ANNUAL PRODUCTION SALE
MARCH 8, 2026

1 PM // AT THE RANCH // FLORENCE, SD

YOU'RE NOT JUST BUYING A BULL, BUT A PROGRAM.

WELCOME

What an INCREDIBLE time to be in the cattle business! New opportunities, strong markets, and a renewed sense of optimism are driving our industry forward. We are seeing levels of demand and value that many of us have never experienced before, and there has never been a better moment to invest in herd bulls that can move your program ahead.

We are extremely proud of this year's offering. The bulls represented here are the result of years of disciplined selection, sound management, and a commitment to genetics that work in the real world. Across every breed you will find powerful growth bulls, reliable calving-ease options, and maternal standouts built to make productive, long-lasting cows.

The future of the beef industry is being shaped by the choices you make today. Consumers continue to demand high-quality, wholesome beef, and as producers we have answered that call. Now is the time to capitalize on that hard work by building cow herds that are efficient, profitable, and sustainable for years to come.

Thank you for being part of our program and for your confidence in our cattle. Please don't hesitate to call or stop by—we always enjoy visiting about cattle and the business we all love.

Best Regards,

THE BERGHs

Mike, Barb, Ryan, Kim, Tate, Trevor, & Ty

QUALITY GENETICS

= THE BEST LONG-TERM INVESTMENT

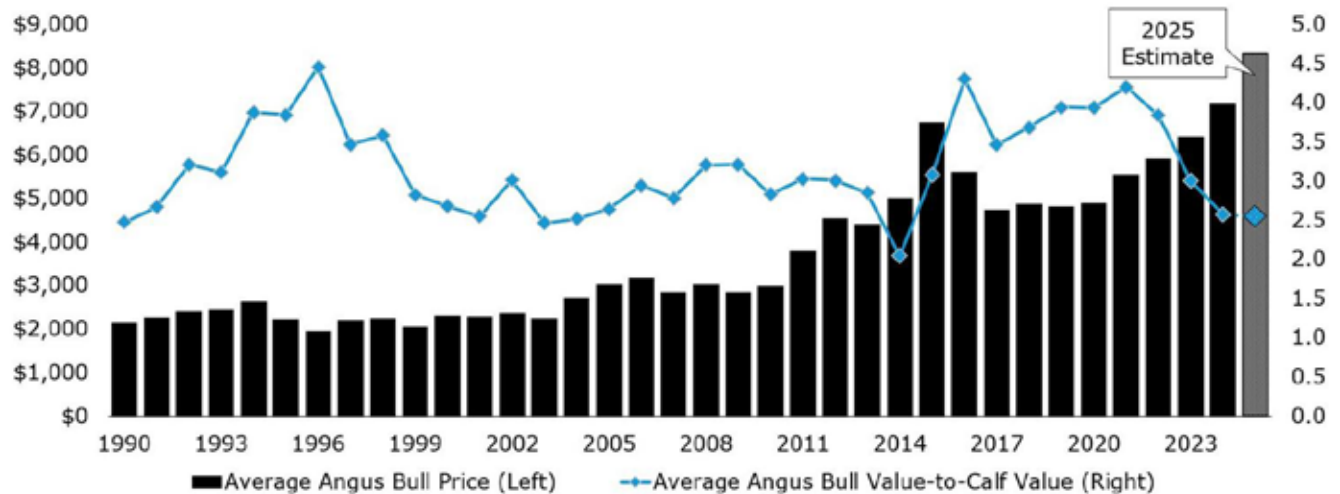

A lot of folks are talking about record bull prices, and rightly so. The cattle market has pushed to historic highs in 2025, and it's good to see seedstock producers, who've been fueling genetic progress for commercial cattlemen, also being rewarded.

That said, when you step back and look at the data, it tells an important story. Even though average bull prices are the highest we've ever seen, bulls are still undervalued relative to the current market landscape. Right now, the average bull still costs roughly 2.5 feeder calves, which is below long-term norms.

In other words: Bull prices are high, but bull value, relative to feeder calf prices, remains discounted

Genetics remain one of the best long-term investments any producer can make. Even at today's prices, the market is still telling us that bulls are undervalued relative to the return they generate.

- Jon DeClerck
