

DELANEY | ATKINS

bulls & breds
Annual sale

new date
saturday, february 15, 2025 @ 1 pm

Welcome

Welcome to our 15th Annual Sale!

As you may have noticed, this year we moved our sale back 21 days to give us a little breathing room between Denver and the start of calving. So now, on sale day (the third Saturday in February) we will be in the middle of calving with no place to put new pairs. That plan is clear as mud and sounds easier, right? I guess no sense in doing anything easy!

These Herefords do offer us one thing that comes easy though, and that is Heterosis. Heterosis is the power you get when you crossbreed your cows to a Hereford bull. That Hereford influence delivers free pounds, docility, feed efficiency and an overwhelming acceptance in the marketplace as feeders and replacements. With the high price of feeder cattle, now is the time to take advantage. It is just like the free lunch on sale day, so come hungry!

Our focus continues to be on breeding sound cattle with performance, muscle, pigment, eye appeal and acceptable birth weights. We demand fertility and superior production from our cows with an emphasis on udder quality. We think the bulls and females offered here represent the product we are striving to produce for our customers.

Most of the cattle selling have GE-EPDs. Genomic Enhanced EPDs provide the latest technology available to genetically test an animal and obtain the highest accuracy possible in their EPDs. We do this to give buyers a higher level of confidence that their bull or heifer will get the job done. EPDs are current at the time of catalog printing, and will be updated on all the cattle selling the week prior to the sale.

You will also notice many of the bulls are designated with \$CHB logos.  signifies that the bull is in the top 50% of the breed, and the  signifies animals in the top 25% of the breed for producing feeder cattle that will excel in the economically relevant traits of gain, feed efficiency and carcass merit when mated to Angus cows.

We understand that finding a place to house a new herd bull in February can be a challenge, so we are happy to keep any bull you purchase on feed until April 1, 2025 - free of charge. All the bulls will be semen tested and are fully guaranteed.

If you can't make the sale feel free to call one of us or the sales staff for assistance, or you can bid on LiveAuctions.TV the day of the sale.

Thank you to all our customers for your past purchases, friendship and the confidence you have shown in our program. We look forward to working with you in the future. (Lunch starts at Noon)

The Delaney & Atkins Families

directions to the sale barn -

From Lake Benton, MN - Take Hwy 75 north 4 miles, turn west onto County Hwy 13 for 5 miles. Turn north on County Road 101 for 1.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

From Ivanhoe, MN - Take Hwy 75 south 5 miles, turn west onto County Hwy 15 for 5 miles. Turn south on County Road 101 for 2.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

Just 20 minutes from Brookings, SD - Take Hwy 14 east toward Lake Benton 20 miles. Turn north on County Hwy 1 for 4 miles. Turn east onto County Hwy 13 for 2 miles. Turn north onto County Road 101 for 1.5 miles. Delaney Herefords Sale Barn is on the west side of the road.

Sale Info

terms - Terms of the sale are cash or check payable during or after the sale, before cattle will be released. Cattle will not be transferred until paid in full. Each animal will be at the buyer's risk immediately after the animal is sold. Delaney Herefords and/or Atkins Herefords will be retaining a 1/4 semen interest for in-herd use only on all bulls selling unless otherwise noted in foot notes or announced sale day.

guarantee - All bulls will be semen tested and examined to be sound and guaranteed breeders. If an animal fails to breed and is reported to seller by August 1, 2025, it may be returned to seller if in good condition and in compliance with Minnesota health regulations. Once the bull has been returned to the seller and confirmed that he is not a breeder, a replacement bull or credit on next year's sale will be offered.

health - All cattle will be sold in compliance with the health laws of the State of Minnesota. Health papers will be provided. All bulls have been tested and are free from any known genetic defects.

winter - For your convenience, you may winter purchased bulls at Delaney Herefords FREE OF CHARGE through April 1, 2025. After April 1, 2025 a yardage charge of \$3.50 per day will apply. We ask females be picked up as soon as possible following the sale. Heifers left will incur a \$400 calving charge, plus \$4/day yardage fee.

insurance - Animals left at Delaney Herefords will be at the buyer's risk immediately following the sale and we strongly recommend purchasing insurance. Contact Art Handel at (605) 391-8233 for your insurance needs.

transfers - Registration certificates will be transferred to the buyer at the seller's expense. Each buyer must be sure to give the clerk the proper name and address for making transfers.

delivery - Delaney Herefords/Atkins Herefords will pay half the cost of trucking on bull purchases that total more than \$5,000.

epds - EPDs listed in the catalog are current at time of catalog printing. Updated EPDs will be available sale day. All cattle have been tested for known genetic defects. Under each animal's EPDs, we have listed the animal's percentile ranking in the breed for that trait.

SCHB EPD in the top 50% of the breed.

SCHB EPD in the top 25% of the breed.

NOTE - All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

Bulls

We've got you covered!

Leave your new herd bull(s) here until April 1, 2025.

- FREE OF CHARGE -

Bulls will be kept on a TMR, high roughage ration to develop naturally to be ready for the breeding season.

All bulls will be semen tested and examined by our vet for breeding soundness by April 1st.

We'll have bulls in tip-top shape, ready for your cows come Spring!

Horned or Polled?

USING A HOMOZYGOUS POLLED BULL
100% of calves will be polled, regardless of cow horn genotype

It is safe to assume that long term straight bred Angus cows are homozygous polled. With that assumption, it leads to more opportunities to use heterozygous polled and even horned bulls.

Heterozygous or Homozygous?

USING A HETEROZYGOUS POLLED BULL
Mated to horned cows: 50% of calves will be horned 50% of calves are polled.

Mated to heterozygous polled cows: 25% of calves will be horned. 75% of calves will be polled.

Mated to homozygous polled cows: 100% of calves will be polled.

USING A HORNED BULL
Mated to horned cows: 100% of calves will be horned

Mated to heterozygous polled cows: 50% of calves will be horned, 50% of calves will be polled.

Mated to Homozygous polled cows: 100% of calves will be polled.

Homozygous Polled. Denver Pen Bull.

Sale Feature!

His picture is no joke. This bull has all the style and look you could ask for.

Athletic, big footed and correct in the angle of his front shoulder and knee and ideal hip and hind leg. He's dark red out of a perfect uddered 3 year old. She raised one of our high seller's last year as a first calf heifer that's working for Double Seven Ranch in Oklahoma and came back around with this stud on her second calf. 65M will be used heavily here, homozygous polled, dark red Benton sons that are calving ease with this amount of look and presence don't come around often. Not to mention he offers great figures with a big scrotal and a 181 CHB. 65M is the real deal.

Terms to be announced sale day.

Homozygous Polled.

Here is a big framed calving ease bull. He will surely sire cattle who come small at birth and have added growth at weaning. Check this guys EPD profile. He is in the top 5% of the breed in 10 traits! Including at 31.8 sustained cow fertility EPD and a 615 Baldy Maternal Index which each sit firmly in the top 1%. His daughters will be productive and long lasting!

Sale Highlight!

23M is one of our favorite bulls in the sale. He offers an outcross pedigree, huge goggle eyes, elite phenotype and excellent EPDs. This moderate framed bull is ultra deep and soggy and is ideal on his feet and legs. He will add tremendous value to most operations. Top 5% or better in 11 traits including top 1% in scrotal circumference. Jerry's favorite replacement heifer is a full sister to both Lots 12 and 13.

Homozygous Polled.

Sale Highlight. Herd bull

Here's a true beef bull, this guy is deep, stout and full of red meat. His combination of low birth and genuine performance doesn't come around often. He's loaded with pigment, homozygous polled and offers an outstanding EPD profile. His pedigree combines our immortal 45C and the popular 7098 cow. Top 1% of the breed in 5 traits including SCF, UDDR, TEAT and a BMI of 627!

Retaining 1/4 revenue sharing semen interest.

Denver Pen Bull. Homozygous Polled.

This bull starts a string of full brothers that represent the most consistent flush of cattle we have had since the Standout, Benton and Prominent flush.

Dam, 71G, posts 3 @ 95 for BW and 3 @ 114 for WW. Three maternal brothers have averaged \$13,000 in this sale including Lots 1 and 2 on last year's sale. A full sister was one of our high sellers on our fall online sale and the other is a member of our Pen of 3 Heifers in Denver.

7M is an ultra complete, balanced type of bull that is sound footed and big bodied. He's dark red, fully pigmented and offers a progressive set of figures with 7 traits in the top 10% of the breed.

Retaining ¼ revenue sharing semen interest.

85M leads off a string of 3 full brothers that goes back to one of our favorite cow families. We have written this in a Lot of footnotes of his maternal brothers and sisters but it needs to be stated. This bulls Dam, Grand Dam and Great Grand Dam are all still in production. Fertility and longevity drive profit in the cattle business. Take the risk out of your next herd bull purchase and tie into one of these full brothers. 85M is the highest performing bull in the flush. 6 traits in the top 10% of the breed.

Sale Highlight!

Dark red and goggle eyed, one of the first sons of Arlo and out of the great 19Z who has produced herd bulls and donor dams for some of the top herds in the country.

Here is a herd bull prospect. Really deep and stout, he is a full brother to OLD FASHIONED who sold in Denver.

We are retaining a 1/4 revenue sharing semen interest, selling full possession.

Homozygous Polled, Denver Pen Bull.

This guy drew a lot of attention as a standout calf in the pasture all summer. One of the first sons of On Demand, his dam is the great producing 814F who is a daughter of 19Z. 814F raised a heifer calf in 2023 that was one of the top sellers in our fall 2023 sale going to GKB in Texas. A full sister to lot 40 topped our fall 2024 sale selling to Colby Decker and

Wiese and Sons.

This calf has outstanding balance and pattern to go along with a stout, square hip and great muscle down through his quarter. Here is a herd bull in the making.

We are retaining a ¼ revenue sharing semen interest, selling full possession.

FALL BULL.

As we move to fall calving at Atkins Herefords, we have our first fall bull to offer and we think he is a good one! One of the stoutest, heaviest muscled sons of Final Print you will find anywhere. Good footed, large testicles and pigmented with tons of performance. These two fall bulls were developed on grass this summer and come to you ready to breed.

His mother is a big bodied cow with an excellent udder that passes along a lot of performance. His grandmother raised one of the top selling heifer calves in our 2023 fall sale and has several sons in this sale. Study this herd bull prospect closely.

We are retaining a 1/4 revenue sharing semen interest, selling full possession.

FALL BULL.

Another fall son of Final Print, this one is a natural calf out of the 14C donor and should be a sleep all night, heifer safe bull. With just a 68 pound birth weight he still weaned off at over 700 pounds. His 205 day ratio seems low at 94 however we only had these two fall bulls so his only contemporary was lot 45. His mother has a lot of body and volume and still has a great udder at 9 years of age. Excellent set of EPD's with udder and Teat in the top 1% of the breed, you will want to keep his daughters.

GE EPD's will be available prior to the sale

Sale Feature!

We have gone back and forth about selling this bred heifer. She has the phenotypic quality and pedigree to be a cornerstone donor. Bred to our exciting new bull, Gold Print, who offers an outstanding set of EPDs. GE-EPDs available sale day.

Pasture Exposed to RST 0016 GoldPrint 3031 from 4-25 to 7-1. Vet called safe for an April 2nd calving date.

Homozygous Polled.
 Early udder development looks outstanding on this high performing Entice daughter. Dam has done a great job for us and breeds back on time every year. Carrying a heifer calf out of our new bull from 4B Herefords, Garfield. Calf will be Homozygous Polled by pedigree and is sure to be heavy pigmented.
 Pasture Exposed to 4B Garfield 338 from 5-19 to 8-1. Vet called safe for a March 14th calving date carrying a heifer calf.
