Welcome to a **DOUBLE** **PORTION** !

OR TP DESERT PRIME

The Data Specialist!

What a second-to-none record this sire has accomplished ★ Over 100 daughters retained in our registered herd ★ Over 200 sons sold and working in herds all over the land ★ Even at 9 years old he still remains a breed trait leader in an astounding 11 traits; including 5 traits in the top 1% of the breed!

4T DESERT BOND 0007

The Range Specialist!

This 5-year old goggled eyed "range specialist" is so sound, so smooth and does all the things cattle folks demand. Huge spring of rib, thick-quartered, with dark, hard feet that have never been trimmed. ★ A great compliment to Desert Prime, we have not had even one glitch in all the sons we have sold to top producers. ★ He is impressive! Oh, we need to mention, he goes back three times to the 18-year-old Christi cow!

DESERT MART

GENERAL INFORMATION

TERMS AND TRANSPORTATION

Each animal will be sold to the highest bidder and the auctioneer will settle any disputes as to bids. Terms are cash at the time of purchase or one-half down and the remaining balance due at the time of delivery. If you so desire, we will care for your purchase for up to 30 days at our risk and our expense. It is our desire to make all deliveries and receive any remaining payments prior to December 20, 2025. Free delivery on the bulls anywhere within the continental United States on total bull purchases of \$5,000.

If you bring your own trailer and health certificates can be written sale day, there will be a \$125 rebate per bull you haul home. Note: Due to changing health requirements on bulls, please check your state's health requirements; if there are any questions, contact us so that we may assist you with delivery.

GUARANTEE AND LIABILITY

Customer satisfaction is our primary concern. Every effort has been made to ensure complete genetic prepotency and purity. All Sale Cattle are guaranteed free of known genetic recessives; any exceptions will be clearly identified. All coming twos and fall yearlings have been fertility tested and scrotal measured by our veterinarian. Every bull selling carries our guarantee: If a bull fails in any way to meet your expectations for two full years from time

of purchase, (1) send him to the auction barn and notify us of the salvage check; (2) then at your option we will either replace the bull; or (3) you will receive the difference between the purchase price and the salvage check as credit in our next bull sale. All cattle that have horns will be so designated. The same goes for cattle that are polled. Scurred cattle will also be identified. Bulls with scurs do not have real horns and should not sire cattle with horns any more than a smooth polled bull would. All persons attending the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents or further guarantees.

WINTERING ARRANGEMENTS

At buyer's option, all bulls will be wintered at a cost of 100/head/month. Since each individual carries the 2-year guarantee, seller assumes full risk.

HEALTH

All sale cattle will be health approved to go to any state, however, certain states may require additional health tests which may not be able to be written sale day.

ACCOMMODATIONS

Excellent accommodations are available in Buffalo, Casper and Kaycee. For assistance with motels or additional travel, please call 307-738-2443.

BID FROM ANYWHERE

with

LiveAg
PUREBRED

- 1. VISIT LIVE-AG.COM**
Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.
 - 2. LOG IN / CREATE AN ACCOUNT**
Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button. An account is not necessary to watch an auction.
 - 3. REGISTER TO BID**
Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.

DESERT ★ MART

Dear Cattle Producers,

Welcome to our 44th Annual Production Sale, the DESERT ★ MART

DOUBLE PORTION *Sale*

We can assure all of you that in spite of our wonderful cattle market; there is no way DESERT ★ MART is going to take our foot "off the gas pedal!" We are even more driven to supply this great industry and its people every conceivable advantage to capture the very top prices anywhere! Here are the main focus points of our ongoing 123 year pursuit of HEREFORD EXCELLENCE:

★★★★ FOCUS ON CARCASS. This year we are expanding and improving our unique **DCR** Data. Details on page 4.

★★★★ FOCUS ON LONGEVITY. While many registered operations hold to a program based on a "roll the generations" model, our herd emphasizes stay-ability; many of our cows are still going strong at 9, 10, 11 years and older. With the increasing expense of replacement females, you can see this economic value!

★★★★ FOCUS ON HEIFER BULLS. Perhaps a surprise to some, we enjoy an ever-increasing desire of cattle folks looking for a powerful baldy out of their first-calvers. Find numerous lots that supply that direction.

★★★★ FOCUS ON PREDICTABLE DATA. Over the decades, we have identified the most dependable genetics; and then, we keep stacking and stacking these together. Consequently when our Herefords go out on outside cows, they do really explode pounds and power!

★★★★ FOCUS ON MATERNAL SURETY. Constantly selecting, culling, and emphasizing milk, fertility and fleshing ability keeps both you and us in business!

★★★★ FOCUS ON CUSTOMERS. Old and new customers have found a new level of comfort with the full two-year guarantee, the sight unseen buying aspect, and the pleasant fact we truly love our customers!

So, study the catalog, ask us any questions you may have, and then enjoy a Hereford Bull Feast!

In Christ,

The DESERT ★ MART Crew

**The
Improved ...**

DESERT★MART

★ **DESERT CARCASS RATIO** ★

In our ongoing pursuit of providing the most accurate and practical data possible; we have updated and expanded our total approach to carcass information. To accomplish this ever-increasing valuable tool, we are now including carcass weight and carcass leanness (yield grade) into our comprehensive **DCR**. As our industry evolves into premiums offered on carcass weight while curbing excess fat, we believe this improved approach will benefit all our value-based customers. In short, you will not find a better, more accurate carcass indicator than what **DCR** offers!

This new **DCR** data is derived by assigning a whole number value to each of the five carcass EPDs. After adding these together an individual's score is compared to the breed average for the sum of the five carcass EPD measurements. Therefore, if an individual **DCR** score is 120; this simply means that individual comprehensive carcass value is 20% higher than the average Hereford. This is new, this is exciting, this is valuable!

DCR: 120

REAL CATTLE WORK IN THE REAL WORLD!

All the sale cattle have been raised on native range with no creep feed. After weaning, all bulls are developed on a growth ration and long hay with plenty of exercise and exposure to all of Mother Nature's elements.

PERFORMANCE RECORDS

Our herd has been enrolled in the American Hereford Association's TPR Performance Program for over 60 years. We are putting out individual performance information except actual birth weights in the catalog expressed strictly as EPDs. While all the registered cattle have ratio information, the latest research shows that Expected Progeny Differences for young bulls may be as much as nine times more accurate for selections than ratios. Present weights and any additional information requested will be available sale day.

MATERNAL STRENGTH

It has been determined that maternal traits are the most highly valued economic traits in the cattle industry. Milk EPD is the calves' weaning advantage in pounds expected from a bull's daughters through milk production. Milk plus growth EPDs indicate the advantage in pounds that the same daughters will transmit through both their milk and growth qualities. We have been pioneers in stressing the importance of maternal strength. You are assured of superior milking replacements when using bulls with high Maternal EPDs.

CARCASS ABILITY

Possibly no herd has done more long-term documented carcass work. We had the kids 4-H steers tested and are proud to report that of the three steers we have tested by a son of Golden Achiever they have averaged the following carcass excellence:

3 Steers: Backfat: 0.3; Yield Grade: 1.9; Quality Grade: Choice; Ribeye Area: 18 sq.in. We don't believe any breed or any program can produce more superior, consistent carcasses than these!

BIRTH WEIGHT EPD

We are giving each lot an amount of stars above the birth weight EPD box to designate whether bulls can be comfortably used on different kinds of cows. This explanation is as follows:

- ★ Indicates a birth weight tendency for mature cows
- ★★ Indicates birth weight for all cows and larger heifers
- ★★★ Indicates that birth weight should be acceptable for all heifers and cows

UDDER PIGMENT POSSIBILITY (UPP)

Only at DESERT★MART! Again this year, we are indicating UPP with the three rankings of H (high), M (moderate) and L (low). Example: UPP-M would indicate that female progeny from this example lot would have a moderate possibility of possessing udder pigmentation.

SPECIAL NOTE:

Footnotes. Again this year, we are giving a brief description of each lot. This is to provide more insight to those folks who may not be able to attend and bid in person.

SPECIAL NOTE: All **DCRs** are the new 5 carcass traits evaluation. This includes Reference Sires.

- An Upstream Ranch raised bull we thought enough of to use AI for 3 years. He is now an 8 trait leader with 6 landing in the top 3% of the breed or better! He sires growth/maternal/carcass cattle! 7 direct sons sell including lot 1 and lot 2!

KING TEN

18621855

- King Ten's influence on the Hereford breed has never been any greater than it is today! It is extremely rare to find individuals that are currently winning major championships, dominating data superiority, or commanding the highest sale prices without finding traces back to King Ten.
- In order to avoid the negative aspects of extremely tight breeding practices, DESERT ★ MART has utilized numerous different outstanding, proven progeny of King Ten! That is why we can intensely stack his genetics so many times with such a one-of-a-kind demonstration of predictability and explosive power!

For your reference, the following sires plus each lot has listed the traces back to this historical sire.

- Act. BW: 71 lb.
- A carcass "monster"! Sired by Rocket Fuel, he shows us a double shot of "Prime" the great horned carcass bull and also shows us "Validated" the great polled carcass sire! No wonder: he boasts a 2% marbling along with a 5% top of the breed ribeye! He is an explosive genetic prospect!

- Act. BW: 78 lb.
- Sometimes we need to repeat just how intense these **DCR** scores really are! It has taken us over 53 years of selecting, testing and concentrating carcass ability in our herd. These accurate, high scores are only possible through generations of unrelenting pressure, so that nobody can claim there just isn't any Hereford bulls that will boost feedlot and carcass excellence. This youngster also has 12 better traits with power!

- Act. BW: 76 lb.
- We are so pleased to offer so many ¾ brothers for your evaluation. This boy shows a very large scrotal and pelvic, a nice balance of traits and a top 3% for carcass red meat yield and a top 6% for ribeye!

EXPLANATION OF DBC MARKER: *This year we have a few lots that show positive to a potential vision issue when mated to certain registered cows. These lots with DBC are 100% recommended for any commercial cows especially those of a different color. P.S. DESERT ★ MART has never had any cattle with this vision issue.*

- Act. BW: 79 lb.
- What does a larger circumference pelvic opening really accomplish? It means more peace of mind during calving season; it means potentially more pounds to sell at market time because of less stress on the newborns; it means better breed-ups from cows bouncing back quicker after calving. This 11-trait bull pelvic is tremendous!

- Act. BW: 79 lb.
- Seller retains ½ interest, ½ semen sales, and career show rights. When possible, semen will be supplied to buyer. Buyer will also receive full possession after Lot 93's show career is ended. Flawless is a description that can be tossed around too much; but in this case it's awfully close! We think his dam is ideal, moderate, fabulous udder and teats and milks like crazy. His sire has a super set of calves here at the ranch with the heifer calves as good as the bull calves! He bangs 15 traits including a top 1% in that essential scrotal circumference department! An incredible investment opportunity!

- Act. BW: 67 lb.
- Selling ¾ interest, full possession. What we have here is a super changer! We doubled up DS 1045 Advance 3575N (REA 1.00, MARB .86), the renown carcass bull from Olsons in Nebraska. "3575N" is the sire of both "Prime" and "Stardance". We kind of expected explosive results and we weren't disappointed as Lot 94 has a negative birth weight EPD, plus so many other extras. A stunning 11 traits in the top 10%! Enough said!

- Act. BW: 79 lb.
- 16 traits to ride with! The upcoming Stanfield bull mated to a great daughter of "Prime" gives quite a youngster! What is really unique is that he is way below breed average in calving ease direct while having a huge yearling value. Bottom side of the pedigree carries a grandam that has 9 straight calves plus on back in his pedigree some Mohican West and Colyer Hereford bloodlines.
