TERMS:

The terms of the sale are cash, check or bank draft debit/credit card unless other arrangements are made in advance with the owner. **Electronic payments accepted.** Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bidding ends, but the management will attend to loading on trucks in compliance with instructions from the purchasers.

GUARANTEE:

All cattle will sell under the suggested sale terms and conditions of the American Hereford Association.

HEALTH:

Individual health papers will be furnished with each lot sold. A number have been OCV'd. All bulls are semen tested. State regulations require all non-virgin bulls and all bulls over 24 months of age be tested for Trichonomiasis.

BIDS: The auctioneer-in-charge will have final say in regard to all final bids.

MAIL OR WIRE BIDS:

We hope each and everyone interested can attend the sale in person, but those who cannot may mail phone bids to the auctioneer or any of the representatives.

AI CERTIFICATES:

Any female that is bred to an AI sire not owned by the seller will NOT have an AI certificate furnished.

SALE ORDER:

The sale order will be as follows: bulls, open heifers, spring pairs, fall pairs, frozen genetics, bred heifers, bred cows, and commercial females.

CATALOG ERRORS:

Statements from the auction block take precedence over printed material. The most current EPDs from AHA issued registrations were used when available. EPDs are subject to change weekly based on data submitted to the AHA. The most current EPDs are available from the AHA's website at www.hereford.org.

A Word from the Sale Manager

It is my pleasure to welcome you to the 128th semi-annual sale of the Central Missouri Polled Hereford Breeders Association. Our breeders have assembled a strong, practical offering of Hereford and Hereford-influenced bulls and females, many selected from the heart of their programs and backed by genetics you can evaluate with confidence. This year's sale features sought-after bloodlines and proven, time-tested cattle designed to add value and move your program forward.

Despite the unusual weather this spring and summer, green grass is showing across the countryside, and baled forage appears plentiful. Cow numbers, however, remain well below past levels, inventory reports suggest limited herd rebuilding, and strong prices have made heifer retention difficult as cow herds continue to age. If you are looking for young, top-quality females or a Hereford bull that can add value to your commercial calves through added pounds at weaning, we invite you to join us on Sept. 19 at Interstate Regional Stockyards in Cuba, Missouri.

Bring this catalog, bring a friend, and spend a couple of hours with us at a sale built around practical cattle, proven genetics, and real value.

We look forward to seeing you on sale day.

Thanks, *Larry Day*

Impact was the lead off bull of the Grand Champion Carload at the 2022 National Western Stock Show. His full brother Media sold into Canada for \$250,000. At a recent GKB bull sale five of the top six lots were sired by Impact. Impact is now deceased and semen is limited. Semen will be at sale or stored at Hawkeye in Iowa. Semen is cleared for shipment to Canada. Contact owner for further information.

3 Four IVF Conventional Embryos

EMBRYO PACKAGE

Consigned by: *Day Dream Cattle Co.*

Sire of Embryos: **CSC 701 OSHOTO 316 (44467816)**

Dam of Embryos: **DGPH TREASURE 0906L (44593767)**

Designed to combine Oshoto's power, muscle, pigment and commanding phenotype with the maternal quality, performance and cow-making potential found in the Dam's Harvester pedigree. These embryos offer the opportunity to produce eye-catching show prospects that retain the structural soundness, brood-cow character and performance needed to become productive breeding cattle. Whether you are searching for a future donor female, a powerful herd-sire prospect or your next competitive show animal, this mating offers exciting possibilities.

This is probably one of the best Jackson 111J daughters we have ever consigned to a sale. She is a feminine, well-balanced female with the brood cow look, structural soundness, and maternal strength we value in our program. She sells safe in calf to our junior herd sire, Aces Prime Time 501N (44651690), a son of RST Final Print 0016, and is due to calve early next spring. If you're looking to add proven genetics, quality, and long-term production to your herd, be sure to take a close look at Aces 111J Ms. Jackson 506N on sale day.

This is a heifer we had no intentions of parting with this year. She is backed by one of our proven home-raised cow families that has been extremely successful in our program, making this female especially hard to let go. A big, stout, well-balanced female with plenty of volume, eye appeal, and brood cow potential, she has the kind of quality that could easily be the centerpiece of any front pasture. She is safe in calf to SF 1806 33Z Victor 2312 for a spring calf, adding even more value to an already outstanding young female. If you're looking for a replacement female with proven maternal genetics, eye appeal, and a bright future, be sure to take a close look at Aces Miss Final Print 502N on sale day.

516N is one of the top fall open heifers from the replacement group we selected to retain. She combines structural soundness, femininity, and eye appeal with the kind of genetics that make outstanding brood cows. She is sired by Aces Final Frontier 315M, one of the best sons of Frontier 112F that we have raised. On the maternal side, her pedigree is equally impressive, with a granddam sired by HW4 Pure Country 0109, a proven herd sire that was successfully used in the Malone Hereford Farm program. If you're looking for a quality young female with an exceptional pedigree and a bright future in the pasture, be sure to take a close look at Aces Ms. Final Frontier 516M. Sells open.

314M is one of our outstanding three-year-old females, and is sired by Aces LMP Jackson 111J. She is a productive young cow with the maternal strength and quality we strive to build into our herd. She is safe in calf to Kayo 2203K for her second calf this fall. We thought enough of her first calf, sired by SF 1806 33Z Victor 2312, that we are retaining it as a replacement female in our own herd, a testament to the quality and consistency this young cow is producing. If you're looking to add a proven young female with a bright future and genetics we're confident enough to keep ourselves, be sure to give Aces Ms. Lady 314M a close look on sale day.

609 is a heavy muscled young bull with some good growth numbers. He out of our 74J bull who is a son of Jalapeño that we purchased from the Journangan Ranch sale. Potential herd sire here.

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Each animal tested is recognized with the AHA GE-EPD logo.

Really nice daughter of Marksman 211 and one of our favorite females handpicked from the herd at Journagan Ranch. 41N is large framed and big boned, and will grow into an impressive cow in production reflecting all the great traits of her dam. We are retaining her dam and a maternal sister, so we made the decision to offer one of our best breeds! Bred natural service to BPH 0183 Maverick 2132M 44674133 on 4/16/2026. Confirmed safe.

Wow! What an opportunity here! This one is hard to let go of! But we try to sell our very best, so here she is! This heifer is continuing the legacy of her grandma Glengrove Harmony 65Z. H BENTON 2205 ET, the sire of this female, is making his mark for the Upstream and Hoffman programs. We used this bull right after he sold so this is one of the first two-year-olds to calve. We love her length of body, her dark red color and impeccable hip and hind leg. Take your program to the next level this with one! Checked safe to Bar JZ On Demand for a middle of October 2026 calf. Retaining two flushes on this female.

Emma is an attractive UPS Entice 9365 ET daughter. She combines eye appeal, balance, structural integrity, and maternal power. With above-average growth, exceptional maternal value, excellent teat and udder genetics, and profitable economic indexes, Emma checks nearly every box. Her pedigree stacks breed leaders including Endure, Sensation, Blueprint, and Excede; making her genetically loaded from top to bottom. Balanced. Functional. Profitable.

This Jalapeno 973E daughter is out of one of our top producing cows. With being in the top 10% for WW and the top 15% for YW, her numbers exceed that of her dam, making her a very promising addition to any herd! Pasture exposed to our Show-Me-Select qualified Angus herd bull BWR Enhance J35 (20496088) from 11-29-25 to 5-26-26. Should calve by sale day.

Here's a nice son of NJW Manifest, out of our good Churchill Broadway daughter, 208K. Murphy is a smooth made, well-structured bull prospect with a nice pedigree and EPD profile to back him up. He ranks in the top 2% for YW, top 4% for WW, top 1% for MCE, and in the top 5% or above for M&G, CW, Marb, BMI, BI, and CHB. My niece showed him as a calf last summer and as a yearling this summer. He's Polled, has GE-EPD's, and free of all known genetic defects. Actual BW 76#. Yearling carcass data: REA 14.64, fat 0.32, Marb 3.96.

Here's a long-bodied yearling heifer out of our herd sire 0061H, who is an own son of the great X395 cow and sired by Homegrown. Her maternal packed pedigree points her to being a top cow prospect as it contains Homegrown, X395, P606, Sensation, Stockman, 88X, etc. 520N has been DNA profiled and is free of all known genetic defects. She ranks in the top 1% of the breed for MM and top 3% for MCW EPDs. Sells open.

This is a super heifer with lots of potential. Her mother is the kind that does a lot with very little, and this heifer is on track to follow in her footsteps. Pay close attention to this breeding information: bred AI with sexed heifer Walker Full Circle 3511ET semen on 5/30/26; pasture exposed to LJR MSU 206A HOBBS 149H from 6/19/26 to 9/17/26. Breeding confirmation will be available on sale day, but you can't go wrong either way here.

Lot 74

Lot 75

75**Commercial Bred Heifer**Consigned by: *Day's Family Farm*

Hereford appearing bred heifer that is out of a Red Angus/Hereford cow, larger-framed that will be a calf raiser. Bred to our Coyote Ridge bred herdsire 23SF, due early Feb 2027.

WARNING: Under Missouri Law, an equine activity sponsor, an equine professional, a livestock activity sponsor, a livestock owner, a livestock facility, a livestock auction market, or any employee thereof is not liable for an injury to or the death of a participant in equine or livestock activities resulting from inherent risks of equine or livestock activities pursuant to the revised statutes of Missouri.

Central Missouri Polled Hereford Breeder's Association

Lot 76

76**76A, 76B - Two Open Hereford Heifers**Consigned by: *Heck Herefords*

Open Polled Hereford heifers sired by 44260472 CSR 26G Tough 126F 57J. Picture one of two, same amazing genetics as the registered heifer in this sale. Ready for the bull of your choice, going to be great cows.

77**Three Black Baldies - 77A, 77B, 77C**Consigned by: *Lizzie's Polled Herefords*

This group of black baldies (Hereford Angus cross) heifers will speak for themselves on sale day. They are very well toned, offering outstanding body composition. The growth that these ladies have shown is unlike any other group we have had on the farm. They are sure to be great producers for your program. Pasture exposed to our Angus herd bull HAHS Growtyh Fund 4605 (21482448) from 5-26-2026 to present. Due to calve mid to late March 2027.

Lot 78

78**Black Motley - First Calf Heifer**Consigned by: *Wirthmor Polled Herefords*

Hereford sired black motley-faced first calf heifer. Sells with **78A** Angus sired bull calf, DOB 8-3-2026.
