

SATURDAY, OCTOBER 11, 2025
SNEDDEN RANCH ANNUAL BULL SALE

AT THE RANCH • MARICOPA, CALIFORNIA

Welcome Friends and Fellow Cattle Producers,

We are very honored and humbled to have you consider this bull and heifer offering. Our success is defined by your success, that is why we remain focused on producing the breeding tools that will return the most revenue with the least inputs. The U.S. cattle producer has a very challenging job with countless variables that define success or failure. When you are already navigating drought, changing markets, and government regulations, the last thing you need is unproven genetics creating variability in your cow herd. Fertility and longevity in the cow world is the equivalent of location, location, location in the real estate world. There is a direct connection in the cow-calf sector between ranch profitability and fertility and longevity in your cowherd. Selecting for over 50 years for genetic lines that calve every year for many years, has put us in a position where we can confidently offer you breeding tools that we believe will add to your future profitability.

Functional, efficient genetics is our number one goal, but we add in as much carcass merit as we can without giving up functionality, in order to create a valuable product in your calf crop that will garner return bidders and premiums for your calves. With no irrigation, no creep feeding, and rugged terrain, we realize we do it a little different than most purebred operations. Besides collecting many data points on these cattle, these cattle are run like most western commercial herds. We believe this gives us the best opportunity to test these cattle in real world conditions to select the ones that work. This entire Hereford bull offering averages in the top one-third of the breed for sustained cow fertility (SCF) and marbling (Marb), making for profitable cattle on the ranch and on the rail. Whether bulls or commercial replacement heifers, we believe we have something for you to consider.

As always, we have a sight unseen guarantee on any purchase if you are unable to attend. Videos of sale bulls will be posted at sneddenranch.com. We appreciate your interest and look forward to seeing you Saturday, October 11th.

*Thanks,
The Snedden Family*

2025 SNEDDEN RANCH SALE INFORMATION

GENERAL INFORMATION

Sale Date and Time: Saturday, October 11, 2025. New York steak lunch at 12 noon. Live auction begins at 1 p.m. Bull viewing and refreshments throughout the morning. Beverages, hors d'oeuvres and games to follow. Bulls available for viewing any time before sale day at the ranch.

GUARANTEE

We guarantee that all breeding cattle are fertile to the best of our knowledge. We guarantee all sale cattle to be breeders under normal management practices. If they are injured any time in the 12 months after they are purchased so as to make them functionally infertile, we will provide you with a satisfactory replacement, if available, or issue you a credit equal to your purchase minus salvage value.

HEALTH

All sale bulls will have passed a breeding soundness exam, including scrotal measurement and semen test. All bulls have been tested BVD-PI free. Anaplaz vaccinated. Three shots of Vision 8, 2 shots of Vista 5L5, and 1 shot of Vista Once and Safeguard. All Hereford bulls have been DNA-tested free of all known defects recognized by the American Hereford Association.

DELIVERY

Receive a \$50 trailer discount for any bull that is hauled home on sale day. Free delivery within 300 miles. To locations greater than 300 miles, Snedden Ranch will share delivery costs with buyer.

BULL UPDATES

Yearling weights, scrotal measurements and carcass ultrasound will be available on sale day. All Hereford bulls have Genomic-enhanced EPDs.

TERMS AND CONDITIONS

Cash or check will be terms of payment for bulls purchased.

ANNOUNCEMENTS

Announcements on sale day by the owners or sale supplement will take precedence over statements in this catalog.

LIABILITY

All persons attending the sale do so at their own risk. Neither the owners or any person associated with the sale, assumes any liability, legal or otherwise

RANGES

Range\$ is a measure of an animal's pedigree to value its potential to make cows with longevity and calves that push down the scale. Range\$ is derived by reaching back into the pedigree and measuring the number of natural calves produced by dams on both sides of the pedigree, as well as the lifetime weaning ratio of the dam's progeny. This is a completely unbiased, data based approach to find traits of critical economic importance. Individuals that rise to the top are ones that have proven longevity and weaning performance exhibited in their pedigree. As you look through the catalog, the bulls with a higher Range\$ number, have a pedigree that has a proven economic advantage.

VIDEOS AND UPDATED INFORMATION WILL BE AVAILABLE ONLINE AT SNEDDENRANCH.COM

2025 SNEDDEN RANCH SALE FORMAT

Starting this year we have transitioned our sale to a live auction format. Each lot will be displayed on video monitors during the auction. Bulls will be available for viewing in person leading up to the sale.

Snedden Ranch will be reserving an interest in several of the Hereford bulls, several of these are denoted in the catalog. Snedden Ranch may retain possession as a herd bull on one or more of these

bulls pending yearling and ultrasound data. Feel free to call concerning the interests in these bulls as the date approaches. We will be offering updates on our website as to interest and terms of possession. Announcements on sale day regarding these bulls and any others will take precedence over the catalog.

Call Austin with any questions, 805-423-0248.

Thick calving ease bull with full pigment. This calving ease bull is built great all the way to the ground with plenty of heel depth. His high producing dam also raised a herd sire purchased by Wunschel Ranch Herefords. Top 10% of breed for low dry matter intake. (Small foxtail scar on left eye. Fully guaranteed.)

A sale offering standout. This young bull stands right with the older bulls. Long and deep bodied with extra muscle shape. Free moving with a quiet disposition. His dam has an exceptional udder and teats. She has had bulls in the top end of the sale in the two previous years. She has a weaning ratio of 117% on 4 calves. 482 is in the top 6% of the breed for scrotal EPD.

1018J was the leadoff bull in the 2022 Stegall Cattle Co. sale that we purchased. He combines calving ease, growth, carcass, and maternal quality. Put all this into a deep bodied, easy fleshing bull that strides better than most Red Angus. Lots of capacity with moderate mature weight, combined with an easy disposition. Calves have not disappointed daughters are soggy and feminine, and the sons speak for themselves as you will see. Deep, moderate, and attractive.

WHOA.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Herefords are known as the efficiency experts for a reason.
Herefords boost pregnancy rates by 7% and add \$30 per head in
feedyard profitability in a crossbreeding system.

And Hereford genetics bring unrivaled hybrid
vigor, longevity and disposition.

COME HOME TO HEREFORD.

COMMERCIAL HEIFERS

These heifers were chosen off the very top of our commercial replacements. We hand selected each of these as the ones we would pick to make cows.

They have been raised in rough country, weaned on long hay for 5 days and then turned back out on native pasture. We believe this is a pretty elite group of heifers that will pay for themselves multiple times in the years to come.

There are solid reds, red mottle-faced, red-cheeked and white faces. We will sort these heifers in groups of 5 based on like kind.

All heifers have been Brucellosis vaccinated and 3 rounds of Vista 5L5 and Vision 8.

Lot 1: 5 Commercial Hereford Heifers

Lot 2: 5 Commercial Red Heifers

Lot 3: 5 Commercial Red-Cheeked and Mottle-Faced Heifers
