 Sale at Noon

Terms and Conditions

1. Terms. Cash. Each animal to be sold to the highest bidder. Auctioneer has the right to refuse bids from nonpaying persons and to settle any disputes concerning tie bids where both buyers thought they had the bid.
2. Announcements at the sale ring by the owners or the auctioneer concerning the cattle will take precedence over the statements in the sale catalog.
3. All animals in this sale become the immediate property of the buyer once they are sold. All buyers are expected to recognize the fact of their ownership and either accept full responsibility or else insure their animals before leaving the sale.
4. All persons who attend the sale do so at their own risk and the owners, management, and Stone Ridge Manor assume no liability, legal or otherwise, for any accidents that might occur.
5. Herd Health: Health papers will be available for cattle to be shipped interstate. All female four months and older (calved before June 1, 2023) unless noted, are OCV.
6. AI certificates will not be furnished by the seller on females carrying the service of non-owned AI sires.
7. EPDs: These numbers will change periodically throughout the year because they are constantly being updated and reprocessed. Therefore, some of the animals will not have the exact EPD information as is listed in the catalog. We cannot be held responsible if the EPD information is different from that stated in the catalog. The numbers are taken from the Aug. 12, 2024 Evaluation of the American Hereford Association.
8. Delivery. The sellers will make every attempt to assist buyers in hauling at the lowest possible cost.
9. Insurance will be available.
10. Registration certificates will be transferred to the buyer at the seller's expense. Each buyer must give the clerk his proper name and address for making transfers. All calves at side or born before the sale will be registered at the seller's expense if purchaser wishes, except for any AHA activation fee.
11. Animals that are stated as being safe to a particular date have been checked by a veterinarian to provide the best information available to the buyer. However, they are not guaranteed to be safe to that date.
12. All cattle sold are guaranteed to be free from any currently known genetic defects, unless noted and/or announced by auctioneer. If a defect is found the seller will refund the difference between the sale amount and the market price at time of disposal unless buyer opts to keep animal.

As I write this I have just returned from services for the late Sam Hunter, a longtime friend and fellow Hereford breeder. Just this spring he purchased a bull from us and I had a nice visit with him. Being just shy of 80 years old and making a living based on raising Hereford cattle he had a lot to say about the attributes of Herefords and his philosophy about staying the course when others didn't. Sam wasn't ashamed to share his opinion and had a steadfast approach to anything he was involved in. Those that knew him realized the acumen he had when it came to livestock and his opinion mattered. The big take from this conversation is that it is an opportunity to raise Herefords and be involved from the once prominent side, to the downside and the return of the breed to its favorable status, with cattlemen and ladies nationwide- especially with the crossbreeding of black stock that has gained prominence again.

We now have the objective data to make claims about our breed when we market our registered stock as well the carcass traits that are needed to promote Hereford influenced cattle on the commercial and market side of the equation. In addition to all of this we have a breed of cattle that is easy on the eyes. I hear from seasoned veterans like Sam and the new breeders alike when they see the first Herefords unloaded in their pastures- What a beautiful, mind easing and pleasurable sight to these red and white cattle walking the green grass. Then there is the added benefit of turning that grass into a valuable and needed product- beef for the consumer both here and abroad.

This year we will again offer what I believe to be some of the best and efficient cattle that will be offered anywhere. If you check our previous sales you will see the continued increase in carcass merit and all the market indexes. We see the need to stay the course and comply with whatever the market demands. Our goal is to continually improve and I think we have once again followed thru with this year's offering.

Again this year we will have animals sold with the net proceeds going to the Disabled Veterans of America, Saint Judes Children Hospital and the orphanage Hoffman Homes for Youth. Help out with this if you can.

If you need lodging please book as early as possible since with the Apple Harvest Festival and other Gettysburg tourist events scheduled rooms will go quickly. Again Friday evening preceding the sale on Saturday we will have dinner and music for anyone that can make it fit their schedule. Thanks for your interest and I hope to see you at this Year's "Breeders Classic."

- When we bought the G094 a mating of her with Gold Rush was at the top of our wish list. This Sand Hills bred Validated daughter has the carcass numbers that can move any herd in the right direction.
- The IVF went very well so we are offering what I believe to be a special mating.
- Due in March 2025.

- The Validated daughters are known for their maternal abilities and exceptional carcass improvement.
- This one is very easy to look at and we probably shouldn't be selling her.
- Bred AI on May 15, 2024 to Gold Rush and checked safe to that date. By doing so she moved up her calving interval by more than a month.
- She has an Impact son at side.

- Really hard to part ways with this high producing 5-year-old ET out of a donor we bought from the Grassy Run "Mature Cow Herd Dispersal" in 2017.
- Pretty look about her, balanced udder, check out her Top 10% ranking for Teat and Udder!
- She has a late April steer calf at side, but don't let his age deter you, her progeny has some of the highest rate of gains at weaning time and as yearlings. Her pedigree includes the famed Oksana cow, 028X, and 4R.
- Pasture exposed from June 2 to July 14, 2024 to KH JLCS 15E Power Pack K23 ET (Reg. #P44338342).

- Trying to offer our best, well Dandelion Wine hits that mark.
- We bought her from the Roth Dispersal Sale as a heifer calf and we have been extremely pleased with what she has produced for us.
- 9105G will surely catch your eye, long bodied, beautiful udder, smooth through her neck.
- She ranks in the top 3% in REA. Her steer is the one of the best from this year's spring calf crop, stout, growthy, and just an overall cool look about him. He is one of the first calves out of our herd sire KH JLCS 15E Power Pack K23 ET that we purchased from our good friends, the Harr Family.
- Pasture exposed from June 2 to July 14, 2024 to KH JLCS 15E Power Pack K23 ET (Reg. #P44338342).
