### absentee bidding

If you would like to place a bid but are unable to attend the sale, please direct your bid to any of the owners or sale staff. You may also bid on-line as the sale will be broadcast live on the Internet.

Watch the sale and bid live at [liveauctions.tv](http://liveauctions.tv)

Amanda Eberspacher Hilbrands..... 507-828-7089

### directions to the sale barn -

From Lake Benton, MN - Take Hwy 75 north 4 miles, turn west onto County Hwy 13 for 5 miles. Turn north on County Road 101 for 1.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

From Ivanhoe, MN - Take Hwy 75 south 5 miles, turn west onto County Hwy 15 for 5 miles. Turn south on County Road 101 for 2.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

**Just 20 minutes from Brookings, SD** - Take Hwy 14 east toward Lake Benton 20 miles. Turn north on County Hwy 1 for 4 miles. Turn east onto County Hwy 13 for 2 miles. Turn north onto County Road 101 for 1.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

**Jerry & Shelly Delaney Family**

2071 County Rd 101, Lake Benton, MN 56149

Jerry: 507.820.0661 | Nick: 507.829.0561 | [jdh@delaneyherefords.com](mailto:jdh@delaneyherefords.com)

[delaneyherefords.com](http://delaneyherefords.com)

**viewing** - Visitors are welcome to inspect the cattle anytime at their convenience. The entire offering will be located at Delaney Herefords beginning September 22nd. Prior to that date, please contact us for information.

**terms** - Terms of the sale are cash or check payable during or after the sale, before cattle will be released. Cattle will not be transferred until paid in full. Each animal will be at the buyer's risk immediately after the animal is sold. Delaney Herefords and/or Atkins Herefords will be retaining two flushes, minimum of six eggs per flush, on all heifer calves sold at our expense and buyers' convenience unless otherwise noted.

**guarantee** - Pregnant cows are considered breeders without further guarantee. All open females are guaranteed to breed by natural service. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal. No adjustments will be made after nine months from sale day on any animals.

**health** - All cattle will be sold in compliance with the health laws of the State of Minnesota. Health papers will be provided. All cattle have been tested and are free from any known genetic defects.

**insurance** - We strongly recommend purchasing mortality insurance which will be available sale day at the clerk's desk.

**trucking** - Trucking is the responsibility of the buyers. We are happy to connect you with a reliable trucker to make arrangements for your purchases.

**transfers** - Registration certificates will be transferred to the buyer at the seller's expense. Each buyer must be sure to give the clerk the proper name and address for making transfers.

**international purchases** - All expenses involved with cattle being exported out of the United States will be the responsibility of the buyer, including all vet work, export permits, and trucking on both sides of the border. Delaney Herefords and/or Atkins Herefords will help coordinate the process.

**epds** - EPDs listed in the catalog are current at time of catalog printing. Updated EPDs will be available sale day. All cattle have been tested for known genetic defects.

\$CHB EPD in the top 50% of the breed.

**accommodations** - Due to a large event in the area, hotel rooms are booking up quickly. We've secured a limited number of rooms at various hotels near us. If you need a reservation, please contact Shelly Delaney (507.820.0203) as soon as possible — availability is limited. Please note: hotel accommodations will be at your own expense. We're also happy to provide recommendations if needed.

**air travel** - The Sioux Falls Regional Airport is just 70 miles from the sale. Please call if you need a ride to/from the airport, we are happy to accommodate.

All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

**Pete & Laura Atkins Family**

27132 SD Hwy 17, Tea, SD 57064

*Friday, September 26<sup>th</sup>*

***Cattle will be available for viewing all day.***

***Then, join us for an evening of fellowship at Delaney Herefords, beginning at 5 p.m. CST. Enjoy cattle on display, steaks hot off the grill, and live music as we kick off our pre-sale celebration!***

*Saturday, September 27<sup>th</sup>*

***70 head sell at auction at 1 p.m. CST at Delaney Herefords, Lake Benton, MN.***

***Lunch will be served prior to the sale.***

*Welcome*

## Hello Folks -

We would like to welcome you all to the Delaney/Atkins Genetic Opportunity Sale.

As Nick and I were tying up the heifers, they were whipping me around like a wet noodle. We finally got them all tied up, and he looked at me and said, "We could sell every cow on the place and just keep these 15 heifer calves, and we wouldn't miss a beat in the quality of our cowherd—because these girls are good!"

And all I could think was: you're right! We're just two years out from our last sale, and that's how deep these heifer calves are.

The cows selling today are the backbone of the herd that produces calves like these and herd bulls for our upcoming bull sale on February 21st, 2026. We take a lot of pride in our cowherd—because at the end of the day, that's what it's all about: cows that go to work, add value to their calves year after year, and still carry very strong numbers.

Delaney Herefords is proud to host the sale this year. We've got some big shoes to fill after our good friends and partners, the Atkins family, hosted it two years ago. We're going to do our best to live up to the high standards they set!

We've gone real deep into the herd to put this kind of offering together—donor cows, fall-bred cows, spring-bred cows, bred heifers, heifer calves, bull calves, and Final Print!

If we can help you in any way, all you have to do is ask. We appreciate your friendship and support.

*Jerry Delaney  
& the Delaney/Atkins Crew*

What a way to start! 220N is the culmination of what our program is striving for, cattle that excel phenotypically as well as numerically. She's dark red, fully pigmented with plenty of rib and dimension. She is one of the smoothest, neatest designed heifers that sound and flexible. This one just looks like a future donor!

Her dam, 125L, is a maternal sister to Final Print and was a feature in our 2023 Genetic Opportunity Sale going to our good friends at Ollerich Brothers Herefords.

Full sister to Lot 2 and maternal sister to Lot 3.

Top 3% or better in 5 traits including WW, YW, REA and CHB.

DAM OF LOTS 1-3 | JDH AH 8032 MS LINCOLN 125L ET

Real-time bidding is available via the Internet for this sale. Buyers must create an account **prior** to the sale. Please visit [www.liveauctions.tv](http://www.liveauctions.tv) to create an account and request a buyer number. Instructions are available to walk you through the account setup process.

Buyers who would like to bid via the Internet must register with [www.liveauctions.tv](http://www.liveauctions.tv) two days prior to the sale. For more information, call Amanda Eberspacher Hilbrands. 507-828-7089

Much like her full sister, 120N combines great phenotype with an elite set of EPDs. Her \$ indexes are in the top 4% of the breed or better. It's easy to see she will generate cattle that are driven for profitability. She has all the pieces to push any progressive program forward.

Extra skeletal width and mass in this heifer, she's ultra broody and cowy in her appearance. Her dam, 125L, is beautiful as a first calf heifer as we have, big bodied easy keeping with excellent udder quality.

Full sister to Lot 1 and Maternal sister to Lot 3.

Top 5% of the breed or better in 8 traits!

270N offers a unique pedigree. This big spread female is so smooth and attractive in her design. She's square made, sound and flexible footed at the ground. On paper she reads to be easy calving with extremely high maternal and her pedigree backs that up.

These are the first progeny to sell out of 125L. We are very pleased with both male and female progeny out of this young donor and we are excited to show them off. Maternal sister to Lots 1 and 2.

9 traits in the top 5% of the breed including top 1% in SCF, Teat, and BMI.

If you are looking for a foundation type female with donor potential, here she is. Dense made maternal masterpiece. 46N has had the look of a brood cow since day one. Not only is she ideal from the side profile but she also packs a punch when you get in behind her. She is one of the boldest ribbed stoutest heifers in the offering. 46N is the 'Total Package' and one you need to find come sale day.

8 traits in the top 11% of the breed or better.

Her Dam, 18J, sold in the National Sale to Hoffman Ranch. She is one of our all time favorites.

Three full brothers will highlight our 2026 Bull Sale.

*This is a proven mating that has WORKED! This calf is the result of embryos purchased from our Friends at Burns Farms in Tennessee. The dam of this heifer is the famous NJW Rita 157F who continues to produce some of the most valuable cattle in the breed in recent years.*

*Burns have sold 2 full sisters to this heifer in past sales that have brought \$55,000 and 40,000.*

*The quality of this heifer is tremendous. She is deep sided and soft made and certainly has the look of a top producing cow and donor. To go along with that she has great calving ease and a Birth to Weaning spread of 2.5 to 124. Plus she is pigmented and homozygous polled.*

*Here is one that you can build a herd around. We will be retaining the right to 2 future flushes at the buyers convenience and at our expense.*

Awesome pedigree on this one. Combining the immortal 19Z with the exciting and powerful Sherman bull.

This heifer is so complete In the way she's put together -big hipped, deep bodied and sound made. She's only gotten better with age and could end up being the best in the sale!

Lots 6 and 7 are daughters of 19Z and have every bit as much quality as many of their high selling sisters have in the past.

Here is a powerhouse herd bull maker with an awesome pedigree. 24N is bold and beautiful with plenty of rib and dimension. She carries all that power so well with a sound build and attractive front 1/3rd.

Her sire Houston has made a name for himself in the breed for siring cattle with extra performance and her dam Mercedes needs no introduction. She has produced numerous high sellers across the country including Makers Mark.

This big spread female offers 10 traits in the top 10% of the breed or better.

Full sister to the \$40,000 lead off bull in our 2025 Bulls & Breds sale, JDH Crimson 65M. This female will stop you in your tracks. She's gorgeous at every turn. It's hard to make one more picture perfect than this from the profile. Much like her full brother, she has all the look and style you can put in one.

We could continue to talk about her phenotypically but to us her greatest feature is the cow families behind her, the udder quality and generations of great producing cows that give us confidence in her future. Her dam, 97J, has been an absolute rock star and looks phenomenal doing it. With her first calf she raised JDH Explorer 2L who is working for Double Seven Ranch in Oklahoma and her second calf was the aforementioned Crimson going to Stellpflug Cattle Company. Her calf this year by Final Print might be her best yet and will be a feature in our 2026 Bulls & Breds Sale.

Full sister to Lot 10.

**Homozygous Polled.**

Full sister to Crimson. Females like her will prove to be wise investments especially when they are backed by generations of consistent producers like she is. Her dam has a picture perfect udder and ratios 3 @ 86 for BW and 2 @ 113.5 for WW! She has raised high selling bulls with each of her first two natural calves.

21N herself is high performing, sound footed and gorgeous from the profile. This dark red gem is sure to be a long lasting, productive cow and will look great doing it.

Full sister to Lot 9.

### Homozygous Polled.

Adjust your eyes here as this is just a March heifer, the youngest heifer in the sale. She is the result of one of the first flushes from our 2263 donor that we own with Haxton Hoffman. This heifer is a son of H Benton 2205 owned by Hoffman and Upstream Ranch.

Here is a young, green heifer with style to burn. She is level topped and swoop bellied to go along with great extension in her neck. She always carries herself like she's ready to be pictured.

### Homozygous Polled.

Here is one that combines elite phenotype with a progressive set of figures. She's powerful, sound and has all the attractiveness and presence to be a top end show heifer. She is one of the stoutest featured heifers in the offering that's ultra attractive through her front 1/3rd.

Daughter of Donor 42H who sold in our 2023 Genetic Opportunity Sale. We love this heifer's profile and soundness, she's tough to put a hole in. Very unique pedigree here out of a Sheriff son mated to a Bentley daughter. She offers Breeding versatility.

DBC. As we move to fall calving cows at Atkins Herefords here is one of the first fall females we produced. Recognize that this heifer is just 12 months old but look at the cow power and pedigree she displays. When 7098 sold at the Birdwell sale to Churchill Cattle, we bought the heifer calf she had at side. That cow has since been sold to Stellpflug Cattle but we retained a daughter, this heifer's dam, and she is doing an outstanding job. This heifer just looks like a front pasture cow in the making plus she has a great EPD profile with Marbling, SCF, \$BMI and \$CHB all in the top 1% of the breed. If you like good cattle look here. DB Carrier.

PICTURED AS A YEARLING

PICTURED AS A COMING TWO-YEAR-OLD

Final Print is the true curve bending, proven sire of the Hereford breed. He is the ONLY proven sire in the breed with a BW EPD below 0 and with WW above 80 or YW above 120. He has over 660 calves with birth weight data and the average BW ratio is 97.9. His calves go on to have an average weaning ratio of 102 and yearling ratio of 101.6. As a female producer, his first 38 daughters in production have an average weaning ratio on their calves of 103. His EPD's for Teat and Udder are both in the top 1% of the breed. To go along with that, Mature Cow Weight is well below breed average being in the top 35% of the breed. His carcass traits put him in the top 5% of the breed for \$CHB. Final Print is pigmented and freckle faced and passing this along to his calves. At 5 years of age he remains extremely sound with excellent feet.

I cannot say enough about the impact he is having on our programs. He has produced high selling cattle for us and for breeders all across the nation. His influence in our herds will be seen in the coming years as we bring more daughters into the herd. He has been used extensively by the owners and semen sales continue to be strong. With the numbers of daughters that we are breeding we have decided to share this great bull that is in his prime.

We are offering full possession and in-herd semen use of Final Print. Possession is available immediately following this sale. He sells with 100 units of semen for the buyers in herd use, stored at Custom Genetics Solutions, Mitchell SD. All semen and certificate sales are retained by the sellers. The sellers reserve the right to collect additional semen at our expense and at the buyers' convenience. It has been our pleasure to have this stud walk our pastures the past years and here is your opportunity to do the same.

Final Print is owned by Atkins Herefords, Dvorak Herefords and Thomas Herefords.

**Homozygous Polled. Full sister to Lincoln & Mercedes.**

Looking for your next donor? This cow has it all, calving ease, real world growth, elite maternal, udder quality, homozygous polled and pigmented. Phenotypically she is elite. She will stop you in your tracks. We had no intentions of selling her but, like her mother (19Z), she flushes extremely well and has given us a bank of embryos that we can build on which allows us to offer this young donor up to you.

A son of 34J sold for \$10,000 on our Bulls & Breds Sale and a daughter was a member of our Pen of 3 heifers in Denver and sold for \$9,000. Another daughter will lead off our pen of heifers this year and multiple sons will highlight our 2026 Bulls & Breds Sale. We also have a son we will retain and use back in our program.

FULL BROTHER TO LOT 16 | JDH AH LINCOLN 106H ET

19Z's influence is spread throughout this sale, but maybe no three siblings have been as influential as Mercedes, Lincoln and 34J. The 19Z x 33Z cross flat out worked. Here is your chance to get one in her absolute prime.

Pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe for a beginning of February calving date.

Cow/Calf Pairs

### Homozygous Polled.

It's difficult to make a lot order for 1J and 34J because we are not totally sure which one does more good. They have both worked incredibly well here and left us with a base to carry on their legacy.

1J is another donor that checks almost every box, excellent EPDs, pigment, pedigree and phenotype. She is a daughter of the immortal 45C cow. She offers 10 traits in the top 10% of the breed. She is a calving ease female with excellent growth, carcass and high maternal traits with a BMI in the top 2% of the breed. Her calves genomic extremely well. 3 sons by Gunsmoke will highlight our Bulls and Breds sale. Two daughters are feature bred heifers in this sale selling as lots 41 and 45. The sky is the limit for what this young female can accomplish.

Pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe for a beginning of February calving date.

### Homozygous Polled.

Here is a young female that has serious donor potential. This two-year-old is as gorgeous as you can make one. Beautiful uddered, excellent EPDs and an elite cow family behind her. We still have her great grandmother roaming the pastures at JDH and at 13 years old, her grandmother is working at Atkins Herefords and her mother resides in our donor pen at JDH. That exemplifies the kind of fertility and longevity we strive for.

Her sire, Benton, has taken the breed by storm as of late with multiple sons and daughters highlighting sales across the country. We feel this female has as much quality as any.

Maternal sister sells as lot 27 and 31

Reserving the right to 2 (two) future flushes with a minimum of 6 (six) embryos per flush.

Pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe for a beginning of April calving date.

Homozygous Polled. Actual BW - 56 lbs.

Another outstanding calving ease option. This guy came out at 56lbs and has absolutely exploded. He is big topped, stout hipped with plenty of rib and body. He offers a progressive set of EPDs that will move any program forward.

12 traits in the top 10% of the breed.

MATERNAL SISTER TO LOT 18 | LOT 31 - 910G

DAM OF LOT 18 | AH LADY ZENA 610D

Benton daughters have been highly sought after in recent sales and here's a great opportunity to get one in the prime of her life bred to high selling bull in the 2025 National Western Hereford Sale, JDH AH OLD FASHIONED 25M ET.

9K is gorgeous from the profile with plenty of look and extension. She's big bodied and flexible at the ground with an udder that's built to last.

Ratios 2@93.5 for BW and 1@105 for WW

Maternal sister sells as lot 28.

AI'd to JDH Old Fashioned 25M ET on 4-29-25 then pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe to AI date.

Actual BW 65 lbs.

Another great calving ease bull calf sired by Final Print. He is loaded with plenty of look and style and is correct in his structure. This bull will surely sire an outstanding set of replacement females.

A female that does everything right. Ideal udder quality, with extra look and extension. She is sound footed and built to last. Her stout bull calf is proof of what she does year in and year out. She comes from a great cow family that traces back to VCR Ultimate who was known for his tremendous daughters. We retained her heifer calf from last year and she is a standout in the replacement pen.

Ratios 3 @ 104.7 for WW

AI'd to JDH Old Fashioned 25M ET on 4-29-25 then pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe for an end of February calving date.

Homozygous Polled.

Awfully nice young pair here. 131K is the natural Entice out of donor 610D. She's doing an outstanding job on her heifer calf. This cow family is loaded with long lasting fertile females and this red eyed beauty is sure to follow the same trend.

Maternal sister to Lots 18 and 31.

8 traits in the top 10% of the breed.

AI'd to JDH Old Fashioned 25M ET on 4-29-25 then pasture exposed to RST Final Print 0016 from 5-4-25 to 7-9-25. Vet called safe for an end of February calving date.

We will be sad to see this one go. 789 has done so much for us as a donor and still has more in the tank! Recently, a son commanded \$18,000 in our Bulls & Breds sale going to DeanaJak Farms. A daughter sold in our 2023 Genetic Opportunity Sale for \$14,500 going to Tracy McGee, and another daughter sold to Grassy Run Farms in the Go-Pher the Purple Sale for \$7,000.

A direct daughter of the legendary 88X, 789 puts so much mass and power in her progeny. She throws outstanding pigment with all the look and style you could want. Sells bred back to Garfield.

Daughter sells as lot 25.

AI'd to JDH Crimson 65M on 4-29-25 then pasture exposed to 4B Garfield 338 from 5-4-25 to 5-29-25 then to JDH 71G 0333 Generator 38M ET from 5-29-25 to 7-7-25. Vet called safe for an end of February calving date.

**Homozygous Polled.**

*If you want people to come to your sale you have to sell cattle that it really hurts to sell. This one really, really hurts.*

910G is the cow in our herd most often picked out by visitors. She is a tank. She is freckled faced. She has a beautiful udder and teat size. She is homozygous polled. Her EPD profile is calving ease, low BW and then 115 yearling weight.

Her mother is a donor for Delaneys. Her 11 year old grandmother is still working at Atkins. Her 13-year-old great grandmother is raising a heifer calf this summer. I have an outstanding Final Print daughter I am keeping, plus a maternal sister that is top notch. Delaneys own an On Demand daughter. She has been aspirated one time as a donor and yielded 11 quality embryos. I just don't know where you go to find a Hereford cow with this much body and mass that is low birth and high growth.

She will calve prior to the sale bred to RST Final Print 0016.

Lot 31A

**Calf due prior to the sale. Look for updated information on sale day.**

LOT 31 PICTURED SUMMER OF 2023

**The next 10 lots represent our first full year of fall calving at Atkins Herefords and these cows and their calves sell as pairs ready to breed or flush. DNA is submitted on all calves and results on most should be available by sale day.**

Here is an own daughter of 19Z sired by 73C, or Ned, as we called him. She is big bodied with excellent udder quality and has consistently done a great job with 3 calves having an average weaning ratio of 102.3. Her first calf sold as a bred heifer in our 2023 sale to GKB Herefords. 19Z has left her mark on the breed with numerous sons and daughters selling in the National Hereford sale and averaging over \$22,000. Here is your opportunity to buy a proven daughter of 19Z.

Lot 32A AH DEMANDING 504N — Bull calf born 8/7/25 sired by BAR JZ ON DEMAND. Actual BW - 77 LBS. AHA# 44687309

Stored at Trans Ova Genetics, Sioux Center, Iowa.

19Z continues to leave her mark across the breed and On Demand is a rising star.

Why are we selling another daughter of 192? Because we have a lot of her daughters and granddaughters in our herd already and we want to offer some of our best in this sale.

This young daughter of Entice is doing a great job with her second calf. She is long bodied and attractive made with good milk flow. Her first calf developed pneumonia and never fully recovered so we didn't see what she could really do. This calf will prove her out.

The calf at her side is sired by Garfield – Purchased from 4B Herefords in Oklahoma. He is doing a great job as evidenced by this heifer calf. His calves come easy and are loaded with pigment and dark colored.

**Homozygous Polled. DBC.**

From the 19Z cow family and the first calf of our 814F donor here is a cow as attractive as you can make them. Big volume, long bodied with an excellent udder, she has raised three calves with an average weaning ratio of 103. Her dam 814F produced one of the high selling heifers in our 2023 sale going to GKB Herefords. Another daughter topped our 2024 fall online sale selling to Wiese & Sons and Colby Decker. 814F's son, In Demand was a member of our 2025 Denver pen and is now owned with Day Ridge Farm and P and J Farms, he will see heavy use in our program. DB Carrier.

LOT 34 | AH LADY CONVENIENT 009H

DELANEY HEREFORDS | ATKINS HEREFORDS

Horned.

This female was purchased at the OKC National sale in 2022 from Kyle Perez and is out of one of his foundation females, Sheila 457Y, who appears in many of the Perez pedigrees. She is sired by Mandate who has made a huge impact on the Hereford breed. She is big bodied and very attractive made with an excellent udder. She has produced heavy weaning calves having an average weaning weight ratio of 108. With our pledge to offer some of our best and the fact that we have 4 partners on this cow, we decided it is time to simplify and offer her in this sale.

She will calve prior to the sale bred to 4B Garfield 338. He is homozygous polled, dark red and heavily pigmented and this should be a great match for this cow.

LOT 36 | AH MMC SENSATIONAL LADY 002H

We strive for udder quality in our herd and this is one of the best uddered females you will find. A daughter of Munson who is a full brother to 45C she is out of a 2296 cow that is a consistent producer and also has a beautiful udder. As a calf this female was moderate sized but extremely attractive in her profile.

She is in the prime of her life and will calve prior to sale day bred to RST Final Print 0016.

This female is backed by outstanding cows on each side of her pedigree. Her mother is 14C is a full sister to 45C and is still doing a great job at 10 years of age. 118J has great udder quality to go along with \$CHB in the top 4% of the breed.

118J has a daughter in this sale selling as Lot 52, and sells with an outstanding daughter at side.

Dark red, pigmented and big bodied, with a great profile. This young cow has a show ring pedigree being a daughter of Roll The Dice and out of a Cash Flow dam. She did a nice job with her first calf which had a 108 weaning ratio.

She has a very interesting bull calf at side sired by Loewen Sandhill. He is dark red, and heavily pigmented as anything we have raised. A very interesting prospect.

Here is a heifer with a star studded pedigree and a great EPD profile. Sired by Entice she is a daughter of 8032 the dam of Final Print who sold in our 2023 sale to Express Ranches and GKB Cattle.

This young female is pigmented and off to a good start with her first calf. He was a light birthweight calf with loads of vigor and was up and sucking immediately. He will have a very nice EPD profile.

DAM OF LOT 40 | CH MS 2042 RAEEN 8212 ET

### Homozygous Polled.

We wanted to offer some of our best young females and this one fits the bill. She is a pigmented daughter of Entice and out of the famous Reagan 8212, now donor for Stellpflug Cattle and the dam of some of the feature lots in their recent sale. This young girl is big bodied and bigger framed with loads of performance. She did an outstanding job on her first calf which had a weaning weight ratio of 112!

We thought she was stuck AI for an early August calf but then came back in heat and was observed bred to 4B Garfield 338 on January 7th for a mid October calf. We think this will be a great mating for her.

#### Homozygous Polled.

Homozygous polled daughter of Arlo. She is pigmented and possesses a very attractive profile. The bottom side of her pedigree needs no introduction. Her dam is sired by Prominent and out of H AC Marianne 231, who has produced as many high quality, high value heifers and show winners as any female I can think of for Begalka and Hoffman. Here is a unique pedigree in a homozygous female.

Pasture exposed to RST 0016 Gold Print 3031 from 4/22/25 to 7/5/25. Vet called safe for a late February calf.

This Benton daughter has been a favorite since day 1. She's so elegant in her look and design, she's long and extended with plenty of body and mass. Her mother has been an excellent producer for us and her maternal brother is working for Matt Woolfolk and family in Iowa. This mating with the homozygous polled Red Hot will be a homerun.

10 traits in the top 15% of the breed.

AI'd to JDH JCS Red Hot 43M ET on 4-20-25 then pasture exposed to 4B Garfield 338 from 4-22-25 to 8-7-25. Vet called safe to AI date.

**Homozygous Polled.**

Red Cloud took the breed by storm this bull sale season and here is an outstanding sister to many of the top end bulls sold. 114M offers a tremendous EPD profile with 9 traits in the top 10% of the breed including a huge birth to yearling spread and tremendous carcass figures. She's square made sound footed with plenty of length and extension. This mating to our big spread herd bull Gold Print will leave her calf with a breed leading set of EPDs.

Dam sells as Lot 17.

AI'd to KSU Land Grant 153 ET on 4-20-25 then pasture exposed to RST 0016 Gold Print 3031 from 4-22-25 to 7-9-25. Vet called safe for a middle of March calving date.

### Homozygous Polled.

The Final Prints have been everything we wanted and more. This big framed performance heifer has all the power to raise bulls. She's well pigmented and sound. This mating with Land Grant really compliments her.

She boasts 8 traits in the top 10% of the breed including a 135 YW EPD.

AI'd to KSU Land Grant 153 ET on 4-20-25 then pasture exposed to 4B Garfield 338 from 4-22-25 to 8-7-25. Vet called safe to AI date.

### Dehorned.

This heifer comes from the most productive, powerful cow family to come out of our operation. Her dam is a daughter of the famed 88X and out of 34X, making her a maternal sister to 19Z, 45C, Munson and more. Her sire is Final Print whose first 38 daughters have an average weaning weight ratio of 103 on their calves. This heifer is put together right and should make a great producing female. At 6 years old her dam has a great udder with very small teats and is raising a beautiful heifer calf.

Pasture exposed to 4B Garfield 338 from 4/22/25 to 8/7/25. Vet called safe for a mid February calf.

This female might be one of the most intriguing in the sale. We purchased her mother from Birdwell Ranch and she is just getting started here. 103M's EPDs are excellent across the board and her carcass figures are in the upper echelon of the breed with a .64 Marb and 195 CHB. She is red eyed and offers big time performance on foot. Not to mention she's bred safe AI to Crimson. She has unique qualities that might push her into the donor pen.

AI'd to JDH Crimson 65M on 4-20-25 then pasture exposed to RST 0016 Gold Print 3031 from 4-22-25 to 7-9-25. Vet called safe to AI date.

Homozygous Polled.

Homozygous polled daughter of On Demand out of donor 814F. This heifer is a full sister to In Demand and her full sister topped our 2024 fall online sale.

Pasture exposed to 4B Garfield 338 from 4/22/25 to 8/7/25. Vet called safe for an early February calf.

LOT 54 | AH MMC DEMANDING LADY 4822 ET

This is the deepest set of bred heifers we have ever sold. The quality from top to bottom is elite and this heifer proves it, sound made, moderate framed, deep bodied type of a female that's built for the long haul. She is the first calf by donor 39K. We are flushing her mother extensively and that allows us to let go of this gem. She is the right kind.

DAM OF LOT 55 | 39K

7 traits in the top 10% of the breed including a 509 BMI!

AI'd to JDH Crimson 65M on 4-20-25 then pasture exposed to RST 0016 Gold Print 3031 from 4-22-25 to 7-9-25. Vet called safe for a beginning of April calving date.
