TERMS:

The terms of the sale are cash, check or bank draft debit/credit card unless other arrangements are made in advance with the owner.

Electronic payments now accepted. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bidding ends, but the management will attend to loading on trucks in compliance with instructions from the purchasers.

GUARANTEE:

All cattle will sell under the suggested sale terms and conditions of the American Hereford Association.

HEALTH:

Individual health papers will be furnished with each lot sold. A number have been OCV'd. All bulls are semen tested. State regulations require all non-virgin bulls and all bulls over 24 months of age be tested for Trichonomiasis.

BIDS: The auctioneer-in-charge will have final say in regard to all final bids.

MAIL OR WIRE BIDS:

We hope each and everyone interested can attend the sale in person, but those who cannot may mail phone bids to the auctioneer or any of the representatives.

AI CERTIFICATES:

Any female that is bred to an AI sire not owned by the seller will NOT have an AI certificate furnished.

SALE ORDER:

The sale order will be as follows: bulls, open heifers, spring pair splits, fall pairs, bred heifers, bred cows and commercial females.

CATALOG ERRORS:

Statements from the auction block take precedence over printed material. The most current EPDs from AHA issued registrations were used when available. EPDs are subject to change weekly based on data submitted to the AHA. The most current EPDs are available from the AHA's website at www.hereford.org.

A Word from the Sale Manager

Welcome to the 126th semi-annual sale of the Central Missouri Polled Hereford Breeding Association.

As I looked at my comments from the previous sale about the state of the cattle industry, the several adjectives that I used to describe this market, I can only add WOW!! Record highs are being achieved almost daily. Just today, Choice Box meat was over \$407 cwt. 8 wt. steers over \$3.50 Fats \$3.80 in the meat \$2.40+ Live.

Slaughter Bulls at \$2+ Slaughter Cows closing in on \$2. New crop corn in my area around \$3.50. Beef demand is still high and we all know that cow numbers are low with no great evidence of retention or expanding, what a great time to be in the cattle business.

If you have plenty of forage or feedstuffs and need some cows, or if your cowherd is getting some age and need to introduce some younger females, or that next ready to use herd bull, or a younger one for you to grow up yourself. Saturday, September 20, 12-Noon will be an excellent opportunity for you to pick up some fresh genetics being offered by several of members of the CMPHBA.

As always, cattle will be onsite Friday afternoon and Saturday morning for viewing or to visit with consignors, and remember the café will be open for a tasty Rodney Burger. Bring this catalog, a friend or two and spend a couple hours with us.

Hope to see you sale day!

Thanks, *Larry Day*

Aces Miss Janell 910G 402M is out of our top producing H Dimaggio 2094 ET daughter who has been in the very top of our cow herd and producing some of our best calves over the last four years. Her sire has also made quite a name for himself here at Aces Polled Herefords. Over the last few years, Aces LMP Jackson 111J has sired both great herd bull prospects and nice replacement females for our herd. This yearling heifer is safe for an early spring calf, bred to SF1806 33Z Victor 2312. We already had a few 2312 calves on the ground this past spring and they are very fancy with low birth weights.

Aces LMP Ms Jackie 238K is one of our top three-year-old cows out of Bar Star Magnitude 737, a moderate-framed cow with a lot of eye appeal. We had this heifer in the show barn for a while but later gave up on taking a show string out that year. In May, we weaned her first calf - an outstanding herd bull prospect with a weaning weight of 724 pounds. She has a beautiful udder and teat attachment - one of the best in our herd. Her bull calf sired by Kayo 2203K. She is bred back safe to Kayo for a mid October 2025 calf. This will be an exciting female to add to your program. Be sure and see her sale day or come by the farm and take a look prior to the sale and have a look at her bull calf in the show barn.

Another quality purchase we made from our friend TD Nall. Be sure to check out this lady's udder - near perfect even after five calves! She's dark red, smooth-muscled and very easy on the eyes! Ultrasound checked safe to WMC 66589 Trojan Boss 194 and due Feb 20, 2026. **Lot 25A:** Herd bull prospect - DFF 327 NITE RIDER 552 (Reg 44683074) born April 13, 2025. He is sired by our Power Broker son. He's young but has all the pieces. Buy him and grow him up yourself.

We purchased 269F from the Tim Cavanaugh dispersal as she was out of a bull we raised and used. He left us with many just like her, freckle-faced, big sound footed and good uddered. Retaining her 2025 bull calf for our bull pen. Sells bred to our Sim-Angus bull and due late March.

CATALOG MATERIAL

All announcements at the sale by the owners or the auctioneer concerning the cattle will take precedence over statements in the sale catalog.

Larry Day, as sale manager, acts only as an agent for the sellers and has no responsibilities other than those involved in conducting the sale.

1209 is a nice young cow. I purchased her in the 2022 MO Opportunity Sale as an open heifer. She has given me two nice calves. She is dark red with eye pigmentation. The only reason I'm selling her is because I'm short on heifers this year, so I'm putting her in the sale in order to be able to participate. Safe in calf to my herd bull (Reg P44339130).

K13 is a nice dark red heifer with red eyes, pigmentation and a red neck. She's halter broke and up to date on shots. Really good EPDs. Her dam has an outstanding udder. She sells open.

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Each animal tested is recognized with the AHA GE-EPD logo.

Here's a chance at a son of JDH Z311 Insight 30D, a breed great that Reynolds Herefords and Journagan Ranch selected out of the 2017 NWSS Reserve Champion Bull Carload. M10 is Show-Me Select heifer qualified with a CED in the top 20% of the breed. We used him to clean up our spring heifers. He brings a lot to the table for someone looking to make baldy heifers. Calving ease, feed efficiency and carcass traits that combine to make top end \$ indices in his EPD profile, all packaged into a visually appealing package.

When we purchased this cow as a weanling, we had no idea the massive impact she would have on our program. This direct daughter of P606 consistently raises the biggest calf in our Fall herd and has nearly perfect udder quality, with excellent teats. We are retaining two daughters and a son, so we've decided to give somebody the opportunity to add these strong genetics to their program. Breeding info: pasture exposed 12/07/24 - 02/28/25 to LJR MSU 206A Hobbs 149H, the dark red, freckle-faced, fan favorite of the MHA Field Day in 2024.

If you're looking for an outcross female that will add pounds to her calves, look no further. She's a calving ease specialist with a 112 average weaning weight ratio. Whether you're looking for a donor or just to add a solid cow to your herd, she will work for you. Breeding info: pasture exposed 12/07/24 - 02/28/25 to LJR MSU 206A Hobbs 149H, the dark red, freckle-faced, fan favorite of the MHA Field Day in 2024.

This goggle eyed, dark cherry red cow comes right from the top of our set of coming three year old cows. We hate to let her go, but are committed to bringing good ones to the sale! She exhibits great phenotype and udder quality, while boasting a maternal set of EPD's. AI Bred on March 29, 2025 to JW B716 Devout 18051. Then pasture exposed to FTF Unbelievable 3210L from 04/12/2025 - 08/01/2025. Safe to AI breeding.

Commercial heifer out of RHA 4R HARLEY 142H (P44220393) and our Angus herd bull.

72

Commercial Fall Open BWF

Consigned by: *Rolling Hills Acres/ James Lueckenotto*

Commercial heifer out of CPH 11B KIMBERLY 236K (P44418293) and our Angus herd bull.

73

Commercial Fall Open BWF

Consigned by: *VOWA - Jeff Voris / Mary Warden*

Well sometimes the neighbor's bull comes and visits. This Black/white face heifer is out of one of our best cows and our neighbors very nice Angus bull. This girl will be an awesome cow. Her mother and grandmother are our top producers. Lots of longevity in this cow family.
