Welcome!

The Westbrook family would like to welcome you to the barn on May 30th for the 2nd annual Fields of Gold Female Sale!

What a difference a year will make. With our fast-paced lives, it is peculiar how quickly time passes and how little we seem to accomplish. Busy, busy, busy — yet often neglecting what's important. As I take a moment on a Sunday afternoon to write this letter, I'm still reflecting on today's message in church, Galatians 6:7-9 "... Let us not become weary in doing good, for at the proper time we will reap a harvest if we do not give up." A fitting and favorite passage for many farmers. Of course, my mind always wanders back to the farm and cows as I reflected on the lesson points and I'd like to share a few with you.

- Roots grow before fruits show.
- Daily faithfulness leads to lifelong fruitfulness.
- It's not what you sow occasionally that makes the difference, it's what you sow consistently.

While our pastor was clearly instructing us in spiritual fruits, I find that these teachings are equally fitting for our farm ethos. You can't expect results overnight; if we don't like what is being reaped, we make changes in what we sow; we want the harvest to be consistently good year after year; and, most importantly, we do not give up.

For 2026 we have some very exciting, proven genetics to offer and are also introducing some of our 4B prefix herd sires. We are pleased with these homegrown sons and you will see their influence grow in the years to come as their daughters come of age! Our herd bulls are selected from some of the highest producing cows in our herd and they are southern-adapted and balanced with the ideal female in mind.

Speaking of sons and daughters, we are delighted to welcome another fine female into the Westbrook herd this year! Our oldest, Beau, celebrated his marriage to Maggie and they are happily settled at home with the chickens. Another big change for us was sending Belle off to Oklahoma State University where she is finishing her freshman year in the Ferguson College of Agriculture. Bonnie and Bennet continue to live it up at home dancing, playing sports, and working on the farm.

Ultimately, whether at home or in the pasture, we want our entire operation to be successful and make a beneficial impact on the Hereford breed. As the cow herd continues to grow, we will continue increasing our selection pressures. We strive for our herd to consistently perform above average; with no loss in fertility, mothering ability, or structural soundness. In this year's sale we are presenting the cream of the crop and are confident they will work in your herd as well as they have in ours.

We are thankful for the opportunity God has given us to follow our passion and reap the fruits of our labors. May He bless your work as well!

- H60 is possibly one of the best Mandate daughters in the Hereford! Both Montgomery Herefords and Four B Farm have used her to build their herd around. Her dam, FPH Miss World Class Vicki U35, has been a staple at Forrest Polled Herefords. H60 is structurally correct, with about as much rib shape as you can possibly put in a cow, easy fleshing, near perfect udder, and as fertile as they come. She has been heavily flushed in her prime, averaging 10 grade one (1) embryos per flush. She currently has 26 progenies under her belt. She has been flushed by breed-leading sires such as 4013, Houston, Character, Steadfast, Deluxe, Wildcard, Equity and Dauntless. Many of her sons are working at both purebred and commercial operations. Cows like this don't come around very often. Letting H60 go is tough, but thankfully we have an exceptional daughter we are retaining to carry on her legacy!
- Sells with an NIW 11B 173D Character 178J ET heifer calf at her side and open ready to breed to the bull of your choosing. Bid with confidence on this rare breeding piece!
- Co-owned by Four B Farm and Montgomery Herefords
- Sells open.

First, we would like to thank Dale, Bryson, and family for the invitation to be a part of this year's Fields of Gold Sale. It is greatly appreciated and not taken lightly.

We strive to breed real-world cattle that can perform in any environment, using the latest genetic tools available today. We believe our calves in this sale are a great example of our goals.

If you have any questions or concerns before or after the sale, please feel free to reach out to me or Henry Mitchell. Henry is a bright young mind in the cattle business who knows our cattle better than I do myself.

Thanks to all in advance,

Andy Montgomery

- This is possibly the BEST female we have ever raised at Montgomery Herefords! Phenotype, Performance, an impeccable EPD profile, structurally correct, dark red, and double goggled eyes. She's got it all! Her dam has been a prolific donor for us, and we believe she deserves to be in a donor pen herself. 181N is a female any farm could build a program around. Selling 100% ownership, but Montgomery Herefords would like to reserve the right to flush at a later date at their expense and the buyer's convenience.

RILEY'S MS SENSATION G4 ET

- G4 is backed by lots of Maternal value. Her dam, THM Kudzu Chloe 0673 ET, was a staple donor at Mead Cattle. G4 is moderate framed, with a nice udder, and lots of fleshing ability. She has been at the front end of the calving group each year and brings a big calf to the barn at weaning. She sells confirmed AI bred to THM Conasauga 2059 ET on 12/23/25 for an October 2, 2026, calf.

- 0310 has been a very consistent producer at Montgomery Herefords. She comes to you in a moderate package, with a desirable udder, lots and lots of fleshing ability, and a cow that stays slick on fescue. Her sire, B296, is known for making cows that work in the fescue belt. She sells confirmed AI bred to CMF 1720 Gold Rush 569G ET on 12/22/25 for an October 1, 2026, calf.

WHITEHAWK 593F COSMOS 672J ET

- Cosmos has many EPD traits that rank him in the top 10% of the breed. He has a CHB index of 228. He is dark red and passes that on to his offspring. We have used him heavily at Four B Farm and at Whitehawk Ranch. He is a trait leader for BW, SC, MG, CW, REA, MARB, BMI, BII, and CHB. Cosmos was selected to help maintain and build up a lot of the carcass quality that we have in our cattle at Four B Farm and has not disappointed in doing so. Look to Cosmos to produce dark pigmented cattle that have loads of milk and carcass quality.

▪ L237 was selected back in 2024 as a herd bull we decided to retain and use in our own herd. He ranks well for CE and BW while maintaining a top1% and 2% in the breed for WW and YW respectively. He also ranks in the top 5% for SC and MM. When we say that we are continually striving to breed in performance and Maternal traits it is hard to get anything in one package much powerful than this. As we start using our own herd sires more and more, we would like to introduce these sires to you so that you can get familiar with them and what is to come.

Terms and Conditions

TERMS: Terms of the sale are cash or check. Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids.

PURCHASE: Each animal will be at the purchaser's risk as soon as sold and can be moved after settlement has been made.

HEALTH: All cattle will have health certificates that will enable them to be shipped to any state.
