HEREFORDS

*in the yards*

Dear Hereford Breeders and Enthusiasts,

Welcome to the National Western Hereford Sale "Herefords in the Yards." One of the most talked about subjects over the past three years is the excitement and optimism of the new Yards at the National Western. As the numbers of Hereford Yard cattle surges for the third straight year, the very best the Hereford breed has to offer will be at the National Western Stock Show.

For generations, the Yards at the National Western were known at THE place to merchandise and promote the best Hereford genetics found anywhere. This year, breeders from across the United States & Canada have come together to offer the most superior genetics in the breed for this once-a-year event! With over seventy head featured, there is not just one single lot, but each and every lot will appeal to multitudes of Hereford breeders looking to move their programs to new heights.

The bulls and females presented in this catalog represent some of the finest genetics available today in the entire breed. They are type of genetics that can make an immediate impact in a lone generation in any program coast to coast. In addition to the live lots, we are offering some "pick of the herds" that represent the type of elite genetics that aren't available anywhere at any time. The revenue potential that exists in this sale offering is second to none, and the impact these genetics make in the breed will be felt for generations.

We wish to invite you to the 2025 National Western Hereford Sale. If you are unable to make it to Denver, the sale will be broadcast on CCI Live. If you have any questions about the sale offering, please contact myself, the sale consultants, or any member of the sale staff.

Welcome to the National Western... welcome to the Yards.

**Bid Live:** Can't make the sale? Watch it live and bid in real time on CCI.LIVE

**Terms of Sale:** The terms of the sale are cash or check payable at the close of the sale and prior to load out unless previous arrangements have been made with the owner or sale manager. Animals will be sold to the highest bidder with the auctioneer settling any disputes. Announcements at the sale by the owner, sale manager or auctioneer will take precedence over statements in the catalog. Each animal becomes the buyer's risk as soon as sold but will be cared for by the

# NATIONAL WESTERN *Hereford Sale*

**Friday, January 17, 2025**

**National Western Livestock Show**

**Wagner Equipment Sale Arena**

**2:30 p.m. Sale Preview**

*(or immediately following Hereford Pen Show)*

**4:00 p.m. Sale**

seller until load out or for a reasonable period of time. All transactions will be in U.S. dollars.

**Guarantee:** All cattle will sell under the suggested terms and conditions of the American Hereford Association.

**Health:** Health of the consignments is excellent. Individual health papers will be furnished for shipment in the United States. All animals become the property of the purchaser at the time of sale, and we strongly recommend that you insure your purchases. Bulls over one year of age have been fertility tested and will guarantee semen to freeze. Bulls have been trich tested. All sale cattle are P.I. tested negative.

**Insurance:** Sheila Jensen 785-262-1116

**Delivery:** Delivery costs and arrangements of sale animals are the responsibility of the purchaser. Sale personnel, consignors, exhibitors, and various reputable trucking firms will be on hand to assist with transportation arrangements.

**Performance information:** All EPDs are current according to the official AHA record as of December 1st, 2024, and are subject to change.

**Payment:** Payment for each lot in the 2025 Herefords in the Yards Sale is to be immediately after the sale. The buyers who choose to be billed need to make payment as soon as possible after the sale. Interest will be accrued on unpaid balances starting on March 1st, 2025, at the rate of 1.5% per month, 18% annually.

**Note:** All persons who attend the sale do so at their own risk. Neither the National Western Livestock Show, the owner(s) nor the sale manager assume liability, legal or otherwise, for any accidents which occur.

**Online marketing sponsored by:**

## Lot 1 TOPP HEREFORDS CHOICE OF

A lot that has become a staple to lead off this sale since it began, the choice of bred heifers from Topp Herefords has been one of the most sought-after offerings of any auction ... as it should be! This year Ryan and Prairie have decided to throw a curveball and change things around a little bit. No longer are you buying a pick of bred heifers, but you're buying the opportunity to select ANY cow on the ranch!

That's right, you're buying the opportunity to make the trek to Grace City, open any gate Ryan has and pick your choice of the maternal battery that is responsible for one of the top performing bull sales, of any breed, anywhere in North America. Everything from the newe...

## Lot 2 COLYER HEREFORDS PICK OF FALL 2024

Without a doubt Colyer Herefords is one of the long standing, most successful programs in the nation. When you look at the number of walking herd sires combined with the popular AI sires, the influence of the Colyer program is second to none. With the growth of their Fall Female Sale, the Colyer female has become one of the most coveted assets in the entire breed.

In what has become tradition on the grand stage in Denver, Colyer Herefords is offering Choice of Fall 2024 Calf Crop. There are a total of 118 calves to choose from with 43 of them ET progeny out of the leading donors walking in Bruneau, including:

- C 88X Notice Me 1311 ET – dam of such greats as Arlo, Double You...

## Lot 3 COYOTE RIDGE RANCH PICK OF 2025

Coyote Ridge Ranch has evolved into one of the preeminent programs in the Hereford breed. Look no further than their recent results right here at the National Western where they've been selected the Grand Champion Pen of Bulls 8 times, most recently in 2020, 2022 and 2024. CRR is a three-generation family operation located on the high plains of Colorado in the shadow of the Rocky Mountains. Hampton and his family run a real-world western range program with a proven track record of calving ease, maternal efficiency and superior growth backed by 40 years of actual performance records and dam production records. A program truly built for today's beef industry with performance documents...

## Lot 4

### HARRELL HEREFORD RANCH PICK OF 2025

Regarded by many as the Northwest's #1 Maternal Cow Herd, this is a golden opportunity to venture through the gate at Harrell Hereford Ranch and select your pick of the 2025 Heifer Calves! This has never before been offered! Aside from selling a few registered heifers in their annual sale, the top end of the Harrell cowherd has been off limits.

Bred & raised in the high country of Eastern Oregon, The Harrell's have taken pride in building a cowherd that is second to none, one that is maternally focused, trait-balanced and backed by 53 years of Whole Herd TPR, with 30+ years of ultrasound data and an entire cowherd that has been genomically tested since its inception. The H5 Total Beef...

CANE CREEK CATTLE CO. Choice of Pen of Herd Sire Prospects

From Northcentral South Dakota, Cane Creek is bringing a set of bulls backed by proven donors and sired by the newest sires anywhere in the breed today. First up is the Sherman son out of the immortal "Mother of Herd Bulls", 45C. We don't have enough space in this book to list out all the accomplishments and high-revenue progeny that this tremendous cow has put into the marketplace.

This sale features the first opportunity to acquire sons of the great Sherman bull, and 456M is quite the outlier. Of the 403 recorded Sherman progeny on record, 456M is the #2 for WW, #3 for REA and #9 for both CHB and YW. It's difficult to put into words the potential impact this great young herd sire is poised to make.

Second up is another Sherman son, this time out of an Upstream donor that The Creek acquired. This young cow has made a huge impact for Casey and the crew. 484M offers a little more calving ease package yet still in the top of the breed for growth with elite carcass numbers.

Rounding out the bull pen features a son of the 2023 National Champion bull Slinger, and out of the Darla 33D cow that has made such a huge impact in the Dry Creek Farms herd. Progeny from this great female have been highly sought after over the past couple years and this young prospect sired by the National Champion will make an excellent impact. Set right in on this great pen of bulls as they're designed to move the needle in almost any situation.

• Homozygous Polled.

| 87  | 1.40 | 1.40 | 82  | -0.018 | 0.58 | 0.14 | 365   | 450   | 138   |

For their very first offering in the National Western Hereford Sale, the partnership of Delaney Herefords and Atkins Herefords has quite possibly the very best Herd Sire prospect ever to come out of their program. Old Fashioned is one of the very first sons to sell of the \$165,000 selling C ARLO 2135 ET, who is the reigning Grand Champion Polled Bull both here at the National Western as well as Fort Worth. This great young prospect is soft made, sound, deep and stout along with a tremendous hip and top. Beautifully marked, he's red eyed and red to the ground.

On the maternal side, there is no introduction needed. The great 19Z donor continues to leave her mark on this breed as her ability to produce high value cattle at 12 years of age persists. This Dam of Distinction and a maternal sister to the great 45C donor cow, 19Z is the dam of JDH AH LINCOLN 106H ET. She is also the dam of the immortal JDH AH MERCEDES 11E ET that has made a massive impact on the breed, including producing the great Makers Mark. Her calves have an avg. IMF ratio of 111, and her progeny sold through the National Hereford sale average over \$22,000! Old Fashioned possesses what many preach ... select for balance, not extreme. He will move any program forward with an EPD profile featuring top 10% for growth, excellent TEAT and UDDR, and an enviable set of carcass EPDs. His CHBS ranks him in the top 14% of the breed. Of the 92 Arlo sons already on record, 25M ranks #5 with his combination or better of CE, WW, YW and REA. When you add in the maternal traits of UDDR and TEAT, he is the top Arlo son.

Homozygous Polled.

Featuring a once in a lifetime opportunity to acquire a Herd Sire with this kind of proven maternal production, coupled with this EPD profile wrapped in a near flawless phenotypic package, Atkins & Delaney have brought it! They are retaining a revenue sharing semen interest with full terms to be announced prior to the sale.

### DRY CREEK FARMS Choice of Pen of Herd Sire Prospects

When we purchased the past Cattlemen's Congress Champion Bull, Land Slinger 2296 1046, out of this very sale 3 years ago our vision was that he would cross very well with our Genesis and Grady daughters. This cross hasn't missed and we wanted to share the goods. These 3 Sling sons are special in many ways. Elite phenotype with 100% pigment. We are retaining ¼ interest in each bull.

- 40M has been special from an early age. Loaded with look and style with added foot size and body. We feel Freedom will have many friends. What a job Freedom's dam has done as a 2-year-old. This picture perfect uddered Grady daughter did nothing but impress as we expect a lot out of our 2-year-olds. Freedom ranks in the top 10% for 9 traits.

• Homozygous Polled.

CHURCHILL CATTLE CO. Herd Sire Prospect

Full Count is the most appropriate name to describe this great Herd Sire ... as in each economically relevant trait is maximized ... he's the Full Count!

Let's start with his sire, Merit. Boasting a great set of numbers, Merit progeny have been some of the most sought-after in the breed for the last two years. None of his progeny have come close to eclipsing him ... until now that is.

It took a great cow to do it, but 7098 IS that great cow. With over a million dollars in progeny sales, 7098 has been a true breed changer. Just look at the lineup of sires she's put into the marketplace: Kingdom, Red Thunder, Redbird, Long Run, Wall Street, Bullanza, among others. Even as a 7 year old 7098 is still the #5 cow in the breed combining REA and MARB, and when you add in CE, WW and YW she is still the top cow in the Hereford breed.

Full Count potentially represents Dale's pinnacle of the great progeny he's produced with 7098. His phenotypic makeup is excellent, he's dark red and short marked and possesses outstanding maternal qualities. On top of that, he is the #1 bull in the entire breed with his combination of CE, WW and MARB. As an added bonus, his combination of BMIS and CHBS indexes rank him as the #5 non-parent bull.

The game has changed, and Full Count is poised to be one of the most relevant, revenue generating herd sires to come along in the breed. The marketability of his progeny are limitless, as they will represent what the beef industry demands of Hereford cattle in 2025 and beyond. GE-EPDs to be updated sale day. Full Count won't be in Denver, but video will be available, and you can stop and see him anytime in Manhattan, MT. Terms also to be announced sale day.

FRENZEN POLLED HEREFORDS Choice of Pen of Herd Sire Prospects

For the first time, Eric and Galen are bringing and offering pick of their pen of bulls at the National Western. With a mission based on producing thick, stout-made, sound functional cattle that thrive on a minimum of input, the Frenzen family have built a program to be envied ... raising and selling fault free, no-frills Hereford bulls that will thrive in any environment.

These four brothers represent exactly that! Their sire, Rio Bravo, has developed a top reputation for calving ease, pigment, carcass and maternal. His progeny continue to rank among the high sellers in sales across the country, and his daughters have become known for their under quality. First up is Maverick James, who is out of a high producing young dam whose posted progeny ratios of 2@107 for WW, 2@103 for YW and 2@101 for REA. The second bull is Major. He's out of a young Small Town Kid female that ratioed 114 on her first calf. He is a slam dunk heifer bull with high stayability and good carcass. Next is Milo, out of a young High Roller dam that offers light BW and excellent balance across his other traits. Rounding out the pen is Macklemore. He's out of a first calf heifer, offers high calving ease, but is carrying the highest Marb EPD in the pen.

Whichever choice is made, these bulls are geared to sire daughters with longevity, and easy fleshing ability that will make great breeding pieces.

**HOFFMAN RANCH Choice of Pen of Herd Sire Prospects**

In his first two years exhibiting pen cattle at the NWSS, Haxton Hoffman has proven himself as one of the top young cattlemen in our industry. In 2023, he exhibited the Reserve Champion Pen of Heifers, and this year he's bringing his first ever Pen of Bulls! The first sons of Sherman to be marketed, these two ET brothers excel in their growth and carcass numbers while moderate for birthweight.

The third brother in the pen is a son of the 2023 FWSS Grand Champion Polled Bull, Thomas County. M123 has a curve bending EPD profile for growth, carcass and stayability with 9 traits in the top 5% of the breed.

What sets this pen of brothers apart is the exceptional maternal coming from the high marbling Cooper cow, 850F! She topped the Cooper sale a few years back when she was purchased by Hoffman, Churchill and Buford Ranch. Since that day, her progeny have been high sellers in both Hoffman's and Churchill's sales. An incredible producer, 850F has posted progeny ratios of 2@110 for WW, 3@101 for YW, 7@103 for REA and 7@101 for IMF. Her marbling combined with the unmatched L1 maternal prowess is what makes these two outcross matings work. The resulting daughters of these three herd sire prospects will be highly sought after, and true revenue generators.

Terms of this choice lot will be announced as we get closer to sale day, but it will be aligned with the Hoffman Ranch Spring Bull Sale Feb. 21, 2025.

HARVIE RANCHING Choice of Carload of Herd Sire Prospects

Fresh on the heels of their 2024 NWSS Reserve Champion Carload of Bulls, Harvie Ranching is bringing and even deeper set of bulls for 2025! This is a rare opportunity to pick from this great set of bulls before the Harvie Ranching Annual Bull Sale March 11th, 2025 in Olds, AB.

This Carload includes the first set of ET progeny of their exciting young sire, NJW PMH Commitment 137J ET. Commitment was a Top 10 Qualifier at the 2023 Canadian West Agribition, and his progeny have been topping sales not only for Harvie Ranching, but also Lone Pines and Remital West. The first two ET brothers are out of one of the most productive females to walk any pasture in Alberta, MS Firefly 125Y.

She was the dam of the top two selling bulls in the Harvie lineup a year ago, and a full sister to these two bulls was the top selling heifer in the Harvie female sale for \$31,500 for ½ interest.

Also featured are the first progeny from Harvie's pick in the 2023 Champion Carload of Bulls, LAND Makers Mark 2072ET, as well as the first son of KJ MHPH RW 364C Media 240J ET ever offered in Denver.

This lineup of herd sire prospects features both power bull and heifer bull options. Take the time to research some of the performance on the dams in this offering. Whichever pick of this carload that's made, it will make a tremendous impact here in the States for many years. Harvie Ranching is retaining ¼ semen interest in the bull selected.

• Homozygous Polled.

LANDGREN RANCH Choice of Carload of Herd Sire Prospects

Another great set coming from the Landgren crew! This set of herd sire prospects is the follow up to their 2023 and 2024 NWSS Grand Champion Carload of Bulls, and this might be the best set yet. A perfect blend of the freshest genetics you can get, alongside some tried and true proven workhorses has put this outstanding offering together.

All of them are ET progeny backed by some of the great donor cows that have made the Landgren program famous including the great dam of Slinger, UPS Miss Final Test 9103. There isn't enough room on these two pages to adequately talk about these great bulls, so they will speak for themselves. Perhaps the most impactful way to describe the potential behind these great herd sires is simply how Landgren genetics have influenced this event and the Yards show at the National Western. The resulting progeny from these will be highly marketable and valuable.

PÉREZ CATTLE CO. Donor Prospect

With their first consignment ever to this event, the Pérez family has brought a top donor prospect backed by one of the greatest cow families ever to walk in Nara Visa. Final Print daughters have been in huge demand the past two years, but what puts 3308 in a league of her own is a pedigree stacked by maternal greats. She stems from the past U.S. and Canadian National Champion KJ DWE Sheila 457Y, the matriarch donor whose impact on the Pérez program cannot be overstated. Many of Kyle's best producing cows are daughters and granddaughters of Sheila, including 3308's donor dam 0152. Just a four-year-old, her donor potential solidified after she ratioed 108 on her first calf. Now with 18 progeny on record, this donor is the next great producing donor for Kyle. 3308's full sister was Libby's Reserve Division Champion at the 2024 JNHE. Kyle never selects for the extreme on EPDs and always strives for balance, and the EPD profile for this great young donor is a textbook example of that. Ranking in the top 20% of the breed for BW, 3308 offers needle moving growth numbers for growth, carcass and stayability. Bred AI on 11/29/24 to CRR 66589 Balance 107 and they hope to have a confirmed pregnancy by sale day. Peyton and Libby are reserving the right to one flush. It's not very often you can combine a numbers profile like this with proven maternal greatness in a donor prospect. She's one to look for in Denver.

STICKS & STONES RANCH Choice of Pen of Spring Bred Heifers

Three bred heifers are making the short trip from Cheyenne and they're about as good of cow prospects as you will find anywhere in the country. With pedigrees straight out of Churchill's program, we were lucky enough that Gene and Cindy held back last years Denver pen of open heifers to make a slam dunk set of bred for us this year. To add icing on the cake, they're all safe AI to Sherman!

- Sassafrass is a daughter of the straight horned, calving ease deluxe Roughneck. She's out of a Long Haul first calf heifer that Gene purchased from Churchill, and ratioed 109 at weaning. Her EPD profile puts her among the breed's elite with 7 traits in the top 4%, a high stayability index (BMI\$) and excellent CHBS all with a BW in the top third of the breed.

- Bred AI on 6/15/24 to Churchill W4 Sherman 2157K ET, examined safe and due on 3/25/25.

- Tiffany is one of two Big Jake daughters that has great maternal on both the top and bottom side of her pedigree. Big Jake is a power bull through and through with a massive body and quite a bit of look ... but what sets him aside is his dam, the immortal Ladysport 2205! Tiffany is a power cow prospect. Her young Broadway dam has posted progeny ratios of 2@104 on her first two calves. Elite growth numbers along with a carcass data set in the top quartile of the breed, and an excellent BMI\$ and CHBS...and she's Homozygous Polled.

- Bred AI on 7/9/24 to Churchill W4 Sherman 2157K ET, examined safe and due on 4/15/25.

- Rounding out the Sticks and Stones Pen is Hot Blooded. Another Big Jake daughter, she combines incredible maternal greats such as 500C, 2205, 88X and Sensation. That coupled with another great set of growth EPDs, and her future as an excellent producer is all but cemented. She's out of another young cow of Gene's that's doing a great job, posted a nurse ratio of 109 on her first two calves.

- Bred AI on 5/27/24 to Churchill W4 Sherman 2157K ET, examined safe and due on 3/7/25.

#### JENSEN RANCH Donor Prospect

Just "Imagine" ... Imagine having a donor cow with such a curve bending EPD profile for nearly every trait that gives endless possibilities for sire selection. Imagine she combines it with such a phenotypic makeup that's deserving of inclusion in a contending heifer pen at the National Western. Imagine no longer as Jensen Bros. Pen of Heifers at the National Western will include the herd changing donor prospect, KJ 623K Imagine 553M ET.

Sired by the great performance sire On Demand, Imagine's dam was a top seller in The Chosen Sale in 2023. Image 623K is out of one of the breed's greats, 45C and sired by the high volume ABS bull Trademark. Imagine ranks in the top 5% for 9 different traits, including a whopping \$210 CHBS index.

On Demand brings in the missing calving ease component which makes Imagine the complete package. She ranks in the top 8% of the breed for a total of 11 different traits! When you take into account the economically relevant traits of CE, BW, WW, REA and MARB, no other animal, bull or cow, can match her as she's #1 in the entire breed. Add to that UDDR and TEAT EPDs in the top 1% of the breed and she checks every single box ... not to mention she's Homozygous Polled! Imagine no longer that you have to sacrifice look and eye appeal for numbers. Kevin, Sheila and Brady have done it as the next great donor in the Hereford breed will sell at the National Western.

#### CHAPMAN LAND & CATTLE Choice of Pen of Fall Bred Heifers

Fresh on the heels of their Reserve Champion Pen of Bulls last year at the National Western, Chapman has brought an outstanding set of Fall bred heifers in their inaugural offering in this sale. Backed by elite, proven genetics on both the top and bottom side, this lineup of future donors features some of the very best to come out of Nunnely, TN. On top of it all, they're all due to one of the high demand semen sires in all of 2024, Deluxe! All four heifers pasture exposed from 11/17 to 12/17/24 to HUTH CLC WF Deluxe K016. Pregnancy status updated sale day.

• We can fill a page talking about this heifer alone! Her dam was JT's choice from the NJW program, and a daughter of one of the most prolific cow families ever to walk in Sheridan, Rita 11B. The Rita 79Z daughter needs no introduction as she and her dam are responsible for putting more elite herd sires in the country than perhaps any dam/daughter combo in history. Ever since JT told me about Rita 24H, I've been after him to get a daughter in this sale, and Madison doesn't disappoint! This Steadfast daughter possesses an elite curve bending set of numbers with 11 traits in the top 5% of the breed ... and she's Homozygous Polled!

• Hickman County will be among the very first daughters of the 2023 NWSS Reserve Champion Polled Bull to enter production. Her dam is big bodied and loaded with pigment and she's been a great producer for Chapman and 5J's. Hickman County has power cow written all over her, and she's in the top 1% of the breed for both WW and YW to go alongside a great set of carcass numbers and a big CHBS along with being Homozygous Polled.

• Remember everything mentioned on the A heifer? Sheridan is an owned daughter of another maternal legend at NJW  
 ... 73SI To put it in Jan's own words, "73S offers Timeless, Sought After Cow Power", and it's not everyday a direct daughter is offered for sale. This heifer by Dominator puts all the pieces together in a great phenotypic package along with great balance in her EPD profile. Very high maternal traits and an elite index for Stayability (BMS),

• Rounding out the Chapman pen is a Manifest daughter with a little bit of an outcross pedigree on her dam's side.  
 A full brother to Woodbury was the top selling bull for Chapman in their 2023 sale. A little more calving ease in this heifer's package with solid numbers across the board to go along with excellent UDDR and TEAT EPDs. Model brood cow prospect.

DELANEY HEREFORDS Choice of Pen of Heifers  
 One of the most coveted things every January is the pick of the Delaney/Atkins heifer pen, and featured for the first time in this event Jerry, Shelly, Nick and the whole crew have brought three heifers, each equipped with the pieces to make cornerstone donors in almost any program.  
 We'll start with the Land Grant daughter out of the full sister to Mercedes and Lincoln. This heifer is the first progeny to sell of this exceptional young donor that ratioed 109 on her first calf. 28M boasts an elite package of numbers across the board while excelling with her maternal traits. Of the 104 Land Grant daughters on record, 28M is ranked #5 for MARB, and when you consider the economically relevant traits of CE, WW, YW and MARB, she is the #1 Land Grant daughter! On top of her performance, 28M is gorgeous with extra extension and length ... and she's Homozygous Polled.  
 Next, the Generator daughter. Generator has been one of the top volume AI bulls the past two years, with much of that due to his incredible donor dam, 4295. 39M is part of an elite flush with 5 full brothers featured in the Annual Bulls and Breds sale ... two of them in the Delaney Denver pen. A full sister sold for \$8,000 in their online sale this Fall, and 3 maternal brothers averaged \$13,000 in their bull sale. 39M's dam is an outstanding herd bull producer, posting progeny ratios of 3@114 for WW and 2@106 for YW. This Homozygous Polled heifer is red necked, goggle eyed and ultra complete. She's sound at the ground, deep bodied and good looking.  
 Rounding out this pen is one of the very best On Demand daughters to sell. Her dam is out of a maternal brother to Mandate. This heifer is built great. She's perfect on her feet and legs, huge bodied yet ultra feminine and good looking. Featuring an EPD profile that is elite in many traits, 115M excels for her REA and CW along with her awesome production numbers, mating her to many of today's high marbling sires will produce progeny with tremendous revenue potential.  
 Because of their potential Delaney's are retaining the option of 2 flushes in the future on the pick.

 MJB COWGIRL 4009 (4009B) P43563370

**DOUBET CATTLE** Choice of Pen of Heifers  
 With their inaugural offering in this sale, Curtis and Cate Doubet are bringing 4 super fancy heifers backed by their #1 cow family on the ranch. In addition, two of these heifers are the first daughters to sell by the 2024 NWSS Reserve Champion Horned Bull and Canadian Western Agribition Grand Champion Bull, CCD Kingsman 3K ET! All four feature a well balanced, solid set of EPDs that will match up well to nearly any sire in the country.  
 The progeny produced will be highly sought after and marketable.  
 • The mother to these two Mighty 7850 daughters is the first natural calf of our 7014 donor and a near replicate to her for a striking presence, incredible build and outstanding footsize and shape. 9002 was an absolute standout from birth. 314H is flawless from the side both stopped or standing still. She flows from front to rear so smooth and is tremendous at the ground. Very soft bodied and killer looking, she will show very well if somebody wants to. The second sister, 307M, is the power cow of the pen. So much genuine width and dimension with added length of body and stoutness all the way through. She's sound structured and has tremendous balance. 307M offers big time donor potential, and is the cowboy kind that makes big time bulls.

**[Lot 18B] CCD MS MIGHTY 307M ET**

• Beautiful Kingsman daughter out of our very top donor, 7014. Her dam has a near perfect udder and outstanding eye pigment. 4024M is as good as they come for combining structural correctness, build and quality from the side with outstanding shape and power. She is big time good. Show heifer, donor cow ... it doesn't matter because she does it all.

• Another Kingsman daughter out of a top cow that will enter the donor pen in the next year or two. Her dam is overwhelming from a body, stoutness and mass standpoint with a very good udder. 4023M would probably be the top show prospect of the pen in terms of look and presence. A beautiful profile, so well balanced and soft bodied with a very good hind leg. She's a super neat one to look at.

**DVORAK HEREFORDS Choice of Pen of Heifers**

For the past two years, Dvorak Herefords has offered pick of their calves in this auction, and now they're taking all the guess work out and bringing 4 of their very best to the National Western. The Dvorak program has

been regarded as one of the top maternal batteries in the region, and with their acquisition of such great walking sires such as Final Print, Land Grant, Lincoln and Expedition, Boyd's cowherd also features the most progressive genetics you will find anywhere in the country.

Leading off this pen are two ET sisters sired by the great Final Print and out of a tremendous young Expedition dam that was flushed as a yearling. Their dam posted individual ratios of 125 for WW, 114 for YW, 130 for REA

and 121 for IMF. 4131 is about as good of a heifer ever to originate in Lake Andes, SD. Powerfully made, she possesses an enviable set of numbers with 8 traits in the top 1 or 2% of the breed with a moderate BW and top

index numbers for both stayability (BMIS) and CHBS. Her sister excels in her growth numbers. Of the 308 Final Print daughters on record, 4134 ranks #3 for WW and #8 for YW with a BW right around breed average. On top

of it, both sisters have exceptional maternal EPDs for both their UDDR and TEAT as well as milk.

Next up is the Generator daughter. Her young Frontier dam has done a tremendous job already, as her first calf was the 2187K cow that is the dam of the first two heifers in this pen. Carrying a nurse ratio of 124, it's easy to

see how she made her way into the donor pen. A full sister to this heifer was selected by Chapman Land and Cattle out of the pasture, and this heifer mated with any of the popular calving ease sires in the breed today will

yield progeny with extremely high value.

Rounding out the pen is a Lincoln daughter out of a maternal sister to the great SR EXPEDITION 619G ET. Lincoln progeny have been in huge demand, and the demand for his daughters is only going to grow in the coming

years. 4109M's young donor dam posted individual carcass ratios of 132 for REA and 120 for IMF. Whichever choice out of this pen of donor prospects is made will yield the type of cow that can take any program forward in

their breeding program.

GLM HEREFORDS Choice of Pen of Heifers

This pen of Valor daughters might be the best set of cow prospects Grant and Linda have put together yet. All 5 have retained that great calving ease, maternal and carcass numbers Valor progeny are known for, but where they set themselves apart is their growth numbers. On top of that, they are a true representation of the GLM program as they are all natural born calves out of their top producing cows.

- Homozygous Polled.
- Dam Production: WW-3@111; YW-2@106; REA-2@101; IMF-2@113

KM CATTLE Choice of Pen of Heifers

Kendi Miigerl and her family continue to produce some of the top show heifer prospects year in and out, and this year's pen just shows the roll they are on! Their recent successes include the Grand Champion Pen of Heifers in 2022, and raising the National Champion Rollin Harley in 2023. The makeup of this year's heifer pen is about as royally bred as can be designed. The first three heifers are out of that great Miles McKee x Harley cow that is the very dam of the 2023 NAILE Champion, KLM Rollin Harley 107J ET. The fourth heifer in the pen is daughter of that great National Champion, and out of a great Mighty daughter from Landgren Ranch. All of these young heifers are destined for the backdrop whether it's on the county and state level or on the grand stage next year in Louisville at JNHE.

KOLT CATTLE CO. Choice of Pen of Heifers  
 Nate always likes to say, "The Choice is Simple", and this year's Pen of Heifers from KOLT Cattle Co. is anything but! Three outstanding April full sisters sired by the 2020 NWSS Grand Champion Polled Bull H The Profit 8426 ET that are destined for the backdrop. Profit also stems from a powerhouse cow that is also the dam of Deberard and Montgomery.  
 The dam of these three sisters is a member of the immortal LCC Two Timin 438 ET, or "Harley", cow family that continues to make a huge impact on this breed. Just last year at this event a Harley daughter topped the sale at \$50,000. Their dam 2017 is supported by the impressive KOLT Ms Diana 3F, a daughter of KOLT Moneyline 286 ET that is from a full sister to the legendary TCC Ms Diana 01. The Diana 3F cow was a many times national division winner for Carly Kolterman during the 2019-2020 season.  
 Either way you pick or choose on these three great sisters, your success is nearly assured for the upcoming show season no matter what level you are competing on.

**WALSH CATTLE Choice of Pen of Heifers**

In 2023 Walsh Gentry 144 walked right through this sale ring and topped the sale at \$52,000. His semen has gone on to be highly sought after in the industry as he's been labeled as being one of the most unique Hereford bulls to come along in quite some time.

This pen of heifers is as exciting as it gets. First up is Monti Emerald, the full sister to Gentry. On the maternal side, she is out of the great Emerald 950H, a maternal sister to KJ TWJ 907E Liberty 159H ET, and Emerald is as proven in her show career as it gets. She was shown 13 times, and for 13 times she stood either Grand or Reserve!

The next two half sisters are the first progeny ever to sell at auction sired by the great Walsh Gentry 144! These two fancy March heifers will certainly cause people to take notice as they are destined for the backdrop. One thing is for sure ... Gentry has only begun to make his mark on this breed!

STOREY HEREFORD RANCH Choice of Pen of Heifers

• In 2023, Storey Hereford Ranch had the opportunity to purchase the pick of Landgren's Champion Carload at the Herefords In the Yards Sale. Land SHR Manhattan 2029 ET has absolutely proven himself on so many levels from being a calving ease heifer bull, to producing females of this caliber out of first calf heifers. With a Banner under her belt already, as 2024 Reserve Champion Hereford Female at NILE in Billings, Montana, this dark, pigmented, beautiful heifer calf has sure turned some heads. Practically flawless from the side, this big, soggy-middled heifer covers her tracks while staying elegant from her chin down through her chest. With Who Maker's mother fresh in her pedigree, we think this polled female is going to be extremely competitive in heifer calf divisions, while also having a bright future as an incredible bred female, but better yet, a front pasture donor cow.

• An extremely intriguing female in this sale offering. This conservative marked polled female will certainly catch the attention of most, with her presence alone. Going back to the famous TCC Ms Diana 01 cow, one of the most decorated females in the Hereford Breed, this Land SHR Manhattan 2029 ET daughter will blow you away with her natural center body and rib shape. Cattle this sound, soft, and pretty, are not easy to make. She combines these traits beautifully with a temperament that only a Hereford can possess.

• One of the most unique females we have seen this fall. Sired by the High Selling Churchill W4 Sherman 2157 ET, this dark cherry red female is flat out neat. Finding one of this caliber that can be extremely competitive in the show ring, along with being a front runner donor for any program isn't easy. Backed by the famous Hereford female, TCC Diana 01, this flawless haired polled heifer calf combines power, mass, and body with a beautifully extended front end.

• Impeccably made, this long hipped, big legged, beautiful fronted, sound made, powerhouse of a female is one to mark in your catalog. Sired by Land SHR Manhattan 2029 ET, and out of a first calf heifer going back to Who Maker's mother, along with TCC Diana 01, and the world record selling C Miles McKee 2103 ET, this polled heifer calf has a pedigree that dreams are made of. One word we use to describe this female, is: Outstanding. You certainly do not want to miss this opportunity.
