

5th Annual Production Sale

SUNDAY, NOVEMBER 8, 2026

Dry Creek Farms

12 noon CST, Pell City, Alabama

DRY CREEK FARMS

— A LEGACY OF REGISTERED HEREFORD EXCELLENCE —

DRY CREEK FARMS FIFTH ANNUAL PRODUCTION SALE

Dear Friends & Fellow Cattlemen,

On behalf of our entire family, we would like to welcome you to the 5th Annual Dry Creek Farms Production Sale on Sunday, November 8, at the farm in Pell City, Alabama.

As our family continues to grow here at Dry Creek, we are reminded how fortunate we are to have the full support of our family behind everything we do. They are always willing to step in, lend a hand and do whatever needs to be done, and we simply couldn't do this without them. We are also extremely thankful for the friendships and partnerships we have made throughout the Hereford breed. The people and relationships are truly what make this business so special.

We are extremely excited about this year's offering and truly believe it is our best and deepest set from top to bottom. There is something for everyone, and we have stayed committed to offering our very best. Sale highlights include proven donors 2446, J12, J51 and K32; the opportunity to purchase walking rights in Churchill Equity 3316L ET along with an outstanding set of his progeny; an elite set of open ET heifer calves out of our very best donors; and the first opportunity to purchase progeny sired by DCF 4M 2446 Red Label 88M ET.

We are proud of the direction our program is headed and are even more excited to share these genetics with you. We believe there are cattle throughout this offering capable of making an impact in programs across the country.

Thank you for your continued friendship, support and confidence in Dry Creek Farms. We hope you will join us November 8. Come early to view the cattle, enjoy the fellowship and spend the day with us. Visitors are always welcome, and we invite you to stop by the farm any time prior to sale day to view the sale cattle.

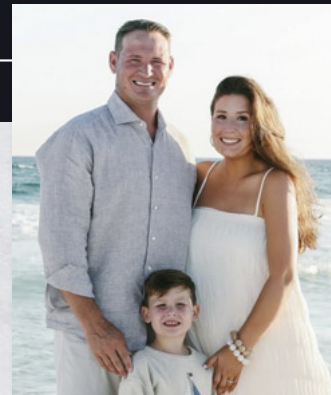

We look forward to seeing you sale day!

Sincerely,

The Dry Creek Farms Family

SALE TERMS & CONDITIONS

TERMS: Cash or good check. Cattle will be sold to the highest bidder. The auctioneer in charge shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately following the sale and will not be released until after settlement has been made. Each animal will be at the purchaser's risk immediately after it is sold. **NOTE:** Dry Creek Farms reserves the right to two successful flushes at the seller's expense and the buyer's convenience on all females selling.

HEALTH: The health of the cattle selling is excellent. Each animal will be accompanied by an individual health certificate for immediate shipment.

GUARANTEE: Each animal will sell under the American Hereford Association's Recommended Terms of Sale for Auctions (www.hereford.org).

BREEDING GUARANTEE: All animals are guaranteed to be breeders with the exception of (a) calves under 12 months of age at time of purchase; (b) any female that is placed in an embryo transplant program and subjected to super-ovulation; or (c) gross negligence on the part of the buyer. Females sold as safe in calf have been examined by a competent veterinarian and checked safe by ultrasound. The ultrasound results reported are as accurate as possible but are not guaranteed. No guarantee is given that bred females will deliver a live calf. Open females are guaranteed to be without calf. Any agreement with respect to embryo transfer production shall be a separate agreement between buyer and seller.

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are updated weekly by the American Hereford Association. The EPDs included were current October 1, 2026. The most current EPDs can be viewed online at www.hereford.org. Most all of the EPDs listed in this catalog are genomically enhanced for increased accuracy, indicated by this symbol: 

LIVESTOCK INSURANCE: Insurance for your purchases will be available sale day.

ANNOUNCEMENTS: Announcements made sale day from the auction block will take precedence over statements in the catalog or other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

LIABILITY: All persons who attend the sale do so at their own risk. Neither Dry Creek Farms, the owners, the sale managers nor any other persons connected with the sale assume liability, legal or otherwise, for accidents or loss of property. The sale management has no responsibilities other than those involved in conducting the sale.

SFCC TRM LADY ENDURE 0244 ET "CHERRY"

Dam of Lots 1 & 2

- This female is one exciting individual that truly speaks for herself. A flush mate to Lot 1, she is further proof of why we are so excited about the future of the 0244 influence at Dry Creek. Sired by Equity, 17P represents exactly what we have come to expect from his daughters—tremendous fleshing ability with loads of center body and power while still maintaining that attractive, maternal look. Massive in her build and standing on a wide base, she combines tremendous rib shape with excellent length from end to end. You can drive the wheels off a vehicle searching for females with this much mass and power that still combine elite calving ease, growth and all the cosmetics.
- The dam of Lots 1 and 2, the now-deceased 0244 donor, was a high-powered female that left a lasting mark on the Dry Creek program. While her time in production was cut short, the quality she left behind speaks volumes about her generating ability. These flush mates are proof of the consistency, power and genetic value 0244 could transmit, and we believe her influence will continue to be felt through females just like this one.
- The generating potential in this dark red donor prospect is unlimited. She has the cow family behind her, the phenotype in front of you and the numerical strength to become a cornerstone female. This is the kind we believe you build a donor program around. 17P is massive, maternal, attractive and genetically equipped to move a program forward. The future of the 0244 cow family is bright, and this female has every tool to write a story of her own.
- Ranks in the top 10% of the breed for 13 traits.
- Full brother sells as Lot 1. Maternal sister sells as Lot 48.
- Sells open.

- Embryos are stored at Trans Ova, Lawrenceville, GA.

- Homozygous Polled
- 2446 has written quite the story in her short time in our donor pen. We purchased this powerhouse female as the high-selling open heifer in the 2023 Walker Herefords Foundations for the Future Sale, and she hit the ground running from day one. We flushed her as an open virgin heifer, and that first flush produced DCF 4M Red Label 88M ET, last year's high-selling bull at \$31,000 for half interest. A full brother followed, commanding \$23,000 to Edwards Farms. It didn't take long for 2446 to prove she had the ability to generate at an elite level.
- Her second set of ET calves rang the bell again. In our Spring 2026 Frozen Genetics Sale, the pick of the 2446 heifer calves commanded \$31,000, selling to Ground Zero Farms in Oklahoma. From bulls to females, the consistency of her progeny separate 2446, as they are high-quality, high-value individuals time and time again. Combine that with her ability to produce high-quality embryos, and you have the kind of donor that can generate revenue in more ways than one.
- We think it's time to share the good. 2446 is a proven money-making machine, and we are firm believers that females of this caliber can be some of the easiest to pay for. The production record is already there, the progeny have proven their value, and we believe her best days are still ahead of her. Here is your opportunity to partner with us on one of the most exciting young donors in the Dry Creek program. Join us in this partnership; 2446 is going to be a fun one to make money with!
- Ranks in the top 10% of the breed for 10 traits, including the top 1% for WW, YW and CW; top 2% for SC, M&G and \$CHB; top 4% for REA and \$BII; top 5% for Teat; and top 6% for \$BBI.
- Selling one-half interest, no possession.
- Bred AI 5/20/26 to CHURCHILL LEGACY 5117N ET. Safe AI.

- Homozygous Polled
- 99N is a direct daughter of our powerhouse donor 2446, sale feature Lot 3, and is sired by the ever-popular Loewen Sandhill. If you're looking for added pigment, body, substance and maternal quality, this female brings it all to the table. She is high end in her type and kind, with the look and cow power we have come to expect from this mating.
- The proof is already there. A full sister to 99N sold to Ground Zero Farms in our 2026 Spring Frozen Genetics Sale, commanding \$31,000. Study her EPD profile, and 99N becomes even more impressive, ranking in the top 1% of the breed for SCF, Udder, Teat, \$BMI, \$BII and \$CHB. Combine that numerical strength with the proven generating ability of 2446 and the maternal strength of Loewen Sandhill, and you have a female with big-time potential. 99N is the kind we believe can become a cornerstone breeding piece for her new owner.
- Ranks in the top 10% of the breed for 10 traits.
- Sells open.

- Homozygous Polled
- 94M is a direct daughter of the 2446 donor selling as Lot 3 and was her first natural calf. The apple didn't fall far from the tree, as 94M is the spitting image of her dam—big bodied, long made and powerful yet still put together in a super attractive package. This is the kind of young female that is increasingly hard to come by.
- Think about the earning potential here. 94M is a high-quality individual with her entire productive life ahead of her and sells carrying an exciting mating to Mastermind. A tremendous opportunity to invest in proven genetics with plenty of upside.
- Ranks in the top 10% of the breed for seven traits.
- Bred AI 3/10/26 to STELLPFLUG MASTERMIND 3521 ET. Safe AI.

The heart of our donor program sells!

- Homozygous Polled
- The heart of our donor program, J12 has made a lasting impact not only here at Dry Creek Farms but in other programs across the country as well. Her progeny have been highlights of our production sales year after year, proving time and time again her ability to generate the kind that are in demand. Daughters are now working in some of the most progressive operations in the country, including Barnes Herefords, Ground Zero Farms and Loewen Herefords, just to name a few.
- Genetically, J12 is backed by some of the most proven genetics in the breed. Sired by the ever-popular \$100,000 Loewen Genesis G16 ET and out of one of the stoutest made Validated daughters we have encountered, the cow power runs deep. A full brother is also working in the Circle F Farms program in Georgia, further adding to the proven value behind this cow family.
- J12's story at Dry Creek started in a big way as the Lot 1 highlight of our very first production sale, commanding \$60,000 for half interest to the Jankowski family. Since that day, she has come to the forefront as a donor dam because of her elite phenotype, impressive EPD profile and proven ability to consistently produce progeny that genomic at a high level. Few females have influenced the Dry Creek program the way J12 has, and her production record continues to prove why she has been such an important piece of our program.
- Ranks in the top 10% of the breed for 10 traits, including top 1% ranks for Marbling and all three dollar indexes.
- Offered with Jankowski Cattle Co.
- Due to calve before sale day to DCF WHR CENTENNIAL 61M.

■ Homozygous Polled

■ This high performing daughter of the famed J12 donor is sired by Bullseye. Big growth, big bodied and loaded with performance, this female has the phenotype and cow power you would expect from this proven maternal line. When her DNA came back, her EPD profile shot through the roof, highlighted by an explosive \$CHB of \$229. This is a unique female that combines proven maternal genetics, performance and elite numerical value in one powerful package.

■ Ranks in the top 10% of the breed for nine traits, including top 1% YW, CW, REA and \$CHB, top 2% WW and top 3% Marbling.

■ Sells open.

LOEWEN GENESIS G16 ET

Five direct daughters of this influential herd sire sell

- Homozygous Polled
- What a unique opportunity to grab ahold of one of the most proven young donors in the program. J51 doesn't miss, plain and simple; she is a calf-raising machine. As a two-year-old, J51 raised a herd bull that now runs the pastures at Cardinal Creek Cattle Co. in Minnesota. Her second natural calf was a highlight of our 4th Annual Production Sale, selling to White Hawk Ranch in Georgia. Most recently, she produced a \$30,000 Gunsmoke daughter for our good friends and partners at Lamb Bros. Beef in Wisconsin. Then look at the two ET daughters out of J51 being offered as Lots 7A and 7B—the proof is right in front of you! She has the goods and consistently stamps quality into her progeny.
- The production and earning potential of J51 has already been proven. Embryos out of this female were a hot commodity in our Spring Frozen Genetics Sale, where 33 embryos averaged an impressive \$1,945 per embryo. With her impressive EPD profile, consistent production and her ability to produce large numbers of high-quality embryos, we believe J51 is just getting started. High fertility, consistency and predictability—she has proven she can flat get it done. With her history of embryo production and the value she has already generated, this is a donor that could easily handle a few partners. Here is an opportunity to invest in a proven young donor with plenty of earning potential still ahead of her.
- Ranks in the top 10% of the breed for 12 traits, including top 1% ranks for SC and CW; top 2% for \$BMI, \$BII and \$CHB; and top 3% for Milk and Udder.
- Offered with Lamb Brothers.
- Observed bred 4/9/26 to CHURCHILL EQUITY 3316L ET. Safe in calf.

■ Homozygous Polled

■ Here is a special one we have been fired up about since the day she stepped foot at DCF from the co-op herd. She is one of the very first daughters of the now-deceased C Hennessy and is out of none other than the J51 donor selling. Talk about stacking fresh genetics with proven production! This late March heifer brings together two exciting pieces of genetics in one unique package.

■ Hennessy was the lead bull in the Champion Pen of 3 Bulls at the National Western Stock Show for Colyer Herefords in Idaho. A son of Churchill Sherman, Hennessy offered an exciting outcross pedigree with the phenotype and genetic flexibility we are always searching for. With his untimely passing, there will only be a limited number of daughters like this one. Then add J51 on the bottom side, a donor that has proven time and time again she can flat generate, and the possibilities become even more exciting. To add even more proof to this mating, this female has a full brother that is truly special and has us extremely excited about his future. When a mating can produce them on both sides of the fence, you know there is something working here.

■ GE-EPDs available sale day.

— BUYER'S CHOICE —

Lots 8A ‡ 8B

Another of the cow families we are extremely proud of, 107J is the definition of power and has quickly proven herself as capable of producing the kind that can make an impact. Sired by the \$100,000 Loewen Genesis G16 ET, 107J is a big-numbered, high-powered donor that combines tremendous mass, body and substance with an impressive numerical profile. Her production is already speaking for itself, with a daughter highlighting last year's production sale, commanding \$25,000 to P&J Farms and Needmore Cattle Co.

Lots 8A and 8B are sired by the proven and dependable Churchill Equity, creating a mating that stacks Equity, Genesis and the powerful 107J cow family. Full brothers to these two elite females are among the highlights of our fall bull crop. Whether bulls or females, this mating continues to ring the bell. Progeny out of 107J have been in high demand, and rightfully so. Here is your opportunity to invest in some of the very best genetics we have to offer.

■ Selling choice of Lots 8A and 8B. Winning bidder has the option to double the purchase price and take both females.

She is deep sided and powerful with tremendous doing ability yet still attractive and feminine in her design. When you study Lots 8A and 8B together, these two females are exactly what we strive to produce here at DCF: phenotype, power, maternal value and proven genetics all wrapped into one package. Big-time breeding pieces in the making.
- Ranks in the top 10% of the breed for 10 traits.
- Sells open.

— **BUYER'S CHOICE** —

Lots 9A & 9B

Here are two more standout ET daughters of the powerful 107J donor, this time sired by Churchill Laredo. The guesswork has already been taken out of this mating, as these two females are full sisters to last year's \$25,000 sale highlight that was selected by P&J Farms and Needmore Cattle Co. The 107J progeny continue to be in high demand, and females like these are exactly why.

These two sisters have the same quality, power and maternal presence that have made this cow family so exciting to us. They are the kind that offers tremendous breeding value with the pedigree and proven production already behind them. When full sisters have already commanded \$25,000, you know the genetic value is there. Here is another opportunity to invest in the 107J cow family and a mating that has already proven it can produce the right kind.

- The famed 023H donor is the dam of our resident herd sire Churchill Equity 3316L ET. We have been huge fans of 023H since the very first time we laid eyes on her in Montana. She is the kind of female that leaves an impression—powerful, maternal and proven, with the ability to generate genetics that can make an impact. When the opportunity came to get involved in a flush out of this great donor, we knew it was one we couldn't pass up.
- This heifer calf pregnancy is sired by KJ 8037 Arrowhead 755N ET, the \$150,000 herd sire for GKB Cattle, Upstream Ranch, Bar A Cattle and Jensen Ranch. Arrowhead has quickly created excitement across the Hereford breed, and we believe his mating to 023H is an exceptional genetic combination. These two complement each other in so many ways, combining phenotype, power, maternal strength and numerical value with a pedigree stacked for the future.
- Opportunities like this are why we get excited about the future. You are buying a heifer calf pregnancy out of the dam of Churchill Equity and sired by one of the hottest young bulls in the breed. We believe this mating has the pieces to produce something truly special. Fresh genetics, proven cow power and unlimited possibilities.
- Selling a heifer calf pregnancy due 2/1/27.
 Commercial black recip ID 2583.

- Here is another exciting heifer calf pregnancy out of the famed 023H donor, the dam of Churchill Equity 3316L ET, and this time sired by our new herd sire Churchill Legacy. We have tremendous confidence in 023H for what she can produce. When we had the opportunity to mate her to Legacy, we felt this was a genetic combination with unlimited possibilities.
- Churchill Legacy offers a truly unique outcross pedigree for so many programs across the breed. He is sired by the \$175,000 Churchill Stanfield, while his donor dam is the famed full sister to Churchill Smokey and was the \$220,000 high-selling female in the historic Churchill dispersal. When you combine the genetic power stacked behind Legacy with the proven production and maternal strength of 023H, there is a lot to get excited about. The story behind this pedigree has already been written—proven cow families, breed-leading individuals and genetics that have commanded attention and value at the highest level.
- Selling a heifer calf pregnancy due 2/1/27.

- Selling 50% semen interest and full possession.
Bigelow Livestock Management will continue to manage semen sales.

- Homozygous Polled
- Equity is taking the Hereford breed by storm, checking all the boxes that progressive breeders demand—phenotype, calving ease, carcass and maternal strength....all in a dark red, freckle-faced, Homozygous Polled package. He passes the eye test on hoof and the data test on paper.
- Equity is a true herd bull backed by cow power. His pedigree is loaded with generations of proven producers. His donor dam, Churchill Lady 023H ET, commanded \$65,000 in the 2024 Churchill Cattle Co. Sale to GKB Cattle Co., and her daughters dominated the record-setting Churchill dispersal, with three head averaging \$75,000, including the powerhouse Churchill Lady 3310L at \$160,000 to GKB Cattle Co. and Colyer Herefords.
- The Equity progeny have been in high demand, and the proof continues to stack up. Most recently, an Equity daughter highlighted the Walker Hereford Farm Foundations for the Future Sale as the high-selling bred heifer, commanding \$42,000 at the gavel drop. Another standout Equity daughter, raised by Lamb Bros. Beef, commanded \$36,000. These females are proving that the demand for Equity genetics is real, and as more daughters enter production, we believe his influence is only beginning.
- Equity is an elite calving ease sire that doesn't sacrifice muscle shape, body mass or structural integrity. He combines the look and build that cattlemen appreciate with the performance numbers that move a herd forward. Sired by the ever-popular JW Merit, the walking herd sire for Tennessee River Music and Waggoner Cattle Co., Equity adds value in more ways than one, from his first-class phenotype to his ability to sire the kind that push the breed in the right direction.
- Ranks in the top 10% of the breed for seven traits and the top 20% for 15 traits, including top 3% for CED and top 4% for BW and WW.
- Fifteen Equity progeny sell plus his service.
- Offered with Shockley Ranch Herefords.

- Homozygous Polled
- 27P is one of the high-quality females in this deep offering. She strikes you from the side with her balance, length and attractive design, but what may be even more impressive is when you get behind this Sandhill daughter. She is wide based and loaded with rib expansion and dimension, yet she remains super sound at the ground. This is a female that combines look and power in all the right ways.
- The cow power behind 27P is equally impressive. Her dam, H34, is one of our favorite donors in the program and is a 4013 daughter out of a maternal sister to the \$100,000 Loewen Genesis G16 ET. Proven genetics, phenotype and maternal value run deep in this pedigree. We believe 27P has all the pieces to become a big-time cow and eventually find her way into a donor pen. A big-time cow prospect that we expect will have plenty of friends come sale day in Pell City.
- Ranks in the top 10% of the breed for three traits.
- Sells open.

- Homozygous Polled
- 4P is one that is easy to find and even harder to pick apart. This dark red, super attractive female is sound moving, balanced from end to end and has the kind of look that grabs your attention every time you walk into the pen. She is a natural calf out of the 24L donor and a maternal sister to the Lot 19 female, tying her into one of the exciting young cow families here at DCF. Her dam, 24L, was the \$24,000 half-interest female selected by Flat Creek Farms and continues to prove her value through the quality she produces.
- As impressive as 4P is in person, she may be even more exciting when you sit down and study her on paper. She brings together phenotype, pedigree and an EPD profile that checks a lot of boxes. This is a female we can't wait to see enter production. Big-time cow prospect! Maternal sister sells as Lot 19.
- Ranks in the top 10% of the breed for eight traits.
- Sells open.

- What a sweet made Sandhill daughter! 35P is extremely attractive in her design and carries a pedigree that is special to us here at DCF. Her dam, 57K, is a full sister to DCF Dilly, who was raised right here at Dry Creek Farms before being selected by Buck Cattle Co. and Hoffman Ranch. Dilly went on to be named Reserve Champion Horned Bull at the Cattlemen's Congress in Oklahoma City, putting another stamp of quality on this proven cow family.
- With Loewen Sandhill on the top side and the cow family behind Dilly on the bottom, 35P combines some exciting genetics in a very attractive package. She has the look, maternal backing and genetic value to become a tremendous cow.
- Ranks in the top 10% of the breed for two traits.
- Sells open.

■ Homozygous Polled

■ 92N has been one of our very favorite power cow prospects all summer long, and for several different reasons. This Equity daughter is the definition of easy keeping; she's as wide as a truck, massive through her center body and loaded with muscle and substance. Her natural fleshing ability and power make you believe she is destined to become one impressive brood cow.

■ What may be even more impressive is that 92N is out of a two-year-old Slinger daughter that flat got it done. When a two-year-old can raise a female with this much quality, mass and performance on her first try, you must take notice. For as much power and muscle as 92N possesses, she still offers calving ease with added growth and big-time maternal value. This is one that checks a lot of boxes and is genuinely hard for us to part with. Big-time cow prospect!

■ Ranks in the top 10% of the breed for four traits.

■ Sells open.

▪ **SALE FEATURE!** This is the kind we had in mind when we mated 24L to Loewen Sandhill. From the beginning, the goal was to produce a female that would combine power, maternal value and numerical strength without sacrificing phenotype, and this female does exactly that. She is super long bodied, deep sided and loaded with rib dimension, yet she puts all that power together in an extremely attractive and feminine package. Add in her pigment, structural correctness and sound foot, and you have a female that is impressive from every angle.

▪ The cow power behind this female only adds to the excitement. Her dam, 24L, was a \$24,000 half-interest female purchased by Flat Creek Farms and has proven exactly why she commanded that kind of value. Combine that maternal backing with Loewen Sandhill, and you have a pedigree stacked with the kind of genetics designed to make an impact.

▪ What really separates this female is what you find when you get past her phenotype and study the pedigree and EPD profile. She brings together a powerful genetic package with the numbers to back it up, combining maternal value with exceptional carcass merit. She ranks in the top 1% or 2% of the breed for Carcass Weight, \$BMI, \$BII and \$CHB—an impressive combination for a female that looks this good on the hoof.

▪ Ranks in the top 10% of the breed for 11 traits.

▪ Maternal sister sells as Lot 15.

▪ Sells open.

■ Homozygous Polled

■ 25P has been a favorite of many who have visited throughout the summer, and it's easy to see why. This Equity daughter is something special — dark red, long made, big bodied and extremely attractive in her design. Females of this caliber are hard to find. Study the phenotype, pedigree and EPD profile; it will be hard to find one much more complete.

■ Ranks in the top 10% of the breed for six traits.

■ Sells open.

- What a special opportunity in this outstanding young donor. We had the opportunity to team up with Chapman Land & Cattle and purchased this female as the HYFA lot at the National Hereford Sale in Oklahoma City a few years ago to give back to the junior program that we are forever indebted to for bringing us up in such a great breed.
- This excellent young donor prospect is backed by a donor that needs no instruction to the breed, Salsa, and she is a paternal sister to the ever-popular Loewen Sandhill L70 ET. This female has such a great future.
- Offered with Chapman Land & Cattle.
- Sells open and ready to flush or breed.

■ Homozygous Polled

■ 35K has always been a special female in Pell City and was one of the very first Houston daughters to enter production. She is a highly productive female that truly has all the bells and whistles. Study her body type, added dimension and overall shape, yet she still maintains an attractive, feminine look. Then study her EPD profile, and the total package becomes even more impressive.

■ This is one that truly hurts to sell, but we are committed to offering our very best, and 35K certainly represents that commitment. We believe this is a female that needs to enter an embryo transfer program and be flushed. Opportunities like this don't come around often, and no matter where the hammer falls, 35K could look awfully cheap in the years to come.

■ Ranks in the top 10% of the breed for eight traits.

■ Bred AI 5/14/26 to CHURCHILL LEGACY 5117N ET. Safe AI.

■ K32 is a true beef cow and an absolute beast in person. She is loaded with red meat, muscle and dimension, yet she puts it all together in an extremely attractive package and is as sound as a cat. Study this female from the ground up—she has the foot, bone, body and power to stop you in your tracks.

■ The pedigree and production behind K32 only add to her value. She is a full sister to the \$43,000 high-selling female in the 2024 Double Seven Ranch Sale, selected by GKB Cattle in Texas. K32 has earned her way into the donor pen here at DCF, and when you combine that proven genetic backing with the sheer power and phenotype she possesses, there is a lot to get excited about.

■ To make the package even sweeter, K32 sells with a dark red heifer calf at side sired by Red Label. A big-time donor with a high-quality heifer calf at side—this pair is going to be easy to find and will have plenty of friends sale day.

■ Ranks in the top 10% of the breed for six traits.

■ Homozygous Polled

■ 54K is an exceptional young Genesis daughter in the prime of her productive life and one that has done a tremendous job in the program. She combines excellent udder quality, maternal strength and the kind of built-in longevity we put a lot of value in. Her dam was a big-time producer who made her mark in several high-powered operations, adding even more proven cow power to this pedigree. Young, productive and backed by generations of females that flat get it done.

■ Ranks in the top 10% of the breed for seven traits.

■ Due to calve before sale day to DCF WHR CENTENNIAL 61M.

■ Here is a big-framed, long-made female with tons of middle and power. Sired by Loewen Defiance, the sire of the ever-popular Loewen Sandhill, this female is the complete kind when you analyze her from end to end. Her dam was the now-deceased 0067 donor, purchased for \$36,000 at Colyer's in 2020 with our good friends at White Hawk Ranch and Aden Family Farms. Proven cow power runs deep in this pedigree, and this female has the phenotype and genetic backing to make a big-time breeding piece.

- Ranks in the top 10% of the breed for five traits, including the top 1% for WW and YW.
- Bred AI 3/10/26 to STELLPFLUG MASTERMIND 3521 ET. Safe AI.

- Homozygous Polled
- 157M is a direct daughter of the ever-popular AI sire Merit, raised in the Joe Waggoner program, who needs no introduction. On the bottom side, she goes back to a daughter of a full brother in-blood to Genesis, KR "Cornhusker," stacking proven genetics throughout her pedigree. This female brings tons of performance and added size in an attractive, red-eyed package. Study her figures and you'll quickly see there is a lot to like about this young female.
- Ranks in the top 10% of the breed for 10 traits.
- Bred AI 3/10/26 to STELLPFLUG MASTERMIND 3521 ET. Safe AI.

■ Power, performance and presence—34N brings all three in a big way. This big-boned, big-bodied Fortune daughter is powerful in her design and loaded with performance yet still carries an attractive look that is easy on the eyes. She has the substance and dimension to become a powerful brood cow and is the kind that will be even more impressive when you see her in person. The cow power behind 34N runs deep. Her dam was a top seller to Green Door Farms in Michigan, while her maternal granddam was the \$36,000 female we purchased out of the Colyer program with White Hawk Ranch and Rick Aiden. Proven genetics, power and performance are stacked throughout this pedigree.

- Ranks in the top 10% of the breed for six traits.
- Offered with Green Door Farms.
- Bred AI 3/10/26 to CHURCHILL EQUITY 3316L ET. Safe AI.

- A true herd sire that represents a big step forward for progressive seedstock operations. Legacy is the kind that checks all the boxes, combining pedigree, phenotype and genetic value into one complete package.
- This \$70,000 highlight of the Churchill Cattle Co. World Class Bull Sale offers an exciting outcross pedigree for many programs across the breed. He is a polled son of the popular \$175,000 Churchill Stanfield and is backed by the \$220,000 high-selling female from the historic Churchill Dispersal, stacking elite genetics on both sides of his pedigree. Legacy brings power, dimension and herd sire presence with the kind of structural integrity and balance required to make a lasting impact.
- Ranks in the top 10% of the breed for 13 traits.
- Owned with Wooden Shoe Farms, Medonte Highlands Polled Herefords and Abby Hill Farms.
- Selling 25 units of semen in five straw packages.

- Homozygous Polled
- Dry Creek Farms and White Hawk Ranch would like to introduce DCF WHR Centennial 61M. Centennial is an outstanding Stellpflug Gunsmoke 222 ET son that is goggle eyed, short marked and dark red to the ground. He is also homozygous polled, along with being extremely stout phenotypically and having an outstanding EPD profile and pedigree.
- Ranks in the top 10% of the breed for eight traits.
- Owned with White Hawk Ranch.
- Selling 25 units of semen in five straw packages.

- Homozygous Polled
- Red Label is an impressive individual that we are extremely excited about and will be using extensively in our program. He offers exquisite phenotype with added bone, body and power. For today's marketplace, he offers all the extra amenities when it comes to color, markings and pigmentation. He is dark red with big, red hooded eyes on both sides. Super correct in his structure with excellent feet and legs, 88M can add value to any program and will sire both bulls and females that will command top dollar.
- This herd sire is the outcross sire everyone has been looking for. 88M offers a very balanced EPD profile that combines moderate birth, performance, carcass merit and maternal strength. His first calves are hitting the ground with impressive pigment, moderate birth weights and the quality we expected from Red Label.
- Ranks in the top 10% of the breed for seven traits.
- Owned with Triple J Farms, Makers Cattle Co. and MG/4M Farms.
- Semen will only be sold at auction in 2026.
- Selling 25 units of semen in five straw packages.
