

HEREFORD GENES
BEST OF THE
est bull sale

Friday, October 30, 2026

6:30 pm - Westerner Park, Red Deer, Alberta

Alberta Hereford
— SHOWCASE —

Welcome to the 2026 Hereford Bull Day – Friday Oct 30th, 2026

JOIN US FOR A FULL DAY OF BULLS!

Kicking off Friday Oct 30th is the 3rd annual Choice Cut Carcass Competition, the only competition of its kind in Canada at this time. Thanks to Little Fort Herefords for their sponsorship of the Choice Cut Carcass Competition and to Windy Ridge Ultrasound for scanning the bulls.. Special guest Dr Kee Jim, DVM, starts the morning off with a discussion of the importance and relevance of EPDs and carcass data. We anticipate more than 40 bulls will compete this year with the top 10 winners in each category, ribeye/100lbs LMY and marbling and supreme champion will be announced.

Each year we take some time to evaluate what we have done, for 2026 we decided to make some changes to the Hereford Genes Event, and we are excited to share this great afternoon of events with Cattlemen.

All bulls entered in the Showcase will have the option to participate in the Genes event, bringing more bulls to the ring. Registered attendees will have the opportunity to judge the bulls, People's Choice competition format and be entered to win a 1 year lease on a brand new Irvine's stock trailer.

Cattlemen will enjoy a cowboy social, networking, tasty bites, judge a great selection of bulls and enjoy live music by Dustin Far.

Welcome to the 4TH ANNUAL BEST OF THE WEST SALE

The afternoon will wrap up with the Best of the West Bull Sale. While in the barn visit the consignors stalls to see the bulls on offer.

This year we will be offering 3 \$2500 bull sales credits to registered bidders. The credits must be used at the 2026 sale. Whether you are attending in person or bidding online, you will have the opportunity to enter to win one of three bull sale credits of \$2500.

Get a head start on your bull buying – the consignors are willing to work with you to ensure the timing of delivery works for you.

If your bull is to be wintered with the consignor, we encourage you to purchase insurance before you leave.

TERMS & Conditions

TERMS The terms of the sale are cash or cheque, payable at par at sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Hereford Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH All animals in the sale have met all necessary health requirements.

GUARANTEE Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under terms and guarantees set forth by the Canadian Hereford Association with regards to health, freedom from genetic conditions and from both reproductive and specific genetic unsoundness.

LIABILITIES All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

MORTALITY INSURANCE If your bull will be overwintered with the consignor, we encourage you to purchase mortality insurance.

PHONE, MAIL, WIRE BIDS Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

A bull that would have featured in our sale at home, here in Red Deer, or at Calgary. Tremendous natural thickness with a steep foot under him. Sire 80G, sires broad topped cattle and his daughters have tidy level udders with plenty of milk. His dam was purchased in this very sale from the Garrett Ranch at Landis, SK.

Doing chores one morning, I found him all licked dry and nestled up beside his mother. 5N had arrived in the night unassisted, unattended and immediately commanded the attention of all who had seen him then and have seen him since. On nothing but milk, grass and fresh air his mother brought home in the fall, this strapping young bull calf posting an 819lb weaning weight. Kathleen knocked it out of the park again with her 7th calf. If you are looking for that bull wrapped up in a dense mahogany coloured hair coat, that carries and will transmit the productive and maternal traits of his mother to your future brood cows, have a look here. Little Johnny is eager to get breeding.

This guy is pretty cool. Been one of our stars since birth. Also, alert with his head up and yet pretty quiet. Just proud. His dam is the kind we want herd bulls out of, Big, deep, power cows with perfect feet and udders. She's a ton cow and moves like a cat and has a MM number of 33.1. Her first calf was a feature herd sire prospect as well and sold to Gabriel Gomez in Mexico. Both her calves are easy gestation and light birth weight. This guy is definitely recommended for heifers or cows. Within 2 months, he was one of the biggest calves and hasn't looked back. Hard to find a heifer bull with enough power to be a cow bull as well, but this guy is. The sire is a Straight Horned pedigree that goes back to one of Lilybrook's top cows. 1G was purchased in dam from Lilybrook. He adds pigment and marbling. 13P is 0.21 for marbling. We will be offering to buy back 1/2 interest in the "Marble" prospect.

It's really hard to find a heifer bull that's not just a heifer bull. This guy is just that. A lot of our top replacement females are out of 2 year old heifers, so maternal on our heifers is really important. Feet, markings and udder quality are a close second. This guy checks all three boxes plus more. He was a feature in the Hirsche sale last fall where Kevin Aitken purchased 1/2 interest in this exciting young sire. He ran with 40 cows and heifers from April 6 - July 7. He was in great grass, but came in from breeding in outstanding condition. His dam is the best uddered cow on the farm and has another Homo Polled herd bull prospect in Hirsche's sale Dec. 4. His sire 613H was a feature at MJT's sale 5 years ago. He was an ET calf and had 4 flushmates, one that MJT kept as a herd sire and is still using him because of his daughters. All have perfect udders and we've never bought a bull with better feet. Bred really well and added huge pigment and muscle. Hirsche's have 2 more sons they will be offering to share in at their sale this fall.

Nickel Red Lad is a long deep bodied bull that has really grown this past year. 8N's sire is our big Rutledge bull who always delivers good footed cattle that have tremendous growth and length. This fella will throw lots of length and pounds to calves. 8N's dam is a cow that we bought from Ayreys as a heifer calf. She is a large-framed cow with good thickness and length. Our 44G cow has been producing well balanced calves ever since she was a bred heifer.

DR. KEE JIM

Dr. Kee Jim's innovative approach to cattle management combined with his veterinary management and agri-business leadership has garnered him the reputation of being one of the most recognized and respected individuals in the agricultural world. His roots starting at the ranch at Little Fort, BC through to his academic and business achievements are a true testament to his passion and dedication to the livestock sector.

From being a founding member of Feedlot Health to being a senior leader of agriculture at Telus Agriculture, Dr. Jim believes embracing technology and precision agriculture will lead to healthier cattle and a more sustainable food chain. In 2024, he was inducted into the Cattle Feeders Hall of Fame for his entrepreneurial spirit and unwavering dedication to advancing the cattle industry.

This bull has been stand out since birth. He has great feet, with a good disposition, and moves out freely. His pedigree is packed with bulls that have made a positive impact on the Hereford breed. We have had great success with his sire, 267K. He is a calving ease bull, with tremendous performance, and all reports are that his daughters are outstanding. The grandsire, 0186H, has been one of the most influential horned bulls in the breed over the past few years. We used 5N this year, and probably should be retaining him based on his own merits and EPD profile. His dam will be flushed next spring. This will be one of the first 267K sons to sell in Canada *LFH reserves the right to in herd semen use on the bull, with collection at the buyer's convenience and seller's expense.*

We would like to offer you the opportunity to have the pick of these two high-performance MWL 66K sons. 66K's offspring have added depth, muscle development, are excellent footed, and weigh at the top of both the heifer and bull pens. Since we still have the Sire in use in our herd we thought now is the time to offer two sons out of the very top cows from his first calf crop. It wasn't an easy decision to part with either bull as they have flip flopped as our top two favourite 2025 bull calves all along. BRF 84N was our 2025 Hardisty Field Day Reserve Champion Bull Calf. His Dam 123G is from our strongest maternal 141W bloodline, who is a deep bodied broody cow with a beautiful udder, perfect feet, and raises top end calves every year. BRF 30N was also one of our top calves last summer, winning his class at the Field Day as well. We got his dam 84D with the Crone cow herd and she consistently raises top calves every year, as a 10 year old cow she still has perfect feet and udder, and is an easy keeper.

SGC 105Z STANDARD LASS 84D
SGC 201U RED STD LASS 43A

CONSIDERED BY MCLENNAN CREEK HEREFORDS

High Road is our first ET calf out of our donor 45G. We have highly anticipated this calf and he has not disappointed. High Road has shown exceptional growth from a moderate birthweight. He should pass on excellent maternal traits that he has inherited from both sides. His dam and female siblings have the best udders our place. Maternal sister was purchased by MJT.
