This bull is the result of a bred heifer I purchased from Jim Reed. I have bought from Jim or have had him buy cattle from me off and on for close to 30 years. Never been disappointed in what he got me. Been through their herd a few times and nothing but really good no nonsense cattle. This bull is exactly that. Easy doing, sound in his structure, dark red, and good in his testicle development. Pedigree is a solid blend of Reed and Ellis genetics. Paternal grandsire is the popular Validated B413. Maternal granddam is a dam of distinction. Free of all genetic defects and homozygous polled. I used him cleanup on heifers last spring. If you came to buy a breeding bull, here he is as I don't have enough cows to do him justice. *Consigned by Cole farms.*
