FANTASTIC FEMALE SALE

Welcome back to our 3rd Annual 7 Oaks & Friends Fantastic Female Sale. As we continue to rebuild our program we are pleased with the results. Our offering this year is an example of the direction we are heading.

I have always believed in the power of cow families. Whether it's by breeding from power cows or using bulls out of power cows. As you study the catalog, study the cow families represented. I believe you will find many proven, can't miss females that will add power and value to your herd.

On behalf of my family, the Davidson family and our friends we hope you will join us Saturday evening August 15th to view the offering and enjoy a great BBQ dinner down by the lake with live entertainment. Then Sunday August 16th for the 3rd Annual 7 Oaks & Friends Fantastic Female Sale.

SCHEDULE OF EVENTS

AUGUST 15

BBQ & live music by the lake, 6:30 PM EST

AUGUST 16

Lunch, 11:30 AM EST

Fantastic Female Sale, 1:00 PM EST

LiveAuctions.TV

SALE TERMS

All cattle will sell under the standard terms and conditions as recommended by the American Hereford Association. A sale order and supplement sheet with up-to-date information will be available sale day. All announcements made from the block take precedence over printed material in the sale book. The right to one successful flush is retained on all females selling.

HEALTH

The health of the cattle selling is excellent. Each animal will be accompanied by an individual health certificate for immediate interstate shipment.

LIABILITY

All persons who attend the sale do so at their own risk. Neither the owners nor any other persons connected with the sale assume liability, legal or otherwise for accidents or loss of property.

- A truly fitting way to begin this exceptional set of Fantastic Females. When deciding what deserved the Lot 1 position, 111N quickly rose to the top.
- Big-bodied, stout-featured, and packed with muscle and shape, she combines true power with an eye-catching look through her front one-third. She represents the kind of functional, attractive female we strive to raise at 7 Oaks.
- A direct daughter of the proven 7233 donor, a powerhouse female that has made her mark in several progressive programs throughout the Southeast and now resides at Innisfail Farm.
- Sired by the breed-leading Dominion, 111N offers the pedigree, phenotype, and genetic backing to make a lasting impact in any breeding program.
- Whether your goal is producing elite replacement females, herd bull prospects, or building your next donor lineup, we believe this female checks every box and has a very bright future.

- This is exactly the kind of female we envisioned when we incorporated Loewen Sandhill into our breeding program. She combines muscle, shape, width, and style into one complete package.
- Stout-made and powerful from every angle, she offers the extra body, dimension, and eye appeal that today's progressive breeders demand.
- The Sandhill × Benton mating has proven to be an outstanding genetic combination, stacking maternal strength, phenotype, and performance into one elite female.
- When we purchased her dam, our goal was to produce females with an elite EPD profile, a balanced number set, and the kind of phenotype that works in the real world. This female is exactly the type we envisioned and are proud to offer to the public.

- A proven young donor that has become a cornerstone of our embryo program. As a direct daughter of the renowned Benton 8G, she combines elite genetics with the phenotype and production record expected from one of the breed's most influential cow families.
- Still in the prime of her productive life, she offers years of production ahead while boasting an outstanding EPD profile that ranks near the top of the breed for multiple economically important traits.
- If you're searching for a proven donor with the genetics, production record, and predictability to make a lasting impact on your program, look no further.

- The first opportunity to own a daughter sired by our Houston son, Lunchbox. We have been excited about this mating from the beginning, and this female has certainly lived up to our expectations.
- Combining the proven genetics of her donor dam with the added quality, balance, and structural integrity that Lunchbox consistently stamps into his progeny, this female offers tremendous breeding potential.
- If you're looking to get in on the ground floor of a young sire we believe has a bright future, while adding one of the first Lunchbox daughters to your program, this female deserves your attention.

- We wanted to offer two of the freshest and most exciting pregnancies from our donor program, and these matings immediately rose to the top. We believe they represent a unique opportunity to invest in the future of our breeding program.
- The donor dam, 3543, is an absolute eye-catcher and the kind of female you'd love to own a pasture full of. Easy-fleshing, sound, and structurally correct, she combines outstanding phenotype with a beautiful udder and the kind of maternal quality we all strive to produce. She is a direct daughter of the infamous /S Peerless 4007B donor, a female that has made her mark at both Shaw Cattle Co. and Tennessee River Music. A maternal sister also became a cornerstone donor for Tennessee River Music and Dry Creek Farms, further proving the strength and consistency of this elite cow family.
- The service sire is CC Lifetime, the 2026 Reno Champion Bull and a son of the popular Churchill Red Thunder. We believe the added power, pigment, and phenotype of Lifetime, combined with the maternal strength and uniqueness of 3543, create an exciting outcross mating with the potential to produce something truly special.

• The second pregnancy we are offering represents another exciting opportunity from the heart of our donor program. We believe this mating combines proven cow power with one of the breed's most popular calving ease sires.

• The donor dam, L100, is a productive Houston daughter out of a full sister to Arsenal, giving this mating a pedigree stacked with proven maternal strength, performance, and breed-leading genetics.

• Sired by the popular Genex sire Next Step, this mating blends the power, performance, and maternal excellence of L100 with the calving ease, phenotype, and maternal value that have made Next Step one of the breed's most sought-after AI sires. We believe this combination has all the ingredients to produce a truly elite individual.

• If you've followed the Lexy cow family or the 7 Oaks breeding program, you already know the popularity and demand these genetics have created. Lexy produced last year's high-selling female and Lot 1, which sold to Lamb Bros. in Wisconsin, further proving the consistency and earning power of this outstanding cow family. We believe both of these matings offer tremendous upside and represent a rare opportunity to invest in one of the most proven and productive cow families in our program. These pregnancies have all the ingredients to become wise, long-term investments.

• T15 has been a cornerstone donor in our program, proving herself year after year as a highly fertile female that consistently produces outstanding progeny. She has produced high-selling offspring for us, and her embryos have proven to be exceptionally fertile and “sticky.” We believe these matings to Loewen Sandhill L70 ET and /S Profound are two of the freshest and most exciting combinations we’ve made, adding extra pigment, quality, and phenotype while complementing the proven maternal strength of T15. We see tremendous upside in both of these matings, making this a big-time opportunity to invest in proven genetics with an exciting future.

- A stout-made, powerful fall bred heifer sired by the ever-popular Merit. She is loaded with muscle, dimension, and eye appeal while maintaining the balance and structural correctness to make an outstanding brood cow.
- Not only does she excel phenotypically, but she also offers an elite EPD profile, ranking in the top 1% of the breed for both CHB and Yearling Weight. She combines elite growth and carcass merit with the genetic predictability to move any progressive breeding program forward.
- This is the kind of female that blends proven genetics, elite performance, and real-world functionality, giving her all the tools to become a productive, long-lasting cow.
- PE 12/28/25 to 3/20/26 to DCF 864F General 146L ET
- Safe in calf 7.5 months

• We wanted to offer these two outstanding Armory daughters as an example of the tremendous job he is doing in our program. We absolutely love his progeny and are excited to see these females enter production.

• Both females combine the look, body, structural correctness, and brood cow potential that we strive to produce, making them exciting breeding pieces with bright futures ahead.

• These females have never been exposed to a bull. Given their age, we felt it was in the best interest of both the cattle and the buyer to offer them open, allowing you the opportunity to mate them to the sire of your choice.

• An intriguing young female that truly checks all the boxes. She combines elite phenotype, structural correctness, and the kind of quality that is hard to find in one complete package.

• One of the very first daughters to sell sired by popular AI sire /S Profound, the past high-selling bull at Shaw Cattle Co. in Idaho, now owned by ST Genetics. Dark red, long bodied, and sound from the ground up, she offers the look and quality today's breeders demand.

• We believe this female has all the credentials to become a donor in the making. With her combination of pedigree, phenotype, and future breeding potential, she has the ability to make a lasting impact in a progressive breeding program.

- Lots 13 and 14 are full sisters that exemplify the consistency and quality we strive to produce. They are remarkably alike in their type, kind, and overall design, making them an exciting pair to evaluate.
- Among the first daughters to sell sired by Loewen Sandhill L70 ET, these females showcase the tremendous potential of this young sire. Wide-based, deep-bodied, and loaded with mass, they offer the power, broodiness, and structural quality to become outstanding matrons.
- We believe these two sisters are big-time females in the making. Their combination of elite phenotype, proven pedigree, and long-term production potential gives them all the credentials to make a lasting impact in progressive breeding programs.

• Here is an elite opportunity to purchase your choice of three exceptional full sisters sired by the ever-popular Gunsmoke. Opportunities to acquire genetics of this caliber and consistency are few and far between.

• These females are backed by a proven pedigree, out of a direct daughter of the legendary 7098 and tracing back to Expedition. The combination offers generations of maternal strength, productivity, and breed-leading genetics.

• 5N is a super complete female that we believe is the no-holes kind. Clean-fronted, sound from the ground up, and carrying the maternal look that every breeder appreciates, she excels whether you study her on the hoof, on paper, or through her outstanding EPD profile. She's simply the kind that can elevate any breeding program.

- What a sweet female we have here. She is a long-necked, clean-fronted, sound-footed female that combines eye appeal with the structural correctness and balance to become an outstanding brood cow.
- Sired by the popular Gunsmoke, a sire that has created quite a stir across the country, she offers the phenotype, quality, and maternal look that have made his progeny so sought after.
- Backed by a cow family that needs no introduction, this female has the pedigree, presence, and breeding potential to make a lasting impact in any progressive breeding program.

- Lot 22 is a truly special individual that checks a lot of boxes. Not only does she excel from a phenotype standpoint, but her pedigree and EPD profile make her an equally impressive breeding piece.
- Sired by 2019, an Endure son out of the infamous Stonegate donor 1580, she is backed by one of the breed's most influential cow families. Donor 1580 has made a tremendous impact at Innisfail Farm in Madison, Georgia, and her influence continues to be felt throughout the breed.
- Whether you study her on the hoof, evaluate her pedigree, or analyze her EPD profile, this is the kind of female that offers tremendous value and all the ingredients to become a highly productive brood cow.

• Lot 23 is a maternal sister to Lot 24 and is sired by Sherman. She offers an outstanding look with the added body, balance, and structural quality to make a highly productive female.

• She is backed by an impressive combination of growth, performance, and carcass merit. Few Sherman daughters can match this level of phenotype while also offering growth figures of this magnitude.

• Maternal sister to Lot 24

• Lot 24 is a direct daughter of NJW Proud, the past Reserve Grand Champion Bull at the National Western Stock Show. She is a female with tremendous upside and all the pieces to become an outstanding brood cow.

• Maternal sisters were highlights of the 2024 Dry Creek Farms Production Sale, further proving the consistency and predictability of this outstanding cow family. With age and production ahead of her, we believe her best days are still to come.

• Maternal sister to Lot 23

• What a special feature this female is. Be sure to adjust your eyes—she is only a December 2025 heifer, yet she already exhibits the quality, body, and presence of a much older female.

• Sired by the ever-popular calving ease specialist Churchill Equity and backed by an exceptional dam that was the featured Lot 1 of this very sale in 2024, her pedigree speaks for itself. She is backed by generations of proven cow power and maternal excellence.

• We believe this is the kind of no-miss cow prospect that can anchor a breeding program for years to come. With her elite pedigree, outstanding phenotype, and limitless future, she has all the credentials to become a top-end donor.

- What an impressive individual. It took a lot of convincing to get this female into the sale, but we felt she was simply too good not to offer.
- Backed by the proven 13F cow family that traces to the renowned NJW Hereford program in Wyoming, she offers the kind of maternal strength and predictability that progressive breeders value. Sired by Standout, the full brother to the popular Benton 8G, her pedigree is loaded with proven genetics.
- Big-bodied, stout-featured, and sound from the ground up, this power female has all the tools to earn a spot in the front pasture. We believe she has the phenotype, pedigree, and brood cow potential to become a cornerstone female in any program.

- The second I laid eyes on this spring bred heifer, I knew she was special. Andy had been telling me for the past year that he had an outstanding daughter out of J51, and he was absolutely right.
 - A super dark Gunsmoke daughter, 20N is the definition of a no-holes female. She is backed by the highly fertile J51 donor, a female that continues to prove herself by consistently producing high-quality progeny.
 - Study her outstanding EPD profile and exceptional phenotype. From her structural correctness and brood cow look to the strength of her pedigree, 20N is the kind of female that doesn't come along often and is one you won't want to miss.

- Full sib to the \$12,500 top seller purchased by Double 7 Ranch in last year's sale.
- This heifer is from a mating that has really worked for both the 7 Oaks & Barnes programs. We continue to have high hopes for the H29 donor and are confident they will work anywhere.
- Ranks in the top 10% of the breed for 9 traits and posted a ratio of 130 for IMF.
- A good, stout, easy-going female with the kind of disposition that makes her a pleasure to be around.

• This cow embodies the biological type that we believe is most functional in the southeast. 2232 is moderate in stature, dense, and massive bodied. She is stout featured while maintaining a feminine presence. The fundamentals of feet and udder check out to a high degree.

• She is the third generation of Lori donors to grace Innisfail Farm. Her dam, 1857, posts 3 WR@106.5 and 10 IMF@105.6. 1857 was the high selling split pair cow in our 2022 female sale.

- The Broadway x 723e flush was one of the most consistent matings across both genders that we have had in some time. Our commercial bull clientele were quick to identify with the bulls, and every female has worked beautifully in production. 2366 was our choice of them to flush. She reminds us so much of her mother: soft bodied, great structured, with a beautiful udder.
- 2366's dam, 723e, has been one of the most prolific females in Innisfail history. She charts 43 IMF@106.5, and has 8 daughters in production raising 10 calves for a 101.9 nursing ratio.

- A powerful Lobo daughter that is loaded with muscle, dimension, and genuine doing ability. She is the kind of practical, hard-working female every commercial and seedstock producer appreciates.
 - Stems from the proven maternal influence of Fortified, a cow family known for productivity and longevity. The strength of this pedigree gives you confidence in her ability to perform year after year.
 - Posted an impressive 111 yearling weight ratio, proving her performance matches her phenotype. She offers the extra growth and power that add value without sacrificing maternal quality.
 - AI 5/11/26 to NJW 202C173DSTEADFAST 156J ET with sexed female semen.
 - Safe AI - Due 2/18/27

- We could talk about the potential of this pregnancy for a long time. It represents one of the most exciting genetic opportunities in the offering and combines a pedigree with proven success.
- This pregnancy is a full sibling to the high-selling heifer calf from this very sale a year ago that sold to Blazer Farms in Tennessee, adding even more confidence in the consistency and value of this mating.
- The popularity, proven production, and overall quality behind this pedigree are hard to match. We believe this pregnancy offers tremendous upside and the potential to produce something truly special.
- **Due 9/7/26**
