MG/4M SPRING BULL AND FEMALE SALE

Friends and Fellow Cattlemen,

I would like to start this letter with tremendous appreciation for everyone who has purchased from our program. I ask the rest of you to become part of our cattle family!

Our Fall sale feels like it was just yesterday. Since then, the cattle market has gotten stronger with prices reaching all-time highs. Literature shows we have 2 to 3 years before a downward turn in the cycle.

This set of bulls is an example of what we are producing. Solid, stout, balanced EPDs, and structurally sound. Our offering includes Hereford, Angus, Red Angus and Ultrablack bulls. The Hereford offering include genetics that are tried and true, including Mandate, Trust, 719T, 7143E, 252F and 10Y. The Angus offering goes back to Net Worth and the Ultrablacks to Legacy.

The registered Hereford heifers are out of the backbone of our spring yearling heifers. They will truly be a great addition to anyone's program, ready to breed to the bull of your choice.

The F1 heifers are currently with a low-birth-weight Angus bull and are as solid of a set we have offered. The heavy bred/pairs are currently calving, calves are looking great and are out of a 3/4 Brahman 1/4 Angus bull that MG/4M raised.

We would love to have you join us on sale day. If we can help you in anyway in the meantime, our gates are always open. I look forward to seeing you on February 22.

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.

ULTRA BLACK BULLS

We started something new to help reach a wider customer base and target more breeders in the deep South. We purchased 468D42 from T3 Brangus, who originated from Salaco Valley Farms to start our Ultra Black program. We are offering his first registered bull crop, and they are nothing short of impressive. Study all 5 of these half-brothers to find consistency, growth and power. They will add that hybrid vigor to your operation, adding dollars to your bottom line.
