FEMALE SALE

**OCTOBER 5, 2024**

HEREFORDS & ANGUS

# 23rd Annual FEMALE SALE

## OCTOBER 5, 2024

at the ranch, Bruneau, Idaho

The first Saturday in October is always a special day for us because we are able to offer an elite set of females from our long-established program. A program that is based on the female and her ability to produce offspring that fits all segments of the industry. The sale also is a time when all family members work together to produce a top-notch event. Also, without our tremendous crew, none of this would be possible. It is also a time to reconnect with so many of our good friends and customers. We pride ourselves in building relationships with the greatest people and cattle people.

We offer a diverse group of females. It includes some of the best show prospects as well as young open heifer calves with the genetics and numbers to become future donors. The bred heifers are always a group that is extremely popular. All our replacements with heifer calf pregnancies sell. The cow calf pairs are selected because they are nursing our best A.I. show prospects. These cows have been one of the best values every year and many sell at very reasonable prices.

The frozen portion of this sale includes some of our freshest genetics. It includes a very diverse group of embryos and semen.

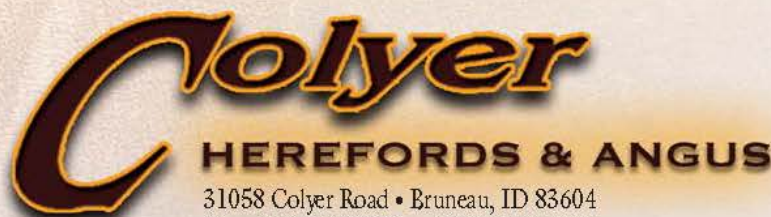

As you go through the catalog and cattle, we believe you will be impressed with the phenotype as well as the impressive data set that goes with these cattle.

We hope that you are able to attend the sale, but the cattle can be viewed anytime. If you have any questions or comments, do not hesitate to contact us.

**SALE TERMS & CONDITIONS**

**TERMS ...** Terms of the sale are cash unless prior arrangements have been made. When making settlement, please leave specific instructions in writing for transfer and delivery.

**SALE CONDITIONS ...**

- Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids, and decisions on such matters will be final. Each animal will be at purchaser's risk as soon as sold and will be turned over to the purchaser as soon as practicable after settlement. All announcements made from the auction block on sale day by the owner or the auctioneer will take precedence over statements in the catalog.
- Colyer Herefords will precondition and wean heifers prior to shipment.
- Buyers have the option of leaving females at Colyer Herefords and having them exhibit the heifers at the national shows.
- Buyer must insure their purchase while being in the care of Colyer Herefords.
- The total cost of exhibiting the heifer at Reno will be \$1,500 and OKC, Denver, or Fort Worth will be \$1,800 per show. This includes entries, show preparation and related show expenses.
- Due to increased feed costs, an additional \$8/day will be charged while the heifer is at the ranch, beginning November 1, 2024.
- Any banners, ribbons or hardware won will belong to the buyer.
- Buyer will take possession after the respective show and will be responsible for arranging transportation.
- Females that are sold as 1/2 interests, the costs will be split 50/50.
- Ownership choices – One-half interest vs. two retained flushes. We have found that some buyers like to own the entire animal and some like to only own one-half interest, therefore, we have come up with this concept so the buyer can choose which one they would like.
- 1/2 Interest Option: If one-half interest is chosen, the buyer will own one-half of the animal. The buyer will pay one-half of the show cost. It is the same as it has been every year on cattle where we have retained one-half interest. We will keep the female and breed her and when flushed, send half the eggs to the new owner. Colyer Herefords will

pay maintenance costs of the female after her show career. Buyer will pay for their portion of the flush cost when embryos are sent to them or we will alternate every other flush with the new owner, attempting to get equal amounts for each party. If the buyer has the ability to flush the female at their location, they can take possession of the animal and we will assume the opposite position and take one-half the embryos or alternate flushes.

- Retain Two Flush Option: If this option is chosen, the buyer will take possession of the heifer after her show career is complete. If shown, the buyer will pay full show expense. Colyer Herefords will retain the right to flush the female twice after she is in production, at the buyer's convenience, for a minimum of six No. 1 eggs.
- Colyer Herefords retains the right to one flush on all females in the auction.

**GUARANTEE ...** All cattle are guaranteed to be breeders. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal.

**GENETIC ABNORMALITIES ...** Any cattle with a questionable parentage have been DNA tested and are IEF.

**BREEDING INFORMATION ...** Current breeding dates and calving dates are furnished in the catalog. Any changes will be announced sale day.

**NOTE ...** Everyone attending this sale does so at their own risk. Neither the owners or their employees assume liability, legal or otherwise, for any accidents which may occur.

**DELIVERY ...** Buyers are responsible for shipping expenses. We will help coordinate shipping to combine possible loads. Cattle will be kept for a reasonable length of time following the sale until delivery or pick up can be made.

**ABSENTEE BIDS ...** If anyone wishes to bid and cannot attend the sale, we would accept phone bids. Phone in bids with satisfaction guaranteed. We realize everyone's busy schedule and the expense of travel. Please feel free to contact Guy or Kyle for any of the sale representatives listed. The sale will be broadcast on LiveAuctions.tv for live Internet bidding.

We are excited to be able to kick off the heifer calf division this year with two direct daughters of 1311. These kind are rarely offered for sale and when they are these are the kind to build a program around. With over \$1.5 million dollars of progeny sales, 1311 has proven to be one of the breeds most elite cows with 29 sons averaging 34K and 20 females averaging 32K. Lot 3A is a sight to see. All the color and look with body and build. She will not only build show cattle but also herd sires for years to come. Her fall sister 3B is a solid female with a touch more, \$CHB and carcass values. Terms will be announced sale day.

Individually this is one of the most exciting show prospects in this offering. She is the only female we have of this mating and the first daughter of Arlo that we have to sell. Her mother is a full sister to Marksmen, who has been one of the most dominate sires in the show ring as of late. This one has the hip and hind leg with look and build to go a long way. She should be very competitive at any level.

These two sisters are incredible but the lot 5 heifer is unbelievable. I'm not sure we have ever seen one with this much shape and power, yet still has a beautiful feminine look, while blending it all together impeccably. She has been a standout all summer, as visitors never miss her and always want another look before leaving because she is truly one of a kind. Lot 6 is no slouch. She has the same pattern and without her sister she would still be a sale feature. The donor dam 0226 was the champion female at the 2022 National Western and is becoming a big time donor. The sire, Cuda Belle 2111 will have everybody's attention after you see this first crop of calves. We used him a lot and we still don't think we used him enough.

These two sisters are incredible but the lot 5 heifer is unbelievable. I'm not sure we have ever seen one with this much shape and power, yet still has a beautiful feminine look, while blending it all together impeccably. She has been a standout all summer, as visitors never miss her and always want another look before leaving because she is truly one of a kind. Lot 6 is no slouch. She has the same pattern and without her sister she would still be a sale feature. The donor dam 0226 was the champion female at the 2022 National Western and is becoming a big time donor. The sire, Cuda Belle 2111 will have everybody's attention after you see this first crop of calves. We used him a lot and we still don't think we used him enough.

Early this spring we thought this was one of the top females and she is still in that conversation. Her body and build with her extra color and markings make her an elite breeding piece. This is the only ET calf we have by this mating so she is hard to part with. Her mother 1037H is a fun cow to show visitors. She has a picture perfect udder and the quality and phenotype that you want every young cow to emulate.

This is the first Sherman daughter that we will sell and we think this is a great group to kick off with. Lot 8 has a neat pedigree when you combine Sherman with a Pure Gold daughter out of the great 5113 cow. She has lots of shape and hip with added length and look.

This female is interesting and could be one of the top show heifer prospects when it is all said and done. She is great necked and level but has extra body depth and profile. Her mother, 8019, also the mother of herd sire Key West is a producing type of female, as she has produced plenty of great young daughters including the lot 35 lead off bred heifer.

This is a great donor prospect with all the cow power behind her to have confidence in that statement. Her EPD profile will allow you to mate her whatever direction you want to go. Her mother is a donor that we are extremely excited about with extra look and color with superior udder quality. She has lots of body and cow look and over a 1 REA.

This female is a powerhouse. Her mother was choice lot 1 in last years auction and a very popular cow because of her pedigree and extra mass and shape. We feel this is the next generation replacement with a touch more look. Her \$CHB is top 1% and the second highest in the entire offering.

Here is a 3/4 sister to lots 5 and 6 sired by Barracuda. This one has some extra white on her but if you study her pattern and build she resembles her mother 0226. Lots of turn to her rib and belly shape. Solid numbers with low BW allows you to reach out and use some power bulls.

**[Lot 13] C 8037 2111 BELLE 4083 ET**

This pedigree will get the attention of many seedstock producers. She is a maternal sister to Guardian, being out of the high selling donor in last years auction, 8037. This female lost her tail in some cold weather which throws her off a bit to look at but it will not affect her production. She is way low on BW with big udder and teat values but she also has the IMF to take you to another level. We look for big things out of this young donor prospect.

Boy this one screams power. We love the mass and hip in this female. Look at the extra middle and center body with lots of bone and mass. Level topped and good hiped. This will make a really good cow with a solid set of values that are in line for every trait. Cuda Belle is going to be noticed even more after this calf crop is evaluated.

This one is fun to look at. She is so good necked and up headed, level topped with a killer profile. We think this one could show at a high level with her color and pedigree. She goes back to Candy Cane on the bottom side who was a 3 time National Champion herself.

This big ribbed, cowy-made female is out of an excellent young donor that has some beautiful uddered females in her pedigree. Talk about a set of numbers that offer extra carcass traits getting to 150 \$CHB but still you have the maternal and udder quality that we are confident you will get with this mating. These are the kind that will keep you in business for a long time.

Lots of times we get asked to pick a heifer out for someone that is out of a great cow and has solid numbers that I can afford. This would be one that would fit that list. Her mother had one of the high selling fall open females in last years sale to Tuhdal in Montana and they also bought a maternal brother to her in the spring bull sale. We have a lot of confidence in this cow family.

This female is just days away from being a March and still is a little green and youthful at this hour but she should really catch up by sale time. She has an awesome pedigree that could produce an excellent show heifer. Her mother 5355C has produced many show winners for us after her show career. She would make a great entry level junior project and in the end you will have a cow to produce you one.

Here is the first natural calf out of the 2023 Cattleman's Congress Reserve Champion Female. It is so rewarding when a heifer that wins on a national level can raise a calf like this her first time. This female has style and presence with the same dimension and width as her mother. She has all the tools to compete on a high level and be a great donor.

This female is the perfect blend of genetics and shows what Guardian can do when mated to a moderate easy fleshing donor that needed a shot more performance. Her mother 5113 lot 25 is the kind of cattle that keep you in business with so much of the real world qualities that we need. She has a great udder at 9 years of age, maintains her condition and raises calves that ratio well above average. Lot 24 has the ability to provide more power and performance and next generation carcass traits.

Sells open and ready to flush.

We feel this could be one of real sleepers of the sale. When you describe a role model Hereford cow, she fits the bill. Some will overlook 5113 because of her age, but if you want to build a cowherd with today's technology she would be one to tie to. We have flushed her twice averaging 8.5 viable embryos. Progeny ratio on 6 head is BWR 96, WWR 106, YWR 100. Above breed average in 13 traits at 9 years of age. With today's young sires, she gives you an array of mating options.

When you see this Guardian heifer calf, you will see why we have so much faith in the 5113 cow. Tremendous show potential as she is so stylish, long bodied and wide based. When viewed from behind, it is impressive to see the muscle expression she displays. She also has that extended front end needed in the showing. She will be fun to watch down the road. Her numbers sure work also being in the top 5% for IMF, 20% WEPD, 3% Milk, 4% REA and 10% SCHB.

It is always hard to part with a Validated daughter as they offer so much for today's cattle industry. Moderate frame, moderate birth, extra milk and superior carcass. This one is super feminine with a great udder. Freckle faced and highly pigmented. Top 1% for %IMF, SCHB and Stayability, 10% for REA and BEPD.

This female caught our eye this spring when we were in AI season and we felt she would be an incredible show heifer for a junior. She is sleek necked and attractive but has the build and body for today's show scene. This would make a great spring and summer show heifer but also as a bred she could be wicked. When this one gets out in the picture pen and throws her head in the air what a great look she gives you.

AI Bred 04/08/2024 to SHF Legion H315 L060 due 01/16/2025.  
 Checked Safe.

A very intriguing pedigree and a combination that has been very good for us. Note that 1311 and Miles are on both sides of the pedigree and her dam was always among our favorites. 9288 boasts an AWWR of 104 with both heifers retained in the herd. A front pasture kind. Hard to fault, great pigment, high capacity, easy fleshing cow.

Little bit greener female here and one we think a lot of in terms of hip, balance and profile. Really like the way she gets out and moves. Lots of big time donors in her pedigree. Not only is she double bred 1311, her maternal background also includes 4038, and Cooper 812U.

The cows are hand picked to put in this sale because they are raising some of our very best heifer calf show prospects. She is interesting as Express bought a set of embryos and we bought this heifer back from them. WWR of 106 on 3 head with both daughters retained. She is a big bodied, big ribbed female that is flat shouldered and neat fronted.

Here is a natural Arlo female that could be a sleeper and become very affordable considering her genetic capability. Her grandmother 4067 was a cow that we considered ideal in terms of maternal traits. Incredible udder, moderate sized and could wean a calf that would always ratio near the top.

Updated preg check information available closer to sale time.  
 Here is a powerful beast, especially considering she is a first calf heifer.  
 She has so much rib shape, power through her lower quarter and is really wide based. Powerful built from end to end. Also great to see she is raising one of the best heifer calves the first time out of the chute. Very nice udder attachment, replicating her Belle Air mother. She has the ability to raise you a show heifer.

Love the extra bone and mass in this female. If you are looking for a show prospect that is good haired and attractive while still being big ribbed, here she is. These Guardian cattle can really perform while still having phenotype, which make them enjoyable to look at.

This Arlo female would be a great addition to a herd with lots of carcass and mass. This is the kind that would work so well with our new herd sire Legion. She has tons of power and performance and will have the ability to pass that along. Producers looking to build numbers with affordable quality should look into this lot.

Out of a first call heifer and one of the best sets of numbers in the entire offering when you look at the big picture. She has carcass numbers with a double digit calving ease number and still near 100 yearling. We feel this is an ideal set of numbers when you can hover around this area for yearling, these cattle seem to breed back better and stay in the herd longer.

AI Bred 04/04/2024 to SHF Legion H315 L060 due 01/12/2025,  
 Checked Safe Heifer calf.

Her sire 0195 is one of the most unique bulls we have produced as he is off the charts for IMF and maternal traits. We have high hopes for this ring eyed, red necked female. She combines two of our strongest cow families with 4264 and Milky Way. Top 1% WEPD, 2% YEPD, 1% MPG, 10% IMF and 20% for REA and \$CHB.

 Checked Safe Bull calf.

This will be the first opportunity to buy a daughter of the top young donor 0119 as we have kept all the others. Grand dam was purchased by Lowdermans' in a previous sale. This should be a perfect combination with the maternal strength of 0119 with the power, muscle, structure and bone of 9490. Top 4% CED, REA and \$CHB, 10% Marbling. Sweet fronted female.

If it wasn't for our commitment to selling heifers with heifer pregnancies this one would not be leaving the ranch as we feel she has a bright future. Her dam was Bill Kings pick of the first calf heifers year before last and is a tremendous young female. This one also shows the same qualifications. Top 2% for WEPD, YEPD, CWI, 4% Milk, REA, 30% IMF and 10% SCHB. Heifer calf by 88X will be an added bonus.

Here is a big bodied, performance oriented female that is correct and true in her structure with a long level hip. A daughter of the Denver Champion bull that we had the misfortune of losing at an early age. Her dam is a beautiful cow that we purchased from 77 Ranch. Nice set of balanced numbers and top 15% for Udder, 20% Teat and top 25% SCHB. Carrying a heifer calf by the top young sire Legion.

Pasture Bred 05/14/2024 to SHF Legion H315 L060 due  
03/11/2025, Checked Safe - Undetermined Sex.

Super EPD profile being in the top 20% in 13 categories. Especially strong in maternal and carcass traits. Typical Belle Heir female with extra pigment and short markings. She traces back to the maternal giant 88X three times. Know wonder she looks like a no miss brood cow.

AI Bred 04/04/2024 to C KEY WEST 0065 due 01/12/2025,  
Checked Safe Heifer call.

A very sound structured female that shows lots of capacity and sustainability. She shows extra fleshing ability and rib shape. Excellent pigment. Her dam has been one of our most consistent producing 88X daughters. Top 25% for BEPD, 15% for Udder, 20% for Teat.

This female is double bred back to the Marbling Queen 4264! All of her progeny have ratioed 125 for IMF and 102 for REA with progeny sales at over \$670,000. This is a stout made, correct structured female with a great future ahead of her. Top 10% WEPD, 15% IMF and Udder, top 25% YEPD and Milk, 30% SCHB.

We don't often talk about muscle and structure in females but this female is big topped, wide based, big boned with excellent structure. She is still plenty feminine through her front end. A power cow being in the top 25% WEPD, 15% for YEPD, 10% for IMF. Mated to Legion will drastically reduce the BEPD.
