Emilee Holt, *AHA* ..... 208-965-3130

#### RINGMAN:

Mark Frisbie ..... 208-890-4517

#### HOTEL ACCOMMODATIONS:

##### Comfort Inn & Suites

77514 Hwy. 207, Hermiston, Ore. | 541-564-5911

#### DIRECTIONS TO SALE SITE:

I-84 to Exit 182 (Hwy. 207). Go north approximately 200 ft.  
Take right on Stanfield Meadows Road ¼ mile to sale site.

#### Hereford-sired black baldy female advantages:

- 7% higher pregnancy rate
- More calves weaned per cow exposed
- \$51 more per cow per year in net present value 2009 calculation
- 3.5% more average rate of return on assets
- 2 pounds less pasture forage per day while maintaining more body condition

#### Hereford-sired black baldy steer advantages:

- Heavier weaning weights
- Increased feed efficiency
- Lower cost of gain
- Lower feedlot breakeven
- \$28 per head less feed cost across finishing period

Viewing and bidding online.

## FIND US ON FACEBOOK

Northwest Hereford Breeders Bull Sale

## AHA EPD DEFINITIONS

**CALVING EASE DIRECT (CE):** Indicates the influence of the sire on calving ease in females calving at two years of age.

**BIRTH WEIGHT (BW):** Indicator trait of calving ease measured in pounds.

**WEANING WEIGHT (WW):** Estimate of pre-weaning growth measured in lbs.

**YEARLING WEIGHT (YW):** Estimate of post-weaning growth measured in lbs.

**DRY MATTER INTAKE (DMI):** Predicts the daily consumption of pounds of feed.

**SCROTAL CIRCUMFERENCE (SC):** Best estimate of fertility for semen quantity and quality and indicates early puberty in sons and daughters.

**SUSTAINED COW FERTILITY (SCF):** A prediction of a cow's ability to continue to calve from age three through age twelve, given she calved as a two-year old.

**MATERNAL MILK (MM):** Milking ability of a sire's daughters is expressed in pounds of calf weaned.

**MATERNAL MILK & GROWTH (M&G):** Reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability.

**CALVING EASE MATERNAL (CEM):** Predicts how easily a sire's daughters will calve at two years of age.

**MATURE COW WEIGHT (MCW):** Designed to either increase or decrease mature size of cows in the herd.

**UDDER SUSPENSION (UDDR):** Represents an assessment of udder support.

**TEAT SIZE (TEAT):** The assessment of teat length and circumference.

**CARCASS WEIGHT (CW):** Indicates pounds of hot carcass weight, if harvested at the same age constant endpoint.

**RIB FAT (FAT):** Reflects differences in adjusted 365-day, 12th-rib fat thickness. negative FAT EPDS are expected to produce leaner progeny.

**RIBEYE AREA (REA):** Reflects differences in an adjusted 365-day ribeye area measurement based on carcass and ultrasound measurements.

**MARBLING (MARB):** Reflects differences in an adjusted 365-day marbling score (intramuscular fat) IMF based on carcass and ultrasound measurements.

**BALDY MATERNAL INDEX (BMI\$):** A maternally focused index that is based on a production system geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

**BRAHMAN INFLUENCE INDEX (BII\$):** A maternally focused index that is based on a production system that uses Brahman X Hereford cross cows.

**CERTIFIED HEREFORD BEEF INDEX (CHBS):** A terminal sire index that is built on a production system when Hereford bulls are mated to mature Angus cows and progeny will be targeted for Certified Hereford Beef to allow for optimum end-product merit. This index has no emphasis on fertility.

**GENOMIC-ENHANCED EPDS (GE-EPDS):** Combine traditional pedigree and performance data with DNA marker technology to provide higher accuracy, more reliable genetic predictions, especially for young, unproven animals.

## TERMS AND CONDITIONS

**All animals selling will be Trich tested (as required by state regulation) along with BVD-PI negative.**

### BIDDING:

Each animal offered for sale will be sold to the highest bidder. Each bid shall constitute an offer to purchase and the final bid shall constitute a binding contract between buyer and seller. The auctioneer will settle any disputes. If you are unable to attend and would like to make a bid by phone or mail, please contact either sale staff at the numbers listed or any consignor.

### TERMS:

Terms of the sale are cash or bankable checks. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale.

### TRANSPORTATION:

Our transportation director, Mark Haueter, will make every effort to arrange transportation at a reasonable cost. All such deliveries will be made at the buyer's risk.

### ANNOUNCEMENTS:

Any changes of information from the sale catalog will be announced from the auction block and such announcements shall take precedence.

### REGISTRATION PAPERS/IDENTIFICATION:

A certificate of registration and transfer will be furnished for each animal at seller's expense. Seller offers each animal with a readable tattoo corresponding to the registration. Buyer agrees to check tattoos for accuracy.

### HANDLING AND RISK:

Each animal will be at the purchaser's risk as soon as sold. Livestock insurance will be made available to the buyer on sale day.

### RIGHTS AND OBLIGATIONS:

The sale staff are merely a representation of the seller(s) and assume no liability due to accidents, loss of property, legal or otherwise, nor do any other person(s) connected with this sale. All person(s) who attend this sale do so at their own risk. In the event of default in any part of the Terms and Conditions covering this sale by either the buyer or seller, it shall be the responsibility of the buyer or seller to instigate any actions necessary to bring about a fair settlement of any claims arising from this sale and to be the responsible party for any and all costs involved therein. The sale staff assumes no responsibility, legal or otherwise, for the failure of either seller or buyer to fulfill their obligation.

### SALE INFORMATION:

Bulls are available for inspection at the sale site prior to as well as the morning of the sale.

# Welcome to the 18TH ANNUAL NORTHWEST HEREFORD BREEDERS BULL SALE

**Please be our guest on Monday, March 9, 2026.**

Once again, Hereford breeders from the Northwest have brought together their best genetics to be offered for sale on Monday, March 9, 2026. **The sale will be held at the Double M Ranch Sale Facility, 30256 Stanfield Meadows Rd., Stanfield, Ore. (across the freeway from Top Cut Feedlot).** In addition, LiveAuctions.TV will be returning this year.

We are offering performance tested yearling and fall bulls, along with single lot and pens of heifers. The performance tested bulls were developed on a 120/day, roughage-based diet for ADG comparison within their contemporary group. Performance evaluation information and ultrasound data will be available sale day. All bulls will be semen checked, Trich-tested (as per state regulation) and BVD/PI negative.

Please be our guest on Monday, March 9, 2026. For questions and information, contact any of the consignors listed below.

- BW 73 lb.
- If you are looking to put good heifers back in your herd, look at this guy. Out of my best producing cow. A direct daughter of the maternal powerhouse Ribeye 88X. Long bodied, structurally correct, pigment and frame size to produce easy keeping females and easy finishing steers with excellent carcass quality. He is a high indexing individual, ranking in the top 3% CHB and 1% both BMIS & BIIS, with Marbling top 1%, Sustained Cow Fertility top 2%, Ribeye top 10% and calving ease Top 15%. Plus, he catches your attention with his eye appeal. Genomic tests are clean and clear of problems.
- Consigned by 430 Cattle Co.

- BW 85 lb.
- Pigment: RE 70%; LE 100%
- 508's sire, G-84, needs no introduction as he has had many bull calves go through this ring and had 2 show heifers sell in Reno. 508 is loaded in growth, maternal carcass! He has a CHB index of 173, top 5% of the breed. 508's dam is a moderate cow, goggle eyed, deep body, big topped and a great rear quarter to go along with a great udder and teats.
- Consigned by Wilcox & Family Cattle Co.

- A bull calf when you look at him is impressive and then gets even better on paper. His sire Churchill Red Thunder offers an exceptional mixture of high-quality phenotype along with excellent genetic predictions backed by a high-quality dam. There are no flaws in his structure, pedigree or EPDs. He is a calving ease bull with the performance of a growth bull. WW in the top 10%, YW in top 20%. Milk of 42 is in the top 1%. A bull that will correct your teats and udder and add outstanding carcass traits. A bull that can correct a lot or build on some good characteristics.
- Consigned by Wilcox & Family Cattle Co.

- Pigment RE 100%; LE 100%
- 435 was impressive the day he was born and is still impressing people today. This 88X son out of our Patriot donor can work in either a registered or commercial herd. Colyers used his sire heavily on heifers and 435's CE and BW EPDs show that too. He is outperforming his growth numbers. He is well balanced, square, moderate framed and heavily muscled just like his sire. His dam is a maternal and growth powerhouse too. You will want to take this guy home. Calving ease, heifer safe.

- Long bodied, phenotypic stand out. Excels SEN, Claw, Angle, PAP and SM. One of multiple sons in the sale from a pool of embryos which I carefully selected for the mating. The donor dam comes from a cow family proven for multiple generations and has consistently raised good sons. The sire, Elevate, is a Sitz Resilient son that has positive SEN without sacrificing good growth. I was striving to create an animal that could just breathe air and gain weight and I am not disappointed!

## COMMERCIAL & REGISTERED HEIFERS

### PEN OF THREE (3) HEIFERS

- These heifers come from the heart of our herd. They are sired by some of the best nationally recognized AI sires in the Hereford breed namely CL 1 Domino 0186H, Stardance and Revere. Their dams are some of our favorites. Heifer 507's dam is pictured on our web site. All the heifers are halter broke and gentle.
- *Consigned by Bird Herefords*

### PEN OF THREE (3) HEIFERS

- An even group of December and January heifers. Our sale coordinator described them as being very uniform with thickness and length. Heifer 5543 has an outstanding weaning weight of 108 and CHB\$ of 163. Halter broke and gentle.
- *Consigned by Bird Herefords*

### PEN OF THREE (3) HEIFERS

- Red baldy heifers right off the top of our commercial Hereford cows and a Red Angus sire (Suth Free Style 38G). We do not keep any of these F1 heifers, so you are getting our best. Lots of growth and maternal bred into them. All are AI sired half siblings. Were all born last part of January in a ten-day window. Will be sorted into three groups based on size. Will have rebreeding shots and will be ready for your herd.
- *Consigned by Stephenson Herefords*

### PEN OF THREE (3) HEIFERS

### PEN OF THREE (3) HEIFERS

- These heifers, likewise, come from the heart of our herd. They are all sired by Rough Neck, the powerful straight horned bull which is in the top 5% for calving ease, scrotal, udder quality, ribeye and marbling. He is described as thick topped, square hipped and red eyed. Halter broke and gentle
- *Consigned by Bird Herefords*

### PEN OF THREE (3) HEIFERS

- January heifer calves, two being out of first calf mothers. They are all sired by Stardance, the rising star in the Hereford world. EPD Percentile: top 1% calving ease direct, 1% carcass weight, 1% BMI\$, 1% BIL\$, 1% CHB\$. Look at the marbling 99!
- Halter broke and gentle.

### PEN OF THREE (3) HEIFERS

- Commercial quality Hereford heifers offering added value with strong maternal characteristics. Feminine, deep-bodied females with good udders in their lineage, sound structure, quiet disposition and the look to make productive, long-lasting cows. An excellent opportunity to add uniformity, fertility and maternal strength to a commercial program.
- *Consigned by Wilcox & Family Cattle Co.*

## 2026 HEREFORD CONSIGNORS

### *MDB Polled Herefords*

As a recently retired biology educator who grew up on a 200-acre Holstein dairy farm, I decided I needed something to do in retirement. In 2016, Debbie and I purchased some acreage and chose to get the farm, "still in the boy" out in the open. We decided on a feedstock operation with registered Polled Herefords. Our focus has been on improving our own herd each year by mating every cow we own to the very best available AI genetics. Through trial and error and some luck, we now have bulls and heifers that others would like to include in their herds. We are honored to be a part of the NWHB Sale and believe this sale has some of the top animals available in the breed. Hope to see you on March 9, 2026.

### *Stephenson Herefords*

We are excited to join the NWHB Sale for our 12th year! We are a small, 4th generation, family-owned operation located in beautiful Lemhi Valley of Salmon,

Idaho. The Stephenson family started in Utah, moving to the Salmon Valley around 1980 to run Hereford cattle. For the past 20 years we have worked to develop our own herd focusing on a highly maternal cow that can produce a calf with growth and carcass. Along with our two children, Brooke and John, we are currently running around 140 mother cows. We run a mix of registered Herefords and a commercial group with Red Angus influence, raising registered Hereford bulls and registered and commercial replacement heifers. We primarily sell our bulls through private treaty. Again, this year we are bringing prime commercial Red Angus/Hereford replacement heifers to the sale. We look forward to seeing you in March.

### *Wagenblast Richardson Ranch*

Wagenblast Richardson Ranch is owned and operated by Vicki Wagenblast and her son-in-law and daughter, Jim Kiley and Becky Richardson. The Wagenblast family has farmed and ranched in Oregon for the last

## 2026 CONSIGNORS:

173 years and we are proud to continue our ranching heritage as we expand and develop our own registered Hereford and AQHA herds on our ranch outside of Lexington, Oregon. We are excited with our sale offering and look forward to meeting you on sale day.

### *Wilcox and Family Cattle Co*

A long history of Herefords exists with the Wilcox family as Marty's grandparents immigrated to the U.S. in the early 1900's, homesteading in central Montana and ran commercial Hereford cows. Our ranch headquarters, located in Spangle, Washington, was purchased in 1992. The family includes Marty and Shannon and sons Matthew & Derrick and wife Jessica. We raise purebred Hereford seed stock with heavy emphasis on AI & Embryo transplant. We also sell show quality heifers and steers. Our herd is focused on balanced traits, with cattlemen minded profitability and sorted on a competitive phenotype. We have shown cattle at major Hereford shows; however, we don't breed show cattle rather we show production cattle. Our family has been a consignor at the NWHB Sale, periodically, since the first sale in 2009.

### *Bird Herefords*

Herefords have always been a part of Lynda and Dave's life, growing up on Hereford cattle ranches in eastern Oregon and are 4th generation Hereford breeders. We are blessed to live in beautiful, but unrelenting Pine Valley, gateway to Hells Canyon. Summers are ideal for cattle although temperatures range in the 90's and winters can be long and harsh reaching -30 degrees and snow of 3 feet or more. The cattle run on irrigated pastures and fed only grass hay we produce ourselves. In 1978 we started our herd with cattle purchased from Oveson Herefords. Currently we run 80 cows with Lynda's sister, Cheryl Thomas, also having cows in our herd. Early on cattle were shown & sold in Reno, the Cow Palace, the NILE and Denver; however, since 1980 we have also participated in consignment sales. We AI extensively, selecting sires that produce strong functional bulls with exceptional EPDs and carcass numbers. We have consigned bulls to all 18 years of the NWHB Bull Sale.

### *Limestone Blue LLC*

Limestone Blue is a family cattle operation nestled in the diverse landscape of southwest Idaho, operated by our family of eight children dedicated to sustainable cattle ranching. We raise registered Hereford and Angus cattle, Shetland ponies, and Gypsy Vanner horses. Our family's hands-on approach with the cattle includes using embryos, which allows us to selectively propagate elite genetics without maintaining large herds of donor cows. The name, Limestone Blue, reflects Morgan & Camie's roots to Idaho's Bear Lake Valley where the limestone-rich Bear Lake is located. The limestone in the lake gives the water its unique Caribbean blue hue. Morgan grew up on a dairy farm in Bear Lake Valley, while Camie grew up on a farm/ranch in the same valley. We moved to the Treasure Valley in 2004 because of a larger cattle population and a career in cattle reproduction. Our business model includes using elite lines of cattle as well as embryo transfer to create superior genetics.

### *430 Cattle Company*

I am excited as a first-time consignor to be offering three polled bulls this year. Owned and operated by Darcy Bedortha in Prineville, Oregon, it is a small herd committed to excellence. My cowherd is built on solid, primarily horned daughters from the Colyer program. My goal is to produce structurally correct, moderately framed, highly maternal bulls and heifers with efficiency and longevity that will work for a variety of operations.

### *Alder Livestock*

Shane Alder's love of Hereford cattle stemmed from his upbringing as his family raised Hereford cattle. In 2011, Shane acquired registered Herefords and was always very selective in the cattle that he chose to retain in this herd. In 2018 Alder Livestock became the official name of his ranch. He has had commercial Herefords as well as at one time some Angus. Through the years he sold his cattle in other sales in the area as well as private treaty and consigned to the NWHB bull sale in recent years. His wife, Becky, commented, "It was always so fun to see the babies arrive and watch them run and play in the pastures".

## *Norman "Shane" Alder*

---

### **2026 NWHB Bull Sale is dedicated to the memory of Shane Alder**

Norman Shane Alder, beloved husband, father, son, brother, uncle, and friend, passed away on November 19, 2025 in Melba, Idaho, after courageously fighting cancer for three and a half years. He was 52 years old.

Shane was born on September 3, 1973, in Nampa, Idaho, to Norman Craig Alder and Kathryn Etta Rosier Alder. The second of six children, he grew up in Melba, where he learned the values of hard work, service, and faith. At just 13 years old, he achieved the rank of Eagle Scout, a testament to his dedication and determination even from a young age.

A proud graduate of Melba High School, Shane later attended Utah State University, where he earned a bachelor's degree in animal science. It was at USU, in a church group, that he met the love of his life, Becky. The two were married on November 7, 1998, in the Salt Lake City LDS Temple.

Shane returned to his hometown to work the land he loved. A tireless farmer and rancher, he poured his heart into caring for his crops, his cattle, and his community. He also served faithfully as a board member for the Farm Bureau, advocating for agriculture and the families who depend on it.

A lifelong member of The Church of Jesus Christ of Latter-day Saints, Shane served a two-year mission in Dallas, Texas, an experience that shaped his compassion and strengthened his testimony. At the time of his passing, he was serving as the first counselor in the Warren Spur Ward bishopric, where he blessed many lives with his kindness, patience, and example.

Shane's talents and passions were many. He found joy in flying, hunting, and working with cows, and he had a special place in his heart for music. He loved playing the piano and guitar once in a while and would often sing in a men's group in church. Recently he was also able to obtain his pilot's license just prior to getting sick with cancer the 2nd time. He was known for his ever-present smile, his quick wit, his gentle humor, and his unwavering desire to help those around him. He was selfless, supportive, and endlessly patient — qualities that endeared him to all who knew him.

Shane is survived by his devoted wife, Becky Alder; his parents, Norman Craig Alder and Kathryn Alder; and his cherished children: Madyson Treasure (Ryan Treasure), Carson Alder, Connor Alder, and Maycee Alder. He is also remembered with love by his siblings and extended family. He was preceded in death by his brother-in-law, John Rober Parish (Heidi Alder Parish.)

Shane will be deeply missed by his family, friends, and the entire Melba community. His legacy of kindness, service, humor, and love — along with his fondness for cows and ice cream — will live on in the hearts of all who had the privilege of knowing him.

IN LOVING MEMORY OF  
N. Shane Alder
