Sale Vet:

Canton Vet Service, Dr. David Hudson

Terms: Make settlement for the cattle sale day. Animals will be sold to the highest bidder with the auctioneer settling all disputes. All sales are final and cattle are the buyer's property as soon as they are sold. Be sure to let the Keosauqua Sale staff know your arrangements for pick-up and trucking when you make settlement.

Welcome to the 2024 Goehring Hereford production sale. This year's sale will feature 15 of our fall born yearling bulls, as well as, 60 registered bred heifers. We will again offer to keep the bulls until April 1st or we will take \$250 per bull off if picked up the week of the sale.

The bred heifers will adapt and fit into almost any program. We chose to use RST Small Town Kid 8025 and Loewen Genesis 137 as our feature AI sires, alongside BG LCC 11B Perfecto 84F. The heifers were ultrasounded in the summer by Dr. David Hudson to confirm pregnancy, sex the embryos and determine approximate calving dates. They will be re-examined for pregnancy, wormed, poured and be giving their first round of scour vaccine before the sale. This is a really solid well-rounded set of bred heifers.

The cattle and beef markets are historically strong the past year. The demand for beef continues to generate premiums for high quality beef. The US cannot generate enough inventory to meet demand in the next few years. It is so valuable as producers to own the factory, so you are in a position for profit in the next several years,

The grand kids are growing up fast. Layne started Kindergarten. Hattie is the commander of the feed truck. Ellie started 3-year-old preschool 4 days a week. Clara attends daycare a couple days a week and gets to hang out at the sale barn the other days. (Even though she learns more around here than at daycare!) Lucy and Maverick spend time trucking, choring or hanging out at the sale barn. We have a great time together and are so thankful to have them all close!

Come by anytime to look at the cattle or view our Hereford herd. We market the remainder of our 70 bulls private treaty throughout the year.

The 5G commercial bred female sale will be at 5:00 p.m. the same evening. This is an outstanding offering of black and black/white face first and second calf heifers. Hope to see everyone here December 4th!

Herd Health: All cattle have been fully vaccinated. They were ultra-sounded for pregnancy in July to confirm AI breeding by Dr. Hudson. They have been reexamined prior to sale date to confirm all females are still pregnant. All cattle have been wormed with Safe Guard and poured with Clean Up II. The health of the herd is excellent.

Sale Barn Café will be open.

Lot videos available by November 20th.

Please visit www.liveauctions.tv to create an account and request a buyer number.

Contact Mariah Miller at 712-294-4731 or Tech Support at 817-725-8595.

- This Validated son has been used as a clean up sire on heifers for the past couple of years. Lowderman's used him on a group and he was a sire to some of the high selling bred heifers in their fall sale. The progeny of 49J are more pleasing to the eye than some of his contemporary's progeny. This herd sire will continue to see heavy use!

- 42L was the standout of our 2023 spring born calf crop. Low birth weight, good growth and impeccable feet and structure. This is my favorite Perfecto 84F son to date. This bull ran with the Ochsner heifers as a clean up bull. He will, without a doubt, produce an awesome set of calves.

- This bull continues to produce high-quality cattle across many herds in the U.S. We are so thrilled with the reports of the daughters coming into production. Udder quality and milk flow are extremely good. Heifers hold their body condition and breed back quickly. Sons were high sellers at multiple bull sales, as well as the Iowa Beef Expo. There is a very limited amount of semen still available on 84F. Take the opportunity to invest in 84F progeny, they will certainly work for anyone!

In my hunt for another AI sire to use on heifers, I was informed about 9023. Breeders who had seen his daughters at Thomas ranch in Montana were very impressed in his sire group. I looked for a proven calving ease bull when bringing a new sire in and have full belief that 9023 is a perfect fit on this sale offering.

An own son of the popular Loewen Genesis here in J37. This goggle eyed, conservative marked bull was used at 4B Herefords in Oklahoma, before coming to Iowa last spring. Calves are born easy, grow fast and have plenty of eye appeal. This bull has an outstanding set of carcass EPDs and will be a nice compliment to the heifers that carry his service.

HEREFORD BULLS

This year we are including our top 15 bulls from our 2023 fall calf crop. These bulls have all the performance data available and will have a breeding soundness exam prior to the sale. These bulls will also be wormed with oral Panacur and poured with Clean Up II. We will keep these bulls at our place until April 1st for anyone that wants. The bulls that are picked up the week of the sale will receive \$250 off the sale price of each bull.
