PRIVATE TREATY FOR YOUR CONVENIENCE

The Ehlke Advantage

In striving to attract progressive commercial operations to consider our genetics, we hope to establish a particular perception and image that we intend to be synonymous with Ehlke Herefords. Bulls from Ehlke Herefords should be expected to share several criteria, including:

- Being docile, sound, muscular, big bodied and attractive.
- Dams with high quality udders, desirable body capacity, muscle, structural integrity, youthfulness and maternal character.
- Strong multi trait EPD profiles.
- Ultrasound carcass data collected and applied in selection on bulls and replacement females.
- Records of calving ease, birth, weaning and yearling weights, scrotal, udder scores, ultrasound backfat, ribeye and intramuscular fat for each eligible animal in the herd.

Dow Jones 65J son that is low birthweight and high calving ease, yet still is well muscled and sound structured. L42's pedigree on the bottom side will be an outcross to most breeders. L42 is a solid prospect.
