

HUTTON RANCH

Thanksgiving RoundUp Sale

— HERFORD BULLS, BRED HEIFERS, —
& RANCH HORSES

NOVEMBER 28, 2026

BASSETT LIVESTOCK AUCTION • 1:00 PM

Since 1973

Friends and Fellow Ranchers,

We are honored and thrilled to welcome you to our annual Thanksgiving Roundup Sale.

It is truly a great time to be in the cattle business. After enduring many marginal years, it is rewarding to finally see a marketplace that recognizes and rewards the hard work, discipline, and resilience of America's ranch families. Those who stayed the course are now seeing the fruit of their commitment.

This year's offering represents the culmination of 53 years in the cattle business. The bulls, the horses, and the carefully selected bred heifers in this sale are backed by generations of disciplined selection, performance records, and maternal strength. These cattle are not just raised here — they are built here, with purpose.

We would also like to take a moment to thank the wonderful Sandhills community. We consider you more than neighbors and friends — you are family. From the landowners who trust us with their grass, to the many hands who help gather cattle, brand calves, and put up hay — your generosity and partnership humble us. "Thank you" hardly seems enough.

We are especially proud of the bred heifers in this offering. They represent the kind of maternal strength and longevity that can elevate any program. We believe strongly in our bull power — so strongly that we want to buy back the heifers sired by our bulls. The demand for high-quality F1 females has never been stronger, and we stand ready to help market your females — or purchase them at a premium ourselves.

Over the years, our genetics have gone to work in programs across the United States. We are grateful for the testimonials of repeat customers whose success stories speak louder than any words we could write.

We sincerely hope you will join us in person. The Thanksgiving weekend gathering has become a tradition — good cattle, good horses, good fellowship. And if you're looking to get your Christmas shopping done early, we are confident you'll find something here — even for the hardest-to-buy for name on your list.

From our family to yours, thank you for your trust, your friendship, and your belief in what we are building at Hutton Ranch.

We look forward to seeing you at the sale.

With gratitude and respect,

**The Hutton Family
Hutton Ranch**

Hutton Ranch: SALE TERMS & CONDITIONS

BULL WINTERING, DELIVERY & PAYMENT

We are happy to winter your bull at Hutton Ranch until March at no additional charge and deliver him to the buyer's ranch free of charge within 500 miles of Hutton Ranch.

Buyers who take their bull home sale day will receive a \$300 discount per bull. All bulls leaving sale day must be paid for through the sale office prior to release. Health papers will be provided when required, and a Nebraska Brand Inspector will be on site.

PAYMENT CONDITIONS/TAXATION PURPOSES

Buyers wishing to defer payment on bulls until the 2027 tax year must notify us prior to the sale. Deferred payment is due January 5, 2027. After payment is made, bulls may be picked up by the buyer or remain at Hutton Ranch for scheduled delivery.

BREEDING GUARANTEE

All bulls sell under the terms and conditions of the American Hereford Association. Every bull has passed a Breeding Soundness Exam (BSE) prior to the sale, and we guarantee his breeding soundness through his first breeding season.

Most importantly, if you have a problem with a bull, give us a call. We want to know about it, and we will work with you to make it right.

REGISTRATION & TRANSFER

Registration certificates will be transferred to buyers at seller's expense. When making settlement, buyers must give complete name and address information.

HERD & SALE VET

Dr. Angie Painter, DVM 402-322-0237

SALE DAY CONTACTS

Jim 402-760-1919

ONLINE BIDDING & STREAMING

DVAuction
Broadcasting Real-Time Auctions

dvauction.com

cattleusa.com

Hutton Ranch, the sales representatives, and the barn premises are not liable for any accidents or damages. All persons attending the sale do so at their own risk. We appreciate everyone who has come for the sale and hope caution will be used for everyone's safety.

HEIFERS & HORSES

See the heifer section of the catalog for complete breeding information. All heifers are Bangs vaccinated, and all horses sell with a current Coggins test. All heifers and horses must be paid for and picked up sale day. We will gladly assist with shipping arrangements when needed. Health papers will be provided by the veterinarian when required.

RISK & INSURANCE

Once an animal is sold, it becomes the responsibility of the buyer. We strongly encourage buyers to purchase livestock insurance to protect their investment.

Any bull remaining at Hutton Ranch for wintering must be covered by livestock insurance for the entire time he is in our care. Coverage must remain in effect until the bull is picked up by the buyer or delivered by Hutton Ranch.

PAYMENT, ANNOUNCEMENTS & BIDDING

Payment may be made by cash or good check on sale day. Credit or debit card payments will be subject to any applicable transaction fees charged by Bassett Livestock Auction.

Every effort has been made to ensure the accuracy of this catalog. If a known error or correction is discovered, supplement sheets will be available sale day.

Announcements made from the auction block will take precedence over printed material.

The auctioneer will settle all disputes regarding bids and bidding, and the auctioneer's decision will be final.

250 YEARS and a Henry Rifle to Celebrate

America turns 250 this year, and we figured we ought to celebrate the cowboy way.

At the end of the sale, we'll draw for a special American Cattlemen Henry Lever Action Rifle — made in the USA, engraved, numbered and limited edition.

Every lot you buy puts your name in the pot. More lots, more chances.

Come buy some good cattle and horses, enjoy the day, and maybe head home with a pretty darn cool Henry rifle.

- Peppy Joe's pedigree speaks for itself to anyone who knows ranch horses bred to perform in the arena and earn their keep on the ranch. At 15.2H, he's big, stout, heavily muscled, and built to rope and turn a steer. He has the motor to go all day, but what we appreciate most is his intelligence and quiet disposition — he's a stud you can use. Throw in his palomino color and good looks, and it's pretty easy to see why we like him so much. Bred to perform, built to work, and good-minded enough to enjoy riding.

Our Horse Program

Horses have always been an important part of our family's story. Jim and Susan both grew up horseback, riding from the time they were old enough to sit in a saddle. They raised their sons, Houston and Harrison, the same way, and today their grandsons are already beginning their own journeys horseback.

Jim's family rode grade horses until 1981, when they purchased Hart N Sox. Jim and the mare were both ten years old at the time. She had been shown across the country and had earned AQHA points in reining, western pleasure, and halter. She taught Jim more about riding and horsemanship than any lesson ever could, while giving him the opportunity to compete in 4-H and open horse shows.

Jim joined the AQHA, as it was known then, and proudly wore his jacket to school every day after having his mother sew the AQHA patch onto it. It would be fair to say that both Jim and Susan have been "horse crazy" from a very young age.

Our horse program has grown and improved greatly since those early days, but one thing has never changed—the impact a good horse can have on a person's life. As Winston Churchill is often quoted, "There is something about the outside of a horse that is good for the inside of a man."

We are extremely proud of the horses being offered in this sale. Most come from generations of horses we have bred, raised, ridden, and trained ourselves. They have been developed through honest ranch work and selected for the qualities we value most: soundness, athletic ability, willingness, good minds, and the heart to work all day.

These horses represent years of careful breeding, family tradition, and a lifelong love of the horse. We hope they will have the same lasting impact on their new owners and families that good horses have had on ours.

"Anna Taylor and Heza Dual Rey are becoming quite the pair. We're so proud of the young horsewoman Anna is becoming."

- Hutton Calamity Jane is a 15.1H, 4-year-old bay mare with the size, speed, and cow sense to earn her keep anywhere. She is an own daughter of Sixes Country, one of the great running-bred stallions standing at the Four Sixes Ranch in Guthrie, Texas. We used Sixes Country as an outcross on the proven cow-horse breeding carried by Jane's dam, our good "Cricket" mare.
- Jane has been hauled all summer to numerous barrel races where she was consistent in winning points each time to place her fifth in the 4D for the season. She has also been hauled all summer to pro rodeos where she got the experience of the loud music and bright lights. She stayed very consistent at all the rodeos. She has gathered and doctored cattle, roped at brandings and drug calves to the fire. She knows what a day's work is and is willing to do it. Jane comes from a line of horses we have owned, raised, and bred for generations. Whether you want to ranch, rope, or run barrels, this young mare has the breeding, experience, and ability to go a long way.

- Huttons Natural Grit is a 15H, 4-year-old gray gelding this is one sharp-looking horse.
- Grit has been Houston's main ranch horse for the past two years and has developed into a dependable, dead-broke ranch gelding. He has sorted, gathered, and doctored cattle, roped calves and drug them to the fire. He stays gentle, handles pressure, and is ready to do whatever job needs done. His sire is Natural Bottom, a gray stallion standing at Four Sixes Ranch in Guthrie, Texas. We used him as an outcross on our proven cow horse mare, Satin. Grit represents four generations on the mare side that have been owned, raised and bred by us. If you want a good looking ranch horse with a good disposition and plenty of experience, Grit, is the one.

- Hutton Topaz Sparkle is a 7-year-old Palomino mare with the breeding, disposition, and eye appeal everyone is looking for. She is an own daughter of Jesse's Topaz, the well-known stallion from the Four Sixes Ranch in Guthrie, Texas. On the bottom side, she goes back through several generations of horses we have owned, raised and bred ourselves.
- Sparkle is extremely gentle and has been used for all kinds of ranch work. She is easy to be around, dependable and willing to handle whatever job is put in front of her. We have also bred her, and she raised a really good colt for us, proving she has value in the broodmare band as well as under saddle.
- If you are looking for a good ranch mare with a great disposition, proven breeding, color and chrome, do not miss Sparkle. She is the kind that is easy to own and easy to like.

MISS BADGER BUCK

- Sheza Satin Reyngler is a big stout, 13-year-old sorrel mare with generations of proven ranch-horse breeding behind her. We own her sire and dam, along with several other generations in her pedigree, and she is the dam of multiple horses selling in this sale.
- Satin gave Harrison his first taste of showing AQHA horses when he was young, and she later became one of the stout mares both boys reached for when the work got serious. She has been used for roping, sorting, gathering, and handling cattle of every kind. She has plenty of cow bred into her, with just enough Hancock and Driftwood to stand her ground no matter how big the bull is. She will stay hooked and get the job finished.
- For all her toughness, Satin is gentle enough for nearly anyone to handle and ride. She has proven herself as a show horse, ranch horse, and broodmare. She remains a seasoned, useful ranch mare with a lifetime of experience.

- Huttons Two Buck Chuck is a sharp-looking yearling stud colt by Peppy Joe and out of our proven "Cricket" mare. He brings together strong ranch and performance breeding with the look, athletic ability and disposition to go in any direction.
- Chuck is gentle, willing and already has a good handle for a colt his age. He has the makings of a future ranch or performance horse. He also has the pedigree and presence to deserve a look as a stallion prospect.
- Take a look at this young colt. He is good-looking, easy to handle and packed with potential. He is he half-brother to Lot 1.

**5 – HR TWO BUCK CHUCK**

Western Nebraska has been hit hard by wildfires in recent years, putting a tremendous burden on our rural volunteer fire departments. We're proud of the men and women who give their time to protect our neighbors, farms, ranches and livestock.

As a way of saying thank you, Hutton Ranch will donate the proceeds from Two Buck Chuck to the Raven Volunteer Fire Department.

A good colt for a great cause!

"Getting to know the Hutton family has truly been a blessing. We've purchased two exceptional horses from Hutton Ranch, and the continued training, guidance and education they've provided have been invaluable. But more than anything, the friendship we've gained with their family is priceless."

— The Matt & Lina D'Antonio Family,
Long Pine, Neb.

- "Levi" is a good-looking yearling sorrel stud colt by Genuine Peppy Joe and out of McKenzie's proven rodeo mare, "Blue Jeans". Blue Jeans was bred, born and raised by McKenzie, who trained her while they were both young. The pair started competing when McKenzie was a teenager and built a winning record in breakaway and ribbon roping, barrel racing, goat tying and heading.
- Their accomplishments include third in the 2014 SCJHD State Breakaway Roping; qualification for the 2014 NHSRA Finals in Des Moines, Iowa; fourth in the 2015 SCHRA State Ribbon Roping; 2015 FYRA Champion Goat Tyer; 2016 FYRA Reserve All-Around Cowgirl; 2016 FYRA Reserve Champion Breakaway Roper; 2017 FYRA Senior Reserve Champion Breakaway Roper; 2017 Wayne Dutton Pro Rodeo Breakaway Champion; and 2019 FYRA Heading Champion.
- With Genuine Peppy Joe on top and that much proven ability on the bottom, Levi is bred to make an outstanding ranch, or performance horse. He is gentle, easy to handle and already shows the build, athletic ability and willing a mind in a young prospect. This colt has the tools to become something special.

- "Demi" is a yearling palomino filly with proven performance breeding and one of the sweetest dispositions you could ask for. She is out of McKenzie's accomplished barrel mare, "Dancer". McKenzie bought Dancer as a green-broke 3-year-old and turned her into a finished barrel horse and dependable all-around rodeo mare.
- Together they earned the 2012 Lazy M Farms Champion Barrel Racer title; qualified for the 2013 National High School Rodeo Finals in Gallup, New Mexico; were 2014 SCJHD Reserve Champion Barrel Racers; and qualified for the 2014 NHSRA Finals in Des Moines, Iowa. Dancer was also McKenzie's 2014-2015 Cinch team horse, 2016 rodeo queen horse, 2017 Roan Creek All-Around Cowgirl horse and 2018 RCA Rodeo Queen horse. She qualified for the FYRA All-Around Cowgirl title.
- "Demi" is gentle, loving and easy to handle. With that kind of mare behind her, she has the potential to go nearly any direction. Given the right time and training, she should make an outstanding young horse for a youth rider or anyone wanting a kind, willing prospect with a proven performance pedigree.

- Blue Ice Nuke is a striking yearling bay roan filly by Blue Ice Nuke. Her pedigree traces back to Blue Valentine and other great Hancock bloodlines known for producing tough, dependable ranch horses with cow sense, stamina, and plenty of staying power.
- We purchased a group these young horses from Dean and Sally Corfield of Oshkosh, Nebraska, after a spring wildfire ravaged their summer pastures and forced them to move some stock. We feel fortunate to have bought such a good set of horses from a program built around proven ranch-horse bloodlines.
- Anyone who knows Blue Valentine and Hancock horses understand the value they bring to the ranching industry. As Mr. Corfield puts it, "They can work a cow unless it climbs a tree or hides in a badger hole." They have a big motor, an all-day attitude and the grit to stay with the job. Blue Ice Nike has eye catching color with good looks and the makings of one heck of a rope, rodeo, or ranch horse.

Dancer was also McKenzie's 2014-2015 Cinch team horse, 2016 rodeo queen horse, 2017 Roan Creek All-Around Cowgirl horse and 2018 RCA Rodeo Queen horse. She qualified for the FYRA All-Around Cowgirl title.
- "Two Step" has been led around by the kids, and is easy going. With that kind of mare behind him, he has the potential to go nearly any direction. He should make an outstanding and willing prospect with a proven performance pedigree.

- "Denim" is a good-looking yearling sorrel filly by Genuine Peppy Joe and out of McKenzie's proven rodeo mare, "Blue Jeans". Blue Jeans was bred, born and raised by McKenzie, who trained her while they were both young. The pair started competing when McKenzie was a teenager and built a winning record in breakaway & ribbon roping, barrel racing, goat tying and heading.
- Their accomplishments include third in the 2014 SCJHD State Breakaway Roping; qualification for the 2014 NHSRA Finals in Des Moines, Iowa; fourth in the 2015 SCHRA State Ribbon Roping; 2015 FYRA Champion Goat Tyer; 2016 FYRA Reserve All-Around Cowgirl; 2016 FYRA Reserve Champion Breakaway Roper; 2017 FYRA Senior Reserve Champion Breakaway Roper; 2017 Wayne Dutton Pro Rodeo Breakaway Champion; and 2019 FYRA Heading Champion.
- With Genuine Peppy Joe on top and that much proven ability on the bottom, Denim is bred to make an outstanding ranch, or performance horse. She has been led around by the kids and is gentle, easy to handle and already shows the build, athletic ability and a willing mind in a young prospect.

HUTTON RANCH GUIDE TO UNDERSTANDING HEREFORD EPDs

A practical rancher-friendly guide to what the numbers mean

EPDs help compare the genetic differences between bulls. They are one tool—not the whole story. We use them along with phenotype, pedigree, disposition, soundness and actual performance to select cattle that work in the real world.

CALVING & GROWTH

- CE** | **Calving Ease Direct:** Predicts the likelihood of a bull's calves being born unassisted from first-calf heifers. Higher is generally better.
Breed Avg: 3.8
- BW** | **Birth Weight:** Predicts differences in birth weight of a bull's calves. Lower is generally better for lighter birth weight.
Breed Avg: 2.5
- WW** | **Weaning Weight:** Predicts pounds of calf at weaning. Higher is generally better for more weaning growth.
Breed Avg: 56
- YW** | **Yearling Weight:** Predicts growth through yearling age. Higher is generally better for more growth.
Breed Avg: 90
- DMI** | **Dry Matter Intake:** Predicts differences in feed intake. Lower is generally better for reduced feed intake, provided performance is maintained.
Breed Avg: 0.2

FERTILITY & MATERNAL TRAITS

- SC** | **Scrotal Circumference:** Predicts differences in scrotal size and is associated with reproductive performance and earlier puberty in daughters. Higher is generally better.
Breed Avg: 1.1
- SCF** | **Sustained Cow Fertility:** Predicts a cow's ability to remain productive in the herd through repeated calving. Higher is better.
Breed Avg: 17.5
- MM** | **Maternal Milk:** Predicts the influence a bull's daughters will have on the weaning weight of their calves through milk production. Higher means more milk, but more is not always better depending on your environment.
Breed Avg: 27
- M&G** | **Maternal Milk & Growth:** Combines growth genetics with maternal milk. Higher generally means more total maternal performance.
Breed Avg: 55
- MCE** | **Maternal Calving Ease:** Predicts how easily a bull's daughters will calve as first-calf heifers. Higher is better.
Breed Avg: 1.7
- MCW** | **Mature Cow Weight:** Predicts differences in mature weight of a bull's daughters. Lower generally means smaller mature cows and lower maintenance needs. This is not simply a higher-is-better trait.
Breed Avg: 88

UDDER QUALITY

- UDDR** | **Udder Suspension:** Predicts udder tightness and support in a bull's daughters. Higher is better.
Breed Avg: 1.3
- TEAT** | **Teat Size:** Predicts teat size in a bull's daughters. Higher values indicate smaller, more desirable teat size. Higher is better.
Breed Avg: 1.3

These traits matter because sound udders and manageable teat size help calves nurse sooner and help cows stay productive longer.

CARCASS TRAITS

- CW** | **Carcass Weight:** Predicts differences in hot carcass weight. Higher generally means more pounds of carcass.
Breed Avg: 73
- FAT** | **Backfat Thickness:** Predicts differences in external fat. Lower generally means leaner carcasses, although extremely low fat is not always the goal.
Breed Avg: 0.024
- REA** | **Ribeye Area:** Predicts differences in ribeye size and muscling. Higher is generally better.
Breed Avg: 0.47
- MARB** | **Marbling:** Predicts differences in marbling and quality grade. Higher is better for marbling potential.
Breed Avg: 0.15

ECONOMIC INDEXES

- BMIS** | **Baldy Maternal Index:** Designed for Hereford bulls used on Angus-based cows when replacement females are retained. It emphasizes fertility, maternal traits, longevity, growth and carcass value. Higher is better.
Breed Avg: 374
- BIIS** | **Brahman Influence Index:** Designed for Hereford bulls used in Brahman-influenced cow herds where replacement females are retained. Higher is better.
Breed Avg: 450
- CHBS** | **Certified Hereford Beef Index:** Designed for terminal use where calves are fed and marketed on a carcass-value basis. Higher is better.
Breed Avg: 123

ADVANTAGES OF BUYING A Hutton Ranch Bull

DOCILITY

Disposition matters. Quiet cattle settle quicker, handle easier and spend more time gaining and less time fighting stress. Most importantly, they are safer for you, your crew and your family to be around. We have selected hard for quiet, easy-handling cattle for generations, and we believe it pays.

SOUNDNESS

These big, range-ready 2-year-olds are developed the way bulls ought to be. They are grown on large Sandhills pastures with moderate feed—not pushed in a lot. That produces athletic bulls with the feet, legs and stamina to cover big country, handle a large group of females and stay sound doing it.

MATERNAL STRENGTH

Our bulls are raised by their own mothers, on grass, with no creep feed—much the same way our customers raise their calves. More than 50 years in the Hereford business has taught us to value fertility, udders, longevity, disposition and the ability to raise a good one year after year. And we put our money where our mouth is. Our F1 baldy heifer buy-back program gives our customers another market for the kind of females these bulls produce.

COME SEE FOR YOURSELF

Don't just take our word for it. Don't even take our customers' word for it. Come walk through the bulls and take a look at the bred heifers for yourself.

- Endure 1030 has done more for our cow herd than any bull we have used. His numbers are phenomenal and speak for themselves, but what he does in the pasture is what really counts. He stamps his calves with his look. His first daughters in production are doing a tremendous job with beautiful udders, and his sons are stout, muscular, and flat powerful. We have sold semen on him across the country and bred over 300 females to him this past year. We believe in this bull, and we'll continue to use him heavily.

- Bennett L576 is a sire we are really excited about. We believe this homozygous polled bull will complement our Endure daughters extremely well, and we have used him heavily the past two

years. His numbers are spectacular, but he backs them up with a very correct phenotype. His 11-year-old dam is a Dam of Distinction in the Knoll Crest Farms herd. We expect L576 to sire the kind of maternal females that stay in the herd and produce for years to come.

- Clyde is a home-raised bull that has made a real impact on our herd. He stamps his calves with extra pigment, plenty of bone and foot, and added size and growth. His dam was one of those cows that raised a top-end calf year after year, and he has carried that maternal strength forward. Clyde adds pounds without giving up the cow power we expect behind them.

- Heavy Duty 303G was our pick from the NJW herd in Wyoming, and he has delivered just what we were looking for. He consistently adds pigment, mass, muscle, and plenty of bone and foot. His impressive dam caught Houston and Harrison's attention in person, and that maternal strength carries on through his daughters with beautiful udders and extra pigment. A powerful, attractive sire that leaves the kind of females we like to keep.

- Rooster is a straight Line One sire whose bloodline originates from the Jamison Ranch herd in Kansas. He's a big stout, powerful horned bull with tremendous muscle and mass, yet has a puppy-dog disposition. He's never had a halter on, but we've featured him at the Valentine, NE Bull Bash where his size, correct phenotype, and gentle nature always get noticed. His daughters are outstanding and carry the maternal strength we expect from Line One genetics. Power, maternal value, and disposition all wrapped up in one impressive herd sire.

- King of Diamonds is another home-raised Line One sire, by Kingsley, one of the popular sires from Van Newkirk Herefords, and out of a Line One cow tracing to the Jamison Ranch herd. He stacks generations of the maternal excellence Line One cattle are known for. Thick, long-bodied, deep ribbed, and easy keeping, he has left us with an outstanding set of females. A true cow-making bull backed by generations of proven maternal genetics.

Houston and Harrison representing Hutton Ranch — accepting the 50 Year Gold Breeder award presented by the American Hereford Association.

- Weight 10/1/26: 1725; Act. SC 10/1/26: 43
- Pigmented, horned son of Clyde
- A complete, even-made bull standing on plenty of bone and foot
- Brings eye appeal, function, and performance together in a useful package
- Dam is a 9-year-old

"A few years ago, we decided to make a change in the genetics of our cowherd. We purchased a Hereford bull from Hutton Ranch with the bloodlines and disposition we were looking for and we've been very pleased with the calves he has produced. Their heifer buy-back program has also been a great fit for us — they purchased every heifer we didn't keep as a replacement. It's been a win-win, and we'll definitely be adding more Hutton Ranch bulls to our program in the future."

— Max & Cristin Fay, Brewster, Neb.

- Pigmented, polled son of Endure 1030
- Offers calving ease without giving up growth or performance
- Bold ribbed and easy doing, with the body and capacity cattlemen appreciate
- Stout below the knees with sound feet made for years of service
- Dam is a 3-year-old

"We've had a great experience with Hutton Ranch. The bull we purchased has been very docile, easy to handle, and exactly what we were looking for — an easy-calving bull that produces stout, well-muscled calves. We also really appreciate Hutton Ranch's heifer buy-back program and the help they've given us along the way. We're very pleased with both the bull and the experience, and we'll definitely be back when it's time for another one."

WHAT GETS MEASURED GETS IMPROVED

For more than 50 years we have kept detailed performance records on our Hereford herd. From birth, weaning, and yearling weights to maternal performance and carcass data. Every generation has been measured with one goal in mind — to produce better cattle. That commitment has helped us build a herd backed by generations of proven performance. Today our herd sires rank in the TOP 5% of the breed for total carcass traits, combining the numbers cattlemen demand with the soundness, muscle and practical performance required on the ranch.

- Calving ease makes him a strong option for use on heifers
- Balanced from end to end, with exceptional width and shape when viewed from behind
- Excellent testicle size and fertility to carry forward into the next generation
- Dam is a 6-year-old

“The docility and good feet made our Hutton Ranch Hereford bull a standout choice for us. We’ve also been really pleased with the extra growth the F1 cross has put on our calves, and the heifer buy-back program has been a great addition to the whole package. And in fact, the entire Hutton family has been great to work with, and it’s easy to see why we’re repeat customers.”

- Weight 10/1/26: 1230; Act. SC 10/1/26: 40
- Pigmented, polled son of Endure 1030
- A top-end bull with the phenotype and EPD profile to match
- Deep maternal power runs through both sides of his pedigree
- Will sire valuable replacement females along with high-end steer calves
- Offers the tools to improve profitability in commercial or registered herds
- Dam is a 2-year-old

“Hutton bulls have added style and size to our herd. Calves are born easily and are up within minutes. Steers grow quickly with structure that will make stellar fat steers. Heifers are feminine and maternal while still maintaining a great growth rate. Bulls are docile and easy to manage out on pasture. We are very impressed by the amount of style, structure, and docility that Hutton bulls have offered to our herd. We recommend these bulls to anyone who’s herd needs the flair of classic Hereford bulls with added style and docility.”

— Cordele & JP Matthews, Matthews Ranch,
 O’Neil, Neb.

Hutton Ranch Heifer Buyback Program

A dependable market for quality Hutton-sired replacement females

Our goal is to reward bull customers for producing high-quality daughters of Hutton Ranch Hereford bulls while maintaining the health, disposition, fertility, and quality expected of cattle carrying the Hutton Ranch name.

Purchase Window:
January through March

Minimum Weight:
550 lbs.

Group Size:
Small groups are welcome —
quality matters more than quantity.

Minimum Requirements

1

GENETICS & QUALITY

- Must be sired by a Hutton Ranch Hereford bull.
- Sire identification should be available.
- Out of sound, productive commercial cows.
- Free of known or suspected genetic defects.
- Sound, feminine, moderate-framed, replacement-quality females.
- No structural or functional problems that could reduce fertility, longevity, or marketability.

2

DEVELOPMENT

- Weaned and backgrounded a minimum of 60 days before delivery.
- Bunk broke and accustomed to normal feed and water systems.
- Healthy, growing condition — not overly fat or thin.
- No growth hormones or implants.

3

HEALTH

- Two complete rounds of vaccinations under a veterinarian-approved program.
- Officially Bangs vaccinated.
- Dewormed prior to delivery.
- Free of active illness, pinkeye, foot rot, ringworm, or other contagious conditions.

4

DISPOSITION

- Heifers must be culled hard for disposition.
- Wild, aggressive, excessively nervous, or difficult-to-handle heifers will not be accepted.
- Heifers should handle quietly through normal working facilities.

5

REPRODUCTIVE STATUS

- Heifers must be open and never exposed to a bull.

Final Selection

Hutton Ranch will visually evaluate heifers for:

Weight • Age • Frame • Femininity • Muscle • Structure • Disposition • Uniformity

Meeting the minimum requirements does not guarantee purchase. Final selection and price will be based on quality, health, genetics, condition, and current market value.

Our Goal

*Create a profitable, desirable, and dependable market for Hutton-sired females
while developing the kind of bred heifers ranchers want to own.*

BRED HEIFER OFFERING

Preg checked by Dr. Angie Painter, DVM
All heifers are Bangs vaccinated

Tim was a great friend and supporter of our program, with a sharp eye for good cattle and Hereford genetics.

IVERSON RANCH BLACK BALDY A.I.

The top cut of the late Tim Iverson's black baldy heifers. Safe in calf to A.I. sire Endure 1030; due March 1, 2027. We believe this set will stand with any group of bred baldies offered anywhere.

IVERSON RANCH BLACK ANGUS A.I.

The top cut of Tim's straight black commercial Angus heifers. Safe in calf to Endure 1030; due March 1, 2027. A uniform set bred to produce high-value F1 baldy calves.

Gate cut in groups of five; winning bidder takes five or more, up to the entire group.

A.I.-BRED

BLACK BALDY

A solid set of black baldies out of Hutton Ranch Hereford bulls. Safe in calf to Endure 1030; due March 1, 2027. Good, practical females carrying proven genetics on both sides.

BLACK ANGUS

A solid, uniform set of black Angus heifers. Safe in calf to Endure 1030; due March 1, 2027. A great opportunity to put together young females carrying one of the most proven sires we have ever used.

RED BALDY

A sharp set of red baldies out of Hutton Ranch Hereford bulls. Safe in calf to YON Discipline; due March 1, 2027. Good young females with maternal value and performance bred in.

BULL-BRED

BLACK BALDY

A really good set of black baldies out of Hutton Ranch Hereford bulls. Bred to calving-ease sons of Endure 1030; they should begin to calve March 21 for 90 days. Practical Sandhills females built to make cows.

BLACK ANGUS

A solid set of black Angus heifers bred to calving-ease sons of Endure 1030; they should begin to calve March 21 for 90 days. The kind to raise high-value baldy calves.

RED BALDY

Two good red baldies out of Hutton Ranch Hereford bulls, bred to calving-ease sons of Endure 1030; they should begin to calve March 21 for 90 days. Good young females built to make cows.
