

HEREFORD

BOWLING RANCH

RED ANGUS

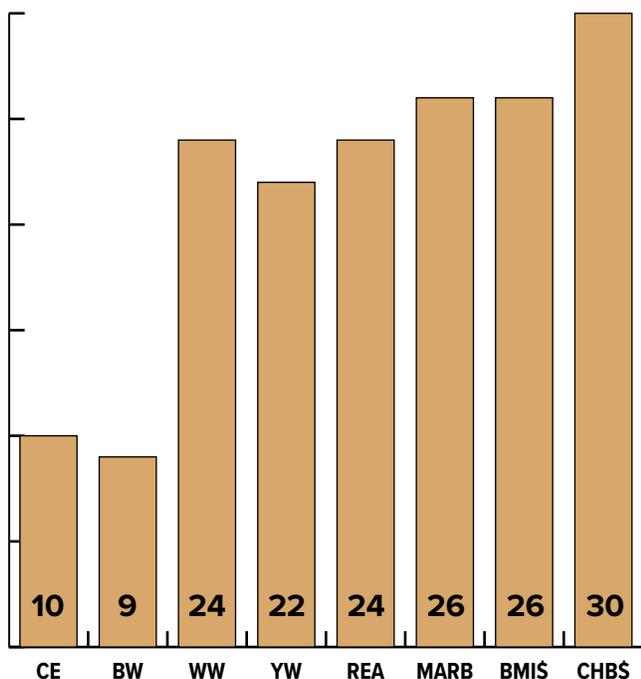

Spring 6TH ANNUAL
BULL SALE

THURSDAY - APRIL 9, 2026 | NOON
AT THE RANCH NEAR NEWKIRK, OK

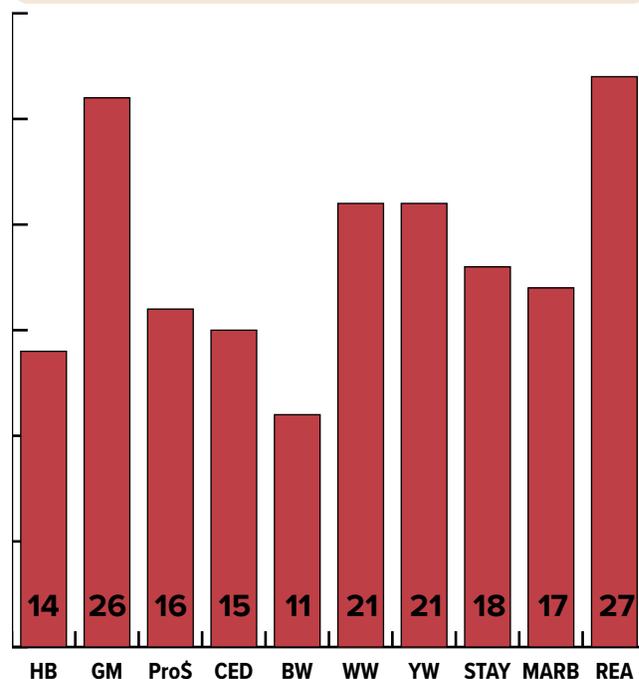

Through the heavy use of AI and Embryo Transfer utilizing some of the top genetics in the country, this year's set of bulls offers some of the most curve-bending EPDs ever offered at Bowling Ranch.

In the Hereford division, the following numbers represent the head-count ranking in the Top 25% of the entire breed:

In the Red Angus division, this year's bulls offer the largest increase of EPD performance to date with the following ranking in the Top 25% of the entire breed:

Welcome to the 2026 Spring Bull Sale at Bowling Ranch. As you evaluate the offering in the following pages, you'll see one of the deepest, stoutest sets of bulls from both the Hereford and Red Angus breeds. Bowling Ranch have made significant investments in some of the top donor cows you'll find anywhere in the country. Resulting from this, you'll find some of the most maternal, elite, high accuracy genetics that will go out in the country and sire some of the best replacement females around. In addition, there are many new AI sires that have been introduced to mix in both elite calving ease and powerful growth sires. This year's offering represents the largest set of AI sired & ET progeny ever offered at Bowling Ranch.

As we've witnessed over the past several months, we have entered and are on the front end of a resurgence in the commercial cow/calf industry. As cow numbers across the country continue at record lows, we have begun a massive build back in cow numbers. The time is now for selecting the type of genetics that will yield both the top replacement females for in-herd use, but also the type of commercial bred & open heifers that will topmost auctions in our region.

The Hereford & Red Angus bulls in these pages are bred for that purpose. There is no longer any doubt as to the premiums red and black baldies gather, and we will continue to see that climb throughout this next cattle cycle. Whether calves get marketed at weaning, or they are retained thru the feeding process, these genetics are designed for today's industry. Pay close attention to the feedout data on the Red Baldy calves that Bowling Ranch has enrolled in various programs. They are pasture mates to the bulls selling in this sale, and in each program, they were involved in, they excelled. That translates into big time premiums for today's ranchers.

All the bulls in these pages are strong aged and ready for heavy service. They are designed for one thing: increasing profitability for our commercial cow calf producers.

If at any time you have any questions, or I can be of service, please do not hesitate to contact me.

All cattle sell under the suggested Terms and Conditions of the American Hereford Association and the Red Angus Association of America.

... BID LIVE ON ...

Can't make the sale?

Watch it live and bid in real-time on LiveAuctions.tv

... FOOD ...

A complimentary lunch will be served at 11:00 a.m.

EQUITY BANK

VP Nancy Mills of Commercial/Ag Lending of Equity Bank, Newkirk, Okla.

... INSPECTION OF THE CATTLE ...

All of the bulls will be on display Wednesday, April 8th and Thursday morning before the sale.

... DELIVERY ...

Free delivery on purchases of bulls over \$5,000.

... GUARANTEE ...

All bulls sold through the sale are guaranteed to be satisfactory breeders for the first breeding season following the sale. All bulls selling have been semen evaluated, scrotal measured and given a breeding soundness exam. If there is a reproductive problem, contact us immediately and a replacement bull will be provided if available or a credit equal to the animal's purchase price minus salvage value will be issued for the replacement of one animal. This guarantee does not cover illness or death to the animal. There will be livestock mortality insurance available on sale day at the settlement table at the buyer's expense.

... HEALTH ...

Individual health papers will be provided for shipment interstate.

... LIABILITY ...

All persons attending the sale do so at their own risk. The owners and sale staff assume no liability for property loss or accidents that may occur.

THE HISTORY OF ...

Bowling Ranch is located at the foot of the Flint Hills and the top of the Osage Hills, which is on the Oklahoma-Kansas Stateline in far Northeast Kay County, Oklahoma. However, the ranch originated in Grant County, OK in the Pond Creek-Jefferson areas in the early 1900's. Levi Bowling, our founder, joined the American Hereford Association in 1904. In that time period, the Hereford breed was the king of all the cattle breeds! Today the registered herd consists of 600 Hereford & Red Angus cows, plus a commercial herd of 750 Hereford, Red Angus & Red Baldies.

Our Mission is to produce high performing sires for commercial producers. High performance begins with genetics. Bowling Ranch has an extensive AI and ET program that incorporates industry leading genetics. Most importantly, the performance behind these bulls is based on real world data.

In 2024, approximately 60 Oklahoma cattle producers donated a steer to the Oklahoma Cattlemen's Foundation for their 2024 Steer Carcass Challenge. The Bowling Ranch Red Baldy steer was #1 in Average Daily Gain, achieving an impressive gain of 5.78 points per day. In addition, he ranked #2 for Carcass Index and was the overall Reserve Champion. This remarkable performance underscores the superior genetics and management practices we have been striving for at Bowling Ranch.

In addition, our results in 2024 in the Hereford Feedout Program are on the opposite page. Both of these examples of Real-World data are examples of how the bull featured in this catalog are designed to maximize profitability for our customers in today's beef industry.

GROENDYKE RANCH

For the better part of a decade, Groendyke Ranch has been a top customer of Bowling Ranch, sourcing the majority of their Hereford & Red Angus bulls from us. Groendyke Ranch raises a mixture of Angus, Red Angus, Black Baldy & Red Baldy calves, and their steers regularly top the market at Cherokee Sales Co. In addition, they keep & merchandise their heifers in their Annual Commercial Replacement Female Sale held every November. Below are the results of their 2025 born calf crop:

RED BALDIES

STEERS 725 LBS
HEIFERS 714 LBS

BLACK BALDIES

STEERS 685 LBS
HEIFERS 660 LBS

ANGUS

STEERS 690 LBS
HEIFERS 675 LBS

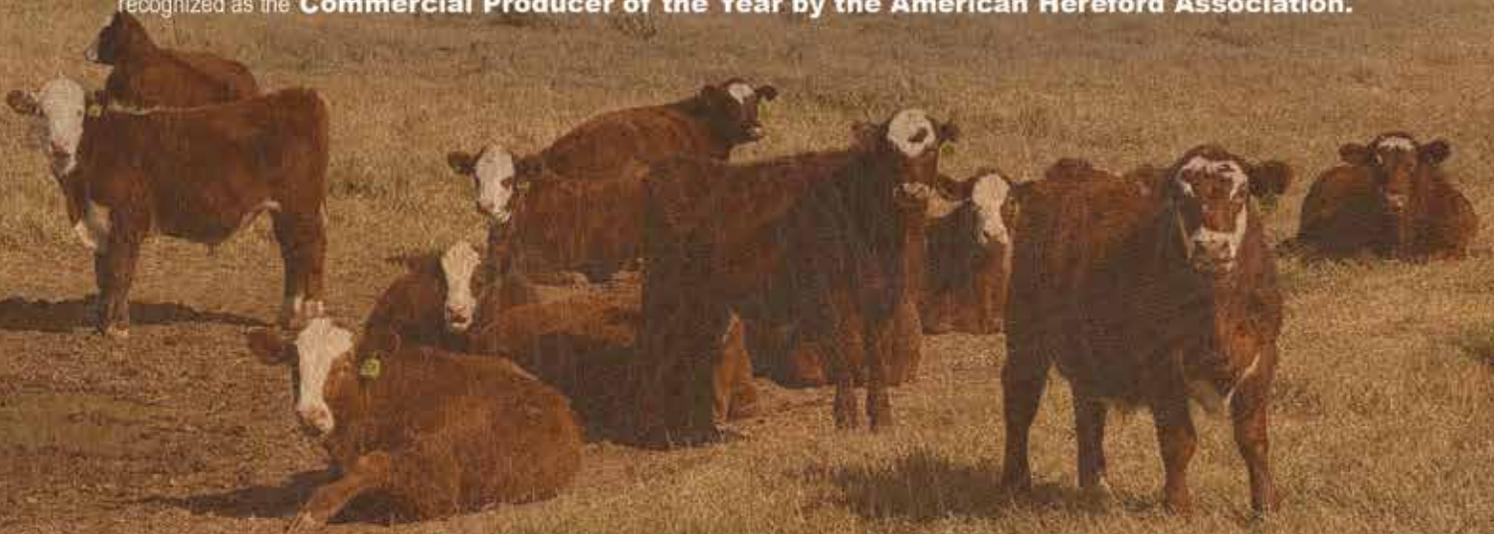

RED ANGUS

STEERS 710 LBS
HEIFERS 705 LBS

By combining Hereford & Red Angus genetics from Bowling Ranch these weaning weights were taken at an average age of 213 days and the calves were developed with no creep feed.

Paul Koffskey, Ranch Manager for Groendyke Ranch, has accomplished this by solely selecting his Hereford & Red Angus bulls that have been DNA tested to verify both parentage and genomically enhanced EPDs. In October of 2025 Groendyke Ranch, John Groendyke & Paul Koffskey were recognized as the **Commercial Producer of the Year by the American Hereford Association.**

- We're leading off the Hereford division with a set of maternal brothers that're out of a donor cow that came from Sandhill Farms. This Anodyne daughter has an excellent set of EPDs, and along with that her actual data is the real deal. She's posted progeny ratios of 6@94 for BW, 6@103 for WW, 4@99 for YW and 10@104 for IMF.

- This is the first son we've offered out of one of the newest donors on the ranch. EXR Lady Domino 8247 is part of perhaps the greatest maternal lineage, going back to C 88X Notice Me 1311 ET. 8247 has been an excellent producer in her young career, posting a 115-nurse ratio on 3 calves, and an IMF ratio of 125!
- As this breed is always looking for a straight horned bull, you have to go back three generations to find any polled genetics. 4305 is right at breed average for his Calving Ease along with really nice growth & carcass numbers.

- Huge IMF ratio of 152

A genetically verified female program for the commercial beef industry.

PREMIUM RED BALDY IS A TAGGING PROGRAM THAT TAKES ADVANTAGE OF HYBRID VIGOR BY MAXIMIZING THE BEST TRAITS OF BOTH RED ANGUS AND HEREFORD AND PROVIDES COMMERCIAL PRODUCERS WITH PREMIUM REPLACEMENT FEMALES THAT HAVE THE BEST COMBINATION OF FERTILITY, LONGEVITY AND ADAPTABILITY.

Requirements

- Sired by a bull battery ranking in the top 50% of the breed for the Baldy Maternal Index (BMI\$) or the Profitability and Sustainability Index (ProS)
- Bull ownership transferred

Benefits

- Added market exposure
- Genetic verification
- Maximized hybrid vigor

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

- As we begin the Fall division, we're excited to feature a set of four maternal brothers that're out of a donor cow we selected in 2023 from Bieber Red Angus. The Adele cow family is one of the most prolific in the Bieber program. This flush represents the first progeny we've raised here on the ranch.
- This first Jumpstart son has massive Calving Ease along with tremendous growth, maternal & Marbling numbers. He sports a huge HerdBuilder index.

Red Angus Guide to EPDS and Indexes

ProS – Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include CED, ADG, HPG, STAY, MW, DMI, CW, MARB, REA and Fat.

Index | Dollars per Head | Higher Value

HB – HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning.

HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning.

This index is a combination of CED, CEM, WW, Milk, MW, HPG and STAY.

Index | Dollars per Head | Higher Value

GM – GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feed yard performance and carcass traits.

GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. This index is a combination of ADG, CW, DMI, MARB, Fat and REA.

Index | Dollars per Head | Higher Value

CED – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams.

Percent | Higher Value

BW – Birth Weight predicts differences in actual birth weight of progeny. **Pounds | Lower Value**

WW – Weaning Weight predicts differences in 205-day weaning weight. **Pounds | Higher Value**

YW – Yearling Weight predicts differences in 365-day yearling weight. **Pounds | Higher Value**

ADG – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. **Pounds | Higher Value**

DMI – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period.

Pounds | Lower Value

MILK – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. **Pounds | Higher Value**

ME – Maintenance Energy predicts the difference in maintenance energy requirements. **Mcals per Month | Lower Value**

HPG – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. **Percent | Higher Value**

CEM – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers.

Percent | Higher Value

STAY – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. **Percent | Higher Value**

MARB – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib.

Marbling Score Units | Higher Value

YG – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. **Yield Grade Units | Lower Value**

CW – Carcass Weight predicts differences in actual hot carcass weight.

Pounds | Higher Value

REA – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. **Square Inches | Higher Value**

FAT – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. **Inches | Lower Value**

RE ANGUS
RANCH TESTED. RANCHER TRUSTED.
RedAngus.org

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.

BOWLING RANCH Sale Location Directions:

... SALE LOCATION ...

Bowling Ranch is located 3 miles south of Silverdale, Kansas on the Kansas/Oklahoma state line.

GPS Address: 1) **Don't trust this GPS address** — 9101 East Stateline Road, Newkirk, OK
2) **Best to GPS Silverdale, KS then drive south**

From the East (Cedar Vale, KS): From Cedar Vale, travel 22 miles West on US166 to 141 road. Turn left (South) onto 141 Road for 2 miles, West on 296 Road for 1 mile, South again on 141 Road into Silverdale, KS. The Ranch is located 3 miles South of Silverdale.

From the South (Newkirk, OK):

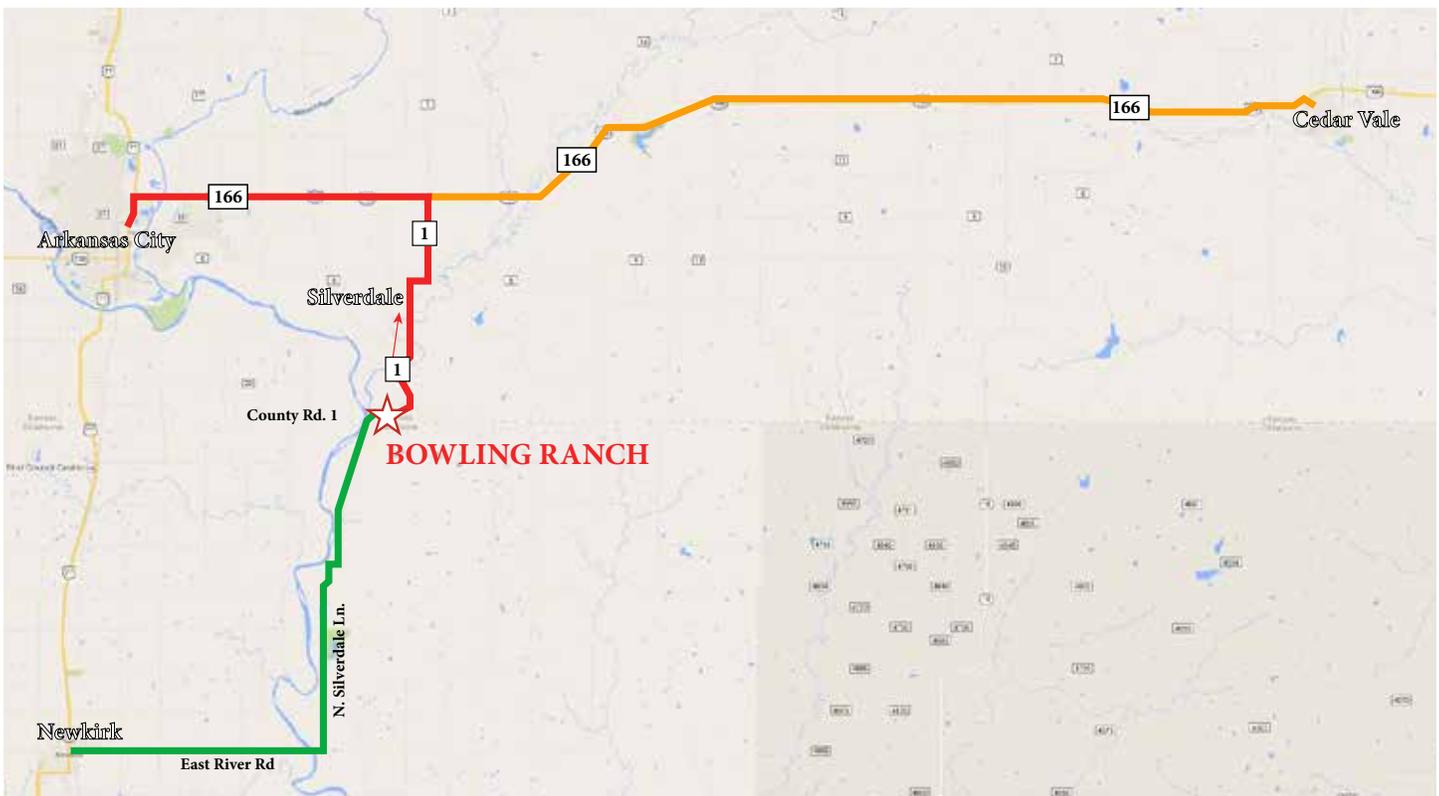

Option #1 — In Newkirk, on US77/Main Street, at the intersection with 7th Street, turn East on 7th Street which becomes River Road. Continue East on River Road 5 miles. After crossing the Arkansas River, turn North on Silverdale Lane (sand/gravel road) for 9 miles to the ranch.

Option #2 — In Newkirk, travel North on US77 to Arkansas City, KS. At first traffic light in Ark City, US77 joins US166 East. Travel East to a roundabout. Refer to the US77/US166 roundabout directions below.

From the North (US77): From Winfield, KS, travel South on US77 to a roundabout. At the roundabout, US77 joins US166 East. Refer to the US77/US166 roundabout directions below.

From the West (I35 in KS): On I35 and at the South Haven/Arkansas City exit, travel East on US166 for 19 miles into Arkansas City. At the first traffic light, turn right (South), remain on US166 East ½ mile to the junction of US166/US77. Turn left (East) and travel to a roundabout. Refer to the US77/US166 roundabout directions below.

US-77/US-166 Roundabout Directions: Exit the roundabout onto US166 East and travel 7 miles East to 141 Road. Turn right (South) onto 141 Road and travel 2 miles, turn West 1 mile on 296 Road, then turn left again (South) onto 141 Road and into Silverdale, KS. The Ranch is located 3 miles South of Silverdale.
