## Welcome to NJW!

Once again, we are anxious for you to see and evaluate this year's set of cattle. We strive to continually make improvements to our program and expect to see those improvements both visually and on paper.

Our program and these cattle are the result of a passion and commitment to raising the most predictable, highest quality Herefords possible. We have developed these genetics by using bloodlines that fit our environment, selecting for balanced traits and culling! Buying bulls is a huge investment ...the genetics you choose today having tremendous long-term impact on your herd. Buying the RIGHT bull can transform your calves and their value in just one generation as well as affect your cow herd for the next 10 years. Again this year, in an attempt to offer you the most predictable, accurate EPDs, we have Genetically Enhanced each animal's EPDs. We believe these cattle are a forward moving set of "Genetic Tools" both to look at and on paper.

### The average EPDs of all this year's sale bulls are:

CED	BW	WW	YW	MILK	M&G	SC	Udder	Teat	REA	MB	SCHB
6.4	2.0	62	101	34	65	1.4	1.40	1.40	.76	.14	132

### This year's sale heifers:

6.6	1.8	56	90	33	61	1.2	1.40	1.40	.61	.09	114
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

### Breed averages:

3.7	2.5	57	90	27	55	1.1	1.30	1.30	.48	.15	125
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

These cattle were raised on Northern Wyoming and Southern Montana range and their mother's milk only ...no creep! The average actual BW on all the sale bulls is 89 lbs. The average actual BW on all sale heifers is 83 lbs. We develop our bulls to improve longevity and winter them here at the ranch on a limited amount of 15% grower and free choice grass hay.

Our goal is to produce easy doing, big bodied, thick and sound cattle with added performance that still maintain enough calving ease and high maternal traits. Our herd is very maternal and we demand our cows have good udders, are great mothers and calves be vigorous at birth! We expect our two-year-olds to raise bull calves to sell in the sale.

If you have questions or can't attend the sale, Ned and I are happy to help with selecting bulls to fit your program. The cow herd is located at our North Ranch and Bulls and Sale Heifers are at the South Ranch. Ranches are about 20 miles apart so allow extra time if you want to see both. If you are coming in on the 24th, please plan to join us for supper at the South Ranch sale location!

**Many Thanks! Ned & Jan Ward**

# AHA GE-EPD

## The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

\* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

**All NJW Sale Cattle  
Are Tested!**

## GENERAL INFORMATION

**Sale Location:** NJW South Ranch, 888 Lower Prairie Dog Rd., Sheridan, WY ...off I-90 at Sheridan, WY take Exit 23, go East on Hwy. 336 for 3.5 miles, turn left on to Lower Prairie Dog Rd., drive 9 miles to sale barn on your left. **Set your GPS when you turn on Hwy. 336 as it will take you on best route!**

**Airports:** Sheridan, WY for private planes and served by United Airlines or Billings, MT...145 miles from the ranch.

### Motels: Sheridan, WY

Comfort Inn (located on hwy. to Ranch) 307/ 675-1101

...Ask for NJW Bull Sale Rate \$112

Nelson Inn, 307/ 763-7007 (Airbnb, real nice)

Hampton, 307/ 673-2734

**Terms:** Cash or check. Each animal to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately after the sale and will not be released until settlement has been made. Each animal becomes the property of the buyer immediately after the animal is sold. Any death or injury thereafter falls upon the buyer. **Announcements concerning the cattle at the sale ring by the owners or the auctioneer take precedence over statements in this catalog.** All persons attending the sale do so at their own risk. Neither the owners, nor any person associated with the sale, assumes any liability, legal or otherwise.

**Guarantee:** We guarantee all livestock sold as sound breeders. If an animal fails to breed, it must be reported to NJW or returned in good condition and in compliance with the Wyoming Health Regulations. If an adjustment is required, it will be made with a replacement animal of equal value (or) credit of another animal of equal value in our NEXT sale. No adjustments will be made after nine (9) months.

**Health:** Please note that breeding soundness examinations are an indication of semen quality and reproductive health of the bull at the time of examination, not of their future fertility. Many factors including health, weather and nutrition will impact semen quality. We recommend that another breeding soundness exam be performed prior to use. All sale animals have been BVD ear notched and tested negative. **Health certificates will be furnished for shipment anywhere in the U.S. Since each State has different regulations on bulls coming from Wyoming, not all bulls will be able to get a Health Permit to go to every State on sale day!**

**All NJW Sale Bulls** have received a pre-breeding booster of Express 5 VL5 HB, a Pinkeye / Footrot vaccine and poured with Cylence.

**All NJW Sale Heifers** have received a pre-breeding booster of Express FP5-VL5 HB, Pinkeye/Footrot vaccine and poured with Cylence. The commercial heifers had the same shots as the Hereford sale heifers.

**All NJW sale bulls and heifers** have been DNA tested through the American Hereford Association and have been parentage verified and GE-EPD evaluated. All potential MD and DB carriers have been tested and results noted in the sale catalog under their names or if noted as DBP tests were not complete at catalog press time and results will be noted on the sale day supplement sheet. Any sale cattle that have come back as carriers will be noted as MDC or DBC.

**Delivery:** Free delivery on Bulls and Heifers within 400 miles; balance at cost. Receive a \$100 discount per Bull or Registered Heifer you haul on sale day. We'll assist you with long distance delivery to be done as soon as possible after the sale.

**GENETIC DEFECTS:** If any 2026 sale animal is a carrier of a known genetic defect as of sale day (3-25-26), it will be noted in the catalog below the animal's name as "MDC" or "DBC". The sale supplement sheet will verify any changes to the catalog.

• EPDs are current as of December 29, 2025.

### Take Note:

- Each animal's Lot # is same as his ID #.
- All cattle photos are untouched.
- In case of bad weather, please call or refer to website for any sale changes.

**Sale Cattle Videos:** Videos are available:

■ A long, complete, balanced, thick and muscular bull. He is big topped and wide, but not big jointed or rough made and I think part of his extra birth weight came from being so long bodied. A bull I would love to use to make an incredible set of high-volume calves with extra performance and lots of maternal value.

■ This Proud son offers so much to look at and on paper. He's so soft made and deep with lots of muscle and doing ability, plus is sound and strong moving. Born with a moderate birth weight, he has grown out and performed well. EPD line reads real well. Dam is a full sister to Historic and sire was our top selling bull in 2024. I really like this bull!  
■ Top 1% Milk; Top 5% CE, BW, M&G, Udder & Teat; Top 25% MARB  
■ Retaining a one-quarter semen interest.

Dam 217J & I13N

I13N

■ **2026 Herd Builder and Sale Feature that offers it all** ...premium looks with numbers to match! Plus, he has a prolific, young dam with a great udder and is sired by New Standard, one of the breed's unique tools that offers incredible carcass, maternal and fertility values. New Standard has worked so well here offering extra calving ease, great structure, soundness, growth and muscle. We are super high on I13N and would be keeping him if we didn't already have full brother Suede 127M, 217J's 2024 natural calf.

■ **Stellar Herd Bull Style and Presence!** West impresses with his overall thickness and muscle expression, yet he is so correct with a big, square hip, strong top and great back leg set. He looks so good from every angle and carries himself around with ease. He's marked right, has a deep eye set, perfect pigment and has sound feet. He also boasts a balanced set of EPDs and personal data with an exceptional set of testicles and a scrotal EPD to match. A full sister sits in the top end of our replacements! Some truly great bloodlines back him up. His dam is not as widely known, but we are excited to infuse more of her into our herd. West will be used here heavily either by A.I. or in a shared partnership.

■ **2026 Sale Feature.** Big growth, soft and looser made, big bodied bull with excellent data and a top notch set of numbers! I really like these K510 bulls for their doing ability, high weaning and yearling, high maternal quality plus carcass values. Dam of 127N was dam of our 2024 high selling bull, Proud 35L.

We highly recommend collecting your NJW purchases at World West Sire Services, Joliet, MT. We have taken our bulls there since they started their Family Owned Business in 2007!

The Crew from World West Sire Services brought a mid-morning snack to our World Hereford Conference Tour stop in October!

# THE NJW HEIFERS

We believe the cowherd is where it all begins! Our herd is a cumulation of cows and cow families that are based on stacking genetics that will, in turn, produce consistent, efficient, high income producing offspring.

We are again offering a sampling of our genetics with a group of NJW registered replacement Yearlings. We tried to share a heifer from each of our ET matings and from a number of cow families.

## TERMS...

Buyer will sort from all 2026 Spring-born heifer calves owned solely by Ned & Jan Ward, approx. 140 head, consisting of both natural and embryo heifer calves. Buyer will make their selection prior to Sept. 15, 2026. Seller retains one future flush at buyer's convenience.

The Boys here taking their "Pick of the Heifers"!

# Fall Bred Heifers

Own daughters of our landmark female 73S! This mating to New Standard meshed two of the most prominent and famous cows in the breed, 73S and 7098. These two heifers will be incredible breeding tools and starts to "in demand" cow families. This opportunity will likely never come around again! 73S turns 20 this month and these two elite beauties will be her last daughters to sell.

Retaining a future flush on each heifer at buyer's convenience and seller's expense.

■ Powerfully made and big bodied yet feminine with a beautiful head. One of my very favorites and one to start an outstanding cow family plus be what I think a "show heifer" should look like! Super kind and quiet, she would be great for a young person to show. After the show ring, she will raise you some high performing bulls and brood cows. Dam is a top producer here and mother of Cast Iron 83L and his herd bull brothers at Harvie's, Big Gully and Blair Athol in Canada. Several top-end full brothers to 84N are also selling.

■ Top 5% YW, M&G & SC; Top 10% WW, Milk & REA; Top 30% CHB

■ Retaining one future flush.

**93N**

■ The start to a great new cow family to build that "Next Generation"! Made and put together so well with extra length, depth and thickness. She has a big square hip and top, is deep and full through the twist, plus has a great back leg that steps in right every time. Her feminine, brood cow head and look is a trademark of her dam who is a full sister to Historic 81E and dam of herdsire Tuff 10H. One of our first Proud 35L daughters to sell and one that I think could easily be shown. She is also very quiet and friendly so should work well for a young showman. Don't miss her beautiful full sister, Lot 129N, and her stout full brothers in the ET bull pen.

■ A beautiful heifer that caught my eye all summer and fall, she is built right and backed by exceptional cow power. These Proud 35L daughters are really showing their broodiness with extra femininity. They are very balanced, thick, long bodied and deep through their twist and flank with a really good hind leg set. They are all freckle faced with just the right pigment. Her dam is a full sister to Historic 81E and the dam of our herd sire Tuff 10H.

- An all-around good heifer! She has the numbers, look and is polled. She is thick, solid, and well-built with a big top and from a premium uddered cow family on the bottom side, plus is out of New Standard so she has the great 7098 cow behind her. She's the only 2912 heifer we offer this year. His first daughters are just coming into production and sure look the part!

# VISBORG RANCH YEARLING HEIFERS

Dee

—Offering 14 outstanding, highly functional Brockle Faced / Baldy yearling heifers from our great friend and long-time customer Dee Visborg of Decker, MT. Over the years, Dee has been buying top-end bulls from us including Hometown 27A! These heifers are out of Dee's purebred Hereford cows and sired by Felton, Kendrick, Redland and Zumbrum Black Angus bulls. These are the top-end of her baldys ...they are broody, complete and will be beautiful cows!

—Born March/ April 2025

—Dams of heifers are all sired by NJW bulls

—Heifers can be viewed anytime and will be on display sale day.

—Bangs Vaccinated with EID buttons and have followed NJW vaccine protocol since birth. Pre-breeding vaccinated 1/10/26 with Express FP5 VL5 HB and Autogenous Footrot/ Pinkeye as well as poured with Ivomec.

—Selling two lots of 7 ...list of numbers available sale day.

—Weights will be available sale day.

■ HOMOZYGOUS POLLED and 13-Trait Leader.

■ A unique breeding tool that combines and is backed by the highest values for carcass traits, fertility and udder quality. Very sound in his structure and make-up.

■ Has had incredible calf crops here at NJW with heifers and bulls being of equal quality! Sons are real beef bulls ...stout, thick and efficient. Daughters have the look and makings of beautiful, big bodied brood cows. First in production are exciting! Check our Facebook for photos!

■ Sired both high selling bull and heifer in the NJW spring sale.

■ Sire of 2025 NILE Reserve Champion Bull and 2026 Denver Reserve Champion Junior Yearling Bull.

■ Entered in NRSP Program at Olson Ranch. Steers look excellent as they are near end of test!

■ Act BW on 2912:77 lb, Avg. BW on NJW calf crops 79 lb. (includes ET and naturals out of cows and 2-year-olds)

■ Owned with Birdwell Ranch, OK.

■ Semen: Straw: \$150 (5 straw minimum or 20 Straws for \$2500) \$100/Certificate ...Contact NJW.
