# MG/4M FALL BULL AND FEMALE SALE

## Dear Friends,

It is with great pleasure we invite you to join us on November 16, 2024 for our Fall Bull & Female Sale. This sale offering has some of our top genetics, backed with proven sires and donors, that has helped us project to our quality cow herd at this present time.

We continue to improve the genetics of our herd to match with the demands of our industry. We have also implemented genomic testing, to ensure their EPD's are as accurate as possible. We breed for a more balanced profile, keeping a desired phenotype in mind. These cattle will surely achieve the goals for your operation.

We have made some new breeding decisions on our Angus cattle, holding only the top end to grow our registered side. We are breeding the rest of the Angus cattle to a Brangus, therefore making Ultra Black calves. We will have some bulls in our February 15th sale.

We are also offering some of our top females, registered Hereford heifers, bred heifers and pairs. Our F1's need no introduction. We are very proud of these cattle and can not wait to watch them prove their selves in your program. The entire sale offering has been born and raised here on the farm.

We are truly grateful and humbled by all of our customers, past and present, who have supported us. Our gates are always open, please let us know if we can help you in any way. We look forward to seeing you on the 16th!

- 3131 is polled, dark red, heavy structured and a low input bull. He should produce cattle that will convert easily due to his 6% DMI index. That's not to take away from his noteworthy maternal indexes.
- He ranks in the top 13% SC, 1% UDDER, 1% TEAT, 20% BMI, 24% BII & 12% CHB.
- Udders and teats on his daughters should be flawless if you are planning on keeping back females for your herd.
- His dam has averaged a progeny ratio of 9 @ 101 for WW and 3 @ 102 for YW.
