- We love selling females out of bulls we've bred and raised, and this heifer and a few of her half-sisters are a great set of females. We bred and sold her sire to a friend and commercial producer, and after seeing around 200 progeny, we liked what we saw so much that we bought the bull back and used him on registered and commercial cows of our own!
- We purchased Diamond Girl's dam from Grassy Run in West Virginia several years ago. There are many reasons we still have her dam in our operation. Gentle and halter broke.
