TERMS:

The terms of the sale are cash, check or bank draft debit/credit card unless other arrangements are made in advance with the owner. **Electronic payments now accepted.** Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bidding ends, but the management will attend to loading on trucks in compliance with instructions from the purchasers.

GUARANTEE:

All cattle will sell under the suggested sale terms and conditions of the American Hereford Association.

HEALTH:

Individual health papers will be furnished with each lot sold. A number have been OCV'd. All bulls are semen tested. State regulations require all non-virgin bulls and all bulls over 24 months of age be tested for Trichonomiasis.

BIDS: The auctioneer-in-charge will have final say in regard to all final bids.

MAIL OR WIRE BIDS:

We hope each and everyone interested can attend the sale in person, but those who cannot may mail phone bids to the auctioneer or any of the representatives.

AI CERTIFICATES:

Any female that is bred to an AI sire not owned by the seller will NOT have an AI certificate furnished.

SALE ORDER:

The sale order will be as follows: bulls, open heifers, fall pair splits, spring pairs, frozen genetics, bred heifers, bred cows, and commercial females.

CATALOG ERRORS:

Statements from the auction block take precedence over printed material. The most current EPDs from AHA issued registrations were used when available. EPDs are subject to change weekly based on data submitted to the AHA. The most current EPDs are available from the AHA's website at www.hereford.org.

A Word from the Sale Manager

Welcome, fellow cattle breeders and Hereford enthusiasts, to the 127th sale of the Central Missouri Polled Hereford Breeder's Association.

As I write this on the first day of March, sleet is falling and the temperature has dropped nearly 50 degrees in the last 24 hours. Missouri weather remains as unpredictable as ever—“In like a lion, out like a lamb,” as the old March folklore goes. We'll see how true that rings by April 11, when 17 members will offer you the opportunity to inspect and purchase Hereford genetics from their programs.

This year's offering includes progeny and service from many long, proven lines such as P606, About Time, Mandate, and 33Z, along with today's most sought after sires including Deluxe, Full Circle, and Eminence. Several of these genetics have not yet been made available to the public – your chance to get ahead of the curve.

We'd love to have you join us at Interstate Regional Stockyards on Saturday, April 11. Come by Friday afternoon or Saturday morning to look through the cattle and visit with the consignors. And while you're there, grab a bite at Campbell's Feed Sack – the restaurant on site is under new management and worth a stop.

See you soon,

Thanks, *Larry Day*

ONLINE BIDDING: KATIE COLYER (208) 599-2962

Because every bid counts.

As the original livestock livestream, and the only one backed by Superior Livestock Auction, we're the most trusted source for online streaming.

Here's an opportunity to introduce some real world genetics from one of the top programs in the breed. 140 was in the 2022 Champion pen of three in Denver exhibited by Coyote Ridge Ranch. Sired by Mandate and out of a top cow family, use 140 to add the extra style and performance to your next set of calves. 140 has been successfully used on heifers. **10 STRAWS OF SEMEN.**

Thank You

Steuber Farms for your generous contribution of Lot 1 Semen!

WARNING: Under Missouri Law, an equine activity sponsor, an equine professional, a livestock activity sponsor, a livestock owner, a livestock facility, a livestock auction market, or any employee thereof is not liable for an injury to or the death of a participant in equine or livestock activities resulting from inherent risks of equine or livestock activities pursuant to the revised statutes of Missouri.

HUTH CLC WF DELUXE K016

Here is the opportunity for you to purchase conventional semen from one of the greatest bulls in the breed. Last year, Deluxe heifers averaged \$18,150 in multiple sales. He is homozygous polled and has 15 EPD traits in the top 13%, with 10 of them in the top 2%. He is also known for the pigmentation and dark red color he adds to his progeny. His calves have started showing this year and have done really well.

Rita 129H is out of the great NJW 79Z cow that has written several chapters of Hereford breeding history. We cannot say enough about Deluxe and the impact that he has had on the breed. His numbers and the quality of his calves have topped so many sales. Here is an opportunity of a mating you shouldn't miss. The projected EPD's show 13 traits in the top 10% with 12 of them being in the top 5%. Guarantee of one pregnancy if implanted by a certified embryologist within one year. Embryos are stored at Transova.

A standout daughter of Jalapeno 973E. 426M is one we truly hate to part with. She is backed by one of our top-producing cows, TH Miss Juniverse 1633, a great-granddaughter of the legendary CRR About Time 743. This cow family continues to prove itself with several daughters currently in production in our program. Heifer sells bred to JDH Victor 719T 33Z ET for a fall calving date, adding even more maternal strength and proven genetics to this exciting opportunity.

This young female is another outstanding daughter of 112F that has done a great job in our program. She represents the consistency, maternal strength, and productivity we've come to expect from this cow family. We are retaining a heifer back in our herd by Jackson 111J, which speaks to the confidence we have in this line. **Lot 7A:** Bull calf sired by KO 2203K. She sells open and ready for another spring breeding. Two straws of semen on Kayo 2203K are available if desired.

This young daughter of Behm Cuda 504C was purchased a couple of years ago at this sale as an open heifer and has developed into a productive young cow. We are retaining her first heifer calf, sired by our herd sire Jackson 111J, for use in our breeding program, a strong endorsement of the cow family's quality and consistency. **Lot 8A:** Heifer calf, sired by JDH Victor 719T 33Z ET (43294080). This attractive calf has the look and presence to be considered a show prospect this fall. The cow sells open and ready to breed back. If the buyer chooses, we will include two straws of semen from MHF 47 Kayo 2203K (44376830) to add immediate breeding value.

Lady Ann comes straight from the top end of our three-year-old heifers. Her dam, MHF 112 Haw 2022H, ranks among the top females in our breeding program and continues to prove her value year after year. She is also the dam of our top heifer calf born last fall, sired by Aces Final Frontier 315M. A heifer we hopefully intend to show. **Lot 6A:** Bull calf, sired by our junior herd sire SF1806 33Z Victor 2312, born 10/05/2025. This calf has tremendous eye appeal and herd bull presence. She also sells safe bred to MHF Kayo 2203K for a fall calf. Lady Ann is bred to develop into a great young producing female. Be sure to find her sale day. She is a good one.

This outstanding cow was purchased as an open heifer from Malone Hereford Farms. She is a daughter of GKB 88X Ribeye 327B and out of a daughter of Pure Country 0109. A six-year-old, she continues to be an exceptional asset to any serious breeder. Her first three calves were all heifers, one out of Jackson 111J, another out of Jalapeno 973E and the last heifer out of Kayo 2203K. All three remain highly productive and valuable members of our program today. Her fourth calf was a bull sired by Ace's Frontier 315MG, one of the greatest bulls I have raised in 50 years of registered cattle production. We have only three calves on the ground from this outstanding sire—two heifers and this impressive bull calf. At this time, we are not offering him for sale, but we do plan to have the bull on display at the sale. This cow will be safe to Kayo 2203K for another fall calf. This is a proven cow with longevity, productivity, and a tremendous future still ahead of her.

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Each animal tested is recognized with the AHA GE-EPD logo.

This bull is packed full of genetics including grandsires Lowen Ferdinand F33 and Churchill Kickstart 501C. This dark red, big-boned bull brings power, presence, and structural integrity in a package that's hard to fault. He stands on a wide, square base with the kind of bone, foot size, and skeletal width that signal longevity and durability. He is deep-sided and naturally thick through his hip and quarter, he offers the kind of mass cattlemen notice. WW 640, YW 1125.

This R LEADER daughter is a goggle-eyed, highly maternal cow with a proven record of calving in a tight, disciplined window year after year. Breeds back quickly, stays early in the season, and delivers with the kind of reliability that builds a herd from the inside out. **Lot 44A:** Heifer calf at side, born 1/28/2026.

Miss Roseanne was purchased as a heifer from the Texas Nall dispersal, and has done an excellent job for us. She has all the bells and whistles of the modern markings along with an ideal udder. Bred to our newest herd Bull LJR MSU 217M Medicine Man 271M, 44608396.

ADD VALUE

WITH FEEDER CATTLE & REPLACEMENT FEMALE PROGRAMS

HEREFORD ADVANTAGE

An industry-changing feeder cattle marketing program through IMI Global to verify and add value to Hereford-influenced feeder cattle with superior genetics, health and management.

MATERNAL ADVANTAGE

A unique marketing program designed to add value to Hereford-sired commercial replacement females with added fertility, feed efficiency, profitability and docility.

PREMIUM RED BALDY

Take advantage of hybrid vigor by maximizing the best traits of Hereford and Red Angus genetics that provide commercial producers with premium replacement females.
