We plan to keep and use this guy until we realized how related he is to our cow herd. We showed him last summer at MN State Fair, He ended up being selected as Reserve Division Champion Yearling Bull.

Big stout 2 year old, If you want some real bulls to cover more ground look at lot 38 & 39.

Maternal excellence, productivity and longevity are stacked in her lineage. A very feminine, flexible structured heifer that exudes quality. Her 2-year-old dam knocked it out of the park. Study this one on the move to really appreciate what she brings to the table. Added bonus – she has a great set of balanced EPD's to back up her phenotype. If you're looking for a future donor make sure you have this one marked down!

These 3 heifers come right from the heart of replacement pen. If you want powerful females with great udders, foot quality and fertility these girls have it.

The barbie cow family traces back to when we started in Angus back in 1997 showing you how the longevity and fertility runs deep.
