## Sale Staff

Joel Birdwell, Auctioneer .....405-368-1058  
Corbin Cowles, AHA.....270-991-2534  
Gene Steiner, .....513-616-4086  
Randy McCaskill .....217-242-1262  
Kane Aegerter, AHA.....402-641-8699

**Location:** The sale site is at the Ellis Farm, four miles north and eight miles east of Chrisman, IL or three miles north and three miles west of Dana, IN.

**Terms:** The terms of the sale are cash or check unless prior arrangements have been made with the owners. Settlements are to be made with the clerks of the sale before removing cattle from the grounds. All stock will be at the buyers risk as soon as bid off, but the owners will attend to loading in compliance with the instructions from the purchasers.

**Health:** Proper health papers will be available.

**Registration Certificates:** Certificates of registration will be transferred to the purchaser at the sellers expense. All calves born prior to the sale will be registered at the sellers expense.

**EPDs:** The stated EPDs are from the most recent evaluation of the American Hereford Association and the March 27, 2026 Evaluation of the American Angus Association.

**Bids:** The auctioneer in charge will have final say in regard to all bids. We hope everyone can attend, but those who cannot may call bids to any of the sale representatives.

**Air Travel:** Indianapolis International Airport is about 80 miles from the farm. Willard Airport, Champaign, Illinois is about 60 miles.

**Liability:** Any person attending the sale does so at their own risk. Neither owners nor any person connected with the sale assumes any liability, legal or otherwise.

**Catalog Material:** Statements from the auction box take precedence over material printed in this catalog.

**Association Recognized Defects:** All Herefords selling are guaranteed free of AHA recognized defects, DL, HY, IE, MSUD, DB & MD **unless noted**. All Angus selling are guaranteed free of all known testable genetic defects recognized by the American Angus Association.

**Phil & Joyce Ellis  
celebrating their 65th  
anniversary this year**

efbeef1@aol.com**

Fellow Cattlemen,

We welcome you to our 2026 beef cattle genetic offering. This year marks the 78th anniversary of seedstock production from the Ellis family's current location. This is the 144th year our family has offered seedstock Hereford bulls to the commercial cow/calf operator and the 207th year since Phil's ancestor became the first European settler in this township. We now are in the 8th generation of family to manage stock and till the soil at this location. We hang our hat on longevity, perseverance and real world excellence for producing value that commercial cattlemen in the cattle business can access.

We still work hard and do our best to offer functional genetics for commercial cow-calf operators. We spend significant time studying the "next 10 years" of the beef industry, from the cow-calf to feeder to packer to consumer. We plan ahead so our genetics will be industry relevant at the time you market the offspring. We are making incredible strides on efficiency. We are seeing bulls that will convert in the high 3-to-1 range now. Definitely not as good as the pork and chicken industry, but a lot better than some of the historical 6-to-1 and 8-to-1 conversions the beef industry has seen.

These are still the tenants we live by, every day; **1) fertility, (2) calving ease, (3) growth (payweight), (4) end product value (carcass), (5) maternal ability (vigor, longevity & cow size).** These are functions of a maternal cow herd with added value.

We strive to make sleep all night calving ease type herd bulls. We do not make overnight rounds to maternity pens to check on heifers. If a first calf heifer begins calving in the middle of the night, she is expected to have cleaned and nursed it when a human checks on her during the next daylight hour. Just like all our commercial cow-calf customers do themselves. Calves will be born easily and immediately get up to nurse. No exceptions.

If you want MATERNAL COWS, we are your source. We demand cows that hop up after calving a baby and immediately mother and nurse with a high quality udder. Cows that are worn out from pushing do not belong here. They are asked to leave the registered herd. We believe we can utilize the male/female dimorphism to genetically select a smaller cow that also raises calves with a heavier steer carcass weight. We have 22 years of directional selection towards that plan. The cost side implications to your bottom line are huge and we believe the EFBeeff momma cow has a multi-year head start in the industry. Recent unbiased Olsen Sire test data help prove we are moving in the right direction.

If you want to add MARBLING into your herd, there is no better place in the Hereford breed the past 27 years to find it than EFBeeff. We guarantee it. Our proven sires dominate the best of breed lists for marbling genetics and the important EXTRA VALUE on harvest pay day. We are many generations deep in our pedigrees with cows and sires that have contributed significant numbers of progeny to the Hereford carcass database. The mother cow (maternal side) is a very important part for producing higher quality grade cattle.

If you want to bend the growth curve in the right way, you will find genetics here to add SOLID GROWTH with EXCELLENT CARCASS WEIGHTS and make COWS THAT EAT LESS (Ours won't need a big hay barn or corn crib to survive). We have been working diligently for many years (many cow herd generations) to make these type cows. If we can help you make plans to be with us, please call, we are here to help you increase your profit.

Sincerely,

The Ellis'

**Matt & Lisa, Sarah & Anthony, Chris & Halea**

**Joe, Lauri, Audrey, Hannah & Lauren**

## EFBeef - Proof not Poof Honor Roll

We did not update the Honor Roll this year. We can say without a doubt it continues to add EFBeef sires with higher levels of proof. We would encourage you to review the latest Olsen Ranch data set.

EFBeef bulls that completed this test this year are:

EFBEEF C615 EQUITY E061  
EFBEEF B413 VALIDATED J826

Other Sires with significant EFBeef genetics in them that also completed this year's testing:

BIRDWELL NEW STANDARD 2912  
CHURCHILL W4 SHERMAN 2157K ET  
KJ IF 45C CONFIDENCE 609K ET  
L3 MC ROCKET FUEL 263  
SHF INSIGHT F158 J354 ET  
SHF KILOGRAM F158 K390 ET  
WHITEHAWK 659F BALANCE 776J ET  
WHITEHAWK 659F HARMONY 783J ET

The sire test information results can be found online at;

[www.hereford.com/wp-content/uploads/2026/04/0426\\_Performance-Matters.pdf](http://www.hereford.com/wp-content/uploads/2026/04/0426_Performance-Matters.pdf)

or in the April 2026 Hereford World magazine.

We are pleased to offer the "Ellis Farms Annual Bull and Female Sale" broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at [www.dvauction.com](http://www.dvauction.com)
- Click on the Register Tab.
- Complete Registration and Applying to Bid at "Ellis Farms Annual Bull and Female Sale". We will be contacting your bank to verify information. DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact "Ellis Farms" to make arrangements for payment.
- Contact "Ellis Farms" for delivery or pickup of your purchases.

Note: You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. Any questions:

Contact DVAuction at "402-316-5460" or [support@dvauction.com](mailto:support@dvauction.com).

We recommend that you register by, **April 11, 2025** for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

**EFBEEF B413 VALIDATED J826**

- Recently completed AHA sire testing

- As expecting he rocked the added value portion, with 100% Upper 2/3 Choice, 50% Prime on a 944 pound hot carcass weight. Across the board EPD improvement, including \$552 BMI and \$251 CHB.

**EFBeef 2017 Saltgrass M462** Lot 2

**EFBeef Cost Cutter F255**  
Sire of Lot 1-Trailing cows in Kansas 2024

**EFBeef Phreda W489**

Grandmother to lot1  
Pictured Spring 2025 as a 16 year old cow

- The first Tall Grass progeny are offered for sale here.
- They calve easy and with great shape and a touch higher BW for us.
- They calve well "on the range" with vigor and we appreciate that.
- They are exceptionally deep chested cattle with higher levels of growth.
- The first ultrasound data is very promising.
- The females are high volume, good rib shaped, we would say "the feminine type" as they hit that post yearling stage.
- The dam of Tall Grass resides at Candy Meadow Farms. She is a flushmate sister to the dam of CMF 1720 Gold Rush 569G.
- Tall Grass was used at the Olsen Sire Test with the first progeny in the feed efficiency test bunks in 2026. (See 2yr old picture below)

1.30	1.30	71	0.015	0.58	0.67			\$531	\$182	

- A bull made right for the times, dark red with extra pigment. Goggle eyes.
- Produced a 107 WW ratio, 106 REA ratio and a 124 IMF ratio.
- Lot 1's sire is Cost Cutter, who is the most vetted feed efficiency sire we have ever produced. The bull performed in his group exceptionally well (thus the name "Cost Cutter"), then his first progeny data at the AHA-Olsen Sire Test validated and improved his efficiency profile.
- Lot 1's dam one of the "good one's". Productive, efficient, short marked and darker red.
- Homozygous Polled. Guaranteed free of all known testable defects.

1.4	1.40	79	0.065	0.70	0.57			\$571	\$166	

- This bull is worthy.
- Medium colored and minimal pigment on eyes.
- Higher calving ease, good growth, solid carcass and an awesome, way above the top 1% level, \$571 BMI index to make great maternal females with longevity.
- His sire is Tall Grass and there will be many more of those produced here.
- His dam is the visitor favorite daughter of Cost Cutter. She is a future donor dam here. Her dam is a flushmate to Resolute E158 now covering cows at GKB in Texas. The bottom cow in this pedigree is the mother of the original Tested.
- Guaranteed Homozygous Polled. Free of all known defects.

- Big red eyes, medium colored to go with big pay weight growth in a moderate package.
- Posted 98 BW ration to 123 WW ratio and 105 YW ratio.
- His dam is another of the really good G Man daughters. Granddam is one of the best CEO daughters here.
- Puts the profit indexes in the Top 1% of the breed.
- Guaranteed Homozygous Polled. Free of all known defects.

## EFBeef C615 Equity E061

SIRE: EFBEEF X51 RESOLUTE C615 DAM: EFBEEF 6378 KATE C715

- Equity E061 is still a reference sire to tie to.
- The first daughters of Equity have multiple calving cycles under their belts. They are scaled up with very nice side profile. Sound traveling, good feet and legs, Udder quality is very balanced and they are pretty. Equity E061 recently completed the Olsen sire test, getting utilized on first calf heifers. His EPD's improved with the additional unbiased data. His steers harvested at 100% Upper 2/3 Choice and 46% Prime.
- Homozygous Polled
