

The Ladies
of the
ROYAL
INTERNATIONAL EDITION
SALE 2025

AMERICAN ROYAL WAGSTAFF ARENA | KANSAS CITY, MO.

SATURDAY, OCTOBER 25, 2025 | 6:30 P.M. (CST)

HEREFORD BREEDERS AND GUESTS,

Welcome to the Ladies of the Royal International Edition Sale. This year's event showcases some of the leading Hereford genetics from around the world. You will find opportunities to purchase both live and frozen genetics capable of elevating any program. The American Hereford Association (AHA) thanks and congratulates all consignors for their thoughtful selections.

Leading off the catalog are young females that will be ready to hit the showring. More importantly, their genetics and the breeding programs behind them position these females to be front-pasture cows and herd cornerstones.

Likewise, you will find bred heifers with fresh genetics from leading breeders that can advance any program, ready to calve and enter a donor program. If you are an international guest and have an interest in live lots, please visit with the consignors or sales staff to discuss opportunities.

Similarly, the frozen genetics offered in this sale provide herd-changing opportunity for anyone in the world. As an example, Holden Herefords, one of the most historic U.S. programs, is offering a flush. Their genetics are working for producers across the globe. Embryos are offered from other leading U.S. programs and from Las Anitas, Uruguay, a familiar name in pedigrees around the globe.

Be sure to also study the semen offered by Hereford programs from around the world. Mawarra Herefords, Australia will be offering semen on a homozygous polled and a horned sire that are pillars to their program. You will also find semen offered on two exciting young Canadian bulls from MJT Cattle Company Ltd. and a new young Canadian sire from Big Gully Farm. Semen will also be offered on highly proven and young superstars from U.S. breeders. All semen will have some availability across continents. Be sure to check in with consignors or sales staff to learn about the opportunities.

The AHA is honored to host the World Hereford Conference (WHC) and provide breeders the chance to enjoy global fellowship and to learn from one another. Please join us Oct. 25 at the American Royal Complex to enjoy the culmination of the WHC Young Breeders Competition, a powerful Level 1 National Hereford Show and the Ladies of the Royal, International Edition Sale.

Regards,

JACK A. WARD

Executive Vice-President, AMERICAN HEREFORD ASSOCIATION

TERMS AND CONDITIONS

Terms, Conditions and Guarantees herein writing shall constitute a binding contract between buyer and seller. Terms of the sale are cash or check payable at the close of the sale and prior to load-out unless previous arrangements have been made with the owner in advance. Animals will be sold to the highest bidder with the auctioneer settling any bidding disputes. Announcements at the sale by the owner or auctioneer will take precedence over statements in the catalog. Each animal becomes the buyer's risk as soon as sold, but will be cared for by the seller until load-out or for a reasonable period of time. Except for those stated herein writing, there are no further warranties or guarantees of any nature, express or implied.

Payment: A check, cash or credit card (Visa or MasterCard) must be made for purchases directly after sale completion. No exceptions unless agreed upon by sale manager and consignor prior to sale.

Health of the consignments is excellent. Individual health papers will be furnished for shipment in the U.S. All animals become the property of the purchaser(s) at the time of sale and AHA as well as the consignors strongly recommend you insure your purchases. Terms listed on embryos are final.

Delivery of the sale animals to the purchasers is not part of the sale agreements. Association personnel, consignors and exhibitors will be on hand to assist with transportation arrangements in any way possible.

Performance Information contained in the catalog is current according to the official AHA record as of Sept. 10, 2025. EPDs for Lot 18 were pulled from the Uruguayan database.

Absentee Bids by persons unable to attend the sale may be placed by phone or mail with any of the AHA Field Managers, Jack Ward 816-261-2980, Shane Bedwell 620-886-1050 or Kane Aegerter 402-641-8699.

Iconic Street Sign

CONSIGNOR: NATIONAL JUNIOR HEREFORD ASSN.

Salem Sifford, NJHA Chairman 336-266-0194
Matt Bruns, NJHA Fundraising Chair 308-660-7183
hereford.org/youth/njha.com

Continuing a legacy of distinction the National Junior Hereford Association (NJHA) and Hereford Youth Foundation of America (HYFA) proudly present this year's iconic street sign, a tradition that's a junior Hereford mainstay. Much like the maroon jackets of the NJHA, the iconic street sign stands as a timeless symbol of excellence and tradition, commanding attention in the showing at the VitaFerm® Junior National Hereford Expo (JNHE) and holding a place of honor year-round at the American Hereford Association Headquarters.

This year's highest bidder will once again have the opportunity to double the stakes and claim their spot in the JNHE showing, kicking off a two-year commitment in Madison, Wis., July 4-10, this summer.

A heartfelt thank you goes out to Hoffman Ranch and Stellpflug Cattle Company for purchasing the street sign the last two years!

DONATION LOT

Celebrate the Flavors of America — Sip, snack, savor and share!

The National Hereford Women present the Celebration of Americas basket — a curated collection of gourmet delights from across the states, perfect for sharing, or savoring solo. This basket brings the flavors of America to you. It's a rich, indulgent collection of gourmet snacks and barware essentials inspired by the diverse tastes of the states. Make sure to see it in person as there will be a variety of unique surprises.

Savor a handpicked mix of Texas pecans, to Iowa popcorn, Wisconsin cheese and Georgia peaches — classic American flavors with a gourmet twist. Whether you indulge during your American Royal experience or savor at home, this basket is ready to go. Wine and whiskey ready, snack like a local and eat or ship it home.

We are excited to offer this high quality Gunsmoke daughter. Gunsmoke is the 2025 Denver National Champion Bull and the 2024-2025 Polled Show Bull of the year. His first calf crop has been exceptional, and the calf reports across the country have been exciting. 512N is out of a picture-perfect Mandate daughter who never misses but knocked it out of the park with 512N. "Benelli" is the epitome of bringing all the right pieces together. Long and extended in her front one-third, stout made, big-hipped, soft-middled and has the foot and structural integrity we like to see. What sets this female apart is her eye pigment, dark red color and EPD profile that add to an already good female. This female is the real deal, and the total package! Bid with confidence! Brumley Farms is retaining a 1/4 embryo interest.

The most current and exciting genetic package we have to offer. 567 is an absolute standout. Cosmetically, she's ring eyed, and freckle faced. She's dark colored, big bodied, and exceptionally sound on her feet and legs. With that, she still has a high-quality presence about her. The Proud progeny are consistently among our best. We lost her dam early in her life. She was one of the more popular show heifer calves we have ever had. Her grandam, First Lady sold for \$85,000 in our 2021 Female Sale to Churchill Cattle Co.
Keeping 50% embryo interest.

2456 is a great opportunity to own a female that represents the pinnacle of over 80 fall yearling heifers being developed at Innisfail Farm. Her balanced numerical profile drives her bioeconomic indices to the forefront of the Hereford population. 2456 is moderate in stature, functional in her build, and has the right amount of skeletal width and body shape. This dark red, goggle eyed, heifer will have four brothers featured in our pen of bulls in Oklahoma City. Her mother, 004, won the Dixie National in 2022 and was the \$15,000 selection of Day Ridge and P&J Farms in our Mature Cow Herd Dispersal. The Trademark daughters in production offer phenomenal fertility and udder quality. His progeny have offered as much carcass value as any we have harvested in Innisfail's 50 year tenure in the Hereford business.

Truly an opportunity with this sure footed, big bodied, balanced female. By our breed leading for maternal traits, Longest Yard 228J. She the second calf out the milky Genesis x 88X daughter from Bill King Ranch. She will be a really good show heifer prospect but her long term profit potential will be as a front pasture cow that can be mated with multiple options!

Here is an elite daughter of the national champion "Arlo" and out of the lead donor at Campbell/Ward and past Reserve National Champion Polled at the JNHE, "Bonnie." This high growth female has all the bells and whistles to be competitive on any level in the country. She has had only three maternal sisters that have showed in the summer at Junior Nationals, two of them were selected champion in their divisions for Beau Ann Graves and The Perez family and a reserve division champion for Madelyn Thompson. She is a maternal sister to the Champion Hereford and Supreme Champion at the 2025 Missouri State Fair along with another sister being 3rd overall in the 2024 supreme drive. Winning genetics on both sides of her pedigree that we have the highest hopes for.

Conner is excited to be offering his first ever heifer in the Ladies of the Royal sale. We had the opportunity to use the \$40,000 valued bull 77 Walk Off 60D 87G owned by Barnes Herefords in our herd two years ago and have been over the moon with the results. KitKat is a natural calf out of the donor we call Hooch, the 2022 NAILE National Champion Cow/Calf Pair. KitKat comes from a strong maternal side and is only the second heifer we have ever let leave our farm - they're just that good. This heifer combines show ring presence with maternal power. Goggle eyed, stout featured, and getting better every day, you're not going to want to overlook this Royal Lady.

Kevin & Tyler Schultz, Owners 620-546-4570
kevin@sandhillfarms.com

The genetic potential of this bred female is one of our best. At this writing, there are no animals in the Hereford breed that can match this female for BMI and CHB indexes while putting down pressure on Mature Cow Wt. (bottom 10%) and adding double digit Calving Ease. M153 also ranks in the top 1% for SCE, CW, IMF, REA and udder quality. To add to your investment's accuracy, M153's sire and full brother are being tested and 6 sires in the bottom of the pedigree have been tested in the National Reference Sire Program.

That all being said, the best part of M153, may be her cow family. Four consecutive generations of females have all be donor dams for us here at Sandhill. Her grandam, D03, was the co top selling female in our 2021 production sale, selling to Upstream Ranch where she has the been the dam of the top selling bulls 2 consecutive years. M153's dam, J352, has been a leading donor for us, and will be the lead cow selling in our 2026 production sale.

Preg checked safe to Loewen Sandhill L70, due 3/2/26.

We will sell half interest, with the option to double your money and own 100% of M153. If that option is chosen, we will reserve the right to collect (12) conventional embryos, at our expense. For exportable embryos, contact us prior to the sale for guarantees. Give Tyler or Kevin a call anytime to discuss this awesome genetic tool. Video will be on Sandhillfarms.com

In a sale of this caliber we are excited to consign the most elite female we have ever offered. A power prospect from front to rear with an exceptional running gear. She combines that with great spread from birth to yearling and strong carcass data. We have mated her to the popular CE spread bull CRR Balance. When you combine the data and phenotype of these 2 individuals the results are sure to be exciting. Bred AI on 5/5/25 to CRR 66589 Balance 107 (Reg. #44296384), then pasture exposed from 5/8 to 7/15/25 to EF Final Print M19 (Reg. #P44632188). Ultrasound bred to AI date.

125L is one of the most exciting young matrons of the Hereford breed. Her mother is the dam of Final Print. When she was weaned in 2023, she had one of the breeds highest EPD profiles. With Merit as the sire, these embryos will produce some outstanding animals. Don't miss your chance to invest in this great opportunity! Guaranteeing one (1) pregnancy if put in by a certified embryologist.

Holden Herefords

Here is an opportunity to flush our 8046F donor to the bull of your choice. 8046F is a proven donor with an exceptional phenotype and fantastic EPD's. 9 sons have sold for an average of over \$50,000 in our last 5 sales including HH Advance 0043H-\$100,000 in 2021, 2054K-\$100,000 in 2023, and 4005M-\$65,000-2025. She will add power, rib shape, muscle, fleshing ability, and eye appeal to her progeny and her progeny consistently genomic well for low bw and high growth. She ranks in the top 5% on YW, the top 10% on WW and TEAT, the top 20% on CED and UDDR, and the top 25% on MARB EPD's. Buyer will have one year to complete their flush beginning in February 2026. We will transport the female to a TransOva facility for any export flush and will help facilitate anything needed to help qualify the flush for export anywhere in the world. Buyer will be responsible for all flush costs and any extra costs that arise if flush is exported. 8046F has averaged 8 quality embryos in her last 7 IVF flushes.

Guarantee of (6) frozen embryos and all embryos over 6 will be the buyers.

STORED AT: TransOva, Montana | USA
EXPORTABLE TO: TBD by buyer.

18A: (MEJICANO X CONEJA) – Combination of two of the latest “World Hereford Champions” (Mejicano in 2023 and Coneja in 2024). Sire is a power bull, with loads of natural thickness, wide topped and wide based. He was named Grand Champion of Expo Prado Show in 2023, biggest show in Uruguay with more than 180 head every year. Dam is a beautiful uddered young cow, that comes from one of the most prolific maternal families in our program, a “real world” hard working cow herd, that strives on natural grasses all year round. EPDs can be compared to those in US, Canada and Argentina, as Uruguay shares the same PanAm Evaluation. Dam of this mating “Coneja” ranks in the top 5% for: CED, WW, YW, MCE, Milk and REA.

Guaranteeing (2) pregnancies in (5) embryos. If done by certified vet or embryologist.

18B: (CANARIO X DIOSA) – Mating that brings some outcross genetics for most of South and North American programs, and some real thickness and softness. Sire “Canario” was named National Champion in Uruguay in 2022, and is a thick made, very easy fleshing bull. Medium framed but with lots of power through his flank and hind quarters. His dam “Violeta” is a well-known donor from our program, with one of the nicest udders one could produce. Dam “Diosa” is the same as full sibs “Rio”, calf Champion at “Farm Fair International” in Canada last year, and “Robusto”, high selling bull at MJT Cattle Company “Back to the Basics” sale in 2024. She is the type of cow to produce herd bulls. Canario’s EPD’s show a huge spread between BW (30%) and YW (10%), and very good carcass numbers, with Marbling on the top 20%.

Guaranteeing (2) pregnancies in (5) embryos. If done by certified vet or embryologist.

STORED AT: Montevideo | URUGUAY

This elite mating pass two young breed-leading individuals who combine cutting-edge genetics with balanced, highly marketable EPD profiles. Loewen Sandhill L70 ET ranks among the top of the breed for \$BMI (Top 2%), \$CHB (Top 2%), udder and teat quality (Top 2% and 1%), marbling (Top 2%), and REA (Top 10%). Churchill Lady 3304L compliments him perfectly with elite calving ease, growth, and maternal strength, ranking in the Top 3% SCF, Top 10% Milk, Top 8% Marbling, and Top 2% \$BMI – offering power, carcass merit, and maternal integrity in one package. This mating is designed to produce progeny that excel from pasture to rail – with structural quality, maternal function, and carcass performance to move any program forward.

Visitors to Mawarra have been captivated by Influential's impeccable phenotype, structural integrity, and exceptional temperament. After returning to the Mawarra herd following the Graham Genetics dispersal, Influential has continued to impress with his consistent performance and proven genetics. Originally purchased for AUD\$42,000 at the 2021 Herefords Australia National (Wodonga), the UK rights were secured by Haven and Pulham Herefords. In the UK, his progeny have made an indelible mark, with his first calf crop sweeping the pool at the 2023 National Junior Show, culminating in a Pulham Herefords son being named 2023 Horn Bull of the Year. At Mawarra, Influential has been equally successful. With over 30 daughters retained in herd, his genetic legacy is well-established. His 16 sons have attracted strong competition, achieving a top price of \$22,500 and an impressive average of \$13,160. Most notably, at the 60th Herefords Australia National (Wodonga) in 2025, his sons took out multiple prestigious titles under internationally renowned judge PJ Budler, including: Junior and Grand Champion, Intermediate Champion, and Reserve Senior Champion Influential's success is not just in the show ring but in his proven ability to sire top-performing progeny. He's an outstanding bull with a genetic package that is delivering results across the globe.

Offering a package of 20 straws.

Xfactor U395 presents a compelling package. The first son of \$91,000 (Australian Yearling record price) Southern Cross S015 to be born at Mawarra, Xfactor U395 offers a rare combination of elite pedigree, excellent performance and exceptional phenotype. Xfactor's Australian performance data underscores his genetic merit, ranking in the top 1% of the breed for carcass weight (CWT) and both Indices. He boasts another ten traits in the top 10% and an additional three in the top 15%. His pedigree represents a strategic alignment of proven genetics. His dam, Mawarra Miss Titania 188, is a granddaughter of the influential New Zealand sire, Koanui Techno 3062. She was the \$30,000 top-price female at our 2022 Ladies Day Sale. Her dam's legacy is evident in her progeny with Miss Titania 054's sons including international sire Showtime P277, retained sire Private Eye M013, \$53,000 Terminator Q274, and \$40,000 Rhinestone N018. The eight exceptional daughters in our herd further solidify her elite status. Phenotypically, beyond his tremendous carcass, structural correctness, softness, and strong head and eye, Xfactor's beautiful nature only adds to his overall appeal. A carefully considered genetic package designed to introduce breeding predictability and enhance your herd's profitability, Xfactor U395 semen packages are available for distribution in Australia, North and South America, the EU and New Zealand.

Offering a package of 20 straws.

One of two full brothers from Las Anitas Herefords in Uruguay. We couldn't be more excited about utilizing Rio. He does many things right. Great pigmentation, a large scrotum, and tremendous natural muscle and shape. This easy-natured and easy-fleshing bull is hardnot to enjoy being around and analyzing. A great outcross sire for most global destinations, we highly anticipate the arrival of his first calf crop.

Another Uruguayan embryo outcross opportunity, El Torro was purchased at Agribition last year by El Regladero & Puerto de Nieto, Mexico. They were impressed with his overall muscle shape, length, and excellent feet. His dam and her progeny continue to be at the top of the Las Anitas Herd. She was Kurt & Shannon's favorite female in Uruguay in 2018, and her daughters were the favorites this spring when we visited the ranch. To say we are excited for his future is an understatement. Don't miss this outcross opportunity backed by maternal excellence.

Final Print is a proven calving ease, low birth weight sire with exceptional growth traits and daughters that are becoming top producing cows. Final Print is pigmented and freckle faced and passing this along to his calves. At 5 years of age, he remains extremely sound with excellent feet. He is the true curve bending, proven sire of the Hereford breed. He is the ONLY proven sire with a BW EPD below 0 and with WW above 80 or YW above 120. As a female producer, his first 42 daughters in production have an average weaning ratio on their calves of 102.5. His EPD's for Teat and Udder are both in the top 1% of the breed. To go along with that, Mature Cow Weight is well below breed average being in the top 39% of the breed. His carcass traits put him in the top 5% of the breed for \$CHB. Final Print Progeny have been highly sought after in sales across the United States with many sons and daughters topping sales.

We are offering 250 straws of Final Print semen in 5 packages of 50 straws that are approved for export to Mexico, Argentina, Uruguay, Australia, New Zealand, Brazil and Ecuador. The sellers may be willing to offer additional straws to the winning bidder at this sale. To discuss this please contact Pete Atkins. The semen is stored at Custom Genetic Solutions in Mitchell SD. This semen has worked very well in AI and ET programs. All costs associated with the shipping and export of the semen is the responsibility of the buyer.

Gunsmoke is the 2025 Denver National Champion Bull and the American Hereford Association 2024-2025 Polled Show Bull of the year. His first calf crop has been exceptional, and the calf reports across the country have been exciting. Gunsmoke is siring calves that are vigorous at birth, have big time performance, and are high quality. His high fertility and ability to combine a tremendous set of EPDs with his phenotype is unmatched. The structural integrity he is adding to cattle is second to none. Gunsmoke is siring rugged, stout bull calves, and females that will work no matter what your focus is. Bid with confidence!
