OCTOBER 17, 2026 | OROVILLE, CA
COL. RICK MACHADO, AUCTIONEER

BULL SALE 2026

Welcome to our 20th Annual Fall Bull Sale! We are so excited to celebrate this milestone and the 250th Anniversary of your great country, along with all of you! It is hard to believe it has been over 50 years since we started with just a handful of registered Polled Hereford cows. The relationships gained and memories made over all these decades and the past bull sales are such an integral part of our lives. We look forward to continuing our legacy and are excited about what the future holds for our industry.

It has been my life passion to raise high quality seedstock that excel in all aspects of the cattle industry. I believe good, balanced cattle will maintain profitability even in years that aren't as amazing as the past few have been. Our bulls are raised in the rugged Warner Mountains of Alturas, Calif., and developed in the heat of the valley in Oroville, Calif. While in Oroville they are in very large pastures where they are fed a high roughage diet and have the ability to move freely, which we believe encourages soundness and longevity. So, no matter where you run your cattle, these bulls will thrive and add value to your calf crop.

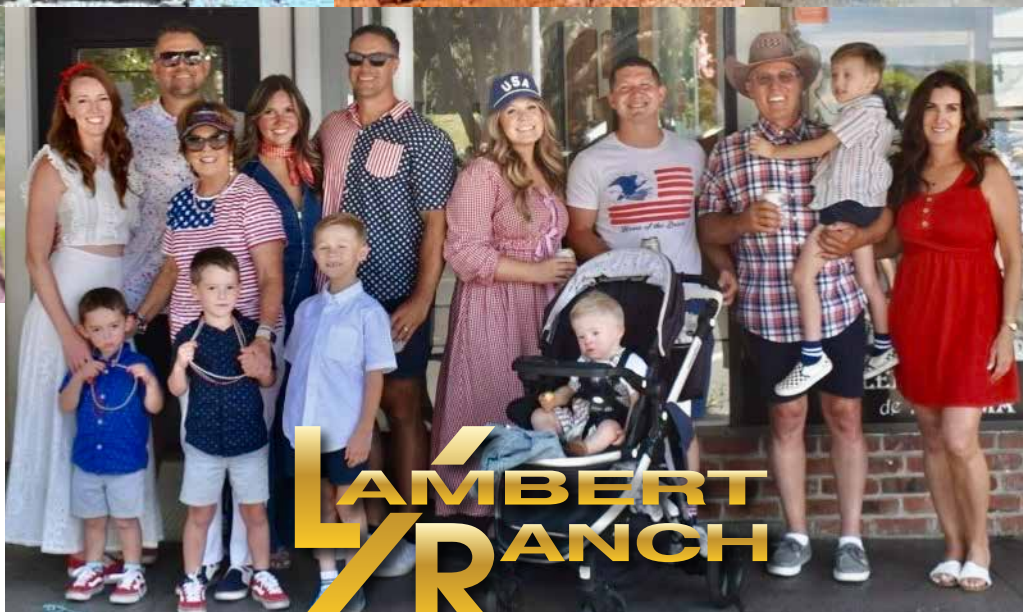

In addition to our signature Herefords, we have expanded our operation with some outstanding SimAngus females. We know you will be extremely satisfied with their bull calves in this year's offering.

We are once again so pleased to have a top quality offering of Angus Bulls from Sunbright Angus, Diamond S Angus and Westwind Ranch Angus. All the bulls are sound and fertile, with performance balanced EPDs along with an attractive phenotype. Hereford, SimAngus and Angus genetics combined create the most profitable, predicable and manageable cattle. Our families are all extremely dedicated and work hands on in our cattle operations. We take great pride in the product we produce and are so honored to share that with all of you.

We look forward to having you join us for lunch and an after-party, celebrating our 20th Annual Bull Sale.

If you have any questions or if you would like additional information on our sale bulls, please feel free to give us a call. We look forward to hearing from you.

- He is a sleep-easy calving bull.

At Sunbright Angus, we have spent over 30 years developing a cow herd that is built to thrive in their environment and have paired them with bulls that can add performance and competitive genetic data. We believe this has helped us produce a well-rounded set of bulls, offering any cattleman the opportunity to find genetics that will fit their program.

Over the last several years, our breeding philosophy has evolved to focus more heavily on the traits that matter most to our customers. We're putting less emphasis on EPDs and more emphasis on maternal ability, longevity, and real-world performance. We believe this set of bulls represents a step in the right direction toward building functional, productive genetics that will work for our customers for years to come.

- Heifer Bull Prospect
- 5030 is our youngest bull in the offering and is a twin but still kept up with his pen mates. He is calving ease and backed by solid maternal lines on both the top and bottom side of his pedigree. We are really happy with how this bull turned out.
