SALE TERMS & CONDITIONS

TERMS ... Terms of the sale are cash unless prior arrangements have been made. When making settlement, please leave specific instructions in writing for transfer and delivery. SALE CONDITIONS ...

- Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids, and decisions on such matters will be final. Each animal will be at purchaser's risk as soon as sold and will be turned over to the purchaser as soon as practicable after settlement. All announcements made from the auction block on sale day by the owner or the auctioneer will take precedence over statements in the catalog.
- Colyer Herefords will precondition and wean heifers prior to shipment.
- Buyers have the option of leaving females at Colyer Herefords and having them exhibit the heifers at the national shows.
- Buyer must insure their purchase while being in the care of Colyer Herefords.
- The total cost of exhibiting the heifer at Reno will be \$1,500 and OKC, Denver, or Fort Worth will be \$1,800 per show. This includes entries, show preparation and related show expenses.
- Due to increased feed costs, an additional \$8/day will be charged while the heifer is at the ranch, beginning November 1, 2025.
- Any banners, ribbons or hardware won will belong to the buyer.
- Buyer will take possession after the respective show and will be responsible for arranging transportation.
- Females that are sold as 1/2 interests, the costs will be split 50/50.
- Ownership choices One-half interest vs. two retained flushes. We have found that some buyers like to own the entire animal and some like to only own one-half interest, therefore, we have come up with this concept so the buyer can choose which one they would like.
- 1/2 Interest Option: If one-half interest is chosen, the buyer will own one-half of the animal. The buyer will pay one-half of the show cost. It is the same as it has been every year on cattle where we have retained one-half interest. We will keep the female and

- breed her and when flushed, send half the eggs to the new owner. Colyer Herefords will pay maintenance costs of the female after her show career. Buyer will pay for their portion of the flush cost when embryos are sent to them or we will alternate every other flush with the new owner, attempting to get equal amounts for each party. If the buyer has the ability to flush the female at their location, they can take possession of the animal and we will assume the opposite position and take one-half the embryos or alternate flushes.
- Retain Two Flush Option: If this option is chosen, the buyer will take possession of the
 heifer after her show career is complete. If shown, the buyer will pay full show expense.
 Colyer Herefords will retain the right to flush the female twice after she is in production,
 at the buyer's convenience, for a minimum of six No. 1 eggs.
- Colyer Herefords retains the right to one flush on all females in the auction.
- GUARANTEE ... All cattle are guaranteed to be breeders. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal.
- GENETIC ABNORMALITIES ... Any cattle with a questionable parentage have been DNA tested and are IEF.
- BREEDING INFORMATION ... Current breeding dates and calving dates are furnished in the catalog. Any changes will be announced sale day.
- NOTE ... Everyone attending this sale does so at their own risk. Neither the owners or their employees assume liability, legal or otherwise, for any accidents which may occur.
- DELIVERY ... Buyers are responsible for shipping expenses. We will help coordinate shipping to combine possible loads. Cattle will be kept for a reasonable length of time following the sale until delivery or pick up can be made.
- ABSENTEE BIDS ... If anyone wishes to bid and cannot attend the sale, we would accept phone bids. Phone in bids with satisfaction guaranteed. We realize everyone's busy schedule and the expense of travel. Please feel free to contact Guy or Kyle for any of the sale representatives listed. The sale will be broadcast on LiveAuctions.tv for live Internet bidding.

at the ranch, Bruneau, Idaho

With pride, we welcome you to our 24th Annual Fall Female Sale. We firmly believe that the Hereford and Angus breeds will continue to be in the forefront of the beef industry. Angus genetics have long been the dominant breed. We believe that Herefords are at threshold of gaining even more popularity going forward. Bottom line is that the black baldy females and steers cover all the bases for producing the most profitable cattle for the commercial sector.

This sale is always bittersweet as it is always hard to part with some of our most elite genetics. We do recognize that today's buyers are very astute and demand the best females. Whether it be a new breeder or an established breeder wanting to update and bring in new genetics into their herd.

There is something for everyone in this sale. Elite show heifers, proven donors, bred heifers carrying heifer calves direct from our replacements and the freshest embryos and semen.

We welcome you to come to the ranch on sale day or any time prior to inspect the offering. Videos will be available closer to sale time on our website www.hereford.com.

Pictures have to be taken in mid July during our hottest weather, and these females really come on closer to sale time.

We offer free delivery to central points throughout the US.

The Colyer Family and crew

We are kicking off this set of pairs with a first calf heifer that has definitely shown what she transmit to her offspring. This heifer calf at side is tremendous and we fell she will compete at a high level but this cow is something to pay attention to. \$108 daughter that is stacked with top maternal females. Don't overlook the fact that she excels in carcass superiority and indexes. Pedigree traces back three times to the maternal giant 88X.

CCC UPSHOT LADY 4087

AI Bred 05/01/2025 to Raven Republic I564, due 02/08/2026. Checked

An attention grabber when it comes to all the right angles and impressive muscle pattern on a moderate frame. She definitely can get fancy with her head up and a strong topline that blends well to the top of her

hip. Couple this with a multidimensional predictor set and you won't have to hang tight for your pocket full of money when she gets into production.

Our quick notes have Justification daughter as a diamond that comes in a smaller package. She opens up right behind her shoulder and sweeps back into a deep rear flank. Vintage genetics and an EPD profile that stays close to the fulcrum will end in bull pairing success without sacrificing the traits that affect return.

Cow profitably comes in all shapes and sizes, but this Alternative daughter already looks the part. Big and broody while reading with an extra shot of length about her neck and rib. Dam is a Playbook

daughter with a WWR of 108 and a knockout udder. Lot 64 is confirmed bred to the full brother to the 2024 Sitz high selling bull which will be the beginning of a bright future in any herd.

Here is the first of the 3 Sitz Stellar daughters in the sale. She descends

from our Bonnie cow line that we can depend on as revenue generators. Phenotypically it's over her top and in her rib that you can't miss out in the pen. We think her EPD's read like a cozy fantasy for a seedstock producer that wants to create one for the record books.

TERMS FOR EMBRYOS LOTS 68-92

If you don't achieve one pregnancy, Colyer Herefords will replace the same number of embryos of the same mating. If the same mating isn't available you will receive credit for the purchase price to use in a future sale. Most embryos are located at the ranch and can be picked up or we can help make arrangements to ship embryos. Shipping is the responsibility of the purchaser.

We haven't seen a bull like Cimmaron achieve this kind of success in a long time. This National Champion swept the major shows where he was the Grand Champion Horned bull in '24 at the Western States Hereford Show, then this January he was Grand Champion at Cattlemen's Congress, the National Western and Fort Worth Stock Show. He began his show career winning Reno as a calf and was the lead bull in the 2024 NWSS Pen of Bulls for Colyer's. He topped Colyer's bull sale in 2024 at \$130,000, selling to GKB Cattle. His dam is the mother of Belle Heir, Real Deal and 8037, the mother of Guardian. Owned with GKB Cattle.

Selling semen in groups of 5 units.

One of the newest Herd Sires purchased by the Colyer program is this Red Thunder son, Lifetime. A grandson of the great Validated 7098 cow, Lifetime is one of the few bulls that can combine tremendous phenotype with a set of carcass numbers that are curve bending. Bred by Cache Cattle Co. in Utah, Lifetime was the Polled Champion Spring Bull Calf last fall in Reno. He's out of Rod's best cow family going back to the Priscilla cow. In addition he's Homozygous Polled and out of a first calf heifer. Expect this outcross sire to make a huge impact on the Colyer program. Owned with Cache Cattle.

Selling semen in groups of 5 units.

One of the most talked about bull's in the breed over the past couple years, Arlo was the Grand Champion Polled bull in 2024 at both the National Western and Fort Worth. Breeders began to take notice when he was the lead bull in the Colyer 2023 NWSS Champion Pen of Bulls. After that, he was the high selling bull in their 2023 sale for \$165,000 to Hoffman Herefords & Buck Cattle. His progeny have now begun to make a name for themselves topping sales across the country for many breeders. This young sire is exciting on many levels. He has the structure and build to put him in the same conversation as Miles but has the color & pigment along with carcass traits to make him the next level of genetic capability. Owned with Hoffman Herefords and Buck Cattle Co.

Selling semen in groups of 5 units.
