

DRY CREEK FARMS

Fourth Annual Production Sale

New Date!

SUNDAY, NOVEMBER 2, 2025

12 noon CST

Pell City, Alabama

WELCOME!

Welcome to the Dry Creek Farms 4th Annual Production Sale

We would like to welcome you to our 4th Annual Production Sale here at the farm in Pell City, Alabama. It is humbling to look back and see the progress we have made and how we have grown within the Hereford breed and the livestock industry. Each year we strive to raise the bar higher, and this year's offering represents the very best of our program.

Our focus has always been on producing attractive Hereford females backed by pedigrees, phenotype, and performance. By emphasizing embryo transfer and continually investing in proven and cutting-edge genetics, we are able to offer cattle that push the needle for both performance and phenotype. Our commitment ensures that each year we bring forward our very best, giving our customers the opportunity to add cattle backed by elite genetics that keep getting better with every generation.

We believe a large part of our success stems from the herd bulls that are walking the pastures at Dry Creek Farms. Few sires have influenced our program more than the \$100,000 Loewen Genesis G16, with many of our high-powered cows being direct daughters or closely tied back to Genesis in their pedigrees. Equally exciting is the influence of Churchill Equity 3316L ET, a sire that is taking the breed by storm. Many of the young females and bulls selling are direct progeny of Equity, and they are quickly proving that he is the kind of sire that can move a program forward.

This year we are also excited to feature DCF 2446 Cuda Belle 88M ET, a top-of-the-line herd bull that we believe is of the same quality and impact as Equity and Genesis. Selling as Lot 6, 88M offers an outcross pedigree that many progressive producers are searching for, and we feel that he will make a big impact for his new owner.

We would like to thank our family, friends, and customers for your continued support of our program. Your confidence and trust make it possible for us to keep moving forward and to keep offering our very best. A special thank you to our family for always being there for us and supporting us through it all.

We look forward to having you all on the farm.

Sincerely,

Dry Creek Farms

SALE TERMS & CONDITIONS

TERMS: Cash or good check. Cattle will be sold to the highest bidder. The auctioneer in charge shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately following the sale and will not be released until after settlement has been made. Each animal will be at the purchaser's risk immediately after it is sold. **NOTE:** Dry Creek Farms reserves the right to two successful flushes at the seller's expense and the buyer's convenience on all females selling.

HEALTH: The health of the cattle selling is excellent. Each animal will be accompanied by an individual health certificate for immediate shipment.

GUARANTEE: Each animal will sell under the American Hereford Association's Recommended Terms of Sale for Auctions (www.hereford.org).

BREEDING GUARANTEE: All animals are guaranteed to be breeders with the exception of (a) calves under 12 months of age at time of purchase; (b) any female that is placed in an embryo transplant program and subjected to super-ovulation; or (c) gross negligence on the part of the buyer. Females sold as safe in calf have been examined by a competent veterinarian and checked safe by ultrasound. The ultrasound results reported are as accurate as possible but are not guaranteed. No guarantee is given that bred females will deliver a live calf. Open females are guaranteed to be without calf. Any agreement with respect to embryo transfer production shall be a separate agreement between buyer and seller.

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are updated weekly by the American Hereford Association. The EPDs included were current October 2, 2025. The most current EPDs can be viewed online at www.hereford.org. Most all of the EPDs listed in this catalog are genomically enhanced for increased accuracy, indicated by this symbol: 

LIVESTOCK INSURANCE: Insurance for your purchases will be available sale day.

ANNOUNCEMENTS: Announcements made sale day from the auction block will take precedence over statements in the catalog or other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

LIABILITY: All persons who attend the sale do so at their own risk. Neither Dry Creek Farms, the owners, the sale managers nor any other persons connected with the sale assume liability, legal or otherwise, for accidents or loss of property. The sale management has no responsibilities other than those involved in conducting the sale.

- Homozygous Polled
- Equity is taking the Hereford breed by storm, checking all the boxes that progressive breeders demand—phenotype, calving ease, carcass, and maternal strength...all in a dark red, freckle-faced, homozygous polled package. He passes the eye test on hoof and the data test on paper.
- A true herd bull is backed by cow power, and Equity's pedigree is loaded with generations of proven producers. His donor dam, Churchill Lady 023H ET, commanded \$65,000 in the 2024 Churchill Cattle Co. Sale to GKB Cattle Co., and her daughters dominated the recent record-setting Churchill dispersal, with three head averaging \$75,000, including the powerhouse Churchill Lady 3310L, selling for \$160,000 to GKB Cattle Co. and Colyer Herefords.
- Equity is an elite calving-ease sire that doesn't sacrifice muscle shape, body mass, or structural integrity. He combines the look and build cattlemen appreciate with the performance numbers that move a herd forward. Sired by the ever-popular JW Merit, the walking herd sire for Tennessee River Music and Waggoner Cattle Co., Equity adds value in more ways than one—from his first-class phenotype to his ability to sire the kind that push the breed in the right direction.
- Owned with Shockley Ranch Herefords.
- Equity's first progeny and his service are featured throughout our 2025 Fourth Annual Production Sale.
- Semen Available — \$50/unit. Certificates \$75.

■ Homozygous Polled

■ We lead off the 4th Annual Dry Creek Farms Production Sale with a truly elite female sired by the multi-trait leader JW 1857 Merit 21134, whose progeny have seen incredible demand across the country. 448's donor dam, 32J, is an impressive Grady daughter that is a power cow. 32J is marked perfect, dark red and has a beautiful udder. She is backed by the past Loewen Herefords donor Beefmaid 162G.

■ 448 is in rare air in terms of her EPD profile for spread and carcass. In fact, she is the only female in the breed with her GE-EPD combination for CED, YW, Marb, BMI and CHB. She combines superior calving ease with curve-bending growth, fertility, milk, and top tier carcass merit, especially for highly sought-after marbling to rank in the top 4% or better for eight EPDS and all three dollar indexes.

■ When you study the build and design of 448, she separates herself from the pack with her superior phenotype. She is built correct from the ground up on a strong foundation, dark red in color, red necked and red to the ground with pigment. You must appreciate her robust rib shape and depth of body, squareness of hip, balance from the side, style and overall quality.

■ 448's combination of pedigree, impressive phenotype and breed-leading EPD profile certainly makes her one of the elite donor prospects to sell this fall.

■ Ranks in the top 1% of the breed for CW, Marb, BII and CHB; top 2% for BMI; top 3% for BW, WW, YW, M&G and CEM; top 4% for CED; top 6% for SC and SCF; top 8% for Milk; top 10% for REA.

■ Bred AI 6/12/25 to Churchill Equity 3316L ET. Safe AI.

Lot 2

- Homozygous Polled
- Incredible opportunity to acquire this feature donor from the heart of the Dry Creek program. Sired by the total performance and carcass sire Loewen Genesis G16, J59 is a beautifully designed female that is already a proven producer. She is a long made, big bodied, square hipped female with a striking look from the side. She is conservatively marked, dark red and red eyed and comes equipped with a beautiful udder.
- J59 had two Bullnanza daughters that sold last spring in the Dry Creek Farms Belles of the South SmartAuctions sale that averaged \$16,600, and her first natural calf, a Houston daughter, sells as Lot 3.
- J59's donor dam, 77 Miss Ellison 60D 17G, is a marbling giant who was the featured Lot 1 female in the C&L Maternal Excellence Sale last fall, where she and her progeny took in a total of \$149,600. The prolific 17G donor has 66 progeny recorded, but only two Genesis daughters out of her exist.
- J59's numerical profile ranks in the upper echelon of the breed for performance and carcass traits, with all of her \$Value indexes ranking in the top 1%. She offers calving ease with impressive growth, maternal prowess and superior carcass merit in a phenotypically pleasing design with a proven track record. Let J59 take your program to the next level and beyond.
- J59 has been flushed 4 times to average 19.25 embryos per flush.
- Ranks in the top 1% for CW, BMI, BII and CHB; top 3% for Marb; top 3% for YW and SCF; top 6% for WW; top 9% for CEM and Udder; top 10% for REA.
- Embryo packages from J59 sell as Lots 2A, 2B, 2C and 2D, and a daughter sells as Lot 3.
- Sells open - Ready to Flush.

- Homozygous Polled
- 91L is one of the most eye-appealing and powerfully constructed Houston daughters you will find anywhere. Starting at the ground, she is a big footed, structurally correct female with added bone who is big topped, square in her hip design and loaded with depth and volume. She is also sleek and elongated through her front one-third, which adds to her attractive profile.
- Amber 91L boasts an impeccable and well-rounded GE-EPD profile, with 12 traits ranking in the top 10% or better. If you are looking to add performance and carcass without sacrificing maternal strength or style and want one that can go straight to the donor pen next spring, 91L certainly fits the bill.
- Her dam, J59, is the proven donor selling as Lot 2 that stems from an impressive line of productive donor females. Take advantage of the opportunity to add this impressive future donor to your program—you won't be disappointed.
- Ranks in the top 1% for CW and REA; top 2% for YW, BMI, BII and CHB; top 3% for WW; top 5% for MCE; top 7% for SCF and MG; top 9% for Udder; top 10% for SC.
- PE 3/24/25 to 5/30/25 to SFCC TRM Mandate 3047. Safe in calf 6.5 months.

Lot 4

- Homozygous Polled
- A feature donor in the program, J13 was Barnes Herefords' \$25,000 selection as the pick of flush sisters we offered in the 2022 Cattlemen's Congress Hereford Night in OKC. J13's first ET heifer was the top selling open heifer in the 2023 Dry Creek Farms sale for \$23,500 for 1/2 interest to Falt Creek Farm in Mississippi. A full sister, J14, was the featured Lot 2 donor in last year's production sale and commanded \$27,000 for 1/2 interest for a \$54,000 valuation to Edwards Farms, Crane Hill, AL. A maternal sister, J12, was the Lot 1 feature in the Inaugural Dry Creek Farms Production Sale, commanding \$60,000 for 1/2 interest to Jankowski Cattle Co. in Pennsylvania; J12 has five ET daughters selling in this year's event as Lots 9-13.
- J13 is a powerfully built, profit proven producer of quality. She is the epitome of a power cow in the prime of her life, boasting all the bells and whistles in an attractive design. Her donor dam, Hadley G16, is definitely one of the best daughters of the marbling giant Validated you will ever find. She is a proven producer in the Loewen Herefords program.
- Don't miss out on this opportunity to add this impressive donor who excels at phenotype, growth and valued-added marbling to your program.
- J13 has been flushed 5 times to average 5 embryos per flush.
- Ranks in the top 1% of the breed for WW, YW, Marb and CHB; top 2% for SC; top 3% for MG; top 4% for BII; top 9% for Udder and CW.
- Offered with Barnes Herefords.
- Maternal sister sells as Lot 23.
- PE 2/15/25 to 4/1/25 to H GO Precision 234 ET. Safe 8.5 months.

- Offering a heifer calf pregnancy due 2/11/26
Recip ID: 1092 (Black 4-year-old)
- Incredible opportunity to get in on the ground floor of an exciting mating that features two of the freshest and best we can offer—Equity and the 0244 donor.
- The homozygous polled sire of this mating, Churchill Equity 3316L ET, is our young and exciting resident herd sire we own with Shockley Hereford Ranch whose first calves are impressive thus far. His dam, Churchill Lady 023H, was a featured donor in the 2024 World Class Churchill Cattle Co. Female Sale that commanded \$65,000 and is working in the GKB Cattle program in Texas. A maternal sister to Equity recently sold for \$160,000 in the Churchill Dispersal to GKB Cattle and Colyer Herefords.
- The dam of this mating is one of our favorite young donors, owned with Tennessee River Music. 0244 is a phenotypically pleasing and ultra-feminine daughter of the ever-popular NJW 79Z Z311 Endure 173D ET who offers elite calving ease with maternal strength.

- Offering a package of four conventional embryos.
- Guarantee of one pregnancy if transferred by a certified embryologist.
- Progeny will be Homozygous Polled by pedigree.
- Embryos are stored at City View Genetics, Moulton, AL.

- Selling 1/2 possession and 1/2 semen interest with the option to double the sale price to own full possession and 2/3 semen interest. If the winning bidder selects 1/2 possession and 1/2 semen interest, they will have the option to choose spring or fall possession.

- Homozygous Polled

- 88M is an impressive individual that we are extremely excited about and will be using extensively in our program. He offers exquisite phenotype with added bone, body and power. For today's marketplace, he offers all the extra amenities when it comes to color, markings and pigmentation, as he is dark red with big red hooded eyes on both sides. Super correct in his structure with excellent feet and legs, 88M has the ability to add value to any program and will sire both bulls and females that will have added value and command top dollar.

- 88M offers a very balanced EPD profile that combines moderate birth, performance, carcass merit and maternal strength. He ranks in the top 1% for both Teat and Udder EPDs; top 6% for CW, BMI and BII; top 7% for SCF; top 12% for YW; top 14% for CHB; and top 15% for SC.

- His donor dam was purchased as an open heifer for \$14,000 from our good friend Eric Walker in his annual Foundations for the Future Sale. She was flushed as a virgin heifer and bred right up the first time we bred her. 2446 is one of the biggest bodied females on the farm and is equipped with a striking look on the profile. She is a forefront in our donor program, and we are extremely excited about her future.

- 88M's sire, C Cuda Belle 2111, is a feature herd sire for Colyer Herefords and Knox Brothers and is one that Kyle Colyer feels is truly one of the do-it-all sires they use in their progressive program. His semen is only sold at auction.

- Maternal sib embryos sell as Lot 6A.

- When I think of a prototype Hereford female that is a head turner, this is *that* female. 102M is about as dark red as you can make one. She is exceptionally long bodied with tremendous rib shape and sweep through her center body. Study this sweetheart on paper and she doesn't disappoint either. Her dam, J51 (pictured opposite), has been a big-time producer for us and our partners Lamb Bros. in Wisconsin. This female has "brood cow" written all over her.
- Ranks in the top 10% of the breed for 11 traits, including the top 1% for Milk, M&G, Teat, BMI, BII, CHB, the top 2% for SCF, Udder and CW and the top 3% for Marb.
- Offered with Lamb Bros. Beef.
- Sells open.

- Big time brood cow/future donor in the making. She possesses the same look at this stage in her life as her \$120,000-valued donor dam, J12. This Cuda Belle mating really worked, as there is a full brother to Lots 12 and 13 in the bull pen that is the real deal as well.
- 10N is an absolute ground sow! Big ribbed, long in her design, pigmented, and powerful, she combines calving ease with elite maternal and carcass values. Buy with confidence.
- Ranks in the top 10% of the breed for 12 traits.
- Sells open.

- A real special opportunity here. 25K has proven she needs to be flushed. This direct daughter of the \$100,000 Loewen Genesis raised a \$20,000 bull as a two-year-old that went on to make our Denver pen of bulls and sold to Edwards Farm. Her second calf is a true sale feature as well.
- This cow stems back to multiple maternal giants in her pedigree, including Ribeye 88X, R117, 719T, and 71I, just to name a few. We are committed to offering our very best, and 25K is one of them. She has proven she can raise the best.
- Ranks in the top 10% of the breed for 5 traits.
- PE 6/10/25 to 7/30/25 to DCF 114J Fortune 1L. Safe in calf.

- K16 is quite the producer, and you will be blown away when you lay eyes on her Equity-sired bull calf. She is a full sister to our leading donor J12 and blends elite genetics with proven production. Her first calf rose to the top of her contemporaries, and we are retaining her heifer to replace K16 in our program. This female combines pedigree strength with the ability to generate high-end results year after year.
- Ranks in the top 10% of the breed for 13 traits.
- Maternal sister sells as Lot 4.
- Bred AI 4/30/25 to Churchill Equity 3316L ET. Safe AI.

- Homozygous Polled
- J20 is a dark red, big red-eyed daughter of Loewen Grady, the full brother to Loewen Genesis, and she is out of the 10C donor that has made such a strong impact in the Dry Creek Farms program. She has proven herself at a very early age, raising a \$25,000 Denver pen bull on her first try—a standout that sold to Ground Zero Farms in Oklahoma. The sky's the limit with this young, proven cow.
- Not to mention her elite EPD profile, ranking in the top 10% of the breed for 12 traits with a top 1% rank for SC, SCF, MG, BMI and BII.
- **Lot 44A:** DCF J20 Mr Precision 67N—
Bull calf born 8/2/25 by H GO Precision 234 ET. BW 67 lbs.

0363 is a power female that can flat out raise one. This is the kind of cow that can generate both show heifers and performance cattle. She has already proven herself with daughters working in the Lamb Bros. herd in Wisconsin as well as in the Deep Creek herd. Big, stout, and attractive is the easiest way to describe this one. She has that brood cow presence and the production track record to back it up.

Due to calve before sale day to DCF TJ Ranger 115L ET or DCF 10C Defiance L32 ET (DNA to determine sire).
