GO THE PHER purple SALE

MCLEOD COUNTY FAIRGROUNDS
HUTCHINSON, MINNESOTA

WELCOME

On behalf of the Minnesota Hereford Breeders, welcome to the 46th Annual Go-Pher the Purple Sale! Reaching 46 years is something to be proud of, and this tradition wouldn't be possible without the consignors, buyers, and supporters who continue to make it happen year after year. We appreciate each of you being part of it!

The consignors have put together another great set of cattle, with the variety that only a consignment sale can offer. Whether you're looking to add to your cow herd, find your next 4H project, or invest in the future of your operation, there's something here for everyone.

We will once again host a live video sale, with all lots on display throughout the event. Cattle will be available for inspection after 1 p.m. on Friday. Be sure to scan the code below to view the video catalog ahead of sale day.

If you can't join us in person, you can bid live through LiveAuctions.tv or contact any of the consignors or committee members for assistance.

Thank you for supporting the Minnesota Hereford Breeders and this great tradition. We look forward to seeing you in December!

The sale will be conducted as a video sale using the same bidding process as a live auction. Cattle will be available for inspection beginning Friday, December 1th at 1 pm. No animals will be released until the conclusion of the sale.

TERMS

Cattle will be sold to the highest bidder, with the auctioneer settling any disputes. Terms of the sale are cash or check payable during or after the sale, required before cattle will be released. Each animal will be at the buyer's risk immediately after the animal is sold.

ABSENTEE BIDDING

If you would like to place a bid but are unable to attend the sale, please direct your bid to any of owners or sale staff. You may also bid online as the sale will be broadcast live.

HEALTH

All cattle will be sold in compliance with the health laws of the State of Minnesota. Health papers will be provided for interstate travel. Bred females have been pregnancy examined.

GUARENTEE

Cattle will sell under the suggested terms and conditions of the American Hereford Association. Bulls under 12 months of age, are guaranteed per the seller.

REGISTRATION

Registration certificates will be transferred to the buyer at the seller's expense. Each buyer must be sure to give the clerk the proper name and address for making transfers. Registration certificates for calves born from a bred female purchased in this sale will be obtained by the buyer at their expense.

EPDS/ANNOUNCEMENTS

EPDs listed in the catalog are current at time of catalog printing. Any information or announcements on sale day take precedence over all printed material.

Our first Gopher heifer offered for donation is an attractive female with beautiful goggle eyes. We selected 609 as our donation heifer because her dam, a first-calf heifer, has a nearly perfect udder. Adding to her strong maternal lineage, her paternal granddam was also the 2020 donation heifer.

JCH 406 DOMINETTE 403 609

SELLING LOTTERY STYLE

$10 per ticket, sold at auction.
Winner will be drawn from collection of all tickets sold.
All proceeds to benefit the Minnesota Junior Hereford Breeders.
Our thanks to the Carlson family for this donation!

This Sherman son is a complete and balanced bull that we feel can offer a lot of different things to a herd. In a world where weight matters at weaning this guy weaned off at 843lbs and has a great cow family behind him. Put him on a set of cows and make heavy feeders or replacement females.

2621 is a younger heifer that has a pedigree full of many generations of breed leaders (Centennial, 2296, Copper & Fresh Prince). She is big bodied, athletic, heifer that oozes with maternal potential. Mocha's dam is a great uddered, polled 2296 daughter that always raises a good one and this one is no different. A maternal sib bull was used as a walking sire this past summer. Mocha's best days are still ahead of her. Breed her anyway you want and she will create a return. She will be cosmetically dehorned by sale day. OCV.

Scurred. A super fancy Red Cloud granddaughter. Every time you see here she's showing off. Great natural muscling, built into a cute package that will compete nicely in the younger divisions. Her mom has one of the most perfect udders you can ask for. Destined to be a front pasture kinda cow in her future

It's been several years since the Werk's last consigned to the Go-Pher Sale, and we wanted to bring a good one when we made our return. Dad was one of the original organizers of this sale, so it's special for us to consign now that we've settled back in Minnesota.

This a big time, high ceiling May heifer calf hailing from a great cow family and a tremendous producing, massively constructed, easy doing mother. This female will follow in her footsteps being huge ribbed and dimensional while still maintaining a tremendous look of quality from the side along with excellent structural integrity.

2618 is a easy doing, functional, big bodied heifer with plenty of style and shape. A maternal sib steer was campaigned very competitively in the WI spring jackpot circuit several years ago. Her sire is a Fresh Prince son out of Copper Candi's full sister. We expect 2618 to be a front pasture type cow that your neighbors will be jealous of once her time in the showring is done. Extra bonus- she is very easy going for any age exhibitor. 2618 will be cosmetically dehorned before sale day. OCV

Really like this heifer out of our Historic sired herd bull that consistently sired fault free functional cattle that work in production, 682P is no exception. Throw in The KJ Cher 753D cow and the power in this one's pedigree is truly exciting. 682P herself is a neat fronted, long and deep bodied heifer with an awesome set of feet and legs.

Ritz is an April-born heifer that consistently caught our eye throughout the summer. She possesses the kind of softness, rib shape, and natural doability that we appreciate, all while maintaining the soundness and structure to go the distance. Backed by a strong cow family from the Delaney program, Ritz combines maternal strength with plenty of quality and future potential.

Here's a female that combines elite phenotype with a progressive set of EPDs. Starting out as one of the larger calves, Cheeto has truly blossomed into a feminine, eye-catching female. She offers an attractive balance of style, quality, and performance, backed by a proven pedigree featuring Munson on the top side. A female with the look and genetic backing to make a lasting impact.

This female traces back to a full sister to MSU Revolution, selected by Kevin Jensen and me out of the MSU dispersal. She is also a full sister to Nora's two-time division champion and 5th Overall B&O heifer at the 2025 Junior National. Our loss is your gain. She has all the pieces to become a cornerstone donor and build a great cow family.

Balanced on paper and in person, she combines sound structure, dimension, and an attractive look. Originally slated to be Nora's B&O heifer, but with only so many we can feed, Jerry talked me into putting her in the sale! DBP.

This dark cherry red female has been a standout in our eyes from an early age. We admire her attractive profile, structural correctness, and overall soundness. Backed by a proven pedigree, sired by Munson and out of a daughter of one of our foundation cows, Munchies offers the kind of genetics and quality that are hard to part with. She's a special one that we believe has a bright future ahead of her.

606 is definetly one of our best! She's the type of heifer that herds are built around, very capacious and correct structured. Her sire is known for functionality , large scrotal bull progeny , and good doing females. Her dam has been nothing short of a great cow , as well as being a successful show heifer being a division winner at the MSF open show. We own this calf with the Reid Carlson family who is a first time consignor for the GoPher sale. They wanted to start by offering a real good one.

Homozygous Polled. *If you're looking for a sure fire COW hereshe is. She's a maternal sister to Crimson and her dam ratios 4 @ 88 for BW and 3 @ 109.3 for WW. These In Demands have really impressed us. He stamps them with power performance and look. Not only is 4P impressive on foot but numerically she ranks in the top 20% of the breed in 12 traits. This one would make a nice show heifer, but more importantly, she will make a tremendous cow.*

JDH 97J 4887 MS DEMAND 4P ET

MN Hereford Breeders Heifer Grant Program

Program Goals:

- To provide quality Hereford animals to youth that are interested in starting with the Hereford breed.
- To encourage youth to show and promote

2 - $500 Grants sponsored by the MN Hereford Breeders will be awarded
Grants are not transferable and do NOT carry over to the next year. Grants cannot be awarded more than once to the same individual.

Example: $3000 Cost of Heifer
<u>- $500 Grant award</u>
$2500 Cost to Recipient

Youth eligible for these grants should meet the following criteria:

- Be a current member of the MN Junior Hereford Breeders and a resident of Minnesota. (Junior membership fee of $10.00 may be sent with the Grant Application)
- Must be 8 years old as of January 1, 2026 and not older than 21 years old on January 1, 2027.
- Must be able to provide at least equal to or greater than the amount of the grant to purchase the animal.
- Must purchase an animal from the Go-Pher the Purple Sale to be held Saturday, December 12, 2026.
- Non-compliance with the grant rules (by recipients) may affect future chances to receive a grant.

How Grant recipients will be chosen:

➔ The selection committee consists of three non-biased individuals.
➔ No names will appear on the application portion submitted to the selection committee.
➔ Criteria for judging the grants

- Dedication to the Hereford breed
- Ability to care for the animal
- Sense of responsibility
- Good candidate for continuing with the Hereford breed
- How much effort was put into the application

Scan for Application Form!

* **<u>Please return the completed application by midnight Saturday, December 5, 2026.</u>**

Recipients will be announced by Monday, December 7, 2026

We are really excited to offer this bred heifer! She is the first calf out of Bella's Montgomery show heifer. She ranks in the top 25% of the breed for DMI, MM, BMI, BII and CHB.

CCCC Makers Mark 268K sired the Reserve Division bull calf at 2026 JNHE. This one will make an impact in your breeding program for sure!

Bred to CCCC MAKERS MARK 268K (P44589338). Examined safe with a heifer calf.

An exceptional bred heifer with a long future ahead in production. She offers plenty of growth and function in an attractive package. We love her structure and have confidence in her longevity, with her grandmother still in production here.

Service sire is a Final Print son purchased from Delaney's in 2025. He'll play a big role in our future breeding program, making this your chance to get in on his very first calf crop.

Bred to JDH 34J 0016 FINAL PRINT 109N (P44663838). Examined safe.

A high volume, structurally correct bred heifer that brings together the kind of balance and functionality that will pay dividends in your cow herd. She is exceptionally good on her feet and legs, with soundness and design to hold up for years of production. Her dam is a proven producer with an 89% BW ratio and an impressive 109% WW ratio. Renae is a female with the look, structure, and maternal backing to make a valuable addition to your program.

Pasture exposed 5/1 to 8/10 to LAND MAKERS MARK 2072 5084 ET.

I lost the family fight to leave him a bull. My loss is someone's big time gain. Yes he's still horned but will be surgically dehorned before sale date. Powerful genetics top and bottom and a phenotype that shows that. Without a doubt the best steer we have offered in years and our success in the 4-H show surely should be noticed. I'm really excited about this steer and some Junior is going to have a tremendous amount of success and fun.
