Dear Cattlemen,

We are pleased to welcome you to the 10th Annual Sidwell Ranch and Frank Herefords Bull Sale. Life in agriculture can be a little trying at times, but we hope 2025 closed out with prosperity, optimism, and a sense of ease that many of us have been patiently waiting for.

As we began planning this milestone 10-year anniversary sale, both ranches agreed on one thing: stay true to our roots. That meant continuing to stand firmly behind our three “P” philosophy - Performance, Precision, and Productivity. We wanted this year’s offering to be extra special, and by sticking to our motto, we refused to waver on quality or functionality. As a result, this will be our largest offering to date, featuring over 60 head of yearling, long-yearling, and two-year-old Polled and Horned Hereford and crossbred bulls. Over the past several years, we’ve carefully sourced new herd sires from across the industry, genetics that not only complement our registered cow herds, but also the commercial cows many of you have worked hard to build into your programs.

We continue to see a unique opportunity to phase out older bulls that may be past their prime and replace them with younger, higher-performing bulls that offer longevity, added value, and fresh genetics. With the U.S. beef cow inventory still a bit soft and the continued buzz around F1 females, timing matters. Whether your goal is retaining heifer calves, marketing bred heifers down the road, or simply adding pounds to your steer calves, the bulls in this offering are built to get the job done, no matter your end goal.

As in years past, many of the dams and granddams of these bulls remain in production within both herds. We continue to emphasize longevity, soundness, and real-world functionality, paired with performance and the kind of “front-pasture” cow you enjoy seeing every time you cross your ranch. We encourage you to study the offering, dig into the pedigrees, give us a call with questions, or stop by the ranches for a personal inspection. Bull videos will also be available for viewing during the second week of March.

We look forward to seeing you March 23rd at the Sidwell Sale Barn in Columbus, Montana. A smoked brisket lunch with all the trimmings will be served at noon, with the sale starting promptly at 1:00 p.m.

Here’s to 10 years, and many more ahead.

See you sale day.

The animals become the property of the highest bidder as soon as sold and will be cared for up to April 15th, at buyer's risk.

Breeding Guarantee:

All bulls will be guaranteed through the first 60 days of breeding season. If an injury or loss occurs, the buyer will receive 50% of the value of the injured bull, minus any salvage value, in a future sale or towards a replacement bull if one is available.

Pedigree:

All registered animals in the sale are clean of any genetic defects to the best of our knowledge. All potential genetic defect carriers have been DNA tested and will have a profile on file with the AHA.

Liability:

All persons attending the sale and related functions do so at their own risk. Sidwell Ranch/Frank Herefords assume no liability, legal or otherwise, for any accidents or injuries that may occur.

Retained Ownerships:

We will retain a percentage of several of the bulls. Terms will be announced sale day.

Absentee Bids:

Any person unable to attend can place a bid through Richard or Austin or any of the listed sale representatives.

Delivery:

Free delivery on 3 or more bulls regardless of distance. All single bull purchases will be delivered to a central location. For Canadian buyers, we will deliver to the nearest point of entry.

Insurance:

Animal injury or death resulting prior to delivery will not be the responsibility of Sidwell Ranch or Frank Herefords. This is an insurable risk. Sale insurance available through:

• When we asked Richard to describe this bull, his exact words were, "Thick, long and good and he is out of a Harvest H033 daughter to boot." BW 87 lb., WW 630 lb.

Frank Herefords

When Chieftan 2305, the sire of Lots 21-25, was born I knew we had a nice bull we could use on heifers, but the calves have surpassed my expectations. All five of the following lots are out of first calf heifers that calved with NO assistance and the udders on them are nice, tight, and level. These bulls are probably my favorite sire group in the sale. They all have a nice low tying hip, strong top, rib shape, and solid foot. Use them on a set of solid black or red cows and imagine the possibilities.

A 2-For-1 Deal. We have never experienced an embryo split on a conventional flush before, but it happened. Out of Churchill Red Thunder 133J ET and our Brielle 1710 donor cow, Lots 51 and 52 are almost identical. Both are moderate framed, scurred, with added gut all on top of a solid foot. Talk about the chance to have a set of consistent calves this fall. Don't miss out on these boys.
