TERMS:

The terms of the sale are cash, check or bank draft debit/credit card unless other arrangements are made in advance with the owner. **Electronic payments now accepted.** Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bidding ends, but the management will attend to loading on trucks in compliance with instructions from the purchasers.

GUARANTEE:

All cattle will sell under the suggested sale terms and conditions of the American Hereford Association.

HEALTH:

Individual health papers will be furnished with each lot sold. A number have been OCV'd. All bulls are semen tested. State regulations require all non-virgin bulls and all bulls over 24 months of age be tested for Trichonomiasis.

BIDS: The auctioneer-in-charge will have final say in regard to all final bids.

MAIL OR WIRE BIDS:

We hope each and everyone interested can attend the sale in person, but those who cannot may mail phone bids to the auctioneer or any of the representatives.

AI CERTIFICATES:

Any female that is bred to an AI sire not owned by the seller will NOT have an AI certificate furnished.

SALE ORDER:

The sale order will be as follows: bulls, open heifers, fall pairs, spring pairs, bred cows, bred cows and commercials.

CATALOG ERRORS:

Statements from the auction block take precedence over printed material. The most current EPDs from AHA issued registrations were used when available. EPDs are subject to change weekly based on data submitted to the AHA. The most current EPDs are available from the AHA's website at www.hereford.org.

A Word from the Sale Manager

Welcome to the 125th semi-annual sale of the Central Missouri Polled Hereford Breeders Association.

Unbelievable, Fantastic, Amazing, Incredible, just a few adjectives to describe the current cattle market. Every sector is at all-time highs, record prices being established almost daily. Beef demand is very strong in both domestic and foreign markets, all classes of feeders, replacements and slaughter animals bringing unheard of prices.

Demand for breeding-age females and bulls is outstanding. Cow numbers are short with no end to this cycle we are currently experiencing in sight.

April 12, 2025 at Noon, you will have the opportunity to choose your next replacements being offered from 24 members' programs.

Cattle will be available to view Friday evening as well as Saturday morning prior to sale. Grab a friend, come see some great cattle, visit with awesome people, enjoy a tasty sale barn burger, or view us on-line at DVAuction and help yourself to some outstanding Hereford cattle!

Hope to see you sale day!

Thanks, *Larry Day*

What an exciting year it has been watching these KAYO calves from birth to yearlings develop. From birth on, these calves really grow, with average birth weight of 73 lbs. He is siring a large percent of dark red necked, goggled-eyes, with tremendous eye appeal and style. KAYO on the top side is straight Canadian bred bull, with a JDH Victor 719T 33Z dam, a great female in the Malone Hereford program. As a three-year-old, Kayo is weighing around a ton and looks outstanding in the pasture.

The bull is HPF HIGH TIME 322 registration number (44469672). He was the highest selling bull calf in the first 417's finest sale. He also was almost chosen to be in the National Reference Sire Program, and made it down to the last five bulls but got beat out by older bulls with lots more calves. So far the calves I've gotten out of him come out stout with muscle to match real show stoppers. He ranks in the top 1% for WW & YW, top 2% for SC, top 5% for CHB & CW, top 8% for MARB, UDDR, & MG, top 21% CED, top 23% for BW, and top 35% for REA. This bull has the potential to add pounds to your calves. He's free of all known defects been genomically enhanced epds and is homozygous polled!!!

220K comes right off the top of our three-year-old 112F daughters. We sure hate to part with this great female, and she sure is what we call front pasture quality. She sells safe to Aces LMP Jackson 111J, another one of our top herd bulls. She is a very high profile 112F daughter with a beautiful udder. Her last year's heifer calf we are retaining in the herd sired by Kayo which we really like. She will calve well before sale day. Her dam is our best H Dimaggio 2094ET daughter, and she is a splitting image of her dam. Be sure and see this out standing pair sale day. We will offer two straws of semen on Kayo to breed back if wanted.

Really nice-made, stout bull. Conservative markings with pigmentation. Loads of style and thickness. Top pedigree with greats like Mandate, Cuda and Trust. He isn't as docile as bulls I typically offer, but still very manageable, easy to halter and likes to be brushed. DNA tested clean pedigree, hetero polled, virgin/semen tested. Excellent EPD's. Actual BW 70lbs.

Mandate granddaughter that is moderate-framed, dark red in color, docile and halter broke. Dam is ten years old with a perfect udder. DNA Tested clean pedigree. OCV'd and open, actual BW 60#.

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Each animal tested is recognized with the AHA GE-EPD logo.

Super cow prospect here! Anna is sired by 0061H, a Homegrown x X395, and her dam is a Dante x 4067B (Homegrown x X395). Double bred maternal here! Anna is a well built, broody heifer that carries a little extra chrome but has plenty of style. I'm offering her because I usually hold over my late spring heifers to breed for fall but she's my only one so I decided to let her go. She has the genetics behind her to make someone a great cow. Sells open.

Here's a daughter of an 88X son that I sold to Yankee Hereford Farms several years ago and then was fortunate enough to get to breed a few cows to. 313L's dam, 11D, is a dam of distinction. She is a Journagan bred female sired by Yellowstone. 11D has been a problem free, productive cow for me and is being retained in herd. 313L was AI bred on 1-18-2025 to AW Statesman 038H.
