in the Hereford breed. A proven sire that stacks calving ease, growth, maternal value and carcass merit in one package.

- Semen available after Mid-November
- \$40 per straw - \$75 per AI certificate

- **Circle this one!** 791N is the kind of bull that immediately grabs your attention and keeps it. He is clean-made, powerful and confident — he has the presence of a true herd sire. This **homozygous polled, high-performance powerhouse** brings together the **phenotype, pedigree and numbers** to make a major impact.
- His unique pedigree is outstanding from top to bottom, and his elite **calving ease** (11.2) and **birth weight** (-0.02) EPDs are only the beginning. He follows that with a powerful genetic package including **SCF (22.4), MM (33), MCE (12), MCW (60), CW (99), IMF (.86) and CHB (220)**. According to our analysis, this is an exceptionally rare combination of traits that are not matched.
- Then the numbers really take off — **Top 1% for Marbling and Top 4% for all three money indexes!**
- His individual performance is equally impressive: **78-lb BW, 604-lb WW, 1,354-lb YW, 14.93 REA with a 101 ratio, and 4.78 IMF with an outstanding 154 ratio.**
- **Phenotype. Performance. Pedigree. Profit potential.** 791N brings them all together in one powerful package.
- **This is a herd bull you do not want to overlook!**
- **Homozygous Polled**

Perry Hedrick

PIONEER POLLED HEREFORD BREEDER (Diamond Dale Farm)

Perry didn't follow the short, small-framed trend of the late 1940s and 1950s. He bred larger-framed (5-6) cattle with exceptional maternal traits, producing Marnie Domino, a daughter of Woods Domino 3, who became the foundation matron of 100% of the White Hawk cow herd and a substantial portion of the Hereford breed.

As you study the genetics lines you will notice a lot of double bred (line bred animals) that helped influence the genetic strength of this line of cattle. Felton 517 and EF Beef TFL tested X651 are in the backgrounds of a large% of polled Hereford cattle today. They are the foundation of improving carcass quality and maternal quality in modern polled Hereford cattle. The Hedrick Family are proud that Diamond Dale had that influence.
